THE VIRGINIA REPUBLICAN.

Government Bonds and Who Own
Them.—Their Redemption.

New York, 28.—The Virginia Wash-
ington: Robert P. Porter, of Chicago,
special agent of the census, in con-
versation with a Tribune corres-
pondent, gives the full details as to
the ownership of the United States
bonds. In the absence of exact
figures, I should say that the New
England States own about 11 per
cent. of them, the Middle States
about 43, the Southern States
a trifle over 2, and the Western
States own nearly 83, while banks,
insurance companies and other
corporations own about 35. In New
York State, although the amount of
the registered bonds owned there is
nearly \$10,000,000 out of \$50,000,000
included in this, the State itself
owns less than 15,000 holders.

On the other hand Massachusetts,
with nearly 40,000 of the
bonds, has nearly 17,000 holders.

In my opinion the debt is owned
by less than 100,000 persons.
Over 32 per cent. are held by banks
and other corporations, and it is
probable that 1,500 persons own
over \$1,000,000 of these bonds. This
aggregate is held in amounts ex-
ceeding \$50,000. It must be remem-
bered that many banks hold consid-
erable in small amounts in trust for
people, therefore the 100,000 do not
fairly represent the bon holders of
the country. I have just returned
from New York, and have made ar-
rangements which I think will
prove successful. Of the \$10,718,000
coupon bonds outstanding last
August, probably the coupons of
\$100,000,000 were returned for pay-
ment to the sub-treasury in New
York and twenty of the leading
banking firms presented not less
than three-fifths of them. With this
office having ascertained the exact
amount of the different species of
bonds presented by these firms, we
shall by their operations be able to
ascertain the respective amounts
forwarded to them from their cor-
respondents abroad, the amount of
domestic holders, and also in some
cases how distributed in part and
from our country. We can, how-
ever, in the event of failure to ac-
certain the home distribution, make
a calculation on the known distribu-
tion of registered bonds, and it is
not probable that the coupon bonds
were taken from the sub-treasury
largely, excepting that we may ex-
pect to find 100 to 150 per cent. more
proportionately in the larger cities of
the country.

Times' Washington: The amount
of money that will be payable on ac-
count of the public debt on July 1st
will exceed \$50,000,000. Under
Washington's plan of consolidating
cent. bonds into bonds bearing inter-
est at the rate of 33 per cent. per
annum, \$10,000,000 of that class of
bonds were not presented for con-
version, and they will be paid and
called for on presentation on and
after July 1st, together with the ac-
crued interest, which is \$500,000.
Quarterly interest on the 3 per cent.
bonds, amounting to about \$750,000,
and semi-annual interest on Pacific
Railroad bonds, amounting to about
\$2,000,000, will also be paid on July
1st, in addition to the sum above
named, about \$500,000 will be dis-
bursed during the first days of the
coming month on account of con-
solidation of the 5 per cent. bonds.
Principal and interest thus swelling
the aggregate amount that will be
comparable July 1st on account of
the public debt to over \$50,000,000.
Washington's plan of consolidating
interest in the 4 per cent. bonds, but
this has been abandoned. Checks
for registered interest on these
bonds will be mailed by Treasury
officials on Thursday. Of the bonds
called for redemption since '71, there
are still outstanding \$40,000,000.
This amount consists of 5 per cent.
bonds, about \$35,000,000 of 10
per cent. bonds, and \$5 per cent.
of the 5 per cent. funded \$40,000,000
called for redemption on May 21st, nearly
\$5,000,000 are still outstanding. Sev-
eral large aggregations of \$500,000
no longer bear interest, and may
be presented for payment at any
time, funds to pay them being con-
stantly held in the treasury. The
outstanding bonded debt upon
which interest has ceased, and
which is payable upon presentation,
amounts to about \$11,500,000.

Independent Democrat.

Times' Washington: Persons who
have lately visited Georgia regret
that the democrats there manifest
considerable uneasiness over the
progress being made in that State by
the independent or liberal move-
ment. This movement is aimed
against the Bourbon element, in
which Ben. Hill is a prominent fig-
ure, and is led by Alexander H.
Stephens, Samuel Speer, D. C. Pen-
ton and other progressive men.

Mining News.

Evening Post: A considerable
amount of American mining machin-
ery is on its way to Mexico to de-
velop mines of that country. In con-
sequence of the great difficulty of
mines from the railroads, the ex-
pense of transportation has been
found to be in many cases, greater
than that of the machinery itself.

A correspondent at Helena, M.
T., advises us of the sale of a mine
near that city to a French company
for \$1,200,000 cash. A number of
claims in the vicinity are owned
in New York, but very few are pro-
fitable except for purposes of specu-
lation.

The Body Robbery.

The Star continuation of the
Stewart's body story, to day, tells
of Mike Kelly, the missing work-
man, traced to California, working
as a butcher in a Sutter Street
meat store, San Francisco, under the
name of James, now employed as a
camp watchman at Tucson, Arizona.

The interview with Judge Hilton,
his view of the robbery, and his be-
lief of Kelly's guilt.

CABLEGRAMS TO THE NEW
YORK PRESS.

Billiard Match in Paris.

New York, 28.—The Herald's
Paris special says: The 500-franc
match at Clichy-la-Vieille between
the two champions, Billiard and
Blossom, was commenced yesterday
afternoon in the Cirque de Paris.
Judging from the frequency of
applause which greeted the play of
the new game promised to surpass
all others in interest, although it
did not favor it, by a 4 to 2 table.

The afternoon play commenced at half
past two and ended at half past
five. The play was a most interest-
ing and exciting one, and the crowd
of spectators was very large. The
game was played on a 4 by 2 table.
