DESERET EVENING NEWS: THURSDAY, JANUARY 5, 1905.

Is Ex-Chief Justice of Oregon, Ex-U. S. Senator, and Ex-Attorney General of United States.

NOW MAYOR OF PORTLAND, OR.

Charge is That of Malfeasance in Office, Refusing to Enforce Gambling Ordinances.

Portland Or., Jan. 4 .- George H. Wil liams, ex-chief justice of Oregon territory, ex-United States senator from the state of Oregon, attorney-general in President Grant's second cabinet, and the first choice of the president for the chief justiceship of the United States, mayor of Portland, and a man with the snow of \$3 winters upon his head, was indicted by the county grand jury of Multnomah county today on the charge of malfeasance in office.

The indictment states that on July 13, The indictment states that on July 13, 1904, Judge Williams was mayor of Portland, and while acting in that ca-pacity refused to enforce the statutes regulating gambling. This law was passed at the last session of the legis-lature and was signed by the governor on Jan. 23, 1903. It gives the mayor power to close disorderly houses within four miles of the city, and it is alleged that he failed to avail himself of that power.

that he failed to avait minised of con-power. An indictment against Chief of Police Hunt is almost identical with that re-turned against Mayor Williams. It as-serts that on Oct. 28, 1904, a gambling game was being conducted at the Port-land club and that the chief had knowl-edge of the fact. Peter Grant and and than Solomon were the proprietors of the club, and although the chief knew that they were violating the law he made no effort to arrest them, thus dis-regarding the obligation imposed upon him by the municipal charter. Wants \$200,000 for Services as Receiver of Shipbuilding Trust.

Newark, N. J., Jan. 4.-A fee of \$200,-000 for James Smith, Jr., for acting as receiver for the United States Ship Building company was asked of Judge Lanning in the United States district court here today. Counsel for Mr. Smith declared that the fee would not be out of proportion to the services rendered by Mr. Smith

by Mr. Smith. Counsel for the Sheldon reorganiza-Counsel for the Sheldon reorganiza-tion company opposed the application and said that the sum demanded was exorbitant and that Mr. Smith's counsel would also ask pay. He said all the money that Mr. Smith handled in the receivership was not more than \$1,123,-000, and that he never really had pos-session of the Union iron works in Call-fornia or the Bath Iron works or the Hyde Windlass company's plant in Maine. The credit of the resurrection of the company, he said, is due to the reorganization committee. in his own state. "I always select my own battlefield." he replied. Discussing the subject of the Pacific

Discussing the subject of the Facilia coast forests as differing from others, George P. Emerson of Hoquien, Wash, said that the application of many meth-ods of forest perpetuation adapted to eastern woods was imjestible. Mr. Em-erson severely criticised some features of the homestend laws, saying that the general land office had eased the con-sciences of settlers in parfecting their proof by declaring all land 'not stary or gravelly was agricultural," although he said, never in the lifetime of those settlers did they expect to see anything grown on the land but timber. Public opinion, he added, had approved such an evasion of the "ridiculous law." and he said that the government, not the settlers, should be investigated. The timber act he characterized as having been framed in the interests of land grabbers, while "still more ridiculous and criminally wrong" was the lifet within a forest reserve relinquished to the government and selected equal areas outside the reserve. The forest reserve relinquished to the dowernment and selected equal areas outside the reserve. The afternoon session was president of the Automat Liveetock association, the subject of the discussion being "The importance of the Public Forest Lands to Craining."

Senator Fulton of Oregon also had a

Importance of the Public Porest Lands to Grazing." W. B. Candland of Utah, a wool grower, defended the practise of allow-ing sheep and cattle to graze on forest reservations. He declared that sheep were a protection against forest fires because of their converting into food millions of tons of vegetation.

WOMEN'S CLUBS.

Mary Abbott Appointed Chair. man of Educational Committee.

Denver, Jan. 5.—Announcement of the appointment of Miss Mary Abbott of Watertown, Conn., as chairman of the educational committee of the Gen-eral Federation of Women's clubs has been made by Mrs. Sarah Platt Decker, president of the federation. The ap-pointment is one of the most important yet made by Mrs. Decker. Other mem-bers of the committe will be deans and presidents of prominent colleges. Senator Heyburn of Idaho talked to the president about the bill he has prethe president about the bill he has pre-pared providing for the federal incor-poration of companies and concerns doing an inter-state business. He said, also, that he proposed to try to obtain consideration in the senate for the pure- food bill and, if possible, would have it made the unfinished business of the senate. As Senator Heyburn left the White House he was asked what he had to say regarding the land fraud exposure in his own state. bers of the committe will be deans and presidents of prominent colleges. "The work of this committee," said Mrs. Decker, "will be one of the fore-most considerations of the federation. We will try to formulate plans for work with college women, with a view to eventially introducing domestic sci-ence, manual training and the like into our colleges. If winter is to be dreaded for its snows, icy, cutting winds and damp, unpleasant weather, it is more to be dreaded because it brings with it the most annoying and disgusting of diseases—Catarrh. The changed condition of the most because it brings with it the most annoying and disgusting of diseases—Catarrh. of the weather brings on "bad colds" which irritate the inner skin and tissues, and they secrete an unhealthy matter that is absorbed by the blood and scattered all through the system in its circulation, and at the first sign of winter the patient begins to "hawk and spit." All the mucus membranes and tissues of the body are affected by this disease, and the filthy, poisonous matter finds its way to every part of the body, making the sufferer dull and half sick all the time. The head and eyes have blinding aches, the stomach bloats, the hearing is often affected and

in its worse forms the soft bones of the nose and head are destroyed. Local applications such as sprays, washes and inhalations can do no more than give temporary relief, because the blood is constantly circulating through the system oaded with these filthy catarrhal poisons, and it must be purified and cleansed before a cure can be effected. S. S. S., a purely vegetable remedy, cures Catarrh by its invigorating, purifying action on the blood, and the catarrhal poisons are

strong, and as it circulates through the system it carries healthful properties to the organs and tender tissues, the unhealthy secretions cease, and the whole system is renewed and built up by it. Don't let a "bad cold" become chronic Catarrh, but at the first symptom begin the use of S. S. S. and fortify the system against it.
