NOTICE TO FARMERS.

THRASH your grain as soon as it is harvested. Past experience has proven to all, that wheat that is put up in a stack to stand until winter has been mostly destroyed by cattle and mice. Having selected and brought through a machine that is well adapted to the grain raised here, and having had long experience in the business, I hope to merit a liberal share of public patronage. Brethren in the adjoining valleys can see me at my residence on Big Cottonwood, or in the 12th ward in G. S. L. City.

As there has been much waste of grain by improper feeding of animals, I will be responsible for all unnecessary waste.

13-19

LEATHER! LEATHER!

WE take this method of informing the Citizens of this place and surrounding country, that the 15th ward Tannery is now in operation, and design keeping on hand a large and well assorted stock of leather of every description, which shall not only surpass anything heretofore manufactured in the Territory, but shall equal, if not surpass anything brought into this market for sale.

The mechanical branch of this business will be carried on under the direction of A. L. Townsend, who, having been engaged for years in the manufacturing of leather in Austria, Russia, France, England and the United States, has thoroughly satisfied himself by trial, that the very best article of leather can be furnished from the material with which this country abounds.

Call at Townsend's building, East Temple st., 2 corners above Kimball's store, and satisfy yourselves by a thorough examination of the article.

Hides of every description purchased.

We the undersigned workmen of leather, take pleasure in recommending to the public, the article furnished by the 15th ward tannery of this city, and pronounce it equal if not superior to any leather, domestic or imported, ever offered for sale in this market.
