# FIFTY-SECOND YEAR

Is Republican Day in Salt Lake

Five Hundred and Fifty-Two Delegates Assemble to Name County and Legislative Tickets-Large and Enthusiastic Convention of Party Workers in the Theater-Begin a Two Days' Session-A Confident Gathering.

## RESOLUTIONS UNANIMOUSLY ADOPTED IN THE RE-PUBLICAN CONVENTION THIS AFTERNOON.

We, the Republicans of Salt Lake county, by their representatives in county convention assembled, hereby reaffirm our adherence to the great principles of our martyred presidents-Lincoln, Garfield and Me-

We approve the declaration of principles adopted by the Republican convention at Ogden, September the 11th, and declare our fidelity to the Republican national platform of 1900.

We unqualifiedly endorse the administration of President Theodore Roosevelt, whose wise and patriotic acts have elevated, extended and assured the perpetuation of the influence of the great American nation, and we especially endorse his efficient efforts in securing the cooperation of Congress in tiding the great cause of irrigation and giving his personal assistance to the opening up of the Uintah reservation

Furthermore, we endorse the efficient work of the several Repubto settlers lean county officials and especially the able efforts of the commissioners in paying the furniture indebtedness of \$39,000, left them as a legacy, have reduced taxation on county property one-half mill and have raised the wages of the workmen of the county.

Resolved, that we demand that the legislature of this state enact such proper railroad laws as may be necessary to protect the people against excessive passenger rates and freight tariffs; and to provide against unjust discrimination between different points.

As labor is generally employed and times prosperous we congratulate our state, as well as our national administration for these auspicous conditions.

With a greater number of delegates than comprised the membership of either of the big state conventions just held, the Republicans of Salt Lake wunty assembled in the Tehater today to nominate their tickets-county and legislative-which will be pitted against the nominees of the Democratic party to be put in the field one week from today in Christensen's hall. There is a vast amount of work before the convention and it is evident that it intends to take all the time it wants, as the Theater has been engaged for two days. The day has been an ideal one and the attendance is heavy, while the interest is of the high pitch order. Intensity of thought and action, with confidence reaching par and running over into the premium column, were characteristics of the gathering. Another feature that the delegates were not slow to observe was the democratic simplicity that obtained in the matter of decorations. In fact, it may be said that there were no decorations at The only possible effort in this direction was the placing upon the stage of the pictures of President Roosevelt and the late lamented President Mc-Kinley, with an American flag upon the chairman's dais. Nowhere was there the slightest evidence of campaign emblems or mottoes. It was fifty minutes after call time -10 a. m.-when the convention was rapped to order. The time prior to that had been spent largely in caucusing in small groups both within and without the building. The large difference of opinion that divided the delegates during the early morning hours was the order of business. There was a strong contingent that wanted the full county ticket named in advance of the legislative, which it desired should p over until tomorrow, and there was a very influential majority that said It must not be; that the reverse condition must obtain. Of course, not much weld be done about the matter then, and it went over until this afternoon, to whreshed out before the committee to whom it had been referred. Meanwhile Held's band was discoursing stirring music from the footlights in fratef which in the auditorium sat the delegates from Salt Lake City, while these from the county occupied seats upon the stage at the rear. The specific parpase of the convention was to name a full county ticket and two candithe for the state senate and ten nominees for the house of representatives. The morning session was brief and businesslike, and when the recess was then it was until 2 o'clock this afternoon.

We amazed the world by this declara-tion. It was without precedent and all christendom has been watching to see if we would keep our promise. The problems growing out of the way

with Spain were grave and without precedent. We had no past experience by which our feet might be guided. Many have been solved. Cuba is a re public, to Porto Rico we have given territorial form of government and put sunshine in her homes. Others await our solution. We will solve them with brave hearts and in an honorable way; having set our hands to a great task we will not cravenly leave it unperformed To aid in the solution of the problems growing out of our possession of the Philippines, we will elect a Republican to the United States senate from Utah in January, to take the place of the man whose only claims to service for his country is that for three days he stood in the senate, as he says, "in blood and carnage," fighting against the flag, against Utah's volunteers.no-

To the colored race I want to say: Be patient yet a little while. Your great Boker T. Washiongton is working out your problem. You have always been true to the Republican party. Your heroic charge up San Juan Hill will never be forgotten by a grateful country. The greatest message President Mo Kinley ever gave the nation was his speech at Buffalo on the 5th of last September in which he eulogized the great Blain and mared out the lines for our future development. Then we little dreamed that fate could be so merciless. little that anarchy could have no sense pity. In the shadow of that awful tragedy, Theodore Roosevelt took the

oath of office as president of the United States. With his characteristic frankness and that a grief-stricken country might be relieved of anxiety as to his future policy, he gave out this reassur-ing message: "In this hour of our terrible bereavement, I wish to state that it shall be my aim to continue absolutely the policy of President Mc-Kinley for the peace, prosperity and harmony of our beloved country." How well he has kept that promise every Our president, with that dauntless courage characteristic of the man, has ordered a charge against the trusts not for the purpose of destroying their business, but, as he says "to muzzle their greed." Already the Northwest-ern Security company and the beef quarrel between King Leopold and his toust have felt his thrusts; it is to the death and the hero of San Juan Hill has never lost a battle nor sour a retreat.
