

BRYAN AND ANTI INJUNCTION PLANK

Indications Are That He Does Not Contemplate Changing Position for Conservatives.

FAVORS RATHER RADICAL ONE

Labor Federation Legislative Attorney Tells Prospective Candidate About The "Independent Vote."

Denver, Colo., July 1.—What is regarded as the very latest indication that Mr. Bryan does not contemplate changing his position on the injunction question to meet the ideas of the conservatives, was brought to town today by Frank S. Monett, Republican attorney-general of Ohio from 1886 to 1900. Mr. Monett was in conference with Mr. Bryan at Lincoln yesterday as the result of which he says he will have Mr. Bryan's endorsement in appearing before the resolutions committee of the convention to state the legal and political reasons why the injunction plank should be dropped from the Democratic platform to amendment of the law in these three particulars:

CHIEF FEATURES. "First, to prevent the issuing of the writ in industrial disputes except after notice to defendants and full hearing; second, to permit a jury trial in all cases other than the one who issued the writ; and, third, to allow a jury to be summoned in all cases where the alleged contempt is committed outside the presence of the court."

That Mr. Bryan has heretofore taken his stand on an injunction plank containing these elements is the statement today of Mr. Monett and the fact that Mr. Bryan requested Mr. Monett to urge their acceptance by the resolutions committee is taken by the Ohioan to mean that Mr. Bryan will be satisfied with nothing less.

Having recently been the legislative attorney in Ohio for the Brotherhoods of Railway Conductors, Engineers and Firemen, as well as having close contact with labor's views through his legal connection with the miners and brickmakers in the Hocking Valley strike of last February, Mr. Monett said today that he informed Mr. Bryan that Roosevelt's 250,000 majority from the industrial districts in Ohio and 500,000 in Pennsylvania was given because labor believed President Roosevelt was labor's friend, particularly on the injunction demand. This "independent vote," as Mr. Monett named it today, would, he said, surely go to an independent candidate should one be put on the field in the event the Democratic party failed to pledge itself in positive language on this question. Mr. Monett, however, is of the opinion that while the labor element of the country is asking for notice, jury trial and hearing before another court, the question of notice is the vital part of the issue, and that assurance of this much of the demand by the Democrats would be more nearly satisfactory to labor than is the declaration of the Chicago platform.

HISTORY OF ISSUE. The history of the injunction issue, Mr. Monett said, was what Mr. Bryan was most anxious should be given the resolution committee in detail. In complying with this request, Mr. Monett said today he contemplated going fully into the legal history of the question as well as the political. He intends to emphasize that the vital essential of notice was eliminated from the law in 1874 without legislative authority at the hands of a codifying commission, and undoubtedly inadvertently.

The political history of the question which Mr. Monett will present to the committee will bring Secy. Taft into the case. On this point, Mr. Monett said today:

In February last, Thomas Lewis, national organizer for the miners' organizations, wrote Secy. Taft asking for his views on the three demands of labor on the injunction question—notice, trial by jury and change of venue.

BRAZIL DENIES STORY. Washington, July 2.—The insistent report that Brazil is building battleships with the intention of ultimately transferring them to Japan, was last night emphatically denied by Mr. Doamaral, of the Brazilian embassy. Mr. Doamaral said the story was an invention fostered to cause enmity between Brazil and the United States.

PRESIDENT HAVING STRENUOUS VACATION. Oyster Bay, July 1.—President Roosevelt in the first 10 days of his vacation has succeeded in doing considerable work in the fields and woods on his grounds at Sagamore Hill, besides entertaining many visitors and holding conference with Mr. Taft. His activity never halts. If there is no work on the grounds of his estate he spends his time in reading or in recreation in the form of tennis, riding, swimming or rowing. Splendid weather, though somewhat warm, has favored the president during the 10 days of his vacation.

About the president's home on Sagamore Hill are several fields, which this year grew good crops of hay. Taking advantage of the fine weather the president went into the fields and helped to do the raking and mowing. The hay crop having been harvested, the president has turned his attention to the clearing of a stretch of woods, comprising about 40 acres, recently purchased by him to enlarge his estate. With his ax on his shoulder, accompanied by his attendant, also with an ax, the president this morning started out for a few hours' work in tree chopping before receiving some guests who had been invited to Sagamore Hill for lunch today. Before noon he felled a number of trees, leaving only such as he desired to have stand to mark the property correspond with his estate adjoining.

ARRESTED AS A SPY. E. Harrington, Said to be American, in Guatemala, May be Executed. San Francisco, July 2.—Passengers who arrived from southern ports on the steamer City of Sydney yesterday tell of the arrest by officials of the Guatemalan government of E. Harrington, said to be an American citizen, as a spy. The arrest was made at San Jose de Guatemala, when Harrington went ashore in that city from the City of Sydney. Harrington went to Central America from New York City many months ago. He is reported to be the arrestee who they expect to hear that he has been put to death, as they claim that the evidence against him was plain, he having papers in his possession which taken which proved beyond a doubt that he was a spy from Salvador. The papers, they say, proved him also to be in a conspiracy against President Cabrera.

GRAPING IN HAWAII. Honolulu, July 2.—The federal grand jury which has been investigating the employment of aliens at the leprosy investigation station, finds that many have been paying a percentage of the wages received by them to a Chinese firm for securing them their employment.

This woman says that after months of suffering Lydia E. Pinkham's Vegetable Compound made her as well as ever.

Maude E. Forgie, of Leesburg, Va., writes to Mrs. Pinkham: "I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. For months I suffered from feminine ills so that I thought I could not live. I wrote you, and after taking Lydia E. Pinkham's Vegetable Compound, and using the treatment you prescribed I felt like a new woman. I am now strong, and well as ever, and thank you for the good you have done me."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Mr. Taft is on record in response to this letter, and this response was received with great enthusiasm by the miners of Ohio and Pennsylvania, and accounts for the Taft delegates from those districts. The response stated that the secretary was in favor of restoring the federal statute as it existed prior to 1874; that he recognized that as the law now stands, an attorney for a coal mining company, a railroad company or other large corporation having industrial complaint could make such a strong ex parte affidavit, complying with all the necessary and legal requirements, as to entitle him to an immediate injunction without notice, and there was nothing left for an honest court to do but comply with the statute and grant the temporary injunction. In this the secretary further had caused great injustice in many instances to the employees who had no day in court prior to the issuing of the injunction, and were wholly without knowledge that the injunction had been issued until they were haled into court on contempt proceedings.

Mr. Monett appears to be thoroughly impressed with the importance of the injunction issue, and predicts that it has already become the vital question for the consideration of the Democratic convention.

Mr. Monett explained that his trip to Denver was on his own account and at his own expense.

WAR AGAINST CONSUMPTION. All nations are endeavoring to check their ravages of consumption, the "white plague," that claims so many victims each year. NEW BATTLESHIPS. Officers and Men Employed Forbidden To Give Information. New York, July 2.—In an order which is one of the most sweeping

ever issued at the New York navy-yard, all officers and men employed in the construction of the new 20,000-ton battleship whose keel will be laid within a few weeks, are forbidden to give out any information whatsoever to the newspapers or the public. So strict is the wording of the order that the officers in charge of the department of construction and repair, to whom it is particularly addressed, will not even give the name of the author.

Rear Admiral Caspar F. Goodrich, commandant of the yard, is in Washington and it is believed that the order had its origin there. One officer did venture the information that the contents of the document would probably be made public within a few days.

CONTAINS NO MERCURY. Medicines containing Mercury are often given to persons suffering with Contagious Blood Poison, and so powerful is the action of this drug that it frequently removes the symptoms in a short while, and shuts the disease up in the system to do greater damage to the delicate internal members. When, however, the treatment is left off, the disease always returns, and the patient finds that his health has been injured by this powerful mineral, and he is often left with weak stomach, disturbed digestion, mercurial rheumatism, etc. The action of S. S. S. is entirely different. It contains no Mercury, nor any other harmful drug, but is made entirely of healing, cleansing roots and herbs. It cures Contagious Blood Poison by removing the virus from the blood. It searches out every particle of the poison and does not leave the least trace for future outbreaks. S. S. S., in addition to curing the disease, builds up and strengthens every part of the body. Its fine tonic effects tone up the stomach and digestion, improve the appetite and regulate the entire system. Home treatment book containing valuable information about the different stages of the disease and any medical advice desired sent free to all who write.

MEXICAN TROUBLE MUCH EXAGGERATED

According to a Statement by Secretary of Foreign Affairs Fredrico Gamboa.

MALCONTENTS INSIGNIFICANT

In No Instance Have Attacking Parties Been Led by a Representative Man.

Mexico City, July 1.—A statement made to the Associated Press today on behalf of the Mexican state department by Secy. of Foreign Affairs Fredrico Gamboa, is as follows:

"In order that the absurdly exaggerated reports regarding the recent trouble in northern Mexico may be corrected and in compliance with your request, I am giving you access to certain official correspondence, which will prove that the contention of the Mexican state department that the recent troubles had no present significance, are well grounded."

A number of telegrams and official documents were thereupon shown the correspondent of the Associated Press, which set forth the following facts: "That the recent attacks upon the villages of Viesca, Las Vacas and Palomas were made by small bands of malcontents, who were driven to deeds of desperation by the want of work, consequent hunger, and an enmity toward the local officials. These men had been furnished literature of an anarchistic and inflammatory nature by Mexicans in Los Angeles, San Antonio, Tex., Austin, Tex., and St. Louis. In no instance had a representative man led the attacking parties, nor had the largest group of ruffians numbered more than 50 men, and that the trouble was practically over."

Continuing, Mr. Gamboa said: "As you have seen, these attacks have been made on villages near the boundary line which separates the United States and Mexico, by small groups of unemployed and ignorant men of the lower class. "It seems that some of them came from the United States and entered the country. For that reason Mexico maintains that the raiders are guilty of common crimes, and those caught on Mexican soil will be tried for such, while those apprehended in the United States, Mexico will ask their extradition as we would of any criminal guilty of the crime of arson, murder or robbery."

"Mexico, taken completely unawares by the attacks, asked the co-operation of the United States in preserving the neutrality laws. The government and the people feel deeply grateful for the manner in which the co-operation has been given, though the trouble is of minor significance. That is the plain truth regarding the revolutionary movement."

At the department of the interior dispatches were received from Gov. Cardena State of Coahuila, saying that eight of the Viesca robbers had been captured by rurales. Two of the prisoners are leaders of the gang. The men will be tried for murder and robbery. The mounted police are closely pressing the rest of the group, and they have left their hideout in a hidden in the hacienda, hoping thus to pass off as farm laborers. A number of the horses of the bandits have been taken.

According to Vice President Corral the attack on Pecos yesterday morning was made by 12 men, who came from Douglas, Ariz., and their object was the custom house. The custom house guards and villagers repulsed the attack and captured the leader of the raiders, Otilio Madrid. One of the villagers was killed during the fighting. Dispatches say that absolute quiet reigns in Coahuila.
