A TAILORED BUSINESS FROCK.

The business woman who occupies an important position does not depend on the uniform of skirtwaist and separate skirt. She dresses as charmingly as her salary will permit and as simply and appropriately as her good taste dictates. This little frock of cedar brown serge is almost austere in simplicity, yet it is exceedingly smart and attractive. The tucked net sleeves add a touch of dressiness, as do also the flat bows made of brown silk braid and the embroidered satin lapels that edge the net yoke. The high waisted skirt, fitting over the bodice without belt or girder, gives a very graceful line from arm to hip.

CLUNY LACE AND EYELET EMBROIDERY COMBINED.

The fine embroidery allovers make very pretty blouses, and the model illustrated shows a very smart method of trimming. Cluny lace in three widths has been used, the wider strip forming a bolero design on the front of the blouse, and the narrower widths being used in panel effect on the sleeves and in combination with square medallions as a vest. Cluny lace is very durable and will wear and launder like iron. It may generally be depended upon to give service as a trimming for three successive blouses of lingerie material.

NEWBRO'S HERPICIDE

The original remedy that "kills the dandruff germ"—An exquisite hair dressing.

Herpicide Girls

THE LADIES OBJECT to a girlish and sticky hair dressing or one that is full of seductive chemicals intended to dye the hair. The marked preference for a clean and dainty preparation, particularly one that opens the scalp, stimulates the hair, and leaves the hair light and fluffy is reflected in the enormous sale of Newbro's Herpicide. Dandruffing hair becomes easily manageable with its refreshing quality and exquisite fragrance.

A TEMPTATION TO BE PRETTY must have pretty hair. The hairdresser may be quite plain or even homely, yet if the head is crowned with an abundance of beautiful hair, attractiveness will not be lacking. The fact that hair becomes more beautiful, more lustrous, more manageable with the use of Newbro's Herpicide is characteristic of no other hair dressing.

DANDRUFF IS A MISFORTUNE. Unpleasant and disagreeable hair is a misfortune in more ways than one. There is the actual injury to the hair follicles and the consequent loss or thinning of the hair; this may cause dis-

more that sometimes follow a removal or thinning of the hair affects women's disposition in a marked degree. If the hair is dull, brittle and itches, owing to the presence of a microscopic growth, the effect is to dampen one's spirits and cause a loss of interest in personal appearance. The use of Newbro's Herpicide overcomes the ravages of the dandruff parasite, after which the natural beauty and abundance of the hair will return as nature intended. Almost marvelous results follow the use of Herpicide. Goodness will find Newbro's Herpicide in use at all important barber shops.

STOPS ITCHING OF THE SCALP ALMOST INSTANTLY.

"Regarding the merits of Newbro's Herpicide, an article that your agent has tried will tell me to test. I have described it in several instances and have had favorable reports therefrom in each case."
