

DRAMATIC SCENE IN POLICE STATION

Miss Anna Kolb Confronts Dr.
Haldane Cleminson, Charged
With Murdering His Wife.

SCREAMED HYSTERICALLY.

Conversation Began With Screaming
And Ended With It—Then She
Was Led Away.

Chicago, June 4.—There was a dramatic scene in the Sheffield avenue police station today when Miss Anna Kolb was taken to the cell occupied by Dr. Haldane Cleminson, alleged by the police to have slain his wife. It was from Miss Kolb that the police obtained the names of a number of women with whom Dr. Cleminson is alleged to have been on friendly terms. Miss Kolb admitted she had been a patient under Cleminson at the Chicago Union hospital, and that he had paid considerable attention to her.

Upon being taken to the physician's cell, Miss Kolb screamed hysterically. She was left there for 10 minutes, with a detective near by. What the conversation between the two was about, the police refused to make public, but it was learned that their talk terminated with a second series of screams by Miss Kolb, and she was led away.

Capt. Kane stated that Miss Kolb, while of value in the investigation into the case, was not the woman most wanted.

COLLEGE FRATERNITIES SEVERELY CRITICIZED

Chicago, June 4.—Members of college fraternities were criticized in a lecture delivered in the Belden avenue Baptist church by Prof. John O. Reed, dean of the University of Michigan.

Prof. Reed said he believed fraternities were responsible for most of the poor scholarship and dissipation among college students. He said that every student at Ann Arbor who had to be carried home in a cab at night, and who became involved in any unusual incident, probably was a member of some fraternity.

"The men who hang around street corners and insult women in college towns are invariably fraternity members," he said.

He added that the members learned bad habits and a defiance of law that affected all their college life, and that

almost all of the students conditioned at college were fraternity men, while the non-fraternity men stood high in their classes.

Despite the evil he saw in fraternities, the professor did not advocate their abolition. He said they might be made the means of great good but that this could come only under some means of college control.

FRICK'S PROPHECY CONCERNING PITTSBURG

Pittsburgh, Pa., June 4.—Henry C. Frick in a statement last night said: "I wish to serve notice on the capitalists of Pittsburgh that this city is doomed as an industrial center unless the moneyed men get together and administer a dose of financial medicine. When the United States Steel corporation broke ground for Gary it practically sounded the death knell of Pittsburgh. Other lake towns will follow the lead of Gary and in time the vast steel interests will be something unknown to Pittsburgh."

DIAMOND IMPORTATIONS.

New York, June 4.—Among the indications that prosperity has returned is the noticeable increase in the number and value of diamonds being imported into New York. There is a growing demand for these gems and the diamond cutting industry in this city is again normal with practically all the factories running on full time.

Precious stones amounting to \$2,689,234.99 were imported during May as against \$485,558.85 in May a year ago, an increase of over 500 per cent.

JAPANESE MUST REGISTER AT JAPANESE CONSULATES

Victoria, B. C., June 3.—All Japanese residents within the United States and Canada are being ordered under new immigration regulations issued at Tokyo shortly before the steamer Mont Eagle sailed from Yokohama, to register themselves at the nearest Japanese consulate, and a newcomer will be obliged to within seven days of his arrival, giving particulars regarding his mode of life, and on leaving the district he must report his departure, the penalty being forfeiture of consular protection. The regulations go in force Oct. 1, and Japanese abroad have until March of next year to register. The Japanese government will shortly dispatch Mr. Sumoto, former editor of the Japanese Times, to New York to open an official information bureau regarding Japanese affairs.

NAVY LADS ESCAPE.

San Francisco, June 4.—While they were being drilled in the use of oars in the bay near Yerba Buena Island, where the naval training station is located, 15 youths, apprentices at the station, escaped in their cutter yesterday. Detachments of marines are searching all the cities about the bay for the runaways, who were clad in uniforms when they scuttled their boat at the Oakland mole of the Southern Pacific and escaped.

OWEN WISTER, FAMOUS NOVELIST, RALLYING AFTER LONG ILLNESS.

Owen Wister, the novelist, is slowly recovering from a nervous collapse that halted his literary labors and threatened his life some time ago. Mr. Wister's case, which has puzzled some of the ablest physicians and nerve specialists in the country, dates from the time of the death of his mother, nearly a year ago. The sad occurrence completely unnerved the novelist, and after a time he sought to divert his mind by hard work. This, coupled with his weakened condition, caused a collapse. A novel on which the author of "The Virginian" was at work has not been touched for several months.

DIVORCED WIFE SUES FOR ALIMONY

Chicago, June 4.—The first suit for alimony under the recent decision of Judge Ball, which provides that divorced wives are entitled to alimony until death or re-marriage, was filed in Judge Bonner's court yesterday by Mrs. Annie Hazelton Delavan, against her former husband, Frederick Delavan.

Mrs. Delavan testified that her former husband had a net worth of \$100,000 and a business paying \$15,000 a year, but at the time of the granting of the decree, Nov. 11, 1931, he was poor and without any prospects.

In the recent decision handed down by Judge Ball he said that divorced women are entitled to alimony until death, the limitations being that the woman shall not marry in the meantime and that no request for alimony had been denied at the time of the granting of the decree.

RUSH FOR ARIZONA LANDS.

Phoenix, Ariz., June 4.—The rush at the Phoenix land office yesterday resulted in the filing of 73 applications on a total of over 20,000 acres of desert land at different points adjacent to Agua Fria river, 25 miles west of Phoenix.

The line had been formed for 24 hours preceding the opening at 9 o'clock. Well towards the head of the line was the representative of the land department of the Santa Fe railroad with a large quantity of railroad land script. The register and receiver promulgated a ruling that no applicant could make more than two filings or 320 acres, at one time. The railroad representative retired without filing. Later in the day, after the line cleared, the railroad representative made a filing on 2,700 acres, with forest scrip.

RUMBLINGS SCARE PEOPLE.

San Bernardino, Cal., June 4.—Manuel Lopez, who arrived last night from the San Jacinto mountains, brings information concerning strange rumblings heard for many weeks. He declares the Indians are leaving with all their superstitions fears aroused. Lopez made a thorough investigation and believes the sounds come from a subterranean waterfall which, he says, probably caused the recent earth tremors thereabouts.

His statement substantially corroborates that of others arriving from this region. He declares there is no cause for alarm.

BILL FOR BUREAU OF MINES.

Washington, June 4.—Another bill for the establishment of a bureau of mines in the department of the interior, has been introduced in the house of representatives by Representative English-bright, of California. According to the terms of the bill the proposed bureau is to conduct inquiries and investigations on the mining, extracting and utilization of the mineral substances of the United States, the treatment of ore and the methods and conditions under which mines are operated, with a view to the prevention of mine accidents, the waste of the mineral substances and the development of the various mining industries. The results of these investigations are to be printed for public use.

MOLOKAI LEPROS EXAMINED AND FOUND TO BE CLEAN

Honolulu, June 3.—After some of them had spent 20 years of their life in the leper settlement on the island of Molokai, 10 of 11 lepers who were returned here at the instance of the territorial legislative committee for re-examination have been found free of the disease. Of these, two are boys of six and seven years, but the others vary in age from 27 to 70, and some of them have spent many years in the settlement.

A pathetic feature of the re-examination is the probability that some of the older patients will petition to be returned to the island, as they have been shut out from the world and their friends so long that they have no place else to go. A few of the patients were sent to the settlement before the bacteriological test for leprosy was discovered, and it is believed that in some cases a natural cure has been effected. Nineteen other supposed lepers will be brought from the settlement for re-examination in a short time.
