Judge Dichl to Punish Physical Huskles Charged With Begging.

Hereafter, when a healthy, ablebodied man appears before Judge Diehl and is convicted of vagrancy, or pleads guilty to the charge, the prisoner will be made to feel that it is better to earn a living instead of begging. Yesterday afternoon two big huskles

pleaded guilty to begging. They wanted to get out of town and the arresting officer asked Assistant City Attorney J. Daly to dismiss the cases. Ac tingly Mr. Daly stated to the court that the men wanted to leave town, and suggested a suspension of sentence. The motion prevailed, but Judge Diehl

Capt. W. H. McLean of the big ocean steamship City of Sydney of San Francisco and Panama makes this important statement:

In December, 1904, I was in the last stages of Bright's Disease. San Francisco physicians told me there was no show for me. The dropsy was so deep that I could stick a finger in the flesh almost an inch. J. W. Burnham, President Burnham & Marsh Co., told me he knew several cases of Bright's Disease that had recovered under Fulton's Renal Compound, My old friend Donlon of Donlon & Peek told me the same thing-said he knew of worse cases than mine that got well." This started me, The first half-dozen started the change, and I am at this writing (ten months later) as well as ever, and can pass for life insurance. Former Land and Water Commissioner Ben D. Luce has filed his report for the year 1905, with Mayor Thompson. The total expenditures of the department during the year amounted to \$11,155.73 as against \$13,891.07 for the year 1904. The total cost of maintaining the department was \$5,896.38 as compared with \$9,904.16 for the year 1904. The receipts of the department and the property on hand amounts to \$2,148.83, leaving the actual cost of maintenance during the year \$3,747.55.

CONDITIONS IN PARLEYS. In regard to Parley's canyon the report

states that it has been patrolled daily and loose stock has not been allowed to pass through it. The sanitary condition of the canyon is good and little trouble has been encountered with campers and residents on the creek. The commissioner recommends that camping stations or boweries be constructed of brush at frequent intervals in the can-yon so that those passing through may have some place to camp without do ing damage to the sanitary conditions of the stream and the canyon. During

the past six months Parley's creek has contributed about five and a half million gallons of water daily to the city's supply. BAD ROADS IN EMIGRATION.

As to Emigration canyon the report states that the roads are in very poor condition and should be kept up by the county. The sheep trail leads through this canyon and the commissioner suggests that the state be asked to help maintain the trail in good condition as about 200,000 sheep pass over it each season.

CITY CREEK CANYON.

The average flow of City creek for the past six months has been 6,000,000 gallons daily. The commissioner recgallons daily. ommends that the road in this canyon be widened, graded and cleared of brush, and that the approach to it be parked and trees set out on each side as this is one of the most beautiful and picturesque canyons in the state, and the one place where every person in city can find rest and pleasure. s also urged that gravel teams be pro

hibited from traveling in the canyon, as they cut up the road very badly. AMPLE WATER SUPPLY.

in regard to the city's water supply,

the report states that it is one of the greatest in the world. It is recommended that development work be done in all the canyons by running tunnels the mountains, as there is no question but that such a method would sult in a substantial increase of the water supply. The cost of such work ta estimated at \$10 per foot, and it is lieved that if two tunnels were run in ach of the three canyons it ult in an increase of 6,000,000 gallons dally in our water supply.

Estimable Woman Passes Away After A Brief Illness.

After a two days' illness, death came very suddenly and unexpectedly to Mrs. Mary Ellen McDuff Varley, wife of William Varley, at the family residence, 239 west Fifth North street, last evening. The cause of her demise was acute inflammation of the stomach, aggravated by an attack of pleurisy. The deceased was 65 years of age, and most estimable woman. She Identi hed herself with the "Mormon" Church in her native land, England, and came to Utah, arriving here Sept. 15, 1861, She was the mother of 10 children, eight of whom survive her. They are Wil-liam, John, Charles, Mrs. Elien Walk-er, Mrs. J. A. Austin, Thomas, Maria and Frank.

The funeral services will be held on Monday afternoon next, in the Nine-teenth ward meetinghouse, beginning at p. m. Friends are invited to attend.

STREET CAR CHANGES

Sixth Street and Other Service to be Improved in the Spring.

The Sixth street car track is to be extended early in the spring to the cemetery, so that perhaps it may be ready for operation by April 1. The management is waiting for the residents of First street to make up their minds what to do, in the matter of releasing the streetcar company from further ser-vice on that street, so as to re-arrange the service on South Temple and Third streets. The plan is to extend the Third street car track to U street, and then give an alternate six-minute service on that and the South Temple street lines, so that if the car on the line is missed that on the other may be caught. The discontinuance of the northern line to Fort Douglas is being considered, as two lines are really un-necessary. The northern line was built by the Rapid Transit company in opposition to the City Railway company's line to the south; but there is now no opposition.
