LOCAL AND OTHER MATTERS.

Thermometer 32 degrees F. in the shade, 1 p.m. to-day. Windy, duty, disagreeable.

Another Shop—Squires & Sons have opened another shop, in the Townsend House.

Going North—Presidents Brigham Young and Geo. A. Smith purpose leaving for Cache Valley to-morrow morning.

Horticultural—We are requested to announce that the members of the Horticultural Society are desired to meet to-morrow night, for the transaction of particular business.

Discharged—E. Smith, the lad who was arrested on a charge of making Mrs. Messer's home to run away, causing her to be thrown from the wagon, was discharged to-day, as it was shown that the fault was not one-sided.

Missionaries Going—Some of the missionaries called at the recent Conference intend leaving this City in the morning. They will meet a company of others from the north at Ogden, with whom they will proceed to their fields of labor.

Weather—An abundance of wind, clouds of dust and general disagreeableness. Rather warm at the same time, giving people that parched, dry feeling that is anything but pleasant.

A good shower would be acceptable.

Discharged and Held—To-day Mr. Richard Anderson was under examination before Justice Clinton, on a charge of assaulting with intent to kill Mr. Rogers at Brigham Junction. He was discharged on the "intent to kill" part of the charge, and was held in \$200 to appear on Thursday next and answer to the charge of assaulting Mr. Rogers with intent to do him bodily injury.

Monroe—We had a pleasant visit this morning from Bro. Jas. Farmer, of Monroe, Sevier Co., from whom we learn that about four hundred of the people in that settlement of country had entered into the United Order. The crops are all in, and looking well, with good prospects for a plentiful harvest.

The working of the Order, so far, has given general satisfaction, under the judicious leadership of the Bishop of that Ward.

Montana Cattle—The time was when cattle used to be driven from this Territory to Montana and sold in the latter market. It seems now that the tables are turned in that respect and that Montana is sending cattle to Salt Lake and disposing of them in the best market.

A large herd of animals from Montana were in town to-day, and considering the distance they had traveled, they looked remarkably well, as a general thing.

Fish—We understand there is some idea of establishing a fishery at Utah Lake, in connection with the United Order of Provo, and having an agency for it in this City. That is right; nothing like a unity and consolidation of interests to secure permanent prosperity. Besides, it will be a good thing if this market can be supplied with fish at such rates as will place it within the reach of all classes.

The Vegetable Market—Perhaps it is not generally known that the people of Bountiful have a co-operative association, the object of which is to supply the vegetable market of this City with every thing in the line as fresh and good as it can be got anywhere. The soil of Bountiful is admirably adapted for raising the prime of vegetables in abundance and their enterprise in endeavoring to supply the Salt Lake market in a co-operative capacity is commendable, and already they are doing a thriving wholesale business. Bro. James Briggs and Ashby are the agents of the association, and their stand is in the City Market building.

They send around their market wagon to the houses of customers every morning, and where two or three neighbors combine, they are enabled to give the consumers the benefit of the lowest prices, besides the advantage of having their vegetables delivered to them fresh.

Theatre—There was a fair house at the Theatre last evening, to see "On the Slope at Frisco," a five act play of California high and low life. The playing was good, but as it was a first night, it had the usual lack, in some of the characters, of the action not being sufficiently spontaneous and prompt, which may not be seen in a second performance. Mr. Messer's play, giving a very striking picture of the hoodlum genus, much after the style of Mr. Williamson's performance of the same type of character, though not quite so fiery. The hoodlum is not exactly the sort of person to make a hero of, although he may have his good faults as well as his bad ones. But Mr. Messer's hoodlum does a deal more good than harm, very effectively portrayed, and is exceedingly amusing.

Miss Colville looked, dressed and acted in an engaging manner. Her costume in "splendid" with the single fault of being too short at the upper end, which, however, is abundantly compensated by redundancy on the carpet.

Misses Cogswell and Adams, Mrs. Douglas and Messrs. Sawtelle and Thorne were effective as usual.

This play will be repeated this evening.

The Emigrants—We are happy to say that we have been able to secure the benefit of a reduction in the fare to New York for the company, which we hope will result in a large number of emigrants.

This Conference President will be fully advised by circular.

We are strongly impressed with

the fact of building a company this season by way of Philadelphia, in the hope of securing cheaper fares, and of shortening the distance, it is possible, and demonstrating the other advantages which are claimed by the agents of the Philadelphia Company in favor of that route.

The Members of the High Council are requested to meet at the City Hall on Wednesday morning, at 10 o'clock.

Stray Dog—A gentleman called to-day, and wished us to state that he had picked up a stray pig, the owner of which will do well to call at this office.

Information Wanted—Mrs. Emily Louisa Robinson, 27 Bucks Road, Douglas, Isle of Man, wishes to gain information of the whereabouts of her sister, Mrs. Elizabeth Wright, supposed to reside somewhere in the Territory. Mr. Robinson is exceedingly anxious to communicate with her. Address as above or to Mr. R. F. Nielsen, of this City.

For California—Messrs. C. B. Savage and Geo. M. Ottinger expect to leave this City on Saturday morning for the Pacific Coast, the main object of their visit westward being to obtain views of California scenery. Mr. Savage will take a number of photographs of shipping and Mr. Ottinger will bring back with him a number of marine views of which to make paintings, in which line of art he has very marked ability.

They expect to be absent about ten days, or perhaps longer.

The Trip to Provo—The excursion party to Provo got back to the City yesterday afternoon. The affair was got up in compliance to General Doniphan, besides whom a large number of citizens, on invitation of President B. Young and the officers of the Utah Southern Railroad, participated.

The party had a most agreeable time. While at Provo they visited the woolen factory and partook of an excellent dinner at Mr. S. Kimball's.

The men who have done kind or noble actions and been friends in deed, because in time of need, to the Latter-day Saints, are retained in grateful remembrance in the hearts of that people, and among those whose memory will be long cherished is General Doniphan. Long may he live and prosper.

Pardoned—Yesterday Warden Rockwood was notified, by official document from the Governor, that his Excellency had pardoned Fred Stockfield, who has been serving out a term of imprisonment for the crime of grand larceny. The pardon gives as the grounds for the extension of gubernatorial clemency that Stockfield has a wife and several children, who are much in need of his labor for their support.

Now Fred is something of a hard case. This makes the second time he has been pardoned from under the Warden's care, and on the 25th of December last he made his escape from the Penitentiary and was subsequently pardoned. Besides this, he was the leading cause of a good deal of trouble among the other convicts during the fore part of last winter. Altogether, Warden Rockwood is of opinion that of all the convicts under his charge he is the least worthy of pardon; if good conduct should be the standard upon which it should be granted.

When not under the guardianship of the Territorial Warden, Fred has frequently been a member of the City prison chain gang.

When these facts are considered it will not be a matter of surprise if the twice pardoned convict returns again to his old practices, and should this be the case the party who will have good grounds for laying his mallet or axe to the misdirected clemency of Governor Wood. It seems to be the plain duty of the Governor, before exercising so important a prerogative as the pardoning power, to take every proper means to satisfy himself of the worthiness of the object upon whom such favor are bestowed.

Stocked was set at liberty this morning.

BY TELEGRAPH.

TO-DAY'S DISPATCHES.

EASTERN.

The Fate of Dockery. New York, 26.—A Havana letter says that the American F. A. Dockery, arrested at Neuvieta, will be returned to Puerto Principe for his trial. His fate is uncertain, depending on the Governor General. The letter also says the Cuban government makes America virtually responsible for the Cuban war, by charging additional customs duties and a tax of ten per cent on the net profits, which the foreign ships must pay.

The "Liberator" in New York—The steamship Idaho, from Liverpool, which was ashore on Friday, has arrived here. The steamer, which is to carry the scientific party to the South Pacific Ocean to witness the transit of Venus, December 8th, is in full readiness. Twenty-six scientists are expected from Washington, with their instruments. In a few days, and the ship will leave the harbor with two hundred persons on board. The company will be divided into two parties, to be landed at Crozet's Island, Kerguelen, or Desolation Island, Hobartown, in Tasmania, formerly Van Diemen's Land, New Zealand and Chatham Islands. Here the steamer is to remain until after the transit of Venus, when it will start for the eighteen months' voyage. The steamer is to be commanded by Mr. Washington, and is mostly new and very elaborate.

Overlooked with Honors. London, 26.—The Times this morning announces that President Carnot has been overlooked with honors and received the title of Earl of Sussex.

Several Madrid newspapers ac-

cused Coubertin, the American minister of attending a banquet given by the opposition deputation, including Figueras and Castellar. The editors suggest that Coubertin must be ignorant of European diplomatic usage, as well as of the significance of certain names.

FRANCE.

Will Contest the Election. PARIS, 26.—The republican candidate for the assembly in the department of Nièvre, will contest the seat of Bovering, the Bonapartist declared elected.
