CASH ON HAND.

The appropriations made by the last Legislature have not all been expend-ed. After all of the expenses for De-cember have been paid there will be an undrawn and unused balance of all the appropriations made two years ago amounting to about \$23,000. The average daily cost for the care and treatment of each patient for the biennial period was 32.7 cents, a small increase period was 32.7 cents, a small increase over the cost for the preceding two years, due to the advanced price of all articles purchased. The appropriation of \$18,000 for the construction of the two detached wards was not sufficient to complete them according to the plans adopted by the board, so it is asked that \$4,000 more be appropriated for that purpose. purpose.

#### NUMBER OF PATIENTS.

At the end of the last blennial pe-riod there were 314 patients in the asy-lum; at the end of this period there were 350, an increase of 36 patients in two years. It is estimated that by the end of the coming period there will be 390 inmates. The buildings, as they new are, will properly accommodate not to exceed 330 patients. The asylum is more than full now and the condition

calls for speedy relief. In the last report the board called at-tention to the number of imbeciles, idiots and feeble-minded persons that have been committed and are still be-ing committed to the asylum. They are incurable and cannot be discharged and can only remain as permanent in-mates until death releases them. The beard again asks for some kind of relief in this matter.

### RECOMMENDATIONS.

A number of recommendations for improvements are made which are embadled in the following estimate of appropriations need-ed for the asylum for the ensuing two years;

Judge Morse today upheld the constitutionality of the new vagrancy ordinance of the city which includes in its definition of a vagrant persons "who work or live in houses of ill fame.' Charles Godfrey was convicted in the police court of vagrancy, he having been employed in one of the sporting houses of the city, and was sentenced

to 100 days in jail. He appealed to the district court and his attorney moved to dismiss the case his attorney moved to dismiss the case on the ground of the unconstitutional-ity of the ordinance. The attorney contended that the ordinance is an abridgement of a persons constitution-al privilege to work wherever he chooses. The case was submitted up-on briefs, and Judge Morse today de-nied the motion to dismiss the case.

### TROUT CASE DECIDED.

#### Judge Morse Finds Dillon and Morgan Not Guilty.

Judge Morse today rendered a de-sion in the case of the State of Uta's vis Dillon & Morgan, proprietors of the Vienna cafe, who are charged with having trout in their possession out of season and contrary to the game aws of the state, in which he found the 'fondants not willy.

Laws of the state, in which he round the clefendants not guilty. The defendants, who have a private trout pond in the window of their res-taurant, were found guilty of the charge by Judge Diehl, but decided to make a lest case out of it, so an ap-peal was taken to the district court. The case was tried on an agreed state-ment of facts and was argued before Judge Morse in September, and taken under advisement. On the arguments nder advisement. On the argument and the section of the section of the given law prohibiting persons from baying trout in their possession under any circumstances during the closed any circumstances during the closed seeson was against public policy as it would prevent persons from having trout in their private ponds at all and would greatly retard the increase in trout, or in other words it would ten! to defeat the purpose of the game law, namely, to protect fish and game and allow them to therease.

namely, to protect han and game and allow them to increase. In finding defendants "not guilty" Judge Morse has decided the point raised definitely as no appeal can be taken by the state in such a case. He holds that the law does not apply to cases such as this, where the partles have trout in a private pond and keep them all seasons of the year.

#### Appeal Dismissed.

Judge Stewart today dismissed the appeal case of Steve Baldwin vs the Martha Washington Mining company upon motion of plaintiff's attorneys,

was turned loose. These fellows go out on the street and laugh at us. The court said he was a working man, but we know that he was a vag. More than that, we know positively that he went into a certain building and left a rear door unlocked so he could re-turn after dark and rob the place. This fellow Gienn has a partner in the city who steers these suckers up to Glenn to who steers these suckers up to Glenn to be fleeced. Well, if we can do nothing with the principal, what are we to do with his aids? Now, Glenn is given to understand that his chances are good for a term in the city jail for vagrancy, and rather than go into that vile old hole, he is willing to plead guilty to obtaining money under false pretences and go to the county jail. I guess that's the only thing we can do with him.

The police claim it is not right to "roast" them because of the vags in the city. They claim that the prisoners are nearly all turned loose. On the other hand, Judge Diehl has said repeatedly that he would not send a nan to jail simply because he was found sleeping in or frequenting a sa-loon. It can not be disputed that a number of hard working miners who have come to the city for a "time," and spent all their money, have been ar-rested for vagrancy. The question is always asked of winesses in vagrancy cases: "Did the defendant have any money or property on him when ar-rested?" The answer invariably is, "No." The conclusion is then jumped at that because a man has no money, he is therefore a vagrant. But Judge Diehl takes a different view of the case and refuses to send men to fall on that This afternoon Glenn was given 60 days in the county jail.

### UP AGAINST IT.

#### Police at Their Wits Ends in the Matter Of Handling Vags.

The police are up against a hard proposition and they don't know woat to do about it. The question agitating

them at present is: "How are we to get rid of the army

of vags now wintering in the city?" There is another question: "What are we going to do with such men as Harry Glenn?" The latter is now in the city juli on the charge of obtaining money under false pretenses. He was arrested several days ago on the same charge but the court gave him his liberty. Glenn is one of the smoothest confi-dence men that ever infested this part of the country. His scheme is to represent himself to be a rich cattle own er. He approaches a simple minded stranger and offers him a job to take stranger and offers him a job to take cure of a load of cattle ready for ship-ment. He offers a good salary. He then flashes a check for \$100, which he claims he has been unable to cash on account of the banks being closed. He makes several make-believe attempts to och it but make believe attempts to cash it but comes back each time with the story that he couldn't do it. He says he must have money with which to pay the feed bill of the cattle incurred while the stock is remaining over at the depot. Then he blandly asks the stranger whom he has offered a good job, if he can let him have \$25 or \$30 for a few minutes while he pays the bill, promising to refund the money when he gets the check cashed. The deal does seem rather raw, but during the present week he has managed to find at least

five suckers who unhesitatingly handed him over their hard earned cash. The cattle owner would then disap-pear. Ho was tried on this charge

Weinesday, but was found not gulity and discharged. On Thursday after-boon he worked the same graft and was jalled again Thursday midnight.
