

GREAT RELIGIOUS DEMONSTRATION

Occasion Dedication of Christian Science Temple in Back Bay District, Boston.

COST ONE MILLION DOLLARS.

From Every State in the Union People Came to the Dedicator Services.

Boston, June 16.—One of the most remarkable religious demonstrations ever witnessed in New England occurred today when a new \$1,000,000 Christian Science temple in the Back Bay district was dedicated. From every state in the Union and from all parts of the world came people to be at the dedicatory services. It was estimated that more than 40,000 Christians were in the city today. Six services were held to accommodate the vast throngs, but even then thousands were unable to gain admission to the temple. The seating capacity of the new edifice exceeds 5,000, and at each service today hundreds stood in the aisle and in the rear of the church.

The first service was held at 1 o'clock this morning. As early as 1 o'clock hundreds of the Christian Scientists were standing in line waiting patiently for the doors to open. At 5 o'clock there were at least 2,000 in the street opposite the church, and an hour later the number had swollen to 5,000. At 7 o'clock there were 10,000 persons waiting. As quickly as one service was completed and the congregation had departed the temple was filled again, and there were thousands of people on the outside who were unable to get in.

The services today were identical and each service was about two hours in length. The occasion combined both the annual communion and the dedicatory exercises. It consisted of the usual Christian Science opening exercises, the reading of the tenets of the church, a dedicatory address prepared by Mrs. Mary Baker Eddy, and read by W. D. McDonald, first reader of the church, the lesson reader specially prepared for the occasion.

At the close of the lesson sermon in addition to the usual custom of the church, in response to an invitation of the first reader, the entire congregation knelt in silent communion, followed by the audible repetition of the Lord's prayer. The congregational singing was a feature of the services. At the close of each service Edward A. Kimball of Chicago presented a reply of thanks to Mrs. Eddy for her dedicatory address and for her general work in behalf of the church. In her address, referring especially to the dedication of the new temple, Mrs. Eddy wrote:

"Beloved, I am not with you in person at this memorable dedication and communion season, but I am with you in spirit and in truth, joining in your lesson of generosity and fidelity and saying virtually what the prophets said: 'Continue to choose whom you will serve.'

You have dexterously and wisely provided for the mother church of Christ, Scientist, a magnificent temple wherein to enter and pray. Greatly impressed and encouraged thereby, may I thank you for this proof of your progress, unity and love."

The edifice of the mother church of Christ, Scientist, began with the cross; its extension is the crowning ultimate rise to a mental monument, a spiritual structure high above the works of man's hands, even the outcome of their hearts, giving the material a special significance in the spiritual beauty and achievements of goodness, in thoughts this church is the one edifice on earth which most prefigures self-abnegation, hope, faith, love, catching a glimpse of glory."

The temple, which is entirely free from debt, is one of the most imposing structures in Boston, and is said to be the largest church in New England. Christian Scientists all over the world have aided in its construction, which has occupied more than two years.

MUCK RAKE CONDEMNED.

Patterson, N. J., June 10.—The baccalaureate sermon of Princeton's commencement was delivered today in Almoe hall by Dr. Henry Van Dyke. "Voices of despair are heard," he said, "trying that all is rotten." On the other side he said conservative and soothsaying voices are heard protesting against the tempest. He condemned the "muck raker" and said:

"If indeed the age be critical, sus-

OFF FOR LEAVENWORTH.

New York, June 11.—A guard of 18 privates and three non-commissioned officers, under command of First Lieutenant McNamee of the Twelfth infantry left Governor's Island yesterday in charge of 42 prisoners, and arrived at Fort Leavenworth, Kan. The party went by an army tug from the island to the Pennsylvania railroad station in Jersey City, where they took a train.

THE LITTLE DOCTOR IN YOUR VEST POCKET.

SEE the thin, round-cornered little Enamel Box below! When carried in your vest pocket it means Health-Insurance.

It contains Six Candy Tablets of pleasant taste, almost as pleasant as chocolate.

Each tablet is a working dose of Castor oil, which acts like exercise on the Bowels and Liver.

It will not purge, sicken, nor upset the stomach.

Because it is not a "Bile-driver," like Salts, Sodium, Calomel, Jalap, Senna, nor Aperient Waters.

These waste Digestive Juices of the system needed tomorrow, in merely flushing out the Bowels.

Neither it is like Castor Oil, Glycerine, or other Oily Laxatives, that simply lubricate the Intestines for transit of the food stopped up in them at that particular time.

These emergency drugs relieve the immediate trouble, but do not relieve its cause.

The same trouble will therefore recur again till that cause is removed permanently.

The chief cause of Constipation and Indigestion is a weakness of the Muscles that contract the Intestines and Bowels.

Cascarets are practically to the Bowel Muscles what a Massage and Cold Bath are to the Athletic Muscles.

We want to send to our friends a beautiful French-designed GOLD-PLATED BONBON BOX hand-tooled in colors. It is a beauty for the dressing table. Ten cents in stamp is asked as a measure of good faith and to cover cost of Cascarets with which this fancy trunk is loaded.

COBURN REFUSES U. S. SENATORSHIP

Gov. Hoch of Kansas Appointed Him as Joseph R. Burton's Successor.

THEN NAMED A. W. BENSON.

He Accepts and Announces He Will be Candidate Before Legislature For Re-election.

Topeka, Kas., June 9.—Postmaster Dwight Coburn, who was on Monday appointed by Gov. E. W. Hoch to succeed Joseph R. Burton, resigned, tonight announced that he had decided not to accept the appointment. Gov. Hoch immediately offered the vacancy to Judge A. W. Benson of Ottawa, Franklin county.

Judge Benson is at his home in Ottawa and has not yet replied to the telegram informing him of his appointment. There is little doubt but that he will accept the office.

Judge Benson is about 60 years of age and has been prominently identified with Republican politics in Kansas. He has held the office of Judge of the Franklin-Douglas district and has served in the legislature. He has twice been mentioned as a candidate for a place on the state supreme bench, but has never been chosen.

Judge Hoch, both politically and personally, was one of the leaders in the revolt in the Kansas Republican party two years ago which resulted in the nomination of Hoch for governor. Mr. Benson holds no public office at present, and is engaged in the practice of law at Ottawa.

BENSON ACCEPTS.

TOPEKA, KAS., June 10.—Judge Alfred Watson Benson of this city, who yesterday was offered the appointment of United States senator to succeed Joseph R. Burton, stated today that he would accept the position. He will officially inform Gov. Hoch tomorrow of his acceptance.

Judge Benson expects to start for Washington tomorrow.

BENSON INTERVIEWED.

TOPEKA, KAS., June 10.—In an interview at Ottawa today Judge Benson said:

"I do not see why I should not admit at this time that I have decided to accept Gov. Hoch's offer. I shall go to Topeka tomorrow morning and formally inform Gov. Hoch that I accept the appointment.

I presume that I shall be a candidate for re-election to the senate before the state legislature next winter.

My inclination is to seek the people to send me back if my services are satisfactory. The whole thing comes as a surprise to me, as I had never had for a moment considered my appointment to the senate a possibility."

"One correspondent writes," the letter says, "that he is on good authority that a well known advertising agency has been authorized by your company to spend \$10,000 of policyholders' money at this time to create, as he puts it, a 'favorable public sentiment for the management.'"

Mr. Eaton's letter said the committee's correspondents will be glad to hear that the advertisement in question, "which, in view of the approaching election, has all the earmarks of a campaign document," is being paid for personally by Mr. Peabody and the other officers and directors who are candidates for re-election.

MUTUAL ADVERTISING.

PEABODY and Others Personally Paying For That For Re-election.

NEW YORK, June 10.—A letter signed by A. Seymour Eaton, secretary of the international policyholders' commission, has been sent to President Charles A. Peabody of the Mutual Life Insurance company, requesting information concerning the Mutual's advertising which is appearing in newspapers throughout the country. The letter said that the committee which Mr. Eaton represents has been flooded with inquiries on this subject, the majority of the correspondents asking if the policyholders' money is being used to meet this advertising expense.

MILITIA GET THE ALERT.

SAN FRANCISCO, June 11.—The United States navy signal alert was yesterday turned over to the naval militia of California and hereafter will be used as a training ship for that organization. She is to take the place of the Old Marion, which has been in this service here for many years. She will be stationed at this port.

JUST ONE DUEL TO FIGHT.

VISCONTI, June 10.—The duel between Richard Zombory, a well known Hungarian sportsman, residing at Budapest, and others connected with the Hungarian Land & Mortgage bank, will not take place, the matter having been settled by an apology by Zombory.

He now will only be compelled to fight one duel—with Johan Szeges, the original challenger, who was bitten by Zombory's dog and insulted by Zombory for railing at the dog. The date for the duel has not been fixed. Zombory in apologizing said he did not intend to offend the respectable class of bank officials.

LOTS OF WHISKY LOST.

CHICAGO, June 10.—A dispatch to the Tribune from Frankfort, Ky., says:

"The flask stand at a distillery broke down yesterday and lost about 2,000 gallons of whisky last night. It made its way to Remond creek, only a few rods away. Farmers living along the banks of the stream later noticed hundreds of fish either floating僵尸 on the surface or else leaping playfully out of the stream, and altogether unaffected by the presence of man. The farmers caught them by the bushel, and it was not until the news of the break at the distillery became known that the mystery was solved. The fish had become intoxicated.

The loss to the distillery will reach

about \$25,000.

ICE MADE IN A FIRE.

CHICAGO, June 11.—A dispatch to the Tribune from Hopkinsville, Ky., says:

"When the roof of the ice factory, which, with three stories, was destroyed by fire last Thursday, was examined yesterday, it was found that 16,000 pounds of ice had been made during the progress of the flames. Just before the fire started, 300 freezing cans each with a capacity of 50 pounds of ice, were lowered into the tank of brine beneath the floor. An examination showed that each can contained a block of pure ice.

PREST. JAMES TO COLLEGE MEN.

CHICAGO, June 11.—A dispatch to the Tribune from Urbana, Ills., says:

"I do not believe there is an equal number of beautiful lines in the English language which contain more unmitigated nonsense than 'India's Opportunity.'

"If you take up each job as you come to it, opportunity will be chasing after you instead of you chasing after opportunity."

"College life cannot escape from commercialism."

"Service, not profit, should be your watch-word," around such thoughts as those quoted above President James, of the University of Illinois built his annual baccalaureate sermon to the graduating class, which was delivered yesterday evening. It is a train, he said, among other things:

"It is not a single opportunity which comes to a man, it is a train. It is a never ending procession, some small, some large, growing perhaps smaller and more insignificant as the years flow on, but ever and always opportu-

nity.
