THE EVENING NEWS.

Tuesday, - - - - February, 7, 1871.

PRICE OF GOLD,

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers:

SALT LAKE CITY, Feb. 7, 1871.

Buying at $1.09; Selling at $1.12.

LOCAL AND OTHER MATTERS.

THANKS.—We are under obligations to Hon. W. H. Hooper, M. C. for Utah, for the Report of the Commissioner of General Land Office for 1868, Mining Statistics West of the Rocky Mountains for 1870, by U. S. Commissioner Raymond, and the Post Office Directory of the United States for 1870.

MILVILLE.—Bro. John King, writing from Milville, on the 31st ult., says the small pox has now disappeared from the settlement, one death only having resulted,—a female child, two years of age. The health of the people generally is now good.

HEBER CITY.—Bro. John Lee, writes from Heber City, on the 30th ult., that such a mild winter as the present has not been experienced in that part of Utah for the past thirteen years. There has generally been from two to three feet of snow, but this winter, up to date of his letter, there had not been enough for good sleighing. The people there are feeling well and are up to the times. They have three schools well attended, and good tutors, a good bishop, good meetings, faithful teachers, and no litigation, which, altogether, is a decidedly good showing for Heber City.

PARTICULARS OF THE FIRE.—The following particulars of the fire at Pleasant Grove were received by Deseret Telegraph line yesterday, but too late for publication:

"PLEASANT GROVE, Feb. 6.

Our Meeting house, Tithing office, and Post office were all burned this morning at five o'clock. The origin of the fire is unknown. The Sabbath school library, dramatic scenery, one room which was used for quorum purposes with furniture, prayer room with its contents, three hundred bushels of wheat, some flour, corn and potatoes, with all the bins were destroyed with the exception of a small amount of wheat. The tithing department did not suffer much. E. Mayhew had all his supplies in provisions burned. The Provo Woolen Factory lost 100 bushels of wheat; the county some little poor fund and 50 bushels of wheat. The post office and tithing records were saved.

BEN. W. DRIGGS."

ANOTHER WARD CONCERT.—This Winter a change in the style of amusements at the Ward school houses seems to be taking place; heretofore dancing has been all the rage, but this taste is being modified, and Terpsichore is yielding some little to Apollo and Thespis, and music, and dramatic readings, recitations and things of a kindred character are on the advance. This marks an improvement in the taste of the the people, and we are gratified to note it. This evening a concert will be given in Thirteenth Ward Assembly Rooms, a notice of which appeared in Saturday's NEWS. On Thursday evening next a musical entertainment will take place in the fine new meeting house of the Twelfth Ward. It will be conducted by Mr. W. H. Fowler; Professor Arthur Needham will be pianist, and Bishop L. W. Hardy chairman on the occasion. Twice before have concerts been given at this place under the direction of Mr. Fowler, both of which we have heard spoken of highly; and if the programme for Thursday night be anything to judge by, the entertainment there will be one of great excellence, for it is a very choice, including a long list of the most popular songs, choruses, glees, recitations, etc. The admission fee is half a dollar for adults, half that for juveniles; and the hour of commencement 1 a 7 o'clock.

THEATRICAL.—The "Ice Witch, or the Frozen Hand," had quite a house full of admirers last evening. It was put upon the stage in elegant style and much praise is due the management and Mr. W. T. Harris for the enterprise they have manifested in producing and presenting to the public such magnificent scenery. For a first presentation the piece was very successful, although there were a few hitches in the management of the mechanical effects and the handling of so large a corps of auxillaries. The Grand Transformation of the Fairy Bower and tableau of repose were really superb, and the "Home of the Sun God in the realms of bliss," was a climax of grandeur and splendor.

The characters by Miss Colebrook, Mrs. Alice and Mrs. M. G. Clawson and Mrs. Bowring, Messrs. McKenzie, Margetts, Thorne, Merrill and others were capitally represented.

We must not omit to mention the costuming of Mrs. Bowring and Mr. H. Horsley; it was first-class and reflected very favorably on their good taste. The "Ice Witch" is billed for Wednesday evening, when all the little defects attending last night's performance will be remedied.

"Larkins' Love Letter" is the name of the farce, new here, in which Mr. Margetts and Mrs. M. G. Clawson appear in the leading characters. The farce is played first, remember.

"OUR SALESMAN."—The January and February number of *Our Salesman*, issued monthly by the great hardware firm of Linforth, Kellogg & Co., of San Francisco, Cal., came to hand to-day. It contains a long catalogue of articles kept in stock by the publishers; and the method they have adopted, of advertising their goods by the issue of a monthly, is most enterprising and at the same time one of the very best that can be adopted to call the attention of the public to their firm, and to set forth its claims to a share of patronage. Of pocket cutlery, an important branch of their trade, the publishers of *Our Salesman* say:

"Owing to the war in Europe, our receipts of German goods have been meagre and uncertain, and, until our new stock is received, we have nothing special to say. In English goods, however, of Edward Barnes and Sons' and Geo. Wostenholm and Sons' make, we are in constant receipt of fresh and desirable styles, and shall spare no efforts to meet the wants of our customers in their respective lines. We shall especially push "Wostenholm's" goods. The world-wide reputation of this excellent brand would render any further comment on our part superfluous. We will only add that they have offered greater inducements than ever before, by their recently adopted policy of guaranteeing goods of their manufacture. Hereafter, any Knives, Razors or Scissors of their manufacture will, if found defective, be at once exchanged, unless defaced."

REPORT OF THE ECLIPSE OF THE SUN.—We have received from the Government printing office at Washington, the report of the total eclipse of the sun, which took place on the 6th of August, 1869. The observations taken under the auspices of the U. S. Government were conducted by Commodore B. F. Sands, U. S. N., and the published report contains the reports of Commodores Sands, Professors Newcomb, Harkness, Hall, and Eastman; Brevet Major Edward Curtis, and of Messrs. J. H. Lane, W. S. Gilman and F. W. Bardell. To students of celestial phenomena this work, we should think, would be of great interest, as it contains a complete history of the eclipse, the appearance of the sun in the various stages of the eclipse, engravings and descriptions of the instruments used in taking the observations, mathematical data, &c., &c. It is a large volume, printed on fine paper, clear type, with strong and very neat binding; and is a work that would adorn any library.

MORE MUSIC.—STILL THEY COME!—The Cushman concert troupe, after a very successful tour in several of the southern counties, calculate, at the solicitation of many friends, to make their re-appearance before a Salt Lake audience this week. Of their merits, the public have already had a chance of judging, and have done so in a very appreciative manner, on several occasions; and all that need be said now is, that Friday night is the time, Thirteenth Ward Assembly Rooms the place; seven o'clock the hour of commencement. The doors will be open half an hour earlier. Admission for adults fifty, for children twenty-five cents.

THE

JUVENILE

INSTRUCTOR!

An Illustrated Children's Paper

And the Best Extant.

The aim of the Editor and Publisher of this periodical has been, and shall continue to be, to allow nothing to enter its columns but what is strictly true, and to present useful information before the youthful reader in the simplest and most pleasing forms.

His efforts, thus far, to render this paper all it assumes to be, namely,

AN INSTRUCTOR OF THE YOUNG

Have, he believes, not been unavailing, and by increased endeavors and perseverance, he hopes, in the future, to make it a still more welcome visitor to the homes of the people. With this end in view, the best talent in the Territory, within reach, will be employed to increase its usefulness and attractiveness.

Essays on Natural History;

Historical Treatises;

Biographical and other Sketches, including Travel and Adventure;

True Stories, illustrative of Ennobling Principles;

Editorial Thoughts;

Poetry, and a great variety of other Matter, Original and Selected,

will appear from time to time in its columns.

Presiding Officers, School Teachers and Superintendents and Parents all unite in testimony of its value in instructing the Youth.

☞ IT SHOULD BE IN EVERY HOUSEHOLD.

The FIRST NUMBER of Volume Six will appear between the First and the Tenth of February.

Terms:—2.50 per year.

PEOPLE'S VERDICT!

Over Half a Million sold and in use!

4,000 made and sold per week

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

ARE

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable:

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as Black Walnut, Mahogany, Rosewood, Satin wood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is *not* liable to break or miss the stitch. Many other Machines use a long crooked needle, which *is* liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines *drive* their Shuttles, in a race, thus causing great wear, and *requiring oil*, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the

Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, so Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those *who utterly fail on other Machines.*

SINGER'S

New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are *applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!

A Full Assortment of those

Beautiful and Unrivaled

MACHINES.

(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings.*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER

BUTTON-HOLE MACHINE

Is the only Practical one in the World.

OTHER SEWING MACHINES REPAIRED on Reasonable Terms.
