Three-Foot Vein Opened in Mckinley Property in Beaver County.

J. W. Metcalf of Scoffeld, who has been working the 'McKinley group, in the Granite range, came to town last Sunday with some rich samples from a vein that has just been opened on that property, says the Milford Times. group consists of nine claims, located at the head of Ranch cenyon. Mr. Met-calf and his associates, A. H. and H. H. Earli of Scofield, have owned the ground for five years, but the claim upon which the strike was made was located last January. They started to sink on the vein, but it pinched a few feet below the surface. Now, at a depth of 30 feet, it has come in good and strong and there are three feet of fine quartz, some of which shows free gold, and which as-says \$30 in gold, 15 per cent copper, 30 ounces silver and 5 per cent lead. The vein is a contact between granite and lime and can be traced for a long distance.

Mr. Metcalf left for his home at Scofield, where he will make arrangements for the further development of the It is the intention to install property. whim and sink an incline on the vein. The Beacon is being put in shape for the extraction of ore and some fine copper has already been taken out for shipment. It is the intention to sink the shaft and extend the workings to a point underneath this ore body, so that the work can be carriedon more ex. peditiously

D. S. Taggart of the Oregon Short Line freight department came down last Saturday to visit the Black Rock mine, in which he is interested. He found condtions most encouraging and and it likely that some important de-velopment work will be done on this property during the present season.

Foreman Bell of the Henrichson prop. erty, near Copper Gulch, passed through Sunday night on his way to Salt Lake. He states that a lot of fine ore has been out from the recent strike, but it will not be shipped until the railroad extension is completed around to New house. The ore is mostly galena, some

of it carrying 75 per cent lead, If J. D. McAulay and C. T. Martin get much ore of the same grade as that recently taken from their Pine Grove mine and sent to Salt Lake to be test. ed, their fortunes are made. This samshowed the presence of 1,480 ounce of sliver to the ton. Ore of this grad is scattered through the vein in kidneys, the balance of the voin being of a profitable grade. There is every indication that this mine will be a winner,

ON MINING EXCHANGE.

Month Closed Today With a Record of Light Business Transacted

Today's sesion of the mining exchange closed the business for the month and week. During the month 345,634 shares were sold, for which was paid the aggregate sum of \$169,886.33, During the week 102,116 shares went for \$55,362,89,

There has been little change in the market for mining stocks this week Some few show recuperation, and they are few. Naturally enough, after, the recent adversities met by Daly-West in the pit, the actions of that stock have been watched carefully by the observing public. The announcement made early in the week that a new ore body had been struck on the south side of the main porphyry dyke in Quincy ground had the effect of stimulating confidence; buying orders in the hands of brokers increased, and the rrice advanced

Towards the close of the week the stock lost ground again, but today it was marked up stronger. Daly has maintained its strength well, but scarcely any changed hands. Sac-ramento, on account of the suspension of dividends, has weakened and there sore more huvers than cellers.

NORWAY NICKEL COMPANY.

Directors Met Last Night to Discuss

Future Plans.

A meeting of the directors of the Norway Nickel company was held in this city last night and matters pertaining to the operation of that property passed on. Martin Christopherson is now on the ground and will proceed to carry forward a most energetic campaign at the property of the company which is located in southeastern Nor-

Mr. Christopherson has advised that Mr. Christopherson has advised that he will soon have things in shape to commence the shipment of ores to the smelter at Swansea, Wales. None of the ore, it is said, carries less than 2 Knudson well tomorrow. per cent in nickel.

UTAH-APEX STRIKE.

New Ore Body Found in Drift from the Parnell Tunnel.

Walter C. Orem, manager of the Utah-Apex at Bingham, has received word from camp that in the west drift from the Parnell tunnel a veln of cop-per ore one foot in width has been struck which appears to be of an ex-cellent grade. No assays have been taken.

The work of driving the Phoenix tunnel ahead will commence next week. The company recently secured the right enter this tunnel from the Phoenix mpany for the purpose of developing a Apex are bodies, at least 400 feet

wer than the present workings. The old adit had been abandoned by the Phoenix company, and was in bad order. It was necessary to take out the old timbers and repair several places where the ground had caved in. The tunnel was also made larger.

FREIBURG GOLD ORES.

rof. J. V. Brooks Greatly Enthused Over A Discovery.

Prof. J. V. Brooks, who landed in the ity a few days ago with a very attracive lot fo samples which came from his 6 locations in the Freiburg, Nev., dis-rict, was in a high state of enthusism this morning over the discovery of ree gold in the samples taken from hat he calls the gold ledge. While he vas satisfied the ledge carried fair val-es in the yellow metal, he is now coninced that they will run much higher han he has anticipated. The ledge, he professor said today, is four feet vide, but he did not know until yeserday that any free gold existed. He elegraphed for more samples today and vill turn over what he has here to the assayer. The ore is iron colored and comes in a honey combed quartz.

CREATED NEW INTEREST.

The Natural Gas Strike at Brigham City Discussed Today. The striking of natural gas in large quantity at the Knudson farm near Brigham was the principal subject dis-

cussed among local oil men this morn-ing and was the cause of not little enthusiasm. It had the effect at least of stimulating interest. It is expected several interested in the Farmington field will visit the

ACROSS THE LAKE.

Ogden Men Are Working a Promising Property in Newfoundland District.

Advices from Ogden states that a number of the directors of the Utah-Nevada Mining company have returned from a trip of inspection to their property which is located in the Newfoundland mining district on the west side of the Great Salt Lake. While there they selected a new tunnel site that will cut the three veins on the corporation's property at a depth of 500, 900 and 1,100 feet respectively. The bottom of the incline shaft is now

down 110 feet on the middle vein and has been in ore all the way. Assays taken recently on ore taken across four feet of the richest part showed returns of 33 per cent copper, 11 ounces silver and \$9 in gold. the Utah-Nevada is composed mostly

of Ogden men and the officers are: President, J. Stanley Dee; vice president, David Jensen: treasurer, W. D. Pyper, and secretary, I. C. Dallimore.

CONCENTRATES. Allan G. Lamson has returned from a protracted eastern trip. The Bingham-New Haven shareholders gather this afternoon.

W	Otto Stallman of the Glasgow & estern Exploration company, has ne east.
Es	Harrison Clement is stationed at the gle & Blue Bell mine in Tintic for Indefinite period.
80	F. M. Taylor, at the head of the T. B. sampler, arrived from Colorado sterday afternoon.
mi	The force at work at the Galena King ne at Stockton is hoistiing some ore such will be marketed a little later.

Don't overlock "THE REAVIS SYSTEM" when you decide to buy a home or improve your vacant land for we build the best houses for the least money and offer terms of payment not equaled by anybody else. We wil build for you as it hours' notice and when we build for you, you can rest assured that the building will be well built for we now employ the most competent superintendents ebtain-able, and use only the highest grade of materials.

"THE REAVIS SYSTEM" is now located in the most commodious quarters se-cupied by any real estate firm in the intermountain country on the ground foer of the SECURITY TRUST BUILDING, 32-34 Main Street. When you enter these beautiful offices you traverse a tile floor 150 feet long fenced on one side by oak and plate glass partitions and on the other by burlap covered walls.

It is a pleasure to visit the offices of "THE REAVIS SYSTEM" and they are w so arranged that one may have the utmost privacy in conection with a busi-

news o arranged that one may have the utilion perturbation of the inclusion of the second state of the sign of the

ported by Hudson & Sons Co.,

brokers, were:

New York, April 29.-R. G. Dun & Co.'s Weekly Review of Trade tomor-

Business is Very Conservative,

Purchases Being Restricted to

Immediate Necessities.

IS BACKWARD

SPRING TRADE

rew will say: Business continues to move in most conservative channels, purchases being restricted to immediate requirements, and weather conditions dominating the situation to an unusual extent. At many points there has been little spring trade and to . transition from w nter to summer will be accomplished with scarcely any intermediate season. Considering this adverse factor, the current volume of business is remarkably satisfactory. Building operations are also deferred to a late date. Much structural work is projected, ho vever, and at som a favored points last year's record promises to be surpassed. As a rule manufacturing plants are not working at full capacity, idle machinery being most extensive in textile industries. Fionds and storms have in-terrupted traffic, yet railway earnings thus far reported for April are only 5.5 per cent smaller than last year.

and steel condition; are still devoid of any definite changes Activity and strength are reported in the western hide markets, sales of over 100,000 being reported Thursday, when the leading interests resumed purchas-ing, 'frading in forcign dry hides is only limited by arrivals, as the demand is good at full values. Failures this week number 202 in the

United States against 203 last year, and 16 in Canada compared with 13 a year ago,

BANK CLEARINGS.

New York, April 29.—The followinfl table complied by Bradstreet's shows the bank clearings at the principal cities for the week ended April 28, with the percentage of increase and decrease as compared with the corresponding week last year: Inc. Dec
