A STRANGE RACE OF

NEGROES IS DISCOVERED

New York, Dec. 2.—A strange race of negroes with a language of their own, is said by Lieut. W. H. Wymans of the Dutch navy, who arrived here yester-day from an expedition to heretofore unexplored parts of Dutch Guinea, South America, to have been one of the most lateresting discoveries he and his

**GOVERNMENT MUCH ALARMED** So Far as it is Concerned Situation Is Believed to be Lost-May be Uprising in Capital.

Port Au Prince, Dec. 1.-The expected Sattle between the revolutionists and the troops of the government which are

The troops of the government which are entrenched a few miles outside the city is likely to be deferred for several days. Gen. Antoine Simon, the com-mander-in-chief of the revolutionary forces, has decided to attack Jamiel, which lies 30 miles to the southwest of this city, and which is the only town that has remained loyal in the depart-ment of the suoth, before resuming his march on Port au Prince. It is believed, however, that the sit-vation, so far as the government is concerned, is lost. Louis Borno, min-ister of state, has handed in his res-ignation and has taken refuge in the German legatino, and there now re-mains in office only three of the high-est officials. Gen. La Conte, minister of justice and public instruction, and Gen. Marcelin, minister of finance and commerce. All the other ministers have resigned, with the exception of Gen. Celestin Cyriaque, who, after his recent defeat at the hands of the in-surgents, is believed to have found asy-ium in one of the forcing consulates. It is believed that the intention of the president in calling an extraordin-ary session of the chambers is to have The president in calling an extraordin-try session of the chambers is to have them name his successor. President Alexis favors either of two candidates for the office, Gen. Turenne Jean Gilles and Solon Menos, a distinguished law-

the Solon Menos, a distinguished law-yer. The three divisions of government troops entrenched at the cross roads antiside the city are being depleted by numerous desertions. While every ef-fort has been made to hold the troops logether, and there have been few out-ward signs of dissatisfaction, the gov-nument, soldiers have taken the first apportunity to slip away. Some of these undoubtedly will join the insurg-int army. Gen. Simon will enter Port an Prince probably without striking a blow, and it may be without causing listurbance in the order of things. If President Nord Alexis takes his de-parture from the city before the ar-tival of the enemy. The situation will be critical if the president elects to recritical if the president elects to re-

The president the president checks to re-main. The president has anguly resisted the matic representations which have been made to him to give up the struggle. He accuses War Minister Cyriaque of meachery, and threatens if the revo-nitionists attack the city to blow the palace up. It is thought there will be in uprising against the government in Port au Prince just as soon as Gen. Simon reaches the cross-roads. Here-ofere the people have been held in subjection and almost terrorized by the regulation of Gen. Le Conte for violent Leads. Washington, Dec. 2. -That there is need of the utmost caution in buying oriental rugs so as to secure proper guaranty that only vegetable dyes and fixatives have been employed, is the warning sounded by Coesul W. F. Doty, in a report from Tabriz, Persia, He says that the royal edict which forbids under heavy penalties the introduction of aniline coloring material is not en-forced.

After the decision in the Standard Oli cases that each shipment did not constitute a count, but that each settlement should constitute a count, the com-pany made a motion for a new trial. The motion was denied, but as the company had six monthly settlements with the railroad company. Judge Knappen agreed to suspend the fine if the company would plead guilty to six counts. The company today asked for leniency on the ground that the amount of the shipments was small. Dist. Atty. Covell asked that the old fine stand, as the six counts cover the same ship-ments which the 20 counts covered. quette railroad. in the case of Mrs. O. E. Taylor, whose address is R. F. D. No. 6, Columbus Ohio, who says: "I suffered severely with inflamina-tory rheumatism for three years and was helpless in bed for weeks at a time. The attack followed exposure to damp-ness. Every bone in my body seemed to ache and my joints were swollen to twice their normal size. During the first attack I had to be fed as L could not raise my arms and was so perfectly helpless that I couldn't turn over in bed. The least bit of a jar would burt me and on damp days the sharp pains were worse and almost unbearable. I was not able to work for months, could not sleep and had no appetite. "I was treated by different doctors at London, Ohio, who gave me only tem-porary relief. Upon the advice of a cousin, who had used Dr. Williams' Pink Pills with benefit, I decided to give them a trial. I soon had an appe-tite and could see that the pills were helping me. I took several boxes and was cured as I have not been troubled with the pains since and am a healthy woman in every way." Dr. Williams' Pink Pills actually make rich, new blood and have cured

#### FOURTH CLASS POSTMASTERS PUT IN CLASSIFIED SERVICE

PUI IN CLASSIFIED SCRVICE Washington, Dec. 1.—All fourth-class postmasters in the states east of the Mississippi river and north of the Ohlo river were today placed in the classi-fied service by an executive order of the president. Hereafter all the appointees to fourth-class postmasterships in those states must undergo civil ser-vice examinations. Postmasters now holding office will not need to take the examinations. Over 15,000 fourth-class postmasters are affected by the order. Another executive order of the presi-dent, signed at the same time, author-izes the postoffice department to fill vacancles in fourth-class postmaster-ships without civil service commission shall certify to the department that it is able to hold examinations and make certi-fications to such position. This was necessary because time is required before any postion can be filled by examination and certification from the commission. The action of the president has long been contem-plated, but up to now it has been with-held because of a difficulty in conduct-ing the examinations and securing a list of eligibles in consequence of the work that would be thrown on the civil service commission. The commission, however, has been broadening during a list of eligibles in consequence of the work that would be thrown on the civil service commission. #### SPEAKER CANNON.

Indications Are That He Will be Re-

elected. Washington, Dec. 1 .--- Friends of Washington. Dec. 1.—Friends of Speaker Cannon profess to be highly pleased with the responses to letters which Representative James R. Mann of Chicago, has been sending to the members announcing that the Illinois delegation will present the name of Joheph G. Cannon for speaker of the Sixty-first Congress. They state that these answers assure re-election of the speaker.

This number has not yet reached a majority of the house. Mr. Mann ex-plained that a number, principally new members, had written that they desired to look over the situation and investigate the subject more thorough-ly-before replying in a way that might be considered as a pledge. It is said that only one member of the house has replied that he will oppose the re-elec-tion of Mr. Cannon as speaker. Attention is gradually shifting from the speakership to the proposal to amend the rules of the house. There are indications that the speaker may not offer much opposition to some amendments at least.

The distribution, however, will be made this afternoon at headquarters of the Automobile Club of America, when it is expected that all the successful contest-ants will be on hand. "Joy rides" have become so prevalent in New York city and so many fatali-ties have resulted from the negligence of unserupulous chaufeurs that auto-mobilists are prepared to take drastic action to stop the practise. To this end a special meeting of the sourcross of the Automobile Club of America will be held next week to con-sider the situation in general. A re-vision of the speed laws may be sought, for the broad principle which would be considered is public safety rather than a stated number of miles of the police department the speed limit should vary and fart and different localities of the city. UTAH LIGHT & CO.O. RAILWAY CO, VO For New York Water Conduit. New York, Dec. 2.-Unable to find solid rock bottom through which to carry a conduit under the Hudson river north of the city, near Peekskill, N. Y., It may be necessary for New York to erect a \$10,600,000 suspension bridge in order to perfect the new Catskill water sup-ply system, now under construction. Such a bridge would have a span of from 1,200 to 1,400 feet, with a maximum height of 150 feet. Although if built it will be used primarity to carry the giant conduit, arrangements will also be made for traffic facilities. A tentative report on the proposed structure has already been submitted to the board of water supply.
