SCALY SORES AS

**BIG AS PENNIES** 

Covered Whole Head and Neck After

an Attack of Measles—Hair All Came Out—Doctor's Treatment

Had No Effect-Suffered 6 Months

CURED IN 3 WEEKS BY

CUTICURA COSTING \$1.50

"After having the measles my whole head and neck were or veried with scaly sores about as here an penny. They were just as the the trouble run along, taking the doctor's blood rem-edias and rubbing on salve, but it did not seem to get any hetter. It stayed that way for about six menths; then I get a set of the Cultura Hemelies.

that way for about six months; then I get a set of the Cultura Remedies, and in about a week I acticed a big d remee, and in three weeks it was we i entirely and I have not had the Culturenty more, and as this was seven years ago, I consider myself cured. I used one bottle of Cultura Reselvent, one box of Cultura Continent, and two cales of Cultura Scap. I think it a splendid meanche, and I recommend it whenever I can. Mrs. Henry Porter, Albion, Neb., Aug. 25, 1906.

National Association for Preven-

tion of Tuberculosis Meets

In Washington,

DR. BEATTY RECEIVES LETTER

Communication Setting Forth the

Plans of Proposed Great Gather-

ing Scheduled for Next Year.

A copy of the plans of the National A copy of the prevention of Tu-Association for the prevention of Tu-

T. B. Beatty, president of the state

board of health from John S. Fulton

of Washington, D. C., speretary-general of the association. It is repro-

During the hottest part of the presi-

dential campaign of 1908 Washington

will be the scene of one of the most

important scientific congresses ever

held in America. During the last 10

days of September and the first 10 days

of October, 1908, a large number of dis-

tinguished men from all parts of the

world, physicians, hygienists, sociolog-

ists and humanitarians, will assemble

in Washington to discuss the problem

of tuberculosis. This great gathering

will be organized under the name of

will be organized under the name of the International Congress on Tuber-culosis. It will number several thous-and members and delegates, and the visitors to Washington on account of the congress will number thousands more. There is no doubt about the magnitude and importance of the con-gress, but its altractivenees to hol-members remains to be proved. If a congress on tuberchlosis can draw many hundreds of Americans to Wash-ington in the critical stages of a presidential campaign, there can be no doubt that the modern crusade against the great which plaque is the most ab-sorbing contest which medical science has ever waged. The anti-tuberculosis campaign has indeed "caught on" with the American people, and is going for-

the American people, and is going for-ward in deadly carnest, but an outsider may doubt whether it can compete successfully with so great a political

Having in full view the intense pre-occupation of public interest at that time, the National Association for the

time, the National Association for the Study and Prevention of Tuberculosis has chosen the time and place for the international congress to suit the pleas-ure and convenience of the foreign members and delegates, and the as-sociation has not the slightest doubt that the congress will be a great suc-

INCLUDE NOTED MEN.

The directors and council of the na-

The directors and council of the ma-tional association include the most not-ed authorities on tuberculosis in this country, and they are, moreover, a body of wise men in public affairs. Their plans contemplate something far broader than a convention of scientific men. They expect to have a tuber-culosis exhibition which, up to this date, will surpass in variety and inter-est, anything of the sort ever attempt-ed. The collection of illustrative ob-jects has been going on in this coun-

upstir.

CCSS.

berculosis has been received by

duced in full.

This following simple presciption, which anyone can prepare at home, is said to restore the Kidneys to perfect health, forcing them to filter all poisons and acids from the blood, overcoming Rheumatism, even in its worst form. Any good druggist can supply

these ingredients: Fluid Extract Dandelion one half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake these well in a hottle, and take a teaspoonful dose after each meal and at bed-

Your physician will tell you there is no better or safer mixture known to cleanse the blood and build it up, which everyone should do at this time of the year. Readers of this paper can make no mistake by following this simple though valuable ad-

## 

of all the forces engaged against tub-erculosis within the limits of such state. The restriction of fuberculosis is a political problem, quite as much as it social or medical problem, and by total problem, quite as much us it is a social or medical problem, and by ex-tending its organization along official lines the congress will probably secure the largest and most enduring benefits to the country, and at the same time represent the country in the most favor-able way to foreign visitors.

CONGRESS COMES HIGH.

The international congress will cost The international congress will cost a good dear of money. The National as-sociation will provide a fund of \$100.000, and this sum will come chiefly from the private purses of a few wealthy and enlightened men who see in this con-gress an opportunity to give a fremen-dous impetus to the movement against tuberculosis. When the 45 states grow busy in preservations when state bounds Warm baths with Cuticura Soap, and warm baths with Cuticura Scap, and gentle applications of Cuticura Oint-ment, the great Skin Cure, speedily cure, in themajority of cases, torturing, disfiguring facial and other humors of infants, children, seemingly incurshle dous impetus to the movement against tuberculosis. When the 55 states grow busy in preparations, when state boards of health, schools of agriculture, medic-al schools, research laboratories, city health departments and the numerous unofficial agencies dealing directly with the tuberculosis problem begin to make ready for the International Congress on Tuberculosis, substantial values will accumulate at a great rate. The chief concern of the National association is to co-ordinate all these beneficent forces, giving them accurate range and well defined objects, so that they may strike with life-saving effect in every corner of the country. The event of the current quarter century—that is what the International Congress on Tuberco-losisw ill be for the American people, the cholcest opportunity ever offered for a massive movement against the greatest of remediable scourges. Such are the views of the National association about the fortheoming congress on tub-erculosis, and it will not be allowed to come and pass as an event of merely unusual interest. From now till the middle of September, 1808, the labor of preparation will not cease. If singleness of purpose and work without stift re-ward the association according to its faith, the congress will-leave a substan-tial deposit of active saving faith on every inhabited acre of American soil. and adults when seemingly incurable by all other remo-dies. No other treatment so pure, so sweet, and so speedily effective for preserving, purifying, and beautifying the skin, scalp, bair, and hands, as well as for all the purposes of the toilet, bath, and nursery. Guaranteed absolutely puro and may be used from the hour of birth. Complete External and networks the second Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Culteura Scap (25c) to Cleanse the Skin, Culteura Gintment (25c) to Heat the Skin, and Culteura Resolvent (50c) to Heat the Skin, and Culteura Resolvent (50c) to Heat the Skin Bood. Sold throughout the world. Potter Drug & Chem. Corp. Sole Propa. Poston, Mass. ur Mailed Free, How to Cure Skin Humora. George Blumenthal are giving their tinancial support to the movement.

### LURID STORY EXPLODED. Infernal Machine" Used by Woman Proves to be Burglar Alarm.

The police had a good laugh this morn ng over the lurid story published this norning anent the arrest yesterday afteroon by Officer Carlson of a demented oman at the Orpheum roominghouse and con by Officer Carlson of a demented be discovery of an "infernal machine," which was exploded and wounded a hardbermald in the hand. As a matter of fact there was no in-ernal machine to it in any sense of the vord, it was simply an old device, in use ver 30 years, known then as a burgiar larm. It is a little affair which may e loaded with a .22 caliber bullet. The machine cab be attached to a door, trunk, alise or desk and when opened a spring a pulled back and discharges the cart-idge. If placed near the lock of a door he person opening the door may get the bullet in the hand. This happened to the bambermald at the Orpheum rooming-ouse, but it ddin't happen yesterday but courred last week. Furthermore, the bambermald was not badly nurt and here was no X-ray examination. That Mrs. Cotton has been in an un-alanced state of mind for soveral davs a fact. She was taken in charge by officer Carlson at 240 yesterday after-boon and placed in the city jail, after which she was taken to the county jail ind placed in a paded cel. This morning Officer Carlson filed a completing her with insanity and a commis-don will make an investigation tomorrow difference of a log of the soveral davs.

SHORT TALKS BY L. T. COOPER.

matter. A great many people try to get a fine, clear, pink and white com-plexion by rub-bing things on their faces. They might rub a life time and the same yellow com-plexion would remain—for the liver causes it. Only bright, red blood brings fine complexions. Blood load-ed with impurities from the liver sends the impurities from the skin a brown-ish yellow.

To get rid of the dull, heavy feeling and muddy, yellow complexion get the liver to working again. Two bottles of Cooper's New Discovery will do this nine times out of ten though some-times it takes four or five bottles.

"My health had been poorly for sev-eral years. My face was yellow and covered with pimples, I was bothered constantly with chronic constipation, had little or no appetite and could not sleep well at night. I became weak and lost all ambition. I tried many different medicines but nothing seemed

different medicines but nothing seemed to help me until I began taking Coop-er's New Discovery. It seemed to help me at once. Now, after I have taken several bottles I feel entirely well. My face is clear, I sleep well, have a good appetite and am quite myself again."

TRIB

Banks' intuitively or otherwise, commenced buying sailors and "mushroom shapes last September for the present season. Today they offer either the consumer or the merchant and millinery trade "The Same Goods at the same prices under the same conditions that they can be had for anywhere else in America."

avages

The principal difficulty now confront-ing the officers is in obtaining convict-ing evidence, but proof is coming in and the net is being drawn about the men. McVernay and Williams. Capt. Burbidge said this morning that he felt certain they had the right men. There is much damaging evidence against the prisoners. First, they de-clared they had never been in Salt Lake and were not acquainted here. McVernay has been seen here several times by Chief Sheets. Williams had a tie purchased from a local store and his collars were marked by a Salt Lake laundry. This morning Tom Needhahm, bar-

ed. The collection of illustrative ob-jects has been going on in this coun-try for several years, and the exhibi-tion method of educating the public on this subject is employed in many for-eign countries. During the three weeks while this exhibition is in progress, visitors can learn what is going on the world around in the fight against tu-berculosis. The exhibition will be open and free to the public at all times, and its contents will be as interesting to the man in the street or to the high-school pupil as to the savant. Tu-berculosis exhibitions have been held in many American cities and have at-tracted visitors by thousands. The value of the exhibition as a means of

George Blumentnal are giving their financial support to the movement.
DISTINGUISHED AUSPICES.
The project to hold this congress in Washington had its inception under very distinguished auspices. The last international congress on tuber-culosis met in Paris in 1905, and the Arcrican delegates invited the congress to hold the next menting in the United States. Mr. Roosevelt seconded the invitation, through Mr. Mc-Cormick, the ambassador to France, and the invitation was accepted with a great demonstration of enthusiasm. The prospect of a visit to our country seemed very agreeable to the foreigners. It was generally understood that President Roosevelt, in seconding the invitation, acted unofficially.
For physicians the international congress on tuberculosis will be an unique event. Such a gathering is not likely to take place again in this country. Canada and Mexico.
The international congress will be hardly less attractive to sociologists, for in this country the tuberculosis problem has taken a strong hold on the leaders in organized charity, many of whom have become leaders also in the anti-tuberculosis movement.
This occasion will be the readers of this in the anti-tuberculosis movement.
This occasion will be the vettorinary interest among the medical schools within casy distance of Washington, which and other countries.
Another class of visitors likely to attend heatmest teachers of this and other countries.
Another class of visitors likely to attend in numbers will be the veterinarians. It is said that surprises are howed and the remarkable collection of pathological specimens in the exhibition, and to attend lectures, clinics and the nonstrations by famous teachers of this and other countries.
In proportion to their numbers, the public health officials and the how public health officials and the sorial is not the compresident schee and the astate force. Only circumstances of grea

## ENDORSED BY 'PHONE.

An action has been brought in the dis-trict court by the Utah Commercial & Savings bank against Fisher S. Harris to recover \$1,000 and interest alleged to be due on a promissory note executed by the Lipman Mines company on May 21, 1904, the payment of which is alleged to been guaranteed by Mr. Harris on he telephone.

tender at the Bank, and one of the vic-tims of the holdup, saw the prisoners at the city jail and again identified them. Suddenly the "big man" ex-claimed to Needham: "Say, Tom, you're not agoin' to prosecute me are you?" And then, like Trampas, in the Virginian, he could have bitten his tongue out for his fool remark.

THEIR EFFECTS ARRIVE.

There express package containing the money and other effects found on the men at McCammon, arrived at police headquarters and were turned over to Capt, Burbidge. The package contains other evidence against the prisoners. The money corresponds exactly with the amount stolen from the victums of the daring crime.

the amount stolen from the victims of the daring crime. On Williams were found bills, gold and silver to the amount of \$59,70. On McVarnay there was \$80,45 as follows: Gold, \$20; bills, \$25; silver, \$20; half dollars, \$8; quarters, \$5; 10 cent places, \$2; nickels, 45 cents. In McVernay's package was found a cartridge of the 45 caliber that fits the big gun brought back by the of-fleers and there was a 25 cent place somewhat battered and a mark in the center which may be identified as part of the money stolen from the cash till.

cash till.

BURBIDGE HAS CLUE;

BURBIDGE HAS CLUE; Capt, Burbidge and Sheriff Quigley have hopes of locating the third man before long. They have a clue as to his whereabouts but will not make a statement for publication in this mat-ter. Williams, the smaller man, was being closely questioned by the offi-cers early this afternoon but what he was asked and what he said is be-ing kept secret by the officers. The prisoners have told conflicting storles and both are nervous and ap-parently afraid that something will be discovered by the police to fasten the crime on them. Since their arrival here they have been placed in sep-arate cells so removed from each other that communication between the two has been impossible. That both have been in Salt Lake before, and that they not only know the city, but are acquainted with people here there can be no doubt whatever. It is the hope of the police that one or both of the men will confess and re-veal the identity and whereabouts of the third man.

Mrs. W. M. Ferry was hostess at an elaborate reception yesterday, the hours being from 3 to 6 and about 200 guests being present. The rooms were bouutifully decorated in Ameri-can Beauty roses and Illacs and a number of intimate friends assisted including Mrs. E. O. Howard, Mrs. Walter Filer, Mrs. Benner X. Smith, Mrs. A. Y. Calaghan, Mrs. Frank Jon-nings, Mrs. Heber M. Welts, Mrs. Geo. Jay Obson, Mrs. Eskridge, Mrs. Erra-est Bamberger, Miss Kate Williams, Miss Katherine Geddes and Miss Meud Thorn. 8.04174

Mrs. Margaret J. Clawson and Mrs. John Groesbeck will chtertain at a luncheon on Thursday at the home of Mrs. Groesbeck on First street.

Mr. and Mrs. C. A. Walker will give a party tonight at their home in cele-bration of their twentieth wedding anniversary 6. 0.1.001
