After two days of extremely heavy business, during which some over 250,000 shares were sold on the exchange and contributed to considerable excitement, the mining stock market was very quiet in the morning's sell, and prices were but generally sustained.

Delay made a fractional gain and Dividend-West was about steady, selling between 50 and 52½ bid at the close.

Four Aces traded over to yesterday's bids at 14.

Grand Central opened strong and advanced to 10 bidding, 10.75 asked. No sales.

Ontario was rather active, selling at from 39 to 39½.

A full settlement ruled high as to 8 cents in the trading, when Stein-miller sold 10,000 and 5,000 more at 10¾. Uncle Sam sold 10¾ asked.

Lower Mammoth was a feature of the sell. Jewett sold out of the holding (reported) some days ago, selling at 40 to 46, sent to 50 in a 1,000 share lot from Chesterfield at 46, and sold 20,000 at 47 and 48, and 5,000 at 49 and 50.

Northern Light opened up, rally selling, 7 cents, and went some higher. A board of brokers 10¢, and then Bruce commenced buying as of those who had sold out, and the stock followed him with a clearance at 12¢, and the bulls tried vainly to get the stock up. It closed weak at 11¾ bid, 12 asked.

Petro was sold at 11 and closed weak at 10 bid, 12 asked.

Star Consolidated was again in demand, but the sellers seemed to have all the best of the argument, and sold at 40¢, gradually went down to 40, closing weak at 37½ bid, 40 asked.

Sacramento sold at about 12 and closed weak, 10¾, 12¾ asked.

Value opened up briskly, but late lost it was declared that the Mammoth ores as excess of the Bruce and after a sale at 42, it dropped to 40, with 5,000 sold offered at that figure and lower. At the close 39¢ was bid for the stock and 41 asked.

Dry Fork and Du La Mar both were effectually quarantined and in about 5 minutes 10,000 shares were at it.

Dry Fork became strong and was quickly sold at 4½¢, 5¢ bid, 5½ asked.
