

ANNUAL REPORTS OF CITY OFFICERS

Filed With Mayor Thompson Show
The Work of Various De-
partments for 1906.

BOARD OF WORKS' REPORT.

Expenditures and Improvements In-
augurated During the Past Year
Mark Growth of the City.

The annual report of the board of public works for the year 1906 has been filed with Mayor Thompson and it shows that the total cost of public improvements made during the year was \$880,195.13. This is a new record in the matter of public im-
provements. There were 39.5 miles of cement sidewalks, 11.25 miles of water mains, 8.0 miles of water mains and 8.0 miles of water mains.

The report contains the following summary of the total cost of the board made under the direction of the board and of the cost of the various improvements:

Expenditures on permits.....	\$ 596.08
Office fixtures.....	4,410.48
Street and sidewalk repairs.....	1,578.08
Omitted from miscellaneous.....	124.60
Cost of work under contract.....	\$80,895.13
Total.....	\$880,195.13

The item for "cost of work under contract" is segregated as follows:

Street pavement.....	\$114,861.57
Curb and guttering.....	3,328.61
Cement sidewalks.....	192,450.78
Pipe sewers.....	65,730.63
Water mains.....	64,092.24
Water mains.....	33,819.82
Big cottonwood conduit.....	\$28,374.03
Gravelly outlet sewer.....	\$28,292.69
Intercepting sewer.....	\$13,519.46
Joint and Salt Lake canal conduit.....	\$13,995.30
Total.....	\$880,195.13

BUILDING PERMITS.

City Building Inspector Gamble reports that during the year 1906 a total of 621 permits were issued by his department to various owners for the construction of buildings to the value of \$2,315,930. His report, which is now in the hands of the mayor, shows the following business for the year:

For brick, cement and iron build-
ings, 492 permits at an estimated cost of \$2,131,129, and for those of other materials, 129 permits at an estimated cost of \$184,801. There were 20 permits for alterations, at an estimated cost of \$77,500, and fees of \$43.50. Permits for electric signs not included in the foregoing, numbered 31 and paid fees of \$1,722.25.

The expenses of running his office were \$900 for salary and \$48.94 for office supplies. The net revenue over expenses in 1906 was \$725.75 as compared with \$762.55 in 1905.

PLUMBING INSPECTOR.

City Plumbing Inspector Fred Spencer reports that during the year 1906, he issued 396 permits for plumbing, and examined all plumbing work under the year, 1906. He made 397 inspections of sewer connections, 1,185 of plumbing on new and old buildings and 43 miscellaneous inspections. He received \$22,146.95 in fees and \$236 in receipts for expenses. He recommends the passing of a city ordinance establishing a board of examiners to examine all persons desiring license to operate as plumbers.

WEIGHTS AND MEASURES.

The report of the city inspector of weights and measures, H. H. Brown, for the year 1906 shows that 299,876 pounds of oil were tested and the fees of the office amounted to \$749.69 for testing weights and measures, making a total of \$1,246.79. The expenses of the office were \$322.70.

CITY CEMETERY.

Section J. E. Wiscomb of the city cemetery has filed his annual report with the mayor and it contains the following statement of receipts and disbursements: Receipts—Care of lots, \$2,146.95; for opening graves, \$2,146.95; sale of lots, \$5,563.75; total, \$10,272.95. Disbursements: For cemetery supplies, \$2,430.07; and pay roll, \$14,574.10; total, \$16,994.17.

JANITOR SERVICES.

During the year 1906, the city paid out \$34,410 in janitor service for the city side of the joint building according to the report of the chief janitor, R. M. Banning, which has been filed with the mayor. The requirements for his department during the year amounted to \$4,019.60.

POLICE REPORT.

Chief Sheets Issues Annual Statement Of Work of Department.

A report of the Salt Lake police department for the year 1906 was yesterday given out by Chief of Police George Sheets. Following is a summary of the paper filed:

Number of officers.....	81
Expenditures for 1906.....	\$50,156.83
Police department.....	\$ 6,888.89
Arrests.....	4,826
Dispositions of cases:	
Convicted.....	2,768
Released.....	146
Dismissed and discharged.....	1,825
Dead.....	65

Of the arrests made, 1,418 were for

PROVE YOUR CLAIM

DR. WILLIAMS' PINK PILLS A SPECIFIC FOR ANAEMIA.

They Have Been Curing It for a Generation and are Recognized as a Safe Family Medicine.

When the body becomes run down either as a result of overwork, worry or a severe illness, an examination of the blood would show it to be weak and watery. This condition is called "bloodless." The common symptoms are paleness of the lips, gums and cheeks, shortness of breath, and a beating heart after the slightest exertion, dull eyes and loss of appetite. Anaemia itself is a dangerous disease and it may gradually pass into consumption. It must be cured by treating its cause, which is the poor condition of the blood. Dr. Williams' Pink Pills are the greatest blood purifier and blood builder and other blood diseases for nearly a generation.

Mr. Louis L. Clark, a painter of 19 Lincoln Place, Plainfield, N. J., says: "Last May I was obliged to undergo an operation for appendicitis, and while the operation in itself was successful, I did not recover my strength and health. I was confined to my bed for over a month and was under the doctor's care. When I was able to get up, my legs were so weak and unsteady that I could only walk with a cane with difficulty. My stomach was very weak and my appetite poor, and I was not getting proper nourishment. My heart was very irregular. "I was getting no better and could not think of going back to work. I was discouraged, when a neighbor told me that Dr. Williams' Pink Pills had cured her and advised me to try them. I began taking them about the middle of June and soon felt so much better that I kept on until now I am entirely cured. "Dr. Williams' Pink Pills have cured rheumatism, chlorosis, after effects of the grip and influenza, and as the health of the nerves depends upon the purity of the blood, they are invaluable in neuralgia, nervous debility, sleeplessness, dizziness, and even locomotor ataxia and paralysis. "Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

drunkenness and 1,192 for prostitution, while the remainder were divided thus: Assault and battery, 121; burglary in the degrees, 68; robbery, 40; trespassing, 513; false pretenses, 109; embezzlement, 43; keeping house of ill-fame, 68; keeping teams untied, 67; not given, 232; petit larceny, 109; variance, 72; violating bicycle ordinance, 72; soliciting, 25; violating sanitary ordinances, 37; violating sidewalk ordinances, 46. "Of the persons placed under arrest, 3,558 were Americans, 220 colored, 23 Austrians, 32 Canadians, 116 Danish, 35 English, 77 Finlanders, 85 French, 47 Germans, 4 Indians, 180 Irish, 51 Italians, 58 Japanese, 3 Chinese, 81 Russians, 106 Swedes, 29 Welsh and the rest of the nations had a small quota. There were 33,964 males and 33,964 females in the city jail and the mayor pardoned 11. The value of the property stolen was \$9,195.15, and the amount recovered amounted to \$6,718.61.

FIRE DEPARTMENT.

Report for the Past Year Shows Reduction in Expense of \$10,000.

Chief Vail of the fire department has handed in a report for the past year, with certain recommendations. The cost of the department for 1905 was given as \$71,514.63, while for 1906 it was \$61,686.48, or nearly \$10,000 less. It is estimated that the expenditure for the present year will be \$64,500.

The building of a fire station in the southwestern part of the city, the new station to be on the corner of Second and Main streets, and a hose and chemical wagon and to be handled by six men, is recommended. During the year past there were 237 fires in the city, with an aggregate of \$60,283.60.

WHAT THE STREETS COST.

Supervisor Raleigh Tells of the Year's Work Accomplished.

The net expenditures of the street department for the year 1906 as shown by Street Supervisor Raleigh's report, which has been filed with Mayor Thompson, amounted to \$106,323.35. This is distributed as follows: Labor for street, irrigation and sprinkling departments, \$37,496.56; salaries, \$3,790; material and supplies, \$22,782.59; special work, \$3,809.46. From these various amounts credits for material furnished to other city departments and for supplies on hand amounting to \$11,460 must be deducted to arrive at the net amount first given. This shows a decrease in the net expenditures of the department of \$46,535.42 as compared to the year 1905.

The toll tax collections for the year amounted to \$2,478 in cash and \$10,215 in labor, a total of \$12,693. The expenses of the toll tax department for the year were \$213.67.

The department put in 652 new fumes during the year, repaired 1,208 fumes and 36 bridges, and put in 26 new bridges. A new shed was built in City Creek canyon for the tanks, the cost of which was \$4,300.

During the year 60 blocks were added to the city, making about 14 miles more of streets to care for. There are 328 miles of streets, 560 miles of ditches, 24 miles of canals for the department to look after. In addition to these there are 75 wagon bridges, 3,324 foot bridges at street intersections, 4,181 fumes, 3,667 crossings, and canal bridges, 260 bridges, and three large fumes to be kept up in condition.

His recommendations Supervisor Raleigh asks that he be permitted to grade and turnpike all streets and to be authorized to start on the work so as to complete it by Oct. 1. He also recommends the construction of a storm ditch on Seventh East street to catch the flood waters coming off the bench and thus saving the city from great damage. On account of the increase in the price of lumber he suggests that all large wooden bridges be replaced with all of concrete instead of spending so much money in repairing them.

TRUCKS IN ALL TRADES.

Report of Food Inspector Tells of the Milk Industry.

The report of Walter J. Frazer, inspector of provisions, contains some interesting facts in regard to food products. For instance, the milk supplied to Salt Lake customers by the creameries in the north end of the state is "denatured" of its water by means of evaporation and the remaining portion shipped to Salt Lake at a cost of 50 per cent less in freight. Upon arrival in this city the milk is rejuvenated with the proper amount of aqua pura, and it is then placed upon the market for public consumption. Inspector Frazer says the milk is in every way up to standard, and in no case has the addition of any preservative been discovered in the milk thus reduced to save freight. During 1906 the sale of milk exceeded that of 1905 by 1,764 gallons. In the same period milk and ice permits added to the city's revenue the amount of \$1,615.50, of which \$1,104.85 was disbursed, leaving a balance of \$510.65. The following products were condemned by the inspector:

Beef, 178 lbs.; veal, 50 lbs.; pork, 88 lbs.; hams, 175 lbs.; fish, 1,900 lbs.; fruit, 134 lbs.; vegetables, 1,160 lbs.; cereals, 321 lbs.; eggs, 385 dozen.

KILLED IN A BOXING BOUT.

New York, Feb. 5.—John Mason, who is alleged received a knockout blow in a friendly boxing bout in the parish house of St. Bartholomew's Episcopal church on Jan. 25, died tonight in St. Francis hospital.

IS DELIGHTED WITH SAPPETE

P. P. Dyreng Tells of the County's Resources, Industries, Hopes and Plans.

How Moisture and Irrigation Played Hayco With Crops—What Manti Can Do.

STORY OF AN INDIAN CHIEF.

How Moisture and Irrigation Played Hayco With Crops—What Manti Can Do.

P. P. Dyreng, representative from Sappete, is a type of the business man of his county, being interested in many of its leading institutions. He is cashier of the Manti Savings bank, the pioneer of Sappete; president of the Commercial club; has business interests and devotes much attention to sheep and stock raising. "Sheep raising is our principal industry," said Mr. Dyreng today. "When our ranges are good, our business is good, and times are good. When the sheep fare badly, we all suffer. In the county I think we have 75,000 or 80,000 sheep. These sheep in wool and mutton, last year brought in something like \$150,000. Farming is not carried on so extensively now as before. For several years past the weeds have been making such inroads upon our grain crops that the farmers have been forced to adopt some plan in order to exterminate them. Wild morning glory and wild oats are the two worst weeds we have to contend against, but by sowing the land to alfalfa we are slowly getting the better of these enemies to crops.

MOISTURE RUINS CROPS.

"While naturally our section is a dry country, yet last season we had too much moisture and many crops became rusty and spoiled. This was caused by increased rainfall and too much irrigation. A reservoir recently constructed has resulted in giving us the crop of alfalfa per year where formerly only two were grown, so the excessive moisture has done some good. Much of the land in this county, particularly that about Moroni, in the northern portion, is adapted for sugar beet raising, and three years ago we came nearly getting a sugar factory erected. The site was picked out and all, when some hitch occurred which delayed the construction work. We haven't got the factory yet, but are living in hopes.

SOMETHING ABOUT MANTI.

The city of Manti is enjoying a steady growth, not partaking of anything in the nature of a boom—but a substantial expansion which means permanent progress. She has two railroads, two water systems, a first class electric light plant, two roller mills, a newspaper, four lawyers, three physicians, two dentists and 2,800 people. In addition, the machinery of county government is there. The Seventh district court convenes regularly at Manti.

THE STORY OF ARRAPINE.

"It has a live Commercial club, named after the old Indian chief, 'Arrapine,' and thereby hangs a tale. When Brigham Young sent the settlers south, the Indians were very unfriendly toward the settlers and gave them a great deal of trouble. Finally Arrapine, the chief, agreed to preserve peace and a treaty was entered into with him whereby he deeded the whole valley to Brigham Young and the settlers. This deed is on the official records of the county today, and while it does not legally convey anything, yet at the time it was the means of bringing peace to the settlers then, which was after all, what they most wanted. "So our Commercial club was named after this noted Indian.

PEOPLE AND BUILDINGS.

"One-third of our population is composed of that good old stock of commonwealth builders from Scandinavia and Germany. Our most beautiful building is the Mormon temple, and when plans are carried out for beautifying the surrounding grounds, the temple will present a magnificent appearance. The Presbyterians have also a substantial stone church building, and there are many creditable school buildings and business blocks.

HOME RESOURCES.

"We have vast quantities of coal in the county, there being seemingly inexhaustible supplies of a very superior grade within four miles of town. Coal is found in creek beds and most anywhere, and its production will be one of the big industries of the future. We have medicinal springs which have shipped water for medicinal purposes. We have a fish hatchery where black bass are propagated; we have excellent drainage system, in good water supply, and an abundance of that greatest of all blessings—good health.

WHAT OOLITE IS.

"Another prosperous industry is the production of building stone. Our oolite stone is shipped in large quantities to Salt Lake and even to San Francisco. What is oolite? Well, the windows of your great temple are trimmed with it, that creamy-white strip surrounding the window sash being oolite stone. It is used a great deal for trimming purposes, and is sometimes even more extensively used in buildings. "We have numerous fraternal organizations, among them a ladies' literary club. We have a company of the state militia, and two first-class brass bands.

TWELVE MILE RIDE

Trouble, But He Had an Object.

We are willing to take trouble to get things we value. A Mo. man was so much benefited by changing from coffee to Postum, that he was willing to ride about 12 miles to get it. His daughter writes: "My mother, father and myself have been drinking Postum for two years and have been greatly benefited by its use. "Before we dropped coffee and began to use Postum, Mother was poorly nourished and only weighed 95 pounds. After she used it a few weeks she began to gain in weight and she kept getting stronger and better until now she weighs about 150 pounds, and we all believe it is due to leaving off coffee and drinking Postum Food Coffee, because she has taken no medicine of any kind. While she drank coffee she was very nervous, but since using Postum she has no such trouble. "Father was troubled with indigestion, when he drank coffee, but Postum has changed all that. He says he likes the taste of it much better than coffee. When I happen to be visiting and drink coffee I am usually sick a few hours, everything sours on my stomach and I get very nervous. "We find there is a big difference in the way Postum is prepared. It should be boiled properly according to directions—then its flavor is fine. "Father rides about 12 miles to get it. He says he would not do without Postum if he had to go still farther to get it. Name given by the Postum Co., Battle Creek, Mich. Read the little booklet, 'The Road to Wellville,' in pkgs. There's a reason."

CAMP AMONG THE PINES.

Consumptives Being Treated in the Pine Woods of Maine.

In the pine forests of Maine, in the northeastern quarter, a famous specialist in consumption and kidney troubles, has a camp in the deep pine woods. With the oil of the white pine trees he is effecting cures that are attracting the attention of the world, and are so certain that a relapse is almost unknown. Patients so ill that they had to be carried into the pine woods on a litter have come out in a few months completely cured. It has a peculiar healing power over affections of the throat, lungs and bronchial tubes, will break up a cold in twenty-four hours and will cure a cough that is curable.

The treatment is very simple, consisting of the Pure Virgin Oil of Pine mixed with whiskey and glycerine in the following proportions: Virgin Oil of Pine (Pure).....1-2 ounces Glycerine.....2 ounces Good Whiskey.....8 ounces Elshak.....2 ounces

The ingredients can be secured from any good prescription druggist at small cost. In reply to the prescription department of one of the leading druggists elicited the information that the Pure Virgin Oil of Pine is put up only in half-ounce vials for dispensing. Each vial is securely sealed in a round wooden case, with engraved wrapper showing the name "Virgin Oil of Pine (Pure)." There are many rank imitations of the Virgin Oil of Pine (Pure), which are put out under various names. Never accept these as substitutes for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired result.

In fact we have nearly everything that goes to make up a modern, progressive community, and we are glad to welcome your people down there, whether as guests, or as settlers."

EVEN FROM THE MOUNTAINS.

Ballard's Snow Liniment is praised for the good it does. A sure cure for rheumatism and all pains. Wright W. Lovell, Grand Junction, Colo., writes: "I used Ballard's Snow Liniment last winter for rheumatism and can recommend it as the best Liniment on the market. I thought, at the time I was taken with this trouble, that it would be a week before I could get about, but on applying your Liniment several times during the night, I was about in 48 hours and well in three days." Sold by Z. C. M. I. Drug Dept. 112 and 114 South Main Street.

DIRECTORS ELECTED.

Excellent Financial Showing of the Country Club.

The Country club held its annual meeting yesterday, and elected the following directors for the ensuing year: E. W. Packard, F. T. McGurkin, David Barnett, Grant Hampton, David P. Taylor and William Igleheart. The club has a membership of 294, of whom 140 are resident men, 138 resident women, 8 non-resident men and 8 non-resident women. The financial condition of the club was reported by Treasurer F. T. McGurkin as follows:

RESOURCES.	
Bills receivable.....	\$ 99.35
Furniture and implements.....	2,774.36
Restaurant stock.....	59.19
Wine stock.....	958.84
Real estate, including club house, stable, golf course tennis courts, etc.....	38,655.59
Due from members.....	695.49
Sundry accounts.....	22.90
Total.....	\$42,565.54

LIABILITIES.	
Bonds outstanding.....	\$35,000.00
Bank overdraft.....	600.00
Sundries.....	32.03
Profits.....	6,932.50
Total.....	\$42,565.54

The fact that the total assets of the club are carried at \$42,565.54, the same books, while the true value of the property owned by the organization would exceed \$80,000, shows the gratifying condition of the club's finances. The unanimous vote of the successful administration of the retiring president, E. B. Wicks, was approved, together with those associated with him in the conduct of the club's affairs.

BUYS A NEW HOME.

Lambert Paper Company Purchases The Clark-Eldridge Building.

The Clark-Eldridge building on First South street, opposite the Southern Hotel, which has been on the market for some time, was finally disposed of yesterday afternoon. It was bought by George C. Lambert, for \$20,000, by the Lambert Paper Company, which recently purchased the property through

Martineau & Clark for \$20,000. The building is 40x120 feet on a 60x230 foot lot, and is four stories with basement. The Lambert Paper Company, of which the last purchaser is the president, will occupy the premises at an early day.

TAILORS' CONVENTION.

It Meets in Hotel Astor, New York, on February 12.

New York, Feb. 6.—Several hundred merchant tailors from all the eastern and central states will meet in this city

Feb. 12, to take part in the annual convention of the Tailors' National exchange. The convention will be held at the Hotel Astor and will continue for three days. The membership of the national exchange is recruited from various district exchanges which in turn are made up of a number of local exchanges. Its object is to bring about an interchange of ideas, at stated intervals, partly in the interest of uniformity of styles of clothing, and for the mutual interest and protection of members. In the latter connection, the organization maintains a labor bureau, the function of which is to exert the influence of the entire body in averting or settling any trouble which may arise between the members and its employers. One of the features of the convention will be an exhibit of garments manufactured in the various centers, showing all the various styles, and a series of short talks on styles, and methods of manufacturing, with the models as

illustrations. On the opening day Hugh Ardleigh, of this city, will address the convention on "Advertising by Merchant Tailors." The principal address of the following day will be by H. E. Dorr of Plymouth, Mass., whose subject will be "American Woollens," and on Feb. 14 Frederick T. Cronborg of Chicago, will speak on "Modern Tailoring," the convention will close with a banquet on the evening of Feb. 14.
