A STRICKEN FAMILY.

Mrs. Mary Lee Eggett and Brother Victims of Typhoid.

(Special to the "News.") Bountiful, Dec. 21 .- Mrs. Mary Lee Eggett, wife of Thomas Eggett, whom she married about five weeks ago, died yesterday at her home in Woods Cross, of typhoid fever, after an illness of three weeks. This is the second death three weeks. This is the second death in the same family in two months. John Lee, a brother, having passed away about six weeks ago from the same cause. Another brother, Robert, is just recovering from the disease, he having been stricken at the time of his deceased sister's marriage. The Lees came here from Chorley. England, where their parents reside, about two years ago, and have lived

about two years ago, and have lived here ever since. They were faithful members of the Church, and their many Triends here are greatly shocked with the affliction that has befallen them. The funeral of Mrs. Eggett will be held from the South Bountiful meeting-house Sunday at 12 o'clock noon.

Friends are invited. The fever, which has been quite bad in that section for some time past, is attributed to impure water.

IDAHO SUGAR PLANS-

Nampa Secures the First Factory and Payette Will Follow.

The announcement is made at the office of the Western Idaho Sugar company in this city, that it has been decided to build only one sugar factory during 1966 instead of two as had been originally contemplated. The first plant* will be built at Nampa; the contract for its erection has already been let to the Dyers of Cleveland and the first payment made. It has been decided that one factory can work up all the beets that the two districts will grow the first year. A meeting of the Commercial club was held in Payette on Tuesday evening, at which the matter was fully discussed, and satisfactory arrangements entered into for the extension. The Payette people agree to raise at least 30,000 tons of beets next year for the Nampa factory, in consideration of which the sugar company gives a bond of \$100,000 for the erection of a factory at Payeite in the following year. A private railroad line will run from Payette to New Plymouth, opening from Payette to New Plymouth, opening up another big beet district. As the Nampa district has already guaranteed to plant nearly 5,000 acres of beets next spring, the belief is confidently held that that factory will be submerged with beets the first season, so that the Pay-sotte plant will be a necessity in the year following. The above statement was confirmed by General Manager T B. Cutler. The

by General Manager T. R. Cutler. The second call on the stockholders for The per cent of their subscription has been sent out, the date of payment being Jan. 10. The decision to defer the Payette plant will necessitate the calling in of only half the company's capi-tal, \$1,000,000, instead of \$2,000,000 dur-

AMUSEMENTS.

The fact that Geo. T. Odell of the Consolidated Wagon & Machine company, has placed an order with the treasurer of the Orpheum for 75 tickets for the opening night would indicate that there will be a lively scramble for seats when the box office opens tomorrow morning. Mr. Odell is taking a chance with the others who line up tomorrow, and already there are signs that there are other large orders on the tapis. Had Treasurer Wesley J. the tapis. Had Treasurer Wesley J. Wilson accepted all the orders that he has received, two-thirds of the par-quet would have been disposed of prior to the opening of the box office; as it is, it will be a case of the early bird capturing the tickets tomorrow. Ten days ago it looked as though it would be a physical impossibility to have the State street vaudeville house open by Christmas day. The prevallopen by Christmas day. Ing car famine on the railroads tied up several consignments for the thea-ter which had to go in before the fin-ishing touches could be placed on the auditorium. Wires were kept hot, how-ever, and in the eleventh hour every-thing has arrived, down to the last two car loads of scenery. Today forces are at work cleaning the auditorium prior to the laying of the 1,000 yards of carpet and the hang-ing of the draperies. Steam heat is now turned on in the building and electricians are at work on the foot-lights and stage switchboard. The long lobby leading up from State street also is assuming the aspect of an artistic entrance. Taken altogether, wonders have been accomplished. wonders have been accomplished. Now that the management can defi-

Alter announce that the opening occurs Christmas night, the initial bill is forthcoming. The top-liner for the evening's amusement is Lewis McCord and company, who will stage a one-act play, which suggests merriment in the title of "The Night Before." Next in order of artistic merit come the Hengler sisters, in singing and dancing specialties; the Grand Opera trio; Lu-cy and Lucier, in eccentric comedy; cy and Lucier, in eccentric comedy; Nelle Florede, comedienne: the Three Jacksons, high class physical culture, and the Kinodrome, exhibiting a col-lection of the latest copyrighted mov-ing pictures.

This bill should prove a drawing card and undoubtedly will pack the house. . . .

OFFICE WILL REMAIN.

Revenue Collectorship Will Stay in Salt Lake-Callister Solid.

The hubub that has been created by the knockers about the prospective removal from Salt Lake and Utah, of the office of internal revenue collector, is entirely foundationless-a wall and entirely foundationless—a wall and hope from the camp of the knockers and maligners who loudly profess sor-row one day at the thought of its go-ing, and whisper a desire for the remaining six, that it will be taken away, in order that they may exclaim, told you so."

But the office is not to be removed to Montana or elsewhere according to the information that comes from Washing-ton. That news is to the effect that it is to stay in Salt Lake where it was brought some years ago. There was a good reason for bringing it here at that time and the reason still remains. Be-sides it has been officially settled that it is to stay, and that Callister is to continue to hold the position of chief. The revenue collector is not reappointed like a postmaster or United States marshal. If he discharges the duties of his office in a manner to receive ad-ministrative approval he is often permitted to remain undisturbed for According to the present outlook there must be a good deal more knocking done before the office can be removed from Sait Lake.
