DESERET EVENING NEWS: SATURDAY, MARCH 11, 1905. 25 gnammanammanammanammanammanamp tances of from 50 to 300 feet apart. current of the wind is always in, and 1 *********************************** this inward rush prevails throughout the entire explored portions of the cave These range in height from 50 to 100 feet in height. They are connected by **Deseret News Stories** WONDERS IN THE CAVE OF THE WINDS. except in a small passage not far from the entrance, out of the mouth of which the wind comes to meet the main cur-Just Tired side passages hardly wide enough for Of More an ordinary man to pass through. Than rent and go back into the cave in an unvarying circle. There are eight tiers or layers of these That's what many women say when the day is done. Don't you know worry makes more women thred than work ever does. Baking worry is done away unvarying circle. The perfect purity of the air in the cave may be caused by the steady cur-rent of air. On a warm day the ex-plorer feels the chill upon entering, but in a few moments is confortable and need not worry about draughts or cold. In all the miles of cave there is not a bat, rat or insect to be found. There is no moisture at any place and no water except that which seeps through from the surface into the up-per tiers of chambers. About 100 miles have been explored since 1851 and 3,000 rooms have been found. But there is no evidence of any ending. The guides have laid out the cave in 14 different 40 Years fissures, the lowest being 500 feet from CCORDING to the ideas of Prof. | ably the frost work, are so delicate FROM THE FILES OF 1860, a a Ago. Horhill, of the Smithsonian In- that they could not owe their existence the entrance. The chambers have all been found in th fissures and range in stitution, the wonderful Cave of to the action of water, but must have size from 12 feet square to a little over the Winds, in South Dakota, is been formed by gas or vapor which congealed as it struck the limestone. The three acres. A recent survey of the of an unknown formation. Other geolchasing Indians and Killing Grizzlies, cave disclosed the fact that it covers ogists incline to the opinion that it is cave is an immense bed of limestone, a SMITH'S hands to save himself and the other hands to save himself and the other two persons. As soon as Haight let go, the girl with her uncle who was on the other side of her, went down and when Carbine came up he had the young lady's shawl in one hand, but she was not seen to rise again. Her body was found the same day about a half mile below where she was drowned lodged on some brush-wood. an area of two miles square. We have been favored with a perusal an extinct geyser, perhaps a former | labyrinth of boxwood, stainctites, staiof a letter from a young man in Major The name, Wind Cave, is well deoutlet for the warm mineral waters agmites, popcorn, geodes and frost work FLOUR smith's command, written at the South served. In every moment of the year which now come to the surface at Hot of such delicacy and glistening white-Pass, a few days since, in which he Springs and its vicinity. Some of the ness that it crumbles at the slightest the wind is rushing in or out of the engave a very graphic account of a bear trance, its direction being regulated by the rise and fall of the barometer. About 200 yards from the entrance, whether going in or coming out, the ******************* formations show evidences of having touch. of which he was an eye witness. The fissures or crevices which form been formed by the action of water, a tive of the daring of the "Moun-toys" who are serving on the routes, but only three are open to the the cave parallel each other at diswarm mineral water, and some, notdrowned, lodged on some brush-wood. public eeks since the Indians stoie e mules from the Big Sandy d Major Smith with Lieuten-d Major Smith with Lieuten-e) Knowiton and 20 men, get-thern direction towards the ar mountains, followed them miles to where they had branch of Green river, which h that it could not be crossed by swimming, which the man-t not prudent to undertake, t his men were not proficient. The pursuit of the native as therefore abandoned and my moved down the river on m to camip. SPECIAL SALE THIS WEEK OF NEW **NEW SHIPMENT OF** MOHAIRS JUST RECEIVED. White[™] Colored Wash Goods An extraordinary display. The most stylish and effective of the new Stocks now complete as to colorings, patterns, etc., in the much wanted mohair fabrics for spring and summer. Our immense collection now shows every desirable shade in vogue and all the fancy mixtures, dots, figures and plain colors, destined to be so popular this season. An extraordinary display. The most stylish and effective of the new geoagn's colorings and weaves are here, winsome and beautiful. Sheer goods lead in the vast display being predicted as the most popular wash fabric for 1905. Every woman in Salt Lake knows Cohn's su-periority in the display of wash fabrics from past seasons' experiences, but this year's showing excells and outshines any previous efforts, and all marked at our popular small profit prices. The few values below are but a sprinkling of the many great bargains that abound in the department. (y) moved down the river on a to camp. I not proceeded far before a discovered on the opposite stream, and Major Smith. Knowiton and Sergeant H. resolved to swim their and give "grizziy" a chase, did, and, on reaching the found two bears instead of easts moved off up the bluff rate, and the major and his mmediately gave chase. AT COHN'S

Judge Eckles had discharg-prisoners taken from the y on writs of habeas cor-3rd inst., referred to in our We have not much to say on the sub-

It now, but at a proper time, may dew the whole matter, and show the malecaance of certain officials use duty it is to see that the laws the territory are faithfully executed.

Western Utah-The news from the aing districts in the western part of territory by last mail was not very teresting to those who prefer peace ad good order to such scenes of row-rism and bloodshed as are of freent occurrence in that ill-fated re-

shooting business continued and there was no probability of eing any decline during the seafloating population of Calias pouring over the Sierra and filling up the country by wherever gold or silver had

Occurrence-On Wednesday illiam Haight, a young man ars of age, son of Mr. H. C. armington, was crossing the ford near Slaterville, It the ford near Sutterview on City, with a span of Wagon, his horses balked, was upset and Miss Eugenia ithrop, about 15 years old, the wagon with him, was

though fordable at that high and, like all mountain ry rapid. After passing the d of the channel safely the ed and on being urged to nto deep water, where, by g of the wheels and the current, it was turned over

Aurrent, it was turned over we stream with the horses, h were drowned. Carbine, the girl's uncle, the river on horseback at he and was a little ahead of m when it stopped. See-culty the young man was back to assist him and, tried to keep the wagon

Reulty the young man was t back to assist him and, s. tried to keep the wagon ling, but to no purpose. Yeat over, young Haight sirl, who was his cousin, into the river on the upper then, by the assistance of Yeam with her for the north the current was so strong ould not make it, and they swam across to the south a near the bank they fell pool or eddy. Being chilled ness of the water and near-d, they all came very nearly together. Haight selsing a l one hand, tried to pull to h one hand, tried to pull to could not hold to it firmly ad thinking the girl had a of him, he let go of her and i of the willow with both
