BACK FROM MEXICO.

Much Mining Activity is Reported-Samples that Pan Free Gold-Old Mines Reopened.

P. J. Donohue has recently returned from Mexico and reports a great deal of mining activity in that section of the country. A sample of gold bearing ore was shown today by Mr. Donohue which looks very much like ordinary scoria, but which is said to pan free gold. The property from which it came s located between Chihuahua and the State of Sinaloa. It was discovered originally by an Indian who sold it for

three cows and ten Mexican silver dol-It is now valued at \$200,000. Mr. Donohue says the country must have been pretty thoroughly prospected by the Spaniards of olden days, cause nine-tenths of the properties that are being worked in Mexico today are

said to be old mines which have been re-opened. In a number of them the operators of a century ago were barred from working to any depth because of the water. There were then no means of successfully grappling with the dif-ficulty and in spite of the riches these

mines contained, the tapping of water meant their abandonment. At a big outlay-running up to many thousands of dollars in some instances-some of these mines have been furnished with modern pumping machinery and it looks as if a number of American operators will reap a rich harvest in the near future.

SILVER SHIELD. Eighth Payment of \$6000 Made-Another

Level May be Opened Up. eighth payment of \$6,000 was made yesterday by the Silver Shield Mining company on its Bingham pos-The amount paid to date sessions. \$48,000, which leaves a balance of \$12,-000 still due which the company will wipe off in the next two months. mine is said to be in better condition that ever and many outside the com-pany think with those who are inside that the Sliver Shield is a sure winner. It has been the intention of the management to make the mine pay the last payment of \$6,000, but if there should be any foundation in the rumor that the

United States property will shut down the Silver Shield would find itself without power, which is at present derived from that company. Should this hap-pen the installation of a steam plant will be necessary, and the cost of such improvements would materially reduce the treasury surplus. It is also proposed to sink fifty feet deeper in the winze and open up another level. The cost of the work may also make the levying of the tenth assessment a necessity.

IRON MOUNTAIN.

Good Gold, Silver, Copper and Lead Values Found There in Addition to Iron.

Mr. D. J. Frew reports the discovery of good copper, silver and gold values in Iron county in addition to the iron deposits of which so much has been said and of which so much is expected. Some samples were recently obtained from near the surface on Iron Mountain which assayed 11 per cent copper, 7 ounces silver and \$8 in gold. Some fine samples of silver lead ore was also discovered by Mr. Frew, some of which assays high in both metals and has also a trace of gold. Mr. Frew and his as sociate, E. A. Thompson, are very enthusiastic over the rich promises made by the district.

Washington County News: Copper ore from the Savanac mine is being stored in rear of James Andrus' store preparatory to shipment at Modena. The ore'is very rich and is similar to the richest of the ore being obtained in the neighboring mine, the Grand Gulch.

marketing enough ore to pay the run-

ning expenses, but something more is

anticipated when the new shaft is com-

pleted.

At the annual meeting of the stockholders of the Grand Central Mining Company held yesterday afternoon at Provo, the old board of directors were re-elected for the ensuing year. The old board was also re-elected by the stockholders of the Victoria Mining Com-Boston Herald: Locally, the predica-ment of United States mining shares

and collateral holders clouds the situation. There is a manifest absence of co-operation among the parties in interest, and delay seems rather a disad-vantage than an advantage, since the property, now running, must soon be closed unless money is raised to continue operations and pay a debt of some \$50,000, said to be due by Jan. 10.

No. 3-

Wood River Times: H. L. Childs, manager of the placer company of Montana that is to operate on a large scale on the South Bolse next summer, left today for Butte and Helena, intending to return as soon as the snow goes, next, spring. He will have one piece of machinery weighing over 12,000 pounds to get in, and will have to make several miles of road between Soldier and the river before he can get his machinery in

Kingman Miner: T. J. Grant came in from Chloride Wednesday last to settle up some important business affairs. He is quite as enthusiastic over our northern strip as Judge Dunbar believes that the copper mines of that region have no superior. He was also captivated by the picturesque little town of St.George, four miles over the line in Utah. We are uncertain whether it was the town or handsome girls that formed the en-chantment of Mr. Grant.

Iron County Record: Marion Millett arrived here the first of the week from the Buckskin Mountains, where he has been assisting in developing a number of claims owned by his brothers and other residents of the locality, in which he is slightly interested. He reports that the principal properties have been bonded to an astern syndicate, who are furnishing money to develop them. and who will put in a smelter early in the spring. New ground is continually being located, until now the country for a distance of ten miles is dotted with

location monuments.

······ BUSINESS NOTES.

The New Year is opening up very briskly from a business point of view, and the prospects are that 1900 will eclipse any previous year in the history of the State. The banks and lead-ing mercantile houses are flooded with correspondence and calls from patrons as never before so soon after the holl-

The Deseret Savings Bank yesterday afternoon declared a two per cent divi-dend now payable. It was also decided to make the dividends payable quarterly hereafter.

company, held yesterday afternoon, W son were elected a board of directors. The officers will be named in the near future.

say of the holiday trade in Salt Lake: The holiday trade has been very satsfactory, and business continues good. The year has shown a substantial increase in all lines, averaging about 20 per cent. Money is easy, with a better commercial demand, and collections are fair."
