legitimate means within its power to prevent gambling and the maintaining of oplum joints among the Chinese living in the city, and requesting that the police department be instructed to enforce the laws against the vices com-plained of, was handed in by Jong Wing, the same Chinaman who sent in the unique petition at last week's meet ing bearing on the same subject. This new document also asked that Mr. Wing, whom it characterized as a Christian Chinaman, be given protection from the threats of his countrymen who are opposed to his course. The new pe-tition was referred to the committee on police with the mayor associated.

LIQUOR LICENSE VETO.

The next item that came up was the Mayor's veto of Councilman Thomas' resolution, passed at the last Council meeting, which prohibited the issuance of liquor licenses to any one contem-plating going into the saloon business As stated in these columns heretofore, Mayor Thompson's veto was based upon the report of the city attorney, which held that a resolution could not repeal br in any way affect an ordinance passed by the Council. The veto was sustained upon being put to a vote.

LIGHTING CONTRACT.

Mayor Thompse 7, also sent in the con-tract between the Utah Light and Pow-er company and the municipality, for lighting the city for the next six years which was approved at the last Counci meeting, accompanied by his veto and several suggestions. The objections of his honor are as follows: First, that the the contract should not be made for more than three years. Second, that the contractor shall furnish the city inspector such data in the way of trimmers' reports, or meter tests, as he may require to enable him to determine the amount to be deducted from contract price for lamps not giving good service. when making his reports. Third, that a definite sum should be stated as to what shall be deducted for lamps found not burning at any time. Three cents per hour is the amount suggested. Fourth, the clause providing for the lights to burn from "dusk till dawn," he recommends be made to read from "half hour after sunset till half hour be sun rise," and that the moonlight schedule be eliminated, as it was in the old contract. Fifth, that a clause be inserted providing that if the alternat ing current lamps be substituted for the direct current lamps now in use, and should the former not give entire satis-faction, that they may be discontinued and the company be compelled to reinstate the present system.

Mr. Whittemore took the floor and said that he thought some of the points objection raised by the Mayor were all right, and others were all wrong He said the committee having under consideration the contract had gone into every detail very carefully and con. sidered them all. He spoke in favor of the alternating clause, and thought the lighting company should have the priv-lege of installing it. Councilman Hew-lett rather paired with Whitemore, but Cottreil said he was a little afraid of the new system of lighting, and favored the clause giving the city the opportunity of discarding it if the lamps proved unsatisfactory. On coming to a vote the Mayor's veto, with suggestions, was sustained, all voting aye by Presifient Buckle

FENCING OF RESERVOIR.

Councilman Hewlett called up the matter of fencing the First South and Thirteenth East street reservoir and after some discussion the board of pubic works was directed to advertise for bids for the erection of a tight board fence, and an iron fence, clear round the water receptical, and also for a board fence on the north and east sides, and an iron fence on the worth and east succe, and an iron fence on the west and south sides. Hobertson favored fencing the south and west sides with an iron ience, if the cost was not too great.

TO NUMBER HOUSES.

Mr. Buckle called Whittemore to the chair and introduced a resolution di-recting the chief of police to have all un-numbered houses in the city numbered.

RAILROAD TRACKS.

Councilman Thomas took the floor and said when the Council passed the resolution providing for the removal of the Rio Grande Western railroad tracks from Eight South, and appropriating \$5,000 for the purpose, that the resolu-tion included all of the company's tracks on that street; but in accepting the terms of the resolution the railroad people excepted to removing their tracks on Eight South street west of Third West street, and he introduced a resolution amending the former one covering the matter, providing that the railroad company do not have to move their tracks on the street named, which lies west of Third West street. Th resolution was adopted. Mr. Thomas stated that the Rio Grande company was now ready to move the tracks in

A. W. McCune tendered to his supporters in the Legislature, a banquet at the Alta club last night. Although Mr. McCune was not there himself his son E. V. McCune did the honor's for him, and he did it in McCune style, The table formed a square, in the main dining room, and a better menu was never served in the Alta club. In the hollow square was a bank of palms and American beauty roses, and from the ordinary Christensen's orchestra discoursed beautiful music.

The company was witty and good natured, and as the natural sequence the halls of the club reverberated with

laughter. Mr. McCune explained that his father could not be present, and in a few words introduced Fisher Harris as the toast-master. Mr. Harris took his seat of honor amid great applause. He was at his best all the evening, his graceful
