THERMOMETER 31 degrees F. in the shade, at 1 p.m. to-day. Snowy, winterly.

THEATRE.—This evening, for the first time, the thrilling drama of "The Hermit of the Cave," by Capt. John Martin, of this city. We hear this play well spoken of, and the theatre-goers may expect a treat, those who brave the unpropitious weather to reach the temple of the drama. Miss Walters will personate "Alicia," Miss Kent "Sally," Miss Simons "Pesky," Mrs. Bird "Lady D'Egremont," Mr. Cogswell "Julian," Mr. Thorne "Gaston," Mr. Graham "Toby Trickster," Mr. Dudley "De Lorme," Mr. Forster "Sir Lionel," Mr. Thompson "Ashton," Mr. Madden "Lake," and Mr. Wilton "First Gendarme," etc.

Mr. Harris' benefit to-morrow night.

OPEN.—Notwithstanding the heavy snows the Utah Southern Railroad is open, a large force of men being stationed a short distance north of the Point of the Mountain, for the purpose of keeping the track clear.

MESSAGES at Deseret Telegraph Office for W. F. Belling, Ben Carman, and Mrs. J. M. Brown.

POETRY.—We have received from Mrs. A. R. some obituary verses, which, although containing evidence of considerable poetic merit, are scarcely suitable for publication in the NEWS, not being of sufficient general interest.

MR. HARRIS.—Mr. William T. Harris' benefit will come off to-morrow night. We trust he will be remembered kindly by the theatre going portion of the public. He has provided a very excellent bill, the entertainment opening with the splendid Irish comedy, "Kathleen Mavourneen," to be followed by an olio performance and to include with a gem of a farce.

Per Deseret Telegraph.

ALTA, LITTLE COTTONWOOD, 13.—It has been snowing all night and still continues. The snow is about twelve feet deep. The road is blocked again. An attempt will be made to open it to-day.

RECEIVED.—"The United States Dispatch," published by Cook, Coburn, & Co., Chicago. A useful work to literary men and those engaged in the advertizing business.

"Bassey's Musical Cabinet," No. 82, containing twelve European National Anthems and Songs, arranged for the Pianoforte by Ferdinand Beyer.

The "Manufacturer and Builder," The "American Agriculturist," "Little's Living Age," "Appleton's Journal," and the National Bee Journal," all excellent periodicals in their several specialities.

Can be obtained at Dwyer's or Campbell and Patterson's.

HANDSOME.—The other day Professor C. J. Thomas received a note, signed by all the members of the theatrical orchestra and tendering him the gratuitous services of that body of musicians on the occasion of his benefit. It was a pleasant surprise to the Professor and he expressed his thanks to the donors, stating that his great pleasure did not proceed so much from gratification at the merely financial benefit arising from the gift, but rather on account of the feeling of friendship which prompted the generous act, and he assured the gentlemen of the orchestra that such good feelings were mutual.

BURGLARS.—Within the last few weeks three attempts have been made by parties to enter burglariously the first house west of the Deseret Museum and Menagerie, Sath Temple Street. Mr. W. H. Harris resides at that house and he happened to be at home before his usual hour last night. A lady who was in the upper part of the house last night called to Mr. Harris, telling him that some one had entered the building, and she also called to two men who were passing along the street at the time, and who, when summoned, came towards the house. Mr. Harris went outside, but was not in time to see the would-be burglars. The two men alluded to, however, saw them, two in number, come out of the basement door and run down the lot in a southerly direction. It is not very safe to visit premises in that clandestine manner. People have a wide scope for action in defending their property from burglars.

THE TOWNSEND HOUSE.—"Lancaster" writes from Salt Lake to the Omaha *Herald*, and in the course of his letter has the following—

Before closing the personals I must not forget Mr. D. P. Burnham, who was connected with the Cozzens House at Omaha for several years. Mr. Burnham is now associated with Mr. C. C. Cuningham as managers of the Townsend House in this city. Mr. Burnham has charge of the office, while Mr. Cuningham devotes his time to the dining room. These young gentlemen are determined to make the Townsend the best hotel in the West, and they succeed admirably. The house is newly renovated and furnished, while the table is as good as the most facetious epicure could desire. The chief attraction is the cleanliness of everything. Mr. Burnham sustains the popularity which he so justly won in Omaha, and none could wish to meet a more courteous and obliging gentleman. This notice is one to the traveling public, for when one discovers a hotel like this, it is well to "pass it around." Many friends of Mr. Burnham in Omaha will be pleased to hear of the success and prosperity of one of their old friends.

CHARGED WITH FORGERY.—A young man, named Stephen H. Goodhan, was arrested yesterday on a charge of forgery, and there, by defrauding the Emma Silver Mining Co. The complaint is signed by Charles Smith, book-keeper of the company, and alleges that Goodhan forged three orders on the Emma Company, purporting to have been made by Mr. Silas Williams, Superintendent of the mine. The first order for $58, was dated August 21st, 1872, payable to W. L. Stues or bearer, the second, was for $42, payable to W. L. Stuart or bearer, and the third, August 23d, 1872, for $60, payable to W. S. Whiles or bearer. The case was set for hearing, before Justice Clinton, at two o'clock to-day.

FINED.—A colored woman was fined $10 to-day, for prostitution. The fine was paid.

DOGS.—Dogs are becoming very numerous here, in fact if the increase be not retarded by some means Salt Lake will bid fair to become a second Constantinople in the matter of dogs. They pop out of gates and dash from under fences and howl and snarl and howl and bark and sometimes even bite. When they rush out at a person, though they do not bite, it generally causes an uncomfortable sensation in the region of the pedal extremities to have a cur snapping at one's heels. There has been a dispute in Justice Clinton's court for two days, all about a small dog, and the case is not settled yet. The party on one side is Butterwood, the second champion "swearist," and a small boy, both claiming ownership of the small dog. The matter will have another hearing to-morrow, and all w'out a small dog. Now if that dog business is not soon settled it is feared that there will be another petition from a number of legal gentlemen to President Grant and Congress, calling for a commission or an army to come out here and see that that small boy does not gain that case about the small dog to the detriment of Butterwood, who is a favorite in some quarters. Let us have an army or a commission of some sort, that this matter may be settled justly and according to Butterwood.

BLOCKADED.—We hear from Mr. C. Nibley that the Utah Northern is blockaded again.

Our Picture.

[From the *Monitor*, a manuscript paper published monthly under the auspices of the 15th Ward Sunday School.]

Methinks the hand of angel traces
The picture which our window graces;
Designed so perfect and so fair,
No power of chance could paint it there.

'Twas Christmas morn, two years ago,
Our eyes beheld, with morn's first glow,
The picture, lovely, perfect, plain,
In frost work on the window pane.

A broken wall, with drawbridge thrown
Across a moat with briers o'ergrown;
Within is desolation wild,
A castle in sad ruins piled;

While rising o'er the ruins high,
A cross was pointing to the sky;
And o'er the cross, mid-way in air,
A wreath of flowers surpassing fair.

Oh! emblem of our earthly way,
Upon my heart long will it stay;
The moat I view as time's swift tide,
The bridge the years o'er which we glide.

The castle of our faded dreams,
A perfect emblem truly seems;
While Faith's the cross which points above,
Guiding us on to Heaven, and love.

We gazed in silence, till at once
We both exclaimed as in response,
"Our lesson, on Christ's natal day;
A lesson sent to cheer our way.

"Help us our Father's will to learn,
Help us the crown of life to earn,
The cross to bear—His will be done;
Guide us we pray till heaven is won.

HOPE.

IMPROVEMENTS.—The recent internal improvements made in the Eagle Emporium building add much to the elegance of its appearance. Over the archway intervening between the front store and silk room the initials of the owner of the building, W. J., are curiously and artistically intertwined in stucco.

Further and very extensive improvements are in contemplation, it being proposed to lay iron tramways on all the floors of the building in which the wholesale business is carried on, for the easy transmission of goods from one part to another, and, for this object, it is also under consideration to construct a number of elevators for the raising and lowering of goods and individuals between floors, which will be operated by steam power; also to run pipes through the buildings to heat the various compartments by means of steam. We understand that Mr. William Paul has been recently at work drafting plans, &c., for the tramways and elevators.

MONTHLY REPORT OF THE DEPARTMENT OF AGRICULTURE for January contains the "Comparative Numbers and Prices of Farm Stock" in the United States. The advance is, sheep one million, or nearly three per cent., exclusive of the Territories; horses, two per cent; cattle, nearly the same; mules, a slight increase. Prices of farm stock sustained better than those of other products of the farm, horses commanding improved prices generally, sheep higher than the previous year. The brochure has also considerable correspondence on the above subject, articles on "Russian Mineral Phosphates," "Grape Culture and Wine Making in El Paso del Norte," "Sugar Making in the French West Indies," "Systematic Crop Reports," "Agricultural Imports," "Entomological Record," "Chemical Memoranda," "Botanical Notes," "Facts from Various Sources," "Market Prices," etc.

Correspondence.

OMAHA, Cozzen's Hotel,
Feb. 7th, 1873.

Editor Deseret News:

Sir—I have been a constant reader of your valuable paper and my feelings, I must say, are in accordance with the sentiments generally expressed therein.

I am a great admirer of Brigham Young and think he has done much to ameliorate the conditions of his fellow man. He is to my mind the greatest pioneer of this the nineteenth century, and also the best abused man.

I have been lately a resident of Utah, having worked hard in the mines there, and eventually succeeded in making a sufficient raise to enable me to return and settle down in my native State, New York, whither I am now going.

I beg to enclose a few lines of poetry addressed to Brigham Young. I am Sir,

Yours obediently,
EPHRAIM BOLIVAN.

TO BRIGHAM YOUNG.

Brigham, the Pioneer of the West,
America is proud of you to-day;
Right gladly does she rank you with the best
She's had of sons who've bravely paved the way,
I mean the way to peace, as well as plenty,
Offered to all who choose to toil,
Giving good chance to nineteen out of twenty
Newcomers to this rich and fertile soil.
Has fame not said alike to one and all
Of Utah, that she is the richest land on earth,
A perfect mine of glittering mineral?
Foremost she leads the ranks of sterling worth;
Mammon, for which poor human kind is striving
Abundant is within this peaceful land.
You are the man who've aided us in thriving—
Brigham we offer you our thankful hand.
Of hardships you have had a larger share,
I think, than falls to lot of many a man.
Utah a sterile desert was and bare,
The time its dreary face you first did scan,
No matter, you a mighty work have done.
Columbia's sons united voices raise,
Greeting as one, the noble acts of one
Her sons can ne'er forget, ne'er cease to praise.

TO-DAY'S DISPATCHES.

EASTERN.

BOSTON, 13.—The jury in the case of Alley, charged with the murder of Ellis, rendered a verdict of "not guilty," and Alley was discharged.

NEW YORK, 13.—At West Farm, near Harlem, yesterday, a coroner's examination resulted in holding Eunis, on a charge of kicking his wife to death on Tuesday evening.

The inquiry of the coroner into the murder of Graham, at Little Neck, Long Island, resulted in causing the arrest of the half brothers of the deceased.

WASHINGTON, D. C., 13.—A special says the Spanish Minister says he does not think Spain will retrograde to despotism; and the change in the government will not affect the status of Cuba. He considers Amadeus honest and liberal.

At the State department it is doubted if success will follow in the case of Rivero, to be the first president, although his qualifications are conceded.

A special gives details of a story in circulation here to the effect that it has been discovered that the repeal at the last session of Congress of the tax on borrowed capital was secured by the expenditure of several thousand dollars.

The spinsters of Glasgow are preparing a petition for the enforcement of a Parliamentary act of the fifteenth century, which provides a penalty for any bachelor who should decline an offer of marriage from one of the fair sex.

EASTERN NOTES.

An Alabama woman has just gained her case in court by arguing it herself.

The Georgia papers are calling for the repeal of the usury laws of that State.

"None but farmers for legislators" is the motto of a strong rural organization in Iowa.

The prohibitory liquor law has had the effect of closing all but 2,768 bars in Boston.

A Missouri German undertook to fast forty days in the wilderness, but died on the twenty-seventh.

Two men in Brazil, Ind., lately signed a contract in blood never to taste liquor again.

At Scranton whisky is mildly averted to as "damp groceries."

A Maine paper reports a midnigh performance by cats as a Thomas concert.

School teachers in Plymouth, Mass., are allowed $2 a week for board, and paupers $2.35.

Miss Hunt is a clerk of the Kansas House of Representatives.

Will strong-minded women chatter about it, because women are condemned to crack stones on the Chattanooga highways?

A western editor's way of putting it is that Miss Anna Dickinson received for a single lecture the price of 3,000 glasses of lager.

After the great storm a man found over two hundred quails on a prairie in Delaware county, Iowa, which had frozen to death.

Truly, Newark is a moral place. No less than three elopements took place in one day. One detective of that delectable place has no less than a dozen warrants for elopists.

Those who have heard that Parepa Rosa climed up the pyramid of Cheops the other day are quite anxious to know how the pyramid stood it.

Professor Lee's statement that the French physicians of Louis Napoleon detected the presence of stone on July 1, 1870, but that their diagnosis was suppressed from political considerations, and the inference that if the truth had then been told war would not have been declared two days later, naturally recalls the saying of Bossuet that a grain of sand in Cromwell's tissues changed the destinies of the world—a remark that Voltaire paraphrased with regard to the government of Charles XII.

Special Notices.

INDIGESTIBLE BREAD.—The reason why those baking powders in the market adulterated with Alum, Chalk, Earth, and other substances make bread and biscuits very indigestible, is because they harden the gluten of the wheat and render it less soluble. Now this is not the case with Dr. Price's Cream Baking Powder; its purity and perfect combination enable it to render all articles easy of digestion, besides preserving their natural taste. Those who have not should test them, as also his elegant Special Flavoring, so strong, so pure, so true. d67 1w

PROCESS OF
Curing Disease by Medicated Vapor

IS ONE THAT IS FAST AND DESERVedly becoming popular, as hundreds of living witnesses can attest. Old chronic cases of years standing, and where all other medical aid had failed, are constantly being cured by it. The scales are falling from the eyes of an intelligent people, and the public daily being convinced of the fallies of keeping on in the old beaten track of purge, purge, where failures are so universal. With this process no medicine is given or applied, except in the form of vapor, which is received through the pores of the skin, and thus through the blood, which becomes purified by it, and without the slightest harm to the constitution.

LETTERS PATENT have been granted me, and any family with ordinary intelligence, can by securing a family right to use the same, save themselves, in the course of a few years, hundreds of dollars.

Below find a list of some of the diseases cured by the process:

RHEUMATISM, NEURALGIA, DROPSY, LIVER AND KIDNEY AFFECTIONS, DIABETES, BRONCHITIS, CHILLS, SORE EYES, ERYSIPELAS, SCROFULOUS AFFECTIONS OF EVERY FORM AND CHARACTER, PAINS, CRAMPS, SALT RHEUM, TETTER, SCURVY, LIVER, AGUE, FEVER SORES, WHITE SWELLINGS, &c., &c., &c.

It removes the effects of all poisonous matters, Mercury, Lead, Arsenic, &c., and restores a healthful circulation throughout the system.

Family Rights can be obtained of J. ROBERTS, REES BLOCK, First South Street, over the Oil Store.

Rooms are being nicely fitted up over their Store where patients can be received under treatment and furnished with Rooms and Board, comfortable as can be found in any Hotel in the city.
