St. Louis, 11.—The articles of association of the St. Louis and San Francisco Railroad Co. have been filed with the Secretary of State. The company has organized to purchase the Atlantic and Pacific Railroad and to construct thirty-seven miles of track between Pacific City and St. Louis, so as to give the company a continuous rail between the termini of the road. Capital stock, \$25,000,000. The incorporators and directors for the ensuing year are Andrew Pierce, jr., Joseph Selegman, James B. Robinson, W. H. Coffin, James Barker, Samuel Hayes, C. B. Pisk, W. F. Buckley, Thomas W. Pierce, C. W. Rogers, Henry F. Verhuelven.

PHILADELPHIA, Pa., 11.—At a meeting of prominent citizens at the mayor's office, to-day, to take measures to aid the sufferers from yellow fever in Savannah, an executive committee was appointed to carry out the objects of the meeting. Over \$1,000 has already been subscribed.

A despatch from the Cheyenne agency, received at the Indian Bureau, to-day, states that all the buildings at the agency, except three, have been swept away by a flood, and that all the records and papers are gone. The agent says he cannot wait for bids, and asks if he shall employ laborers and move to some place.

RED CLOUD AGENCY, Neb., 10, via Fort Laramie, 11.—This morning a supply train of about thirty wagons left this agency, escorted by three companies of the fourth artillery, equipped as infantry, for Custer City, distant eighty miles. The supplies are for Crook's command which, it is reported, is to be there on the 14th inst.

For two days past the Indian Commission has been quietly waiting developments. It is hoped that Red Cloud will be prepared to make some response to-morrow to the propositions made by the commission on the 7th. A number of Indians from the Spotted Tail Agency came in yesterday. It is said that the Indians of this agency are waiting for Spotted Tail himself, and that whatever he favors they will do.

ST. PAUL, 11.—The *Pioneer Press* special, dated Sioux expedition, camp at mouth of Glendive Creek, 5, says: The recent order of Gen. Sheridan, designating the Fifth Infantry and the battalion of the Twenty-second as a garrison of the new post, and directing these troops to huddle themselves for the winter, has practically put an end to the campaign for this season, as far as the Dakota column is concerned. The season is so far advanced that, with the utmost industry, the troops will hardly have time to shelter themselves before severe weather sets in, and consequently the organizations designated to remain have been detached from the marching column and set at work.

The navigation of the Yellowstone has suddenly closed by the rapid falling of the water, and supplies for the new post, instead of being conveyed to their destination by steamer, must be hauled in wagons from Fort Buford. The question of the subsistence for the troops who are to remain has become so grave that all supplies brought up for the active column must be devoted to the use of the cantonment in order to provide against the danger of actual suffering, consequently our small army is to be sent home.

CHICAGO, 11.—The *Tribune's* Lacrosse, Wis., special, says: About six o'clock this evening a boiler of the Keokuk and Northwestern line packet company's mill, at North Lacrosse, exploded with a terrific report, totally demolishing the mill and machinery, worth about \$30,000, and killing the engineer, Edward Andrews. Several persons were badly wounded, two fatally.

The *Tribune's* Washington special says. Owing to the great reductions in the Post Office appropriations, the Postmaster-General will be obliged to send circulars to 900 towns, which have applied for money order offices, stating that their requests cannot be complied with, as the law requires returns of all money order offices to be made weekly. The very considerable force necessary to conduct the book-keeping of this branch of the service, and so few clerks can be retained under the appropria-

tion, that they barely keep up the present volume of work. It is probable the Postmaster-General will discontinue returning dead letters not containing money, to their writers. This is the only branch of the service that can be reduced without diminishing the revenue.

There is now no doubt that Tweed has been arrested at the request of our government.

CHARLESTON, 11.—The city is quiet to-night. Several arrests were made by the police, of colored men in the streets, who were carrying muskets contrary to the provisions of Gov. Chamberlain's proclamation.

LAWRENCE, Kas., 11.—Ethan Allen the celebrated trotter, who in his palmy days beat Dexter with a record of 2.15, died yesterday at the Kansas stock farm, aged 27.

General Sherman and Secretary Cameron arrived here this morning and are now at Fort Leavenworth. General Sherman stated this afternoon that the Indian troubles would all be settled up this winter by whipping the Indians into a lasting peace. It is probable that a new department will be organized in the north with Gen. Miles in command.

NEW YORK, 12.—An unlooked for outbreak of yellow fever was discovered this evening at the Albemarle Hotel, corner of 24th and Broadway, and at No. 46 Market Street. In the first case Mr. John Evans, a prominent merchant of Savannah, Ga., in the second case, Mark Shaw, a sailor, was taken by the city sanitary authorities to the quarantine hospital in the Bay. Shaw was also from Savannah, and his case is considered fatal. The occurrence of the disease in such a fashionable hotel as the Albemarle has produced something like a panic around the Fifth Avenue Hotel and the Hoffman House, and the Board of Health has adopted the most stringent measures to prevent infection, but are hopeful on account of the advanced season.

A telegram from the City of Mexico states that Gen. Mejia, minister of war, has retired from the cabinet, and is succeeded by Escovedo.

CHICAGO, 12.

The radical cause has received a heavy blow by the withdrawal of Pinchback, who leaves here for the north to-morrow, and will not return till after the election. The cause of his dissatisfaction is that he thinks he has not been treated just right in the matter of spoils, and so he flies the track. There is no doubt but that his withdrawal will improve the conservative chances here.

RICHMOND, 12.—Ex-Gov. Henry A. Wise died at his residence in this city at half-past 12 o'clock to-day.

BALTIMORE, 12.—The boiler of an engine on the B. & O. Railroad exploded near Frederick, Md., yesterday afternoon, and killed Angus Schafer, engineer, and James T. Cook, fireman.

BISMARCK, 12.—A special to the *Pioneer Press* says, advices just received from the Standing Rock agency indicate considerable trouble ahead. A chief named John Gross was arrested for carrying supplies to the hostile camp, creating a strong feeling between the Indians and the military, who made the arrest.

A courier who left for this place, before he had crossed the river opposite Standing Rock, heard the long roll beat and the bugle sounded, and saw the soldiers and the white men running towards the military quarters.

ST. PAUL, 12.—Governor Pillsbury has issued a proclamation offering a reward of \$1,000 each for the capture of the bandits engaged in the attempt to rob the Northfield bank. The First National Bank at Northfield has also increased its reward to \$500 each. The horses and saddles of the robbers were found this afternoon in the timber near Cleveland, on the Waterville road. This is accepted by some as evidence that the robbers have escaped through the cordon of pursuers.

HARRISBURG, 12.—The Governor issued a proclamation to-day, recommending that the citizens of Pennsylvania and descendants of Pennsylvania residing abroad observe September 20th as a holiday; that they assemble in Philadelphia on that day and take part in the ceremonies, and assist in making the day memorable in the annals of the commonwealth. The day selected is the 100th anniversary of

the adoption of the first constitution of Pennsylvania.

NEW YORK, 12.

The *Tribune's* editorial says: A contest took place yesterday at Creedmore on the short and mid range matches. In the first contest twenty riflemen made from forty-one to forty-five points each out of fifty. In the second contest the shooting was still better; the average of twenty of the best competitors being higher. The first prizes in both cases were won by the American team. Mr. Jewell showed extraordinary skill in scoring fifty points at mid range, the highest number that could be attained. The contest, to-day, will excite further the championship of the world. Whoever wins, we may feel proud of our riflemen.

ST. LOUIS, 12.—Reports have been in circulation since Sunday that a heavy forgery had been committed on the city banks, but the matter has been kept quiet. It appears, however, that a young man formerly living in Howard County, and now doing business here, forged the names of the proper officers to some blank Howard county bonds, and borrowed money on them as collateral. The forgeries are said to be upwards of \$50,000, but it is not definitely known. It is believed he raised \$15,000 in one eastern city, supposed to be New York, blanks were procured from the house of Studley & Co. of this city, which has printed bonds for Howard county, but it appears that the plate had not been destroyed. Upon what representations the bonds were obtained has not yet transpired, but it will probably be known in a day or two. It is said the young man intended to take the forged bonds up, having used them merely to meet a business emergency. At all events, the banks have been made good by the forger himself. There will probably be no prosecution.

CHARLESTON, S. C., 12.—There has been another serious outbreak among the rice hands on the Combahee. Laborers who were at work have been attacked and severely beaten. Collectors will also require importers or consignees of such goods to file at the Custom House, in addition to such evidence, their own affidavits, certifying, to the best of their knowledge, information and belief, that the goods are of the growth or manufacture of the Hawaiian Islands, and may also require the production of such further evidence as they may deem necessary to protect the revenue from fraud. The trophy is to be shot for each subsequent year upon the same terms in the country of the team holding it, at such time and place as the team shall decide upon; so if Australians win, the teams that compete will have a nice journey to the antipodes.

The following are the total scores at the 900 yard range: Scotch 528; Australians 524; Irish 524; Americans 518; Canadians 476.

WASHINGTON, 13.—Arrangements have been made with the Scotch, Irish, Australian, Canadian and American rifle teams for a three days' match at Bennington Station, on the 26th, 28th, and 30th insts. Distance, 800, 900, and 1,000 yards.

Babcock's counsel will object and demand a trial that their client may be relieved from the charge. Babcock's friends predict his triumphant acquittal. It is said that the most important witnesses for the prosecution have left the country and cannot be found.

The *Inter-Ocean's* Washington special gives a denial to the story that Schurz has been ordered off the stump by the republican managers, and states that he will speak almost daily during the canvass.

SAN FRANCISCO, 13.—A Victoria dispatch says a crisis has occurred in the local ministry. The president of the executive council having announced his views, differing from those of the Premier on the railway question, was requested to resign and acceded. The wife of Capt. J. S. Maynard, one of the most prominent stock-breeders of Colorado, died at one o'clock to-day, from the effects of a dose of strychnine, taken at seven o'clock this morning. No cause has been ascertained for the suicide, but a letter addressed to her husband, who is absent from the city, will doubtless give the reasons for the act.

FOREIGN.

LONDON, 11.—Lord Derby said England held no exceptional position in consequence of the Crimean war which, at its outset, was pushed mainly by the Emperor of the French. He believed it would be as much a mistake now as formerly to let the Turkish empire take care of itself. The value to us of its territorial integrity was real and permanent. The last word on the eastern question was, Who is to have Constantinople? Any attempt at partition would be the signal for a European war, but the relations between Turkey and her various subject races had been modified repeatedly, and they might be modified again. Arrangements for local self-government had been made with Egypt, the Lebanon and Crete difficulty had been settled with the concurrence of the guaranteeing powers, but he would never put his name to any scheme which he believed would not work.

As to the future, the British government was doing all in its power to secure an armistice and peace. The changes to be made must depend upon the concerted action of all Europe, and into the nature thereof he could not now enter. It was unjust to denounce a whole race for the faults of some. The endeavor to blot out Turkey from the map of Europe would lead to a war in which the Bulgarian horrors would be greatly excelled. It would drive the Turks into Asia and still there would be many Christians and Mahomedans living together, and not in Turkish Asia only. I do not think we could treat the question in any way that would more prejudice their position than if, feeling indignation against these atrocities, we hold language and display feelings against the whole Turkish and Mahomedan races, which would excite feelings of mutual animosity between the two religions. Let me add a word of warning. Do not suppose that because we look upon these questions from a philanthropic point of view, all foreign powers and foreign politicians do the same; and as a sequel to this do not ask your government to do that which is impossible, because, if you adopt that course, you put it
