Small Trading on Exchange This Morning-36,000 Shares Transferred for \$12,091.63.

The week's trading on the mining exchange ended this morning after sales amounting to 36,000 shares had been made for \$12,091.63. During the week a grand total of 374.496 shares changed hands for \$210,246.42. Trading was a little more active than last week though prices generally have been lower. The condition of the market at the close today is not looked upon as unfavorable. While stocks are quoted at decidedly lower figures than have obtained it is believed that very few stocks are even now quoted at values much lower than development work at the properties and other considerations warrant. Some conservative mining men venture the opinion that if the prices quoted upon all but a certain half dozen stocks decreased at least a third of present prices more the effect on the market would be beneficial. "1 really think people who speculate do not consider how many shares the cap-Ital stock of a company is divided into," said a well known mine operator this morning. "If they did in all probability they wouldn't expect some shares to rule at the figures they now do, which bring the values of certain prospects up around the quarter of a million point. It is an extremely excellent property that is worth a quarter of a million dollars." The market tendency during the past

week has been downward. The quotations on some of the stocks have fluc-tuated widely from day to day, but generally at the close each day the low-est figures were reached.

Among the stocks which registered declines is Yankee Con., which sold at \$3.95 early in the week and which to-day was held at \$3.48 without any sales being made. Century is another stock that took the toboggan at the opening. After sales amounting to 5,800 shares had been recorded between 3515 and 23 the stock closed with a bid of 27. No announcement of the assessment was made at this morning's call. Con. Mercur has ruled firmly at bet-

ter figures all the week. No doubt is expressed concerning the forthcoming dividend and at present prices the stock by keeping up the usual divi-dend rate pays about 29 per cent an-nually. California has ruled at considerably lower figures today and yester-day and May Day has remained sluggish around 62. Today's closing quotations and sales

Though the action occurred yesterday not a word was said of it until after this morning's call on the mining exchange. However, that the action was not entirely unexpected is amply evidenced by the course of the stock during the past week. Manager John T. White could not be

follows: Interview he said that the Century company was not over \$35,000 in debt and Alax that although the company had met with various setbacks in getting the new plant is running shape it would soon be turning out \$10,000 per month clear. It is understood that the amount of the present assessment will be used to defray the pressing claims against it and that it is expected that by the time it is used up that the plant will be orking all right. There was some talk before the assessment was declared that it could not be done, the company's by-laws only permitting a one cent assessment to be levied. However, no doubt is expressed

that the present amount will be paid by the various stockholders, the largest f whom concurred in the levying of

It is learned from a prominent real estate and investment man that eastern parties are proposing in good faith to erect a \$150,000 seven story apartment house on East Third South street, and that work will begin as soon as spring opens. Names are not given at present as the deal for the site is not yet com-pleted, and publication would result in the owner of the property immediately raising the price to a point where it is doubtful if the investor would buy. Henry Phipps, Carnegie's recent partner, threw up a promising purchase on the east side for just such a reason. One of the morning papers go on to the fact that Mr. Phipps was intending to make such a purchase, and im-mediately the owner advanced his price to about eight times what he hal orig-inally asked. Mr. Phipps quit in disgust, and the over-enterprising real es-tate owners still has his property.

A. H. TARBET IN NEW YORK.

Well Known Mining Man is Located

at the Girard. There is at least one millionaire in New York who is hiding his light under a bushel. He is up at the Girard in Forty-fourth street, and his name is "Aleck" Tarbet. In the first days of his presperity, when he came to New York trem far-away Montain, he al-ways had a suite at the Flifth Avenue hotel. His hospitality and entertaining were boundless. He had disposed of gold mines in the British columbia district to Canadian capitalists for many millions, and came to New York to enjoy the fruits of his sagacity. But the metropolis palled upon him. to enjoy the fruits of his sagacity. But the metropolls palled upon him. He yearned for the rough-and-ready life of the mining camp, and after he had taken a fiyer or two in Wall Street with varying success. Tarbet disap-peared from Broadway and nothing was heard of him ontil a month or so ago, when he turned up again, with an-other couple of millions in ready money at his disnosal. Bankers and brokers report a slight relaxing in the tightness which has ex-isted in money circles for some weeks past. The banks, however, continue to loan at 7 and 8 per cent, though sevat his disposal. eral large loans were made between private parties late in the week on a f

at his disposal. There is very little about a gold field that Tarbet does not know and he exemplified this in his most recent transactions. When he sold out his old property to the Canadians, he reserved to bimself the land immediately ad-iolning the claim that he had disposed of. He knew the direction of the yein of ray ore and was well assurt that it would not be long before the men no per cent basis. Stocks show a stiffen-ing tendency, the main operations of the week having been in Co-op Wagon, large blocks of which changed hands at \$147.56 early in the week and small transactions in which took place at \$150 later. Deseret Savings, under the britismes of the medial during of the iniluence of the special dividend of 4 per cent paid during the week, was in of ray ore and was well assured that it would not be long before the men to whom he had sold out in the first place would be working out of their own holdings and into the land which he still held. The inevitable happened, and now, without having such a shaft, he is once more prepared to dispose of another tweety for a price reaching into the seven furnes. grong demand and has shown little any recession since the dividend was Utah Sugar stood at \$15,52½ bld this morning, and \$15,54 asked.
