I could not rest or sleep well at night and woke up as weary and languid in the morning as I was when I went to bed. Now I have no more pain in my side, no more headaches. I sleep well and feel strong and able to do my work." Dr. Williams' Pink Pills are the best nerve tonic because they convey nour-ishment to the nerves in the only way that is in accord with the plan of na-ture-through the blood. QUALITY TALKS.

And of our various lines we carry you cannot find one that is not above the standard. Our prices are right, too, and we are

absolutely certain that we can supply your wants in house furnishings, no matter what they are.

It will soon be stove time, and we are just egotistical enough to think that our stove is the best on the market. We make this assertion after handling this line for a number of years and after attesting the stoves thoroughly. We can certainly show you QUALITY in stoves.

You know, we know and everybody knows that "ELWELL" on a kitchen Cabinet stands for Quality.

Did you ever hear about the man who ownd a backwoods store and refused to keep molasses in stock? Because the dum stuff sold so fast, it was a nuisance to handle? Well this is about the fix we are in with our line of tables. The quality is so fine and the prices so good that we simply can't help selling.
