MINING, BUSINESS AND STOCKS.

ORENOON ON THE EXCHANGE

he Volumn of Sales Aggregated Less Than $4,000.

OWER MAMMOTH AT 69 CTS.

ly-West Bought at $42.25—Dexter At 15 Cents—Closing Quotations And Sales.

A dull mining stock market is to be pected the first few days preced- the Fourth of July and this year no exception. On the exchange this enoon 12,625 shares were transferred, t the amount of money involved in transactions did not quite come up $4,000. There was no stiffening in es anywhere, but on the contrary tendency was to even lower figures n have prevailed for the past week. ly-West sold at $42.75 and 4,900 shares Dexter was dropped into the hands buyer at 15 cents. Lower Mam- th closed at 69 cents bid; Uncle Sam ught 22 cents and Victor Consolidat- sold as low at 18¾ cents. A board of Naildriver was taken at $1.50. The ing quotations and sales of the day e as follows:

RODUCTION OF COPPER.

ogical Survey Issues Circular — Utah's Output.

e United States Geological Survey issued the following statements of production of copper during 1902. returns from all the important pro- s of copper and from nearly all inor producers show that the out- of copper in the year 1902 was as ws:

Sueprior, fine pounds	170,609,228
ana	121,085,986
rnia	25,038,724
.. ..	23,939,901

Dakota	200,000
ern and Eastern States .	13,599,047
desilverizers	500,000
l	641,620,349

reporting mines for 1902 contrib- 71 per cent of the above total, or ,663 pounds. On the 1st of Janu- 1903, these mines reported a stock nd of 155,665,652 pounds, which is ,000 pounds less than the same reported on the 1st of January. This decrease in stock was the supporting element for the year. who have watched the production per in this country for a number rs are not surprised at the rela- positions of the Michigan and Mon- mines. It is easy to remember these positions were quits the re- of what they are today. The t of the Michigan mines last year 4,000,000 pounds greater than in while the product of the Montana shows an increase of 40,000,000 s. Arizona is now a good third in e, though there was a decrease of 0 pounds in its product last year pared with 1901.

ALGAMATED SHUT DOWN.

ot Unexpected by Those Who Have Been Observing.

closing down of the Amalgamat- es at Butte and smelter at Ana- causes little surprise on the part e who have kept careful watch nts. Recently the smeltermen d their intention of making a de- for higher wages and the "walk- egate" was bold enough to make ertion that a strike would be f the demands of the men were nted. To this President Scallon is said to have replied that if that was the feeling among the employes they would simply have to strike, that before the company would consider a general raise at this time the mines and smelters would be closed. The company has made preparations for this by the augmentation of its police and detective force.

With the prospect of trouble, coupled with the fact that the spring elections held in Butte and Anaconda resulted in placing in office men antagonistic to the company's interests, probably accounts for the shut down at this time, while the excuse is given that it was done for the purpose of making connections with the big stack which has been constructed at enormous cost. By this means, the management will be enabled to get rid of the men in the employ of the big copper company who are classed as being objectionable characters. Another thing, an election is coming on again next fall and this is just one way the great corporations of Montana have of preparing.

IN AN IDAHO DISTRICT.

Fred H. Perkins Concludes Investigation There and Goes to Canada.

Fred H. Perkins, the mining engineer, returned to Salt Lake a few days ago from the Washington mining district, in Idaho, where he went to examine a property near Mineral, situated about 28 miles north of Huntington, Ore., along the Snake river. Salt Lake parties are interested in the mine and will soon undertake the erection of a 100-ton smelter. Mr. Perkins speaks well of the Washington district and says he saw plenty of ore carrying phenominal values in copper and gold there.

Mr. Perkins departed for Sterling, Canada, last night to investigate another copper proposition located in Montana, just on this side of the international boundary line. He went in the interests of a well known firm of lawyers of this city.

ADDRESS TO SMELTERMEN.

General Manager of A. S. & R. Company Issues One.

General Manager Frank Gulterman of the American Smelting & Refining Co., at Denver, has issued an address in reply to the demand of the Denver Mill and Smeltermen's union No. 94, for an eight-hour day.

Mr. Gulterman declares that the company does not make any distinction between its employes with respect to union or non-union membership.

The petition recites that in other states (meaning Utah and Montana) this company has granted an eight-hour day and that the wages paid to its employes there are also in excess of the highest wages paid in Colorado smelters for a 10 and 12-hour day. While the former part of the statement is true, the latter is not.

"The inference to be drawn, however," says Mr. Gutterman, "is very plain and may be summed up in the conclusion that not alone is an eight-hour day for Colorado smelters asked for, but that this conclusion, if it could be granted, would only be preliminary to a demand for a 10 and 12-hour wage for such eight-hour day."

Mr. Gulterman then enumerates the conditions which preclude, he says, the granting of the smeltermen's request, the principal of which is the steady lowering of grades of smelting ores produced in the Leadville, Creede and Aspen mining districts.

To accede to the request for an eight-hour day, he says, "would mean the serious crippling of either the smelting or the mining industries in this state, neither of which contingencies can be faced with indifference or complacency."

LOCATES IN SALT LAKE.

W. L. Maas Joins the Mining Engineering Fraternity Here.

W. L. Maas, a well known mining engineer of St. Paul, has decided to locate in Salt Lake and has opened offices in the Dooly building. Mr. Maas will leave for California within the next few days, his destination being Yreka, where he has secured options on three gold propositions which are to undergo development.

Supplies have been ordered from San Francisco and will be delivered to the scene of operations by the time Mr. Maas arrives there.

BUYS ALTA PROPERTY.

Continental M. & S. Co., Acquires Regulator and Other Groups.

The Continental Mines & Smelting company, the new exploration concern formed recently with Henry M. Crowther of this city as the managing director, has closed a deal for the Regulator, Grizzly and Lavina and Darlington properties at Alta and will commence an energetic campaign of development at once.

The three properties contain some immense veins, the average of all being not far from $25 a ton, net, after deducting smelter charges. In the Lavinia tunnel is one vein 30 feet wide which sampled 15 ounces of silver, .8 per cent copper, 10 per cent lead and $1 gold. In the Upper Grizzly tunnel is a 40-foot vein averaging 4.75 per cent copper, nine ounces of silver and $1 in gold. On the 100-foot level of the Lavinia is one 18-inch vein averaging 16.7 per cent lead, 56.6 ounces of silver and .04 ounce gold. In the Darlington is a foot of ore sampling 25.6 per cent copper, 40 ounces silver and .03 ounce of gold. Returns of shipments made by leasers show that out of the many cars sent out, one brought net smelter returns of $62.50 a ton, running 10.65 per cent copper, 34.05 per cent lead, 77.8 ounces silver and .15 ounce gold. By screening these values can be doubled.

The Grizzly & Lavina was purchased through Judge C. W. Bennett of this city, from the Emma company, an English concern. J. S. Johnson was one of the principal owners of the Regulator and Darlington properties, all of which are situated in the upper part of Little Cottonwood canyon.

Comstock's New Officers.

At a meeting of the directors of the Comstock Mining company, held yesterday afternoon, Col. W. M. Ferry was elected president; L. P. Marix, secretary and George Hancock, manager.

Miners Quit Work.

Birmingham, Ala., July 1.—All the miners who are members of the United Mine Workers of America, to the number of about 13,000 in this district, suspended work today, the old wage contract having expired last night and a contract not having been agreed upon. No formal strike has been declared, the situation being referred to as a suspension.

To-day's Metals:

SILVER, Bar, 52 7-8 cents
LEAD, $3.50.
CASTING COPPER, 13 1-4 cents a lb.

NEW YORK METAL PRICES

Lead, quiet, 4.12½.
Copper, quiet, 14.25 @ 14.50.

LOOKED INTO MAJESTIC TITLES

President Mucklow and Associates Find Them Correct.

HENSHAW DELIVERS PAPERS

To the Head Official of the Corporation—Midnight Claim May Go To the Royal.

President W. B. Mucklow and other directors of the Majestic Copper Mining and Smelting company have been looking into the titles to the properties of that corporation since their arrival in Utah. The attorneys of the company have gone into the matter thoroughly and it is said they have found everything in ship shape order.

Former Secy. Joseph Henshaw has turned all the papers belonging to his office over to President Mucklow who will keep them in his possession until the arrival of Secy. Merriam which will be within the next few days.

It has been supposed by some stockholders in the Majestic that the Midnight and other claims had been bonded for that corporation, but it appears that such is not the case as the papers were executed in the name of Senator A. B. Lewis. The bond will expire within a few days and it is believed that the Royal Gold and Copper company will become the possessor of this valuable piece of territory which adjoins the O. K. claim on the west and south.

Some of the Majestic company's buildings have been erected on the ground and in all probability will have to be removed.

The O. K. Extension Mining company executed the bond in favor of Senator Lewis nearly two years ago.

TO QUIET TITLES.

Suit Instituted by the Consolidated Jefferson Company.

The Consolidated Jefferson Gold and Copper Mining company today filed suit in the district court against Hugh L. Berkey and seven other defendants to quiet title to the area in conflict between the Jefferson, South Jefferson and Contention lode claims, owned by plaintiff, and the Blue Jay claim, owned by defendants. The claims are located in the Big Cottonwood district.

Salt Lakers in Tonopah.

James Fulton, of the stockbroking firm of Skelton, Fulton & Co., last Sunday had the misfortune to break his right ankle, while playing ball on the grounds. He was running the bases, slipped and fell, his foot turning under him. After being taken home his broken ankle was set by Dr. Hammond. It is likely that the injury will confine Mr. Fulton to his bed for the next five or six weeks.

The Lynch&O'Meara property at Lone Mountain still keeps up the standard it established several months ago and now regularly ships from eight to ten carloads of ore that runs from $2,500 to $3,000 per car, netting the company something between $15,000 and $20,000 per month above the cost of labor, transportation and smelting charges.

On Tuesday 30 tons of ore from the Montana-Tonopah were shipped by team to Sodaville, en route to Salt Lake City for treatment. The ore selected for the shipment is of a good grade, and it will net the company several thousand dollars in cash. In the mine the north crosscut at the 513-foot level has proceeded about 20 feet since the last report and it is likely the coming week will witness the cutting of another ledge.—Bonanza.

Important Oregon Discovery.

Word has been received from Sumpter, Oregon, to the effect that the most important discovery of gold that has taken place in eastern Oregon in many years has been made in the Buckeye mine, adjoining the North Pole Extension. The ore is said to run well up into the thousands of dollars, but as to the quantity, information is still lacking.

At the South Swansea.

Chet Wheeler of the South Swansea Mining company has returned from a trip to Tintic. He states that the work of sinking the shaft at that property is still in progress, and has reached the depth of about 860 feet. A station will soon be cut and a drift started.

California Concern Bankrupt.

San Francisco, July 1.—The Copper King company, limited, filed its petition in involuntary insolvency today, pursuant to the petition of certain of its creditors filed in the United States district court on May 30 of this year. The total liabilities are $614,223 and the assets $396,467.

Utah Ore En Route.

The Utah mine of Fish Springs has a car of ore en route which assayed at the mine 44.7 per cent lead, and 110.5 ounces silver. The lot consists of 489 sacks, 53,100 pounds.

Jane Louisa McCall Claim.

Special Correspondence.

Provo, July 2.—A bond for a deed from Annie E. Mulloy, of Salt Lake City, to George B. Kelly and George C. Harkins, of Salt Lake City, for the Jane Louisa McCall mining claim in American Fork canyon, for $3,000 has been filed with the country recorder.

MINING CONCENTRATES.

The O'Meara-Lynch company has ordered a 30-ton Kinkead mill for the King-Tonopah mine, near Tonopah.

H. M. Holbrook of Boston, fiscal agent for the Royal Gold & Copper company, has returned home.

The ore and bullion settlements for yesterday were reported as follows: Base bullion, $11,900; ores, $41,200. Total, $53,100.

John M. Daugherty of Omaha, one of the principal shareholders in the Wabash mine at Park City, has arrived in the city.

A. T. Egan has returned from a trip to Montana. He states that while there the business men of Butte anticipated the shut down at the Amalgamated mines.

C. L. Dignowitty, the well known mining promoter, is at Boulder, Colo., where he will spend a few weeks on business. From there he will go to Deadwood to attend the next session of the mining congress.

PRICES YIELDED ALL AROUND

Fractional Losses Made on Opening Offers.

MARKET INTENSELY DULL

This Did Not Prevent a Sagging Tendency Followed by Losses in Leading Stocks.

New York, July 2.—Small fractional losses were made on the opening transactions. The offerings were light. A few specialties showed slight gains, but the general tone was easy. Dealings continued to be in very limited amounts, but the demand was not sufficient to absorb the supply and prices tended lower. Union Pacific, Pennsylvania, Baltimore & Ohio, Amalgamated and the United States Steel stocks lost large fractions. The decline ran from 1 to 1¼ in Atchison, Missouri Pacific, Louisville & Nashville, Canadian Pacific, Northwestern, Kansas & Texas, Kansas City, Fort Scott & Memphis preferred, Tennessee Coal and Lead. With an advance of a point in Colorado Fuel and of 1% ex-dividend in Lackawanna, the market steadied and became intensely dull.

Bonds were irregular at noon.

Prominent stocks hugged the low level of the morning closely and showed no disposition to rally when pressure was relaxed. Hocking Valley lost 4 per cent and Illinois Central and Rock Island preferred dropped 1@1¼. There was a further yielding of prices, bringing Southern Pacific, Kansas & Texas preferred, Rock Island, Norfolk & Western, Ontario & Western, Delaware & Hudson, Minnesota, St. Paul & Sault Ste Marie, Sugar and Brooklyn Transit into the range of 1 to 1½ point losses. Tennessee Coal fell 2½, Hocking Valley 2% and the preferred 1½. The closing was dull and slightly irregular.

The extreme dullness did not prevent a further sagging tendency and the losses in leading stocks were brought within the 1 to 1½ point range, including St. Paul, Union Pacific, Reading, Baltimore & Ohio, Manhattan, United States Steel preferred and Amalgamated. Colorado Fuel lost its gain.

Money on call, firm at 3¾@6 per cent, closing 4½@5 per cent; time money easier; 60 days, 4 per cent; 90 days, 4; six months, 5 per cent.
