STEAMSHIP

CONSOLIDATION

Morgan's Scheme Concentrates . Agencies, Abolishes Competition,

FRANCIS C. BROWN AS AGENT

Circulars Are Out Aunouncing Mis Appointment to Look After the Western Interests.

Following the example set by the rail roads when they consolidated some time ago, now come the steamship companies that were recently pooled by J. Pierpont Morgan. With the advent of the shipping combine the consolidation of the various agencies of the companies involved is the sequel. This move is being made in the interest of economy, entailing as it does the employment of fewer men together with the curtailing of competition.

From circulars received in this city it is learned that the American, Red Star, Atlantic Transport and the White Star lines one and all will be represented after tomorrow by Francis C. Brown in Chicago who will be the western parsenger agent, with jurisdiction extend-Ing over every agency west of Chicago. Mr. Brown held a similar position with the International Mercantile Mar-

ine Co., which absorbed the Interna-tional Navigation Co., and in turn the American and the Hed Star lines. Just what becomes of John T. Sickel. general western agent for the Atlantia fransport line, and S. Tenney, who held i similar position for the White Star

line at Chicago, deponent sayeth not. OUTLOOK FOR SHEEP.

Situation in Idaho Causes a Demand For Shipments of Hay.

D. J. Lindsay, traveling freight agent for the Chicago & Northwestern, re-turned this morning from a trip to Ida Among other things he reports that the heaviest losses on account of the bad weather will occur between Pocatello and Glenn's Ferry just as soon as the thaw sets in. The sheep, he says, are decidedly weak through the short-ness of feed and the continued cold weather. As soon as the mud comes the flockmasters look, in consequence, for heavier losses than occurred during the recent heavy storms. He also reports that hay is exceptionally short with the exception of Idaho Falls, Blackfoot and Shelley, from where the Oregon Short Line is shipping considerable. Early in the winter hay was sold for \$3 a ton, but the demand has caused it to raise to \$4 and \$5, while even some farmers are holding on in the expectation of getting \$6 from the stock men.

A ENJOYABLE EVENING. Last Night's Entertainment at the Tabernacle Much Appreciated.

The concert, or more properly speaking the panoramic entertainment, given in the Tabernacle last night, was much enjoyed by those present, as it gave them an idea of what may be expected on the proposed trip to the coast and opened the eyes of the uninitiated to the beauties of the Golden Gate state.

The stereopticon views illustrating the cipal points of interest in that section, were interspersed with musical numbers, the choir rendering several choruses in its best style. A number much appreciated was the singing of "The Holy City," with accompanying pictures, the chorus being behind the curtain during instendition. The attendance was fair. A Guaranteed Cure for Piles

Itching, Blind, Bleeding and Protruding Piles Necure, no pay. All draggists are authorized by the manufacturers of Piles Outment to reby the manufacturers of Face ontinenes to re-fund the money where it fails to erre any case of plies no matter of how long standing. CROCKETT, Dairyman Agricultural College, Logan, Utah, Feb. 26, 1903.

FEBRUARY WAS COLD.

Month Breaks All Records So Far as Temperature is Concerned.

This has been the coldest February in record. The mean temperature was 20 degrees above zero, the coldest since 1883, when the month's mean was 24 degrees. There were two Februaries when the mean record went as high as 40 degrees, and they were 1879 and 1886. Last ear's February mean was 39 degrees There has not been a day this month when the temperature was above the when the temperature was above the normal of 33 degrees, but there was one day, the 10th inst., when the normal was barely reached. The highest tem-perature during the month was 42 on the 10th, and the lowest was 4 degrees below zero on the 14th. The total precipitation was .82 of an inch, the norma being 1.28 inch, the dryest February since 1898, when the precipitation was .38 of an inch. This is the last day of the winter months, and tomorrow wil be the first day of spring months. Fair and pleasant weather is predicted for the ensuing 36 hours.

TO PENSION TEACHERS.

Pedagogues Discuss Bill and Recommend Some Changes.

A meeting of teachers was held in the High school assembly room yesterday afternoon for the purpose of discussing Mr. Done's bill creating a pension fund for aged teachers. It was decided to appoint a representative from each schools and from the board of supervisors to draw up a charter for the organization provided for in the bill. The appointments will be announced some time before or not later than March 5, and the committee is to reoprt not later than May 1. A number of changes to the bill were

recommended, one being to have two members of the board of education on the board of directors instead of four and increasing the number of teachers on the board from four to six; also the on the board from four to six, also the substitution of the word "member" for "teacher" at the end of section 6; changing section 7 to read "and other sources," instead of "and from bequests, legacies and donations.

A committee was appointed to present the recommendations to the Legislature. The committee consists of the on organization and mother-in-law, was concluded today,

Herbert of the Colorado & Southern railroad today announced that after noon next Sunday none of the striking shopmon will be reinstated. He said the places of the strikers are being rapidly filled. Workmen today began the construction of a seven-foot solid wall which is to completely encircle the Colorado & Southern machine shins. The company has put dining cirs in the shops and guards are on duty equal in number to the force of pickets main-

tained by the strikers. The Denver Machinery Manufacturing association, composed of 20 leading firms, today notified the American Lais the final payment received by the estate for the sale of mining property. hor union that it considered the boycott against the Vulcan Iron Works com pany, which does work for the Colorado Southern railroad, to be unfair, and ft would take action concerning it at its next meeting.

WABASH MEN HERT.

Asst. Gen. Passenger Ag't Tristram Talks on Gould System.

Assistant General Passenger Agent Fred H. Tristram of the Wabash sys tem at Pittsburg, and Phil. P. Hitchcock, general agent of the passenger department of the Wabash at Denver are guests at the Knutsford, en route east, to their homes from attendance on a coast railroad meeting. Mr. Tristram has been also looking over the country from Seattle south to Los Angeles, and he leaves the coast much impressed with the growing importance of that section of the Union. Mr. Tristram expressed himself as very favor ably impressed with Salt Lake and ad joining territory, and said that this is the making of a great country. He re-marked that the far west and the far east are now more strongly interested in each other than ever, in that the great Wabash system has now direct connections between Salt Lake City, St Louis, Chleago, Pitisburg and shortly by the acquisition of a Maryland line, and the construction of a short con-necting link, Salt Lake City will have another direct outlet to the Atlantic coast. While Mr. Tristram could not, of course, speak officially, still he was confident that the management of the Gould system, with the immediate Atlantic ocean terminus, would not be content to make no further progress west to the Pacific coast than 'Fait Lake, and that it would be reasonable to expect developments leading to the perfecting of a through line from the Atlantic to the Pacific oceans by the Gould system.

Pennsylvania Mileage.

The Pennsylvania management has just made the report on its inileage operated the past year. It is shown that the lines now total 10,588 miles, including eastern and western divisions. This is an increase of 75 miles during 1902. In the system east of Pittsburg there are 5.812 miles; west of Pitts-burgh, 7.444 miles. If the second, third and fourth tracks are computed, the length of the system's trackage is i 721 miles. The system now has 2,316 miles of double track, 516 miles of third track and 1014 miles of fourth track. This is aside from 5,916 miles of sidings Of the fourth track, 253 miles are on the Pennsylvania - railroad division, tween Pittsburg and Philadelphia, so miles of main line U. R. A. of N. J. division, making in all 339 miles of fourtrack railroad between Pittsburg and New York, and 44 miles on the lines west of Pittsburg.

SPIKE AND RAIL.

Fred H. Triestram, assistant general passenger agent of the Wabash at Plus-burg, is in Salt Lake today.

Quite a number of minor changes on the Rio Grande and Oregon Short Line go into effect tomorrow.

The Eiking' bill bids fair to upset some of the plans now under way and the local railroad apple cart generally.

DENVER'S LONE HIGHWAYMAN

Policeman Ritchie Indentifies Garfield Snyder as the Man.

Denver, Colo., Feb. 28 .- Policeman John Ritchie, who was shot and badly wounded by the "lone highwayman" while the latter was in the act of holding up a saloon Tuesday night last one of many robberies evidently committed by the same person during the past several months, has positively identified Garfield Snyder, a Denver youth, as his assailant. The police have arrested two others on the belle that they have at different times assisted Snyder by watching outside while he alone entered saloons and other places and robbed them.

TYPHOID AT ITHACA.

printing of the special edition of the congressional directory "for the use of Health Board Does Not Say it is Safe the special session" of the senate, should For Students to Return.

Ithaca, N. Y., Feb. 28 .- The Ithaca board of health refuses to assume responsibility for the statement recently made to the effect that it was safe for students of Cornell to return to Ithaca, and has passed resolutions declaring that it deems the condition of Ithaca city water such that it is absolutely essential for residents to secure such board and lodging as will guarantee that no unboiled water from that source shall enter the stomach, and that it looks upon the chance of secondary in-

fooks upon the chance of secondary in-fection from the numerous cases of ty-phoid fever now in the city as a new and serious source of danger. President Schurman said: "The atti-

tude of the university was the same the of the university was the same naw as it has been throughout the epi-demic, namely, that students who re-main in Ithaca or who now return, do so entirely with their own responsibil-ity, but that absent students would be given the greatest consideration in given the greatest consideration in making up for work lost."

Pope in His Usual Health.

The fortifications appropriation bill was then taken up and Mr. Perkins, in charge of the measure, yielded to Mr. Rome, Feb. 28.-The pope rose at his usual hour this morning, declaring that the precautions he had taken had benthe precautions he had general health. Among his first acts was the signing of the promotion of his nephew, Count Campille Pecci, to be brigadier-general of the Noble Guard. The pontiff insists on carrying out his program for holding a reception of the

Netherlands Protocol Signed.

Washington, Feb. 28.-Baron Gevers the minister of the Netherlands, and Minister Bowen have signed the Neth-erlands protocol providing for the set-tlement of the claim of that country against Venezuela. It is provided that President Roosevelt shall name the um-pire in the event of a disagreement. The protocol follows the lines of that of the United States. Bowen writes, among other things: "My position as Venezuelan plenipo-

social dance to be given at Odd Fellom Hall Tuesday evening, March 3rd, st 8 o'clock. By Order of the Committee, PROBATE AND GUARDIANSHIP NOTICES.
