Reports regarding the cross vein recently struck by the Gibraltar Mines syndicate continue of a favorable na-ture. J. H. Shockley, vice president and consulting engineer of the com-pany states that the ledge is entirely have and a cross cut at one point shows a width of fully 20 feet. The vein matter consists of altered rhyolite and will average fully \$25, the entire width. The ore in places is said to be rich in The ore in places is said to be rich in gold and an assay would undoubtedly show large values. The find is regard-ed as of considerable importance, dem-onstrating as it does that ore bolles are not confined to any one section, but are scattered throughout the en-tire Bullfrog district.

Continental Mines & Smelting Corpor-

Beck Tunnel, the Uncle Sam and the Yankee Con, are all in good shape and doing well. The Beck Tunnel expect to pay a three cent good shape and doing well. The Beck Tunnel expect to pay a three cent dividend this month, which will be an increase of half a cent over that of last month. All the mines have clubbed together, and are engaged in improving the coads, and they certainly needed it. The average profit on a car of May Day ore is said to be from \$200 to \$700, and from my own obser-vation I am prepared to believe it." May Day will be paying dividend within the next few weeks.

No Change in Price of Stock as Result

It is now announced that new ma-chinery will be purchased at once and installed as a result of the recent fire in the Yankee Con. mine. While the company was practically fully insured a fair sized loss connot help but re-sult and little if any development work suit and little if any development work will be done for some time to come. The company has no power under present conditions and the bad condi-tion of the roads in the vicinity of the mine renders the shipping of ore very difficult. The company has a large ore reserve, however, and this will be drawn on just as soon as the roads permit. The fire had no effect on the price of the stock.

ORE SHIPMENTS.

Output as Shown by Figures Large And Steadily Increasing.

The ore shipments over the Tonopah The ore shipments over the Tonopah Railroad for the week ending Thurs-day night as reported by the Western Ore Purchasing company, aggregated 3.156 tons, divided as follows: From Tonopah—Tonopah company, 1.600 tons; Tonopah Extension company, 550 tons; Belmont, 400 tons; Montana-Tonopah, 58 tons; Midway, 148 tons; West End, 54 tons; Jim Butler, 46 tons. From Goldfield, 300 tons.

Every Confidence in District. J. A. Bush, mining engineer of Hiko, is at present registered at the Cul-len. Mr. Bush has any amount of con-fidence in Nevada as a whole and Hiko and Vientin to constructed. and vicinity in particular. Some ex-cellent values have been obtained and there seems to be little doubt of the ultimate future of the district from a mining standpoint.

HEINZE STILL ABSENT.

Expected to Arrive This Morning But Has Not Yet Materialized.

In spite of the eagerness with which he is awaited, F. Augustus Heinze contin-ues to absent himself from Salt Lake City. In a message received late yesterday evening he was supposed to have reserved Pullman accommodations from Butte, and as a result every preparation was made for his reception here this morning. As matters stand at present, just when he may be definitely looked for is as much a matter of con-jecture as ever, although the delay ap-parently does little toward diminishing the interest of the local mining world in his movements.

BOSTON COPPER LETTER

still in Salt Lake, but expects to leave The Pioneer sampler acknowledges receipt of five cars of ore from Nevada, two form Alta and two from Tintic. The Taylor-Brunton Ore Sampler Co. reports receipts of five cars from Tin-ic, two from Bingham,one from Stockon and 11 from Nevada.

The Boston News Bureau refers to the output of the Mammoth mine as nothing short of marvelous. The company's earnings are said to amount to \$130,000 to \$150,000 per month, part-ly due of course to 18½ cent copper. 1,250,000 tons of ore are said to be ac-tually in sight. tually in sight.

J. F. Mitcheli of Goldfield and asso-ciates sold outright the Captain Sam, Kentucky and Arkansas claims, which adjoin the Plue Nut. Dexter and Consolidated, for \$200,000. The deal was closed in Goldefild yesterday afternoon, and establishes a high-water mark for cash transactions in Manhattan mining properties.

The Daly Judge Mining company of The Daly Judge Mining company of Park City, Utah, according to good au-thority, is earning about \$35,000 monthly net, and is retiring the bonds as rapidly as possible. It is expected these will all be taken up by the last of July, and that the company will then be out of debt. It ought to be ready to begin the payment of divi-dends some time before the end of the year at the rate of 13 cents a share per month.--Tonopan Miner. month .- Tonopah Miner,

A strike is announced on the property of the National Bank Mining company of Goldheld of remarkable richness. The entire camp is said to share in the excitement and congratulations and messages of good will are pouring in on the company from all sources. A number of Sait Lake people are said to have holdings in the company, but the control is understood to be vested in what is known in Goldfield as ti Patrick crowd. While little of a den-nite nature can be said at this time, it is safe to assume that a considerable addition has been made to the value of the company's property. the company's property.

JOHN R. HEGEMAN, President.

The Metropolitan gained in insurance in force on which premiums are still being paid MORE THAN ANY OTHER COMPANY IN THE WORLD.

The Metropolitan wrote more business in the Industrial Department in 1905 than ever before in any one year.

The Metropolitan wrote more business in the Ordinary Department in 1905 than ever before in any one year.

The Metropolitan wrote more business in 1905 than any other Company in the world. And this for the 12th consecutive year.

The Metropolitan has more premium paying business in force in the United States than any other company.

The Metropolitan has in force one-third of all the legal reserve pol icies in force in the United States. Its Industrial policies in force equal in number all the Industrial policies of all the other companies in the United States.

THE RATIO OF EXPENSE TO PREMIUM INCOME IN 1906 WAS THE LOWEST IN THE COMPANY'S HISTORY.

Paid Policy-holders in 1905 for death Claims, Endowments, Paid-up Policies, Dividends, etc., with amount set aside on their behalf as in creased reserve-

\$37,755,428.59

Paid Policy-holders since the organization of the Company, plus the amount invested and now on hand for their security-

\$318,264,084.12

This company issues no TONTINE or other forms of deferred dividend policies, in which the amount to be paid to the insured must largely be a matter of ESTIMATE at the inception of the contract, and of DISAPPOINTMENT at its majurity.

Its policies are plain business contracts which tell their whole story on their face; leave nothing to the imagination; borrow nothing from hope: require definite conditions; and make definite promises in dollars and cents.

Is not the fact that, notwith standing the agitation in life insurance. the Metropolitan wrote more insurance in its Ordinary Department in 1905 than it ever wrote in any preceding year, proof that GUARAN-TEED BENEFITS for a fixed premium are what people want?

In its Industrial Department policies no obligation to pay dividends is either expressed or implied, the premiums being at stock rates, without the "loading" designed for dividends; nevertheless the Company for years past, as a pure act of grace, has returned a part of its surplus, annually, to the holders of its policies. The total amount so paid, in cluding the amount set aside for 1906, is

When Heartburn, Sour Stomach, Headache, Bad Breath, Coated Tongue, Belching of Stomach Gas, or any of these forerunners of Indigestion appear, Old Dr. Cascaret wants to be right on the spot in your pocket.

He wants to check the coming trouble instantly before it can grow into a habit of the Bowels to be costive.

Ladies, who extend to Dr. Cascaret the hospitality of their Purses or their Dress Pockets, will be rewarded with a fine complexion, and healthy Happiness.

These will about fifty times repay for the trifling space occupied, and the ten cents per week at cost.

* * *

Dr. Cascaret guarantees to cure the most obstinate cases of Constipation and Indigestion, without discomfort or inconvenience.

His medicine does not gripe nor purge, nor create a drug habit.

Because it is not a "Bile-driver," nor Gastric-Juice Waster, but a direct Tonic to the Bowel Muscles,

It exercises naturally the muscles that line the walls of the intestines and Boweis.

Want of Exercise weakens and relaxes these Bowel-Muscles, just as it weakens Arm and Leg muscles.

Old Dr. Cascaret goes directly after these Bowel-Muscles, He wakes them up just as a cold bath would wake

up a lazy person.
