MINING, BUSINESS AND STOCKS

FIFTEEN TONS BROUGHT \$50,000.

Ore Taken From January Mine At Goldfield Contained the Sensational Values.

\$6,000 ROCK IN THE JUMBO.

This Mine Breaks All Records in the New Camp-The Combination A Winner.

The Tonopah Sun contains the following concerning the recent sensational strikes at Goldfield and Tonopah, which it characterizes as being the richest gold and silver discoveries of modern times. It says:

"In the January mine a very rich strike has been made known and the rock there will yield all the way from \$200 to \$10,000 or more per ton. It is so rich that team loads of 12 to 15 tons are worth from \$50,000 to \$60,000 and with every team is a guard with a Winchester rifle. These treasure bearing teams have been on the road be-tween Goldfield and the railway for

several days.

'The greatest of all thus far known is that in the Jumbo mine back of the town of Columbia in the Goldfield district. One ledge has been opened up showing values for four feet across the value, averaging 48 000 per tou.

showing values for four feet across the veing, averaging \$6,000 per ton.
"For two or three weeks picked ore from the Combination mine has been sacked which would run as high as \$10,000 per ton. The quantity is not believed to be as extensive as that now exposed to view in the January, but all agree that it is rich enough for an ordinary mortal.

all agree that it is rich enough for an ordinary mortal.

"Perhaps the next richest strike in the lot is that in the Montana-Tonopah mine of this city. The value have been given out officially by President Knox is from \$2,000 to \$3,000 per ton, but there is a very strong current of belief that his statements do not begin to represent the true values.

ONTARIO QUICKSILVER.

Company Continues to Derive Revenue From This Metal.

he report comes from Park City to effect that the Ontario mill is giving very satisfactory results and is getting down to steady work. One of the most pleasing features in connection with it is the revenue being derived from the quicksilver deposits found in the earth under the mill and record the site of the old plant dismanaround in the earth under the fill and around the site of the old plant dismantied several months ago. More than enough revenue was obtained from this source to more than pay for the present plant and the supply is not yet ex-

WILL BUILD SMELTER.

Ladd Metals Company Secures a Site in Seven Devils District.

The news came by 'phone from Seven Devils district, and stated that on that day the Ladd Metals company had secured a grant of several acres of land from Thomas G. Jones, the found-er of the town of Landore, and would begin work immediately on the con-struction of a large smelting plant on the ground, says the Weiser, Ida., Sigthe ground, says the Weiser, Ida., Signal. The message also stated that that Ladd Metals company would begin moving to Landore immediately, all the machinery and supplies of the company at Homestead, Or., where they had first contemplated constructing their plant, and that six six-horse teams had been that day started to Homestead from Mineral to begin the work of removal.

It was also stated that the Ladd was also stated that the Ladd

Metals company had secured control of the Blue Jacket, White Monument, Peacock and Helena mines, owned by the American Mining company, which

the American Mining company, which they will operate in connection with their smelting plant.

These mines are among the best developed in the Seven Devils district, and have produced thousands of tons of high-grade copper ore. The company will begin immediate arrangements for working these mines, and begin taking out ore for the smelter.

BULLY BOY SHIPMENT. Lensers of Marysvale Mine Getting Re-

sults at This Old Producer.

Marysvale, Utah, June 12,-The mining Marysvale, Utah, June 12.—The mining districts surrounding Marysvale are being extensively worked. The Bully Boy and Webster leases have made a ear load shipment from this famous producer of years ago which promises hig returns. Merriam and Tinsman are the leasers. The ore runs high in lead and carries heavy gold and silver values. The opening of this property means much for Bullion creek.

Dr. Franklin, of the Franklin syndi-

Dr. Franklin, of the Franklin syndi-cate, has been delayed in getting here. Supt. Larsen reports he will be in shortly accompanied by a party of east-en capitalists. Dr. Franklin is doing some heavy development work and un-doubtedly will open up the rich deposits this section contains.

GOVERNMENT SURVEYS. Outline of Work to be Conducted by

Geological Survey. The field work of the Western divi-sion of topography, United States Geo-

sion of topography, United States Geological survey, during the season of 1904-5 will cover cortions of 11 states. This work is under the general supervision of Mr. E. M. Deuglas.

Under the immediate direction of Mr. H. L. Baldwin, Jr., several 15-minute quadrangles will be surveyed in the state of Montana. Messrs, Fred Mc-Laughlin, H. H. Hodgeson, A. B. Searle, and William Stranahan will act as chiefs of parties. In addition to the work on the 15-minute quadrangles, about 200 square miles will be surveyed in co-operation with the reclamation ed in co-operation with the reclamation service on the scale of 2,000 feet to 1 inch. In order to determine whether inch. In order to determine whether mining operations at Butte cause subsidence of the surface a number of bench marks will be carefully established with proper referenc to distant points under the direction of Mr. R. H. Chapman. The topographic surveys in the northern part of the Lewis and Clarke forest reserve comprising perions of the Kint.

ern part of the Lewis and Clarke forest reserve, comprising portions of the Kint-la lakes and Marston quadrangles, will also be directed by Mr. Chapman.

In South Dakota 2½ 15-minute quadrangles will be surveyed. It is also proposed to survey, in co-operation with the reclamation service, 190 square miles of area on the scale of 1,000 feet to 1 Inch, with 5-foot contours. The work will be under the general direction of Mr. W. H. Herron, assisted by

Messrs. Irvine, Birdseye, and Black-

Mr. Richard T. Evans ill have charge of a party for the survey of the Medicine Bow quadrangle, on the scale of 2 miles to 1 inch, with 100-foot con-tours. This sheet includes several mining areas, among the best known of which is that about Centennial. General supervision of this work will be intrusted to Mr. T. M. Bannon, who will also have immediate charge of a party also have immediate charge of a party making the topographic survey of the custern portion of the Yellowstone forest reserve. This includes the area in the vicinity of Kirwin, where important mining properties are in progress of development. Mr. M. S. Bright will carry a line of levels between the coast survey datum at Rawlins and that at Orin Junction. This will include some extension of the work in the vicinity of Casper, preparatory to the topographic survey of a quadrangle in that vicinity. Mr. R. B. Robertson will connect the triangulation from the Colorado positions with those in northwestern Wyoming, carrying it across the southern portion of the Bighorn forest reserve.

In Colorado, Mr. Frank Tweedy, assisted by Messrs. Pearson Chapman. Moore, and Buell, will complete the topographical survey of the Blackhawk 15-minute quadrangle. They will also finish three special maps, on the scale of 1,000 feet to the inch. of the mining ish three special maps, on the scale of 1,000 feet to the inch, of the mining areas about Central City, Idaho Springs and Silver Plume, Mr. J. F. McBeth will carry triangulation over a proposed forest reserve south of Lake City and will incidentally locate stations for a detailed survey of the mining area about Creede. He will also commence the survey of the San Cristomence the survey of the San Cristo-

al quadrangle.

Work in California and Oregon will under the general direction of Mr. R. Marshall. The Iron Mountain special quadrangle will be completed by Mr. A. I. Oliver. Work in co-operation with the state will be continued in the Sacramento valley, where it is planned to survey five 15-minute quadrangles, all on a scale of 2 inches to one mile. The Oil Center special sheet will be com-pleted and the Bakersfield 15-minute pleted and the Bakersfield 15-minute quadrangle continued. Two 15-minute quadrangles north of San Jose and Mount Hamilton will be surveyed. In this work Mr. Marshall will be assisted by Messrs. George R. Davis, S. N. Stoner, C. L. Nelson, E. R. Bartlett and H. R. Ferriss. It is planned that Messrs. C. F. Urquhart and R. A. Farmer shall extend triangulation and leveling in the high Sierras. The survey of the Grant's Pass quadrangle in Oregon will be undertaken by Messrs. A. I. Oliver and E. M. Fry. The Telocaset quadrangle will be completed by Mr. W. C. Guerin.

In Washington, work on the Pullman quadrangle will be continued by

man quadrangle will be continued by Mr. L. C. Fletcher. Mr. A. H. Sylvester will complete the topographic survey of the Mount Adams quadrangle Under the direction of Mr. R. H. Chapman, vertical and horizontal control will be carried forward over a portion will be carried forward over a post of Whatcom county, preparatory to the survey of the Bellinghan quad-

rangie.

In Utah, Mr. A. E. Murlin will complete the survey of the Gilbert Peak
quadrangle, comprising a portion of
the Uintah forest reserve. The survey of the Frisco quadrangle, which includes the Horn Silver district, w

be commenced.

Mr. Arthur Stiles will complete the topographic survey of the Van Horn 30-minute quadrangle in El Paso county, Texas, and commence the survey of a 30-minute quadrangle to include the principal oil wells in and about Beaumont. The Bonham 30-minute quadrangle will be completed during the winter by Mr. Fred Mc-Laughlin.

During the fall of the winter of 1904-5 opographic survelys will be e under the direction of Mr. T. M. Ban-non, in the vicinity of Phoenix and inder the direction of Mr. T. M. Bannon, in the vicinity of Phoenix and
Mesa, Arizona. Survelys in charge of
Mr. Richard T. Evans will be continued
in the Grand canyon. A special map
covering the Tombstone mining district will be made by Mr. R. H. Sargent, who is at present in China engaged in making surveys for the Carraged in making surveys for the Car-

gaged in making surveys for the Carnegie Institution.

Surveys in New Mexico will be carried on during the winter under the direction of Mr. R. H. Chapman. These will include the survey of the Socorro 15-minute quadrangle and the extension of triangulation southward and castward from the Gila river forest reserve. It is planned also to measure erve. It is planned also to measure a base line in the vicinity of Socorro. The survey of forest reserve bound-tries, under the direction of Mr. A. F. Dunnington, will be taken up in the following order:

fellowing order:
Lewis and Clarke reserve, Montana, by Mr. W. H. Thorn.
Pocatello reserve, Idaho, by Mr. F. E. Joy, who will later take up survey of the Logan and Payson reserves in Utah.
Aquarius reserve, Utah, by Mr. J. Walker who will, during the winter, mark the boundary of the Wichita reserve, Oklahoma.

Oklahoma Work on the Santa Barbara and San Jacinto reserves, California, will be commenced by Messrs, Thorn and Joy during the winter and probably con-tinued into the spring of 1905,

AT THE N. Y. BONANZA. All Work is Being Centered on the 400.

Foot Level.

R. G. Wilson manager of the New York Bonanza property at Park City, visited that property yesterday. He says there is little of interest occurring there at the present time, but work is being pushed ahead vigorously on the 400 level; on which is believed to be the Outney yein.

Quincy yein. Mr. Wilson characterizes the story Mr. Wilson characterizes the story circulated in camp during the past week to the effect that the mine would be closed down shortly, as being false. Nothing of the kind is thought of at the present time. "We have not reached the point yet where we expect to get our ore." said Mr. Wilson today. "but we are confident that we will get to it in a furthe while. Everything looks to it in a little while. Everything looks very satisfactory at the mine.

MINES ARE CLOSED. This is a Holiday in Several of Utah's

Camps. This is a holiday in the mining camps. This is a holiday in the mining camps. All the mines of importance are closed in order to give their employes to enjoy their annual outing with the members of the Miners' tupion who have taken Lagoon by storm today. The miners are organized in Park City, Tintle and Bingham and in those camps particularly, there is little going on today.

TALK COMBINE

Plan Being Worked Out to Amal gamate All the Principal Producers in United States.

ROCKEFELLER IS VERY ACTIVE.

Gold Mines to be Included in Gigantic Deal-Heinze Said to be Willing to Join Issues.

New York, June 13.-In connection with its prediction of a gigantic combination in the near future all the valuable mineral properties in the United States, with the possible exception of the Calumet & Hecla copper properties in upper Michigan, the World says:

"Within the past 10 days John D. Rockefeller has taken up personally the task which had been left to his brother William and to H. H. Rogers, who have been conspicuously identified with the mineral interests of the Standard Oil company. For 10 years the Standard Oil capitalists have been acquiring the mines of America through

their banking interests. "In Colorado David Moffat and Den-nis Suliivan of the First National bank of Denver have paid out many millions in the last six years for mines, and are said to control 70 per cent of the pro-ducing gold, silver and lead mines of the middle Rocky Mountain district. "Senator Clark, owner of the United Verde Copper mines of Arizona and with large holdings in many of the Amalgamated Copper companies' mines in Montana, has been working with Mr. Rogers for several years. The extensive placer gold interests of Southern California controlled by the Southern California banks, are in such condition that they can be taken over at any

time.

"F. A. Heinze has been in this city for several weeks. He will neither affirm nor deny that he is negotiating for the turning over of his interest in Montana to the new combine.

"The only stumbling block in the way of the deal is the insistence of Mr. Heinze on being made an officer of the new company, which wil make it possible for him to keep certain promises in Montana."

FORENOON ON 'CHANGE. Montana-Tonopah Registers an Advance -Century Active.

The feature brought out during the morning sessions of the mining ex-change was the strength displayed by Montana-Tonopah. Only 100 shares were transferred, but the price paid was \$2.12\frac{1}{2}. Century also displayed considerable activity at steady prices. Tetro sold on the open board at about the quotations prevailing at the close of

last week.

The closing quotations and sales were

CONCENTRATES.

A. J. Millick and son, are in the city from Osceola, Nevada,

W. H. McIntyre has returned from a pilgrimage to Alberta, Canada,

A shipment of matte from the Yama smelter reached the sampler today. Superintendent Charles Chismon will return to the Utah mine on next Wed-

The roads to Alta are in good condi-tion again and shipments of ore are increasing.

The Johnny company of Stateline has called upon its shareholders for a 5-cent assessment payable July 9.

Walter C. Orem, manager of the Utah Apex properties at Bingham is in camp on an inspection trip today. Sam Gilson has departed for the Colorado river to operate some placers. He

will work near Dandy Crossing. The Pilot Knob Copper company, operating at Ely. Nev., is reported to have made some important strikes recently. Thirty thousand feet of lumber has been ordered for the new concentrator

to be built at the Ruth mine at Ely,

J. D. Hawkins, general superinten-dent of the United States Reduction & Refining company, has returned to his home in Colorado after an inspection of th Utah Copper properties at Bingham.

The shipments of ore from Park City last week aggregated 5,001,680 pounds as follows: Creote, 39,000; K. K., 123,000; Ontario, 636,000; Daily West, 2,443,000; Silver King, 1,760,680. Total, 5,001,680.

George Crismon, president of the Utah mine at Fish Springs, returned Saturday night from a trip to Alberta, Canada, where he is the owner of a large tract of land. He reports the country as being in a very prosperous condition.

A. F. Holden, managing director of the United tSates Mining company left for the cast Saturday night. The initial dividend of \$200,000 will be posted at the next meeting of the board of directors. The St. Louis-Oniario property at Park City is active again.

At the Ontario mine, the working force has been increased materially of late and immense bodies of milling ore are being developed. Some of these deposits were opened some time in the earlier days of the mine's productiveness, and some of them are entirely new.—Park City Record.

At the Daly work in the shaft is how progressing nicely, the water having been pumped out this week. No further trouble is anticipated from the surface water and work will be pushed in the ore bodies which was uncovered in the shaft shortly before work was suspend-ed on account of water.—Park City

Charles S. Loring has been in the Park all week, superintending the removal of his concentrating mill, which he formerly operated in Woodside canyon, from here to Idaho, where he has a proposition that is promising, and where he thinks he can operate his mill very profitably. It is the hope of Charley's many friends that he will make a fortune in his new field of operation.—Park City Record. Park City Record.

A deal was consummated this week y which a one-third interest in the by which a one-third interest in the Little Johnny group of mines about 18 miles west of St. George, passes over from John Rehner to Francis Higgins, who already owned a third share. The remaining shareholder is Arthur Empey of this place. The Little Johnny is one of the promising copper prospects of this district, which is yet, however, in a rudimentary stage of development. A couple of shafts have been sunk, one 63 feet and the other 40 feet, and a 63 feet and the other 40 feet, and a crosscut 50 feet below is partly com-pleted, showing nearly 100 feet of ledge matter.-Dixie Advocate,

STOCKS OPENED A LITTLE HIGHER.

While Dealings Were Not Large They Were Well Distributed.

SOME SOLD TO REALIZE.

Soon Relieved the Market of Pressure -Selling of Selected Stocks Forced Prices Down.

New York, June 13 .- Opening prices in the stock market today were a small fraction higher throughout the active list. Some of the less conspicuous stocks were a shade lower. Dealings were on a mod erate scale, but were well distributed Weakness in United States Steel preferred and ffeetive selling of the coalers and grain carriers undermined the market and prices dropped below Saturday's closing. United States Steel preferred dropped be low 54, but otherwise the drop was slight Canadian Southern advanced I, Cotton Oil preferred 14 and Kansas City Southern preferred 214. The completion of selling to realize reneved the market from pressure Prices fell back again before noon.

Bonda were irregular. Selling of selected stocks forced prices down again. Practically all of the leading stocks were quoted from 1/2 to 1/4 below last week's final. The decline in prices came to a halt in the afternoon when offerings ceased, but there was no effective raily.
