## AMERICAN.

WASHINGTON, 16.—The yellow fever scare in the treasury department has not yet passed away; and the ladies in the redemption bureau feel very anxious. Precaution is taken to have packages of money from the fever districts thoroughly disinfected.

The circular of instructions for the marine hospitals, prepared by Dr. Woodworth, relates the rapid spread of yellow fever, and declares the land quarantine ineffective, and maintains that the disease is spread by clothes and effects coming from infected districts rather than by the patients themselves. It, moreover, asserts that yellow fever patients never communicate the disease excepting through their clothing and effects.

New York, 16.—Patrick William Riley, horse shoer, arrived this morning, very sick, from New Orleans, which place he left on Monday. Yellow fever being apprehended, the health authorities are closely watching the case.

New Orleans, 16.—The deaths today include twelve children, ten of them under five years old. Dr. Chapin, president of the Board of Health, expressed the opinion that those who had previously had yellow fever were in no danger of taking it again, even though they had spent a summer or two away.

Port Eads, 16.—Six new cases and one death since yesterday's report.

Vicksburg, 16.—The health officers report three new cases of yellow fever in the past twenty-four hours.

Louisville, 16.—Many persons from the yellow fever cities are arriving here. One thousand dollars was subscribed for the Grenada sufferers today. The Galt House announces nominal rates to those who are compelled to leave their homes, and if the number coming here continues so large all the hotels will do the same.

Delaware Breakwater, 16.—The schooner *Ida Lawrence*, Captain Alphus Barrett, from Sagua La Grande, Cuba, for New York, put in here, today, with the entire crew, nine in number, either dead or down with the yellow fever. The only passenger, Isaac H. Warrington of Camden, N. J., a son of one of the owners, died at sea. His body is preserved in liquor. Yesterday two of the crew died and were buried at sea. To-day Captain Barrett died.

Cincinnati, 16.—The health officer will issue a proclamation tomorrow declaring a rigid quarantine against all boats from Louisville and forbidding the railroads from bringing passengers or certain specified articles of freight from the infected cities of the south into this city.

Memphis, 16.—Sixteen new cases of fever and five deaths from 9 o'clock last night till 9 to-night. Weather clear.

Little Rock, 16.—Passenger and freight trains are running through from St. Louis to Texas on the St. J. M. and S. R. R.

Health officers are stationed at Popular Bluffs and Bismark, Mo., to examine all passengers and freight. The officers of the road are working in harmony with the board of health. All trains between this city and Memphis are stopped.

Grenada, Miss., 16.—Scenes in this plague-stricken town for the past 24 hours beggars description. The strongest men, women and helpless children are sick, dying or dead. The official death list for the last 24 hours is 17. The population has decreased to little over 200 whites. But few new cases; no material to work on. The deaths are old cases.

PITTSBURG, 16.—A fire broke out this evening, about 8 o'clock, in the boiler room of the Pittsburg wagon works, corner of Beaver Avenue and Locust Street, in the lower part of Alleghany, and spreading with great rapidity soon enveloped the entire establishment. This was one of the largest establishments of the kind in Western Pennsylvania, and owned by a joint stock company, of which W. J. Kountze is president. The buildings occupied one entire block and were completely destroyed. A large drug store, owned by the same company and occupied by D. Hamilton, was also destroyed. Hamilton saved the most valuable part of his stock. The loss will probably reach \$60,000. No insurance. John Herban, who was as-

sisting the firemen, was seriously injured by a wall falling.

DAYTON, O., 16.—A tornado passed over this city this afternoon, unroofing a number of houses and blowing down several barns. It was accompanied by a heavy storm of rain and hail, that did considerable injury to the crops in the vicinity.

CHICAGO, 16.—A most daring and successful robbery was perpetrated at the Palmer House, this afternoon, by which the New York jewelry firm of Max Freund & Co. lost about \$15,000 worth of goods. Henry Freund of that firm, arrived here this morning with a heavily armored, iron-bound trunk, and having been assigned room 32, he took every precaution against burglars, and at 1 o'clock went to dinner with a friend. Although he remained away only half an hour, when he returned he found an entrance had been effected to his room through the transom, his trunk had been broken open, the more valuable jewelry all taken, and no traces left of the experts who did the job except two jimmies and a piece of paper in which they were wrapped. Detectives here believe Mr Freund has been followed by New York professionals, who have become perfectly familiar with his habits and mode of life.

From the fact that three persons, one from St. Louis, one from Boston, and another, a lady, from St. Louis, left the hotel almost immediately after the robbery, ostensibly for their respective cities, although no trains leave here at that hour, it is surmised that these persons have some connection with the affair. For a week past a gang of English and New York professionals have been doing work here, and these men and the woman are regarded as a part of that combination. Detectives are hard at work on the case.

The murder at Lagrange, yesterday, of Mr. Clark, is attracting much attention, and it is believed that the tramp who first figured in the matter is a myth; that it is either a case of suicide or homicide, and developments point strongly to the wife as the guilty party.

NEW ORLEANS, 16.—A Galveston News special from Fort Clark says: All the troops under the command of Col. McKenzie, except two companies of infantry, left the garrison at 2 o'clock this morning. The advanced guard crossed the river early this morning. The main column has been crossing all day, about a mile above the mouth of the Sycamore. Every man has 145 rounds of ammunition and 10 days' rations. The artillery is well supplied with ammunition. They are on the trail of the stolen animals which crossed into Mexico two days ago.

SAN FRANCISCO, 16.—Last evening, Austin, Nev., was visited by a cloud-burst which flooded the business part of the town, doing damage to the amount of about \$100,000. A man named Sparman was swept down a ravine and drowned. The *Reveille* office and many business buildings were wrecked. The residence portion of the town escaped.

WASHINGTON, 17.—The *Post*, this morning, publishes a statement that Assistant Postmaster General Tyner, in conversation with some personal friends, of his recent trip to Europe, he remarked that he had conversed with several leaders of the Grant movement, and that they are indeed earnest in pushing Gen. Grant for the presidency. He said that a choice for a man for the second place on the ticket had embarrassed the Grant managers a good deal, until the name of General Key was suggested, when it was adopted at once.

PENSACOLA, Florida, 17.—The American brig *Akbar*, of Machias, Maine, from Cuba, is reported off Pensacola bar with the mate dead and the crew sick with fever. As any pilot boarding her will be detained at quarantine until the frost, they will refuse to bring the brig in, and it is probable the vessel will sail north.

NEW YORK, 17.—The *Tribune's* Berlin special says, of the execution of Hoedel: He received the announcement at first stolidly, but afterward betrayed great agitation. Some difficulty had been experienced in obtaining an executioner. It is reported that the man who at last accepted the task, is a respectable butcher of Berlin. When conducted to the place of execution Hoedel trembled, and his countenance was ashy. The business was very quietly done. He was made to kneel down, the executioner

raised an immense double-handed sword, and his head fell upon the scaffold. It is reported that the executioner refused any award.

The *Tribune's* London special says: The assassination of the Russian chief of police is the subject of comment here. The theory is advanced that it was the work of secret societies, and that it was in retaliation for the execution of Hoedel, at Berlin, this morning. A bond of sympathy is said to exist between the secret societies of Russia, Germany and France, and the fact that Hoedel's sentence was to be carried out was known in St. Petersburg this morning. It is said that both Hoedel and Noebing who is soon to meet Hoedel's fate, are believed to have been in association with the Russian societies.

SAN FRANCISCO, 17.—Einstein Brothers, boot and shoe dealers and manufacturers, suspended yesterday. Their liabilities are estimated at \$800,000, half of which is due eastern creditors. The assets consist of goods, factory, and outstanding accounts. The real estate is supposed to be heavily encumbered. The failure is due to heavy losses in stock. Speculations were carried on by two members of the firm in the firm's name, but in opposition to the wishes of the other members, and without their knowledge.

BOSTON, 17.—The only redeeming feature in the wool market this week was the demand for combed and delaine fleeces at steady and firm prices. All other kinds were exceedingly dull, and for clothing wools generally the market has a decided tendency towards lower rates. It is now evident that the prices paid in the interior were too high, and unless the demand improves, it will be difficult to place early purchases at cost, and late purchases in Michigan, Ohio and Pennsylvania can only be turned over at a loss. Manufacturers appear as indifferent about supplies as at any time during the past six months. Sales comprise Ohio and Pennsylvania fleeces, No. 1, X, XX and above at 36 @ 8. Michigan No. 1 and XX 34 @ 36. Wisconsin X 32 @ 35; low fleeces and selected lots, 30 @ 35. Combed and delaine, 35 @ 45; unwashed *combing* and delaine, 26 @ 30. Texas, 17 @ 27. Colorado, 20 @ 25; scoured 33 65; tub washed, 37 1/2; super and X pulled, 30 @ 39. California wool quiet, sales light, comprising for the week only 185,000 lbs., at 20 @ 29 for spring, and 16 @ 18 for fall. Total sales of domestic for the week, 1,345,400 lbs.

POTTSVILLE, Pa., 17.—During a storm about 4 o'clock this afternoon, the powder magazine of H. A. Weldy & Co., containing 1,100 kegs, was struck by lightning. A terrible explosion followed, demolishing the magazine, scattering debris in an easterly direction, and making a gap in the neighboring woods 50 feet wide, killing three of a picnic party, and more or less injuring several. Many houses in the neighborhood are badly damaged. Several cattle were so injured that they had to be killed.

DEARBWOOD, D.T., 17.—Yesterday afternoon a man named Wallace reported, at General Bradley's camp, that a party of four Indians had attacked him on Thursday night at his ranch, near the mouth of Hay Creek, about 25 miles from this place, and run off all his stock. He wanted help to follow them, and General Bradley has ordered a company of cavalry to accompany him to look into the matter. Wallace tells a straight story, but some are inclined to think he was mistaken in the color of the thieves.

LARAMIE CITY, Wyo., 17.—The trial of John J. Moore, late postal clerk, on the route between Laramie and Green River, upon the charge of stealing from the mails \$5,000 of Canada money, a year ago, was concluded, and the case given to the jury at 10 o'clock last night, and upon the opening of the court this morning the jury brought in a verdict of guilty. The case had been worked up by Government officials with remarkable skill, and prosecution and defense were conducted with great ability. Sentence not yet passed.

CHICAGO, 17.—Pinkerton's detective agency, aided by the city detectives, this afternoon captured the entire amount of jewelry stolen from the Palmer House yesterday, and one of the professionals who did the job. Pinkerton thinks he is the man who did the St. Louis, Pittsburg and Worcester burglaries. He is an Englishman and a stranger to the police.

NEW ORLEANS, 17.—Total cases to date, 975; new cases for the week 509; total deaths, 266; deaths for the week, 140. The Howard Association, in view of the widespread sickness and distress therefrom which prevails in this city, have determined to extend such measures of relief as the generosity of their fellow citizens will enable them to do. They publish an appeal to the citizens of New Orleans for means stating that they have not a dollar in their treasury. New cases, 73, deaths, 27.

PITTSBURG, 17.—At a meeting of the board of health, this morning, it was decided to quarantine all boats and trains arriving from the south and west. Physicians will be stationed at Davis Island, seven miles below the city, and on the railroads at Sewickley and Mansfield, and will examine all trains and boats arriving and detain all persons showing symptoms of fever, at the points named for treatment.

MEMPHIS, Tenn., 17.—Twenty-three new cases and nine deaths are reported to-day. The weather is clear and warm.

CHICAGO, 17.—The *Journal's* Washington special says: There is no longer any concealment of the apprehension felt here, both officials and private persons, at the rapid advance of the yellow fever. Effect has been given to these apprehensions in Norfolk, Va., by a determination of the health authorities there last evening to establish a most rigid quarantine against all infected districts. Officers of railroads connecting with that city have accordingly been notified that neither baggage nor passengers from Memphis or any infected locality will be permitted to enter Norfolk or Portsmouth. The stringency of the harbor quarantine has also been greatly increased, and steps are now being taken to cleanse the city.

In Baltimore, while no change has been made with respect to quarantine, the city is being thoroughly cleansed and disinfected, and most careful precautionary measures are being taken to prevent the appearance of the plague. The weather for a number of weeks has been particularly favorable for the approach of the disease, owing to the almost incessant rainfall and muggy atmosphere. The fact that a schooner's crew coming from Cuba lies dead and dying at the breakwater near Cape May increases the alarm.

The papers publish the particulars of a defalcation by Chas. W. Angell, secretary of the Pullman Palace Car Company. From an interview with Mr. Pullman, tonight, the following facts are learned. Mr. Angell is a man of 40 years of age, agreeable in manners and was exceedingly competent for the position he occupied. His social relations have, until recently, been believed to be of the very best character, and by years of good conduct he has won the entire confidence of the company and of his associates in business. About three years ago his wife died, leaving two infant children. This loss seemed, for a time, to impair his mental and physical health. Lately he has gradually been recovering good spirits, but having suffered, during the past winter, disappointment in some social affairs, it now transpires that he fell into disreputable associations, which were, however, unknown to his intimate business friends. At about the usual time for his summer vacation he proposed to meet Mr. Pullman in New York, as he and Mr. Pullman were about returning to Europe, and started east with that avowed purpose Mr. Pullman reached New York by steamer on the 7th inst., and as Mr. Angell did not appear for a day or two, became anxious regarding him, and dispatched Angell's brother to Saratoga and other places which he had intimated visiting: Nothing has been learned of his whereabouts up to date. The fact that Angell left no address or communication in Chicago excited comment here, and caused Mr. Pullman to hasten home and institute a thorough examination. This developed the fact that Angell had disappeared with funds and securities of the company. The amount taken, although considerable, is not sufficient to occasion the company any embarrassment nor to interfere with its regular business. The possible maximum of the loss sustained is \$120,000, partly in cash and partly in securities of the company, which were in his custody as

secretary. The money he drew out of the bank was upon two checks of \$25,000 each, he representing to the company's cashier that he was sending it to the office of the company in New York, and that the proper vouchers would be returned, thus evading or overriding the custom of the office which required vouchers to accompany every payment of money. So great was the confidence reposed in his honor and integrity that this action created no uneasiness until his mysterious and protracted absence became of itself a cause of suspicion. It is possible that he has converted the securities, and with the proceeds of the money gone to Europe. The company is taking most vigorous measures for Mr. Angell's apprehension, and proposes, if possible, to recover the funds and securities abstracted by him, but for obvious reasons the measures adopted cannot be made public.

ST. LOUIS, 17.—A terrible tragedy was enacted at the Girard House, corner of Broadway and Middle Streets, shortly after 1 o'clock this afternoon. Joseph P. Colcord, at one time a very prominent lawyer and the prosecuting attorney of one of our courts, and subsequently a member of the legislature, shot a woman, said to be his mistress, named Nettie Smith, with whom he was living at the Girard House, and then shot himself. The woman received three wounds, one directly through the body, near the stomach, one in the head and a third in the shoulder. Colcord was hit in the right temple. Both died almost instantly. Jealousy and whisky are thought to be the cause. Colcord was a very disreputable man for many years, and it is stated forced his wife to leave him, after which he took up with this woman.

SAN FRANCISCO, 17.—Hon. A. Maurice, Jr., of Oroville, suicided at that place, this morning. Cause—financial difficulties.

On Wednesday night, at Roseburg, Ogn., William Daly quarreled with his wife's brother, J. Woodward, over family matters, when Woodward stabbed Daly twice, and Daly shot Woodward, both falling dead.

NEW ORLEANS, 18.—New cases, 15; deaths 47.

The *Democrat* will publish an account of a reporter's visit to two tenement houses near Poydras market, and the sickening sight there presented. The houses were principally occupied by Italian chicken dealers. In one house 16 have been carried out dead during the last two weeks, and in the other 10. No. 292 Poydras Street was almost deserted. The bed on which the sick died remaining intact. In the neighborhood eight have died during the last 48 hours. The house of the Italians was almost deserted, there being in it only one sick man and attendants, all the rest, who so far have survived, have fled to the suburbs. The yards of the two houses where the chicken dealers lived, presented a most terrible appearance. The mattresses of the dead, the decaying vegetable matter, and the decomposing refuse offered seeds for disease. The board of health have allotted to members the respective districts in which each is to work.

MEMPHIS, 18.—Notwithstanding the clear sky and warm sun, visitors in the infected districts report the outlook more encouraging, there being only nine new cases reported for the 24 hours ending at 5 p. m. Although there is a slight increase in the death rate, the deaths for the same time number three. The decrease in the number of new cases is doubtless owing to the fact that there is little material left in the infected districts for the fever to work on. All who were able have moved out, and it is expected that the work of moving others to a camp, five miles south of the city will commence to-morrow, 1,000 army tents, for their accommodation, having arrived to-day.

A special from Grenada, to-night, says: There are 65 deaths to this date; 100 are sick at present. New cases yesterday were 15. People are dying to-day without an attendant. Relief is greatly needed.

VICKSBURG, 18.—The health officers report 48 cases of yellow fever under treatment at 7 o'clock last night. It is estimated that there are between 14 and 20 new cases. No deaths reported to-day.

POTTSVILLE, Pa., 18.—The scene of yesterday's explosion was visited by several thousand persons to-day. The verdict of the jury was that Richard Vough and Andrew Galli-
