

# MINING, BUSINESS AND STOCKS

## UTAH COPPER HAS TWO UNITS READY

Big Plant at Garfield Is Assuming Shape—Machinery in Motion.

TRIAL RUN NOW IN PROGRESS.

Immense Storage Reservoir Being Filled and Coal Supply in Good Shape.

It is now but a matter of days when the Utah Copper company's big plant will be running. The 4,500-gallon pumps are already in commission filling the immense storage reservoir completed some time ago. This has a capacity of 4,500,000 gallons. Fires have been burning in the set of boilers already installed and two 2,000-horsepower generators are now undergoing a trial run. The pumps, generators and Corliss engines are working perfectly, even better than usual for a "warming-up" run. The plant is to have in addition to the two 2,000-horsepower generators a trio of 3,000-horsepower generators. These are on the ground now, and installation is the next step. This will be done without loss of time if no unavoidable interruption occurs.

PLANT IS BIG ONE.

The mill is to have a capacity of 6,000 tons per day, making it one of the largest concentrators of the west. It will consist of five independent units and two of these are now ready for service. After the machinery has been taken to get as much coal at hand as possible, the full plant will be in operation. The plant will be more than getting the previous minerals from crude rock. A large number of men will be employed steadily when the entire plant is going.

COLORADO AWAY UP.

Passes Two-Thirty Mark—Week Has Seen Ups and Downs.

Trading was satisfactory this morning and taken all through the past week on the local mining stock exchange was the same. Colorado Mining has passed the \$2.30 mark. A few days ago it could be bought at figures below \$2.00. This stock is in demand even at this advanced figure. The company is capitalized for \$1,000,000. According to present stock board quotations the property is worth nearly \$3,000,000. Stocks have had their ups and downs during the week, some of the favorites being low. Nothing sensational is anticipated during the present run of spring and coming summer. The forenoon and only sales, closing quotations and totals for today follow:

## RESCUE IS PLANNED.

Nevadans to Lend Money on State's Stocks to Save Market.

Reno, Nev., May 14.—That the confidence in Nevada securities has not been seriously impaired by the manipulation to which the market has been subjected during the past two weeks, was evident today when Sullivan & Rice, made public announcement that the firm, which they have been designated as the agents of a syndicate who desire to loan money on Nevada mining stocks.

This announcement was made by L. M. Sullivan, of the firm named, who stated that he wished the broadest publicity given to the fact that the syndicate his firm represents is prepared to lend at once \$250,000 to the security of listed Nevada stocks. Loans are to be made to the extent of 65-2 of the market value of the issues offered as collateral. They must be in amounts of \$250 and upwards, and may be made for a period of four months. Interest at the rate of 6 per cent per annum will be charged. If the amount of this syndicate's loan is not sufficient, Mr. Sullivan stated that it will be prepared to lend an additional \$1,000,000 in the manner outlined.

There has not been a moment during the whirlwind course of the market for the past 10 weeks, when there should have been loss of confidence in the stability of Nevada issues," said Mr. Sullivan in announcing his firm's plan to the Nevada mining news bureau. "The mineral is in the ground in every camp in the state, and there is no legitimate reason why stocks should not be worth as much money now as they were last fall. Intrinsic values have not changed in the slightest."

"Those associated with us are convinced that the rapid changes in the price currents during the past 10 weeks have been largely to manipulate the market. Powerful eastern interests, aided by Nevada influences, have been at work to systematically depress and inflate the market for Nevada stocks. The result has been a general loss of confidence in the market. And these forces which are acting believe now that it is the duty of every genuine friend of Nevada to endeavor to make non-effective the manipulations of the market. Manipulators who have been buying and bearing the market for mining shares."

"With this conviction firmly fixed, the syndicate has made available \$250,000 which will be loaned on the security of Nevada stocks. The plan is this: 'Any holder of Nevada stocks who feels himself pinched by the present market conditions, may borrow on registered mail. The day the certificates are received, we will send him eastern exchange for 65-2 per cent of the market value of the certificates. Loans will be made in amounts of \$250 and upwards, and for any period up to four months, by which time the market will almost certainly have returned to normal conditions. Interest at the rate of only 6 per cent per year will be charged for his accommodation, whereas the regular rate of discount in the banks of the state is 10 per cent per month."

"If the amount set aside is not sufficient to meet the requests for loans that come to us," continued Mr. Sullivan, "our syndicate will increase the lendable sum to \$1,000,000. The confidence of these gentlemen in Nevada issues is such that they believe not only that the plan will succeed, but that every assistance should be extended to stock buyers to prevent them from being crucified by the manipulators."

## TWO NEW COMPANIES.

Universal Metal Extraction and Tintic Central Are Organized.

Two new companies filed articles of incorporation in the county clerk's office today. The first is the Universal Metal Extraction company of this city filed its articles with the county clerk. The capital stock of the company is \$1,000,000, divided into shares of \$1 each. Seldon L. Clawson is president; Rudger Clawson, vice president; R. R. Romney, secretary; J. J. Clawson, treasurer. The company owns the Tintic Central mine, with J. Clawson, Smith, Jr., constitute the board of directors. The company owns the patent rights of Seldon L. Clawson to a new method of extracting metals, and also a mine, and patents for which are pending in the Dominion of Canada, Mexico, Belgium, France, England and Italy.

The Tintic Central Mining company of Provo filed a copy of its articles of incorporation with the secretary of state today. The capital stock is \$1,000,000, divided into shares of \$1 each. Seldon L. Clawson is president; Rudger Clawson, vice president; R. R. Romney, secretary; J. J. Clawson, treasurer. The company owns the Tintic Central mine, with J. Clawson, Smith, Jr., constitute the board of directors. The company owns the patent rights of Seldon L. Clawson to a new method of extracting metals, and also a mine, and patents for which are pending in the Dominion of Canada, Mexico, Belgium, France, England and Italy.

The Tintic Central Mining company of Provo filed a copy of its articles of incorporation with the secretary of state today. The capital stock is \$1,000,000, divided into shares of \$1 each. Seldon L. Clawson is president; Rudger Clawson, vice president; R. R. Romney, secretary; J. J. Clawson, treasurer. The company owns the Tintic Central mine, with J. Clawson, Smith, Jr., constitute the board of directors. The company owns the patent rights of Seldon L. Clawson to a new method of extracting metals, and also a mine, and patents for which are pending in the Dominion of Canada, Mexico, Belgium, France, England and Italy.

The Tintic Central Mining company of Provo filed a copy of its articles of incorporation with the secretary of state today. The capital stock is \$1,000,000, divided into shares of \$1 each. Seldon L. Clawson is president; Rudger Clawson, vice president; R. R. Romney, secretary; J. J. Clawson, treasurer. The company owns the Tintic Central mine, with J. Clawson, Smith, Jr., constitute the board of directors. The company owns the patent rights of Seldon L. Clawson to a new method of extracting metals, and also a mine, and patents for which are pending in the Dominion of Canada, Mexico, Belgium, France, England and Italy.

The Tintic Central Mining company of Provo filed a copy of its articles of incorporation with the secretary of state today. The capital stock is \$1,000,000, divided into shares of \$1 each. Seldon L. Clawson is president; Rudger Clawson, vice president; R. R. Romney, secretary; J. J. Clawson, treasurer. The company owns the Tintic Central mine, with J. Clawson, Smith, Jr., constitute the board of directors. The company owns the patent rights of Seldon L. Clawson to a new method of extracting metals, and also a mine, and patents for which are pending in the Dominion of Canada, Mexico, Belgium, France, England and Italy.

The Tintic Central Mining company of Provo filed a copy of its articles of incorporation with the secretary of state today. The capital stock is \$1,000,000, divided into shares of \$1 each.
