Identification Difficult-Letters and Baggage Checks Show He Was Mill Hand En Route to Park City.

The body of a man thought to have been William Jefferson of Los Angeles was found near Farmington this morn ing, Richard Steed, whose farm i about three-quarters of a mile north of Farmington and one-half mile from the wagon road on Compton bench, made the discovery. The body was in a dry ditch, and from all appearances has been there a week or ten days. Owing to the decomposed condition of the body, identification was impossible. The dead man was about 45 years old; had dark brown hair, and was decently dressed. He evidently was not a tramp. The sheriff took charge of the body.

IDENTIFICATION UNCERTAIN.

A letter found in his pocket threw little light upon the case as the address was almost obliterated on account of becoming damp and crumbled during the recent rain storms. As nearly as can be guessed, the man's name is Jefferson, as explained. A letter of introduction, writen by someone by the name of Knaup of Ducile, Idaho, indicate that the dead man was a millhand. That he was on his way to Park City, in all probability to obtain employment, is indicated by two bag-

employment, is indicated by two bag-gage checks found in his clothes. These read, "Park City via Salt Lake." Foul play is not suspected. Suicide has been suggested, as a vial contain-ing some fluid was found in a pocket. This stuff has not been analysed yet. No one has been able to volunteer any information to officials in charge, and the whole affair is enveloped in the deepest mystery. deepest mystery.

## Sidney M. Bamberger on His Return From East Makes Announcement.

Sidney M. Bamberger, who returned from a two months' business trip east this afternoon brought with him the positive statement that a new smelter is to be erected somewhere near Salt Lake during the present year for the treatment of ores from the Fortuna and

treatment of ores from the Fortuna and Bingham Mary mines of Bingham. The initial capacity of the plant will be for the treatment of at least 250 tons per day, and it will be equipped with all the latest devices for the reduction of copper ores. "I am not prepared to say," said Mr. Bamberger, "just where the plant will be built, but we have several sites un-der consideration, all of them out of range of the agricultural regions of the Salt Lake valley. Just as soon as the site is determined, plans will be drawn and contracts let for the material and equippent let as soon thereafter as possible.

"With the Carisa mine in Tintict to "With the Carisa mine in Tinder or draw from," continued Mr. Bamberger, "we feel that we will be able to get all the silicious ores we will need to be used in connection with the ores of out Bingham properties, a combination of which will make up an ideal smelting proposition." proposition.

## HOWARD GOES FREE.

Bingham Man Who Shot Italian Will Not be Tried.

Ernest Howard, the young man who shot and killed Frank Yourk at Bingham, Nov. 14, 1906, will not have to stand trial in the district court for his offense, as Dist. Atty. Loofbourow this afternoan asked Judge Armstrong to release him from responsibility of filing a new information against Howard. The district attorney stated that in his judgment the evidence in the case would not warrant submitting it to a jury. His request was granted, and consequently Howard is now free. The evidence in the lower court was very strong in favor of Howard who, it was

If any of these cases are actually cases of attempted assumption of polygamous relations, such atumpt is not only without the sanction and approval of the Mormon Church, but is in the face of, and in defiance of its most solemn protest and admoni-

PLURAL MARRIAGES STOPPED. "The Mormon Church has stopped lural marriages and no polygamous relation assumed subsequent to 1890 is with the permission, sanction or approval of the Church; that is final and fixed. Every such violation of the law has the express condemnation of the Church. The manifesto of 1890 was submitted to and approved by the conference of the Church-which means by the body of the members of the Church -and it remains the law of the Church binding upon every officer thereof, however high. It cannot be repealed, modified or suspended, except by the same power that enacted it.

RELIGIOUS CEREMONIES.

"Reference has been made to an alleged treasonable obligation which it is sought to claim is a part of the Mormon endowment ceremony. The senate will understand that these ceremonies are of a sacred nature to those participating in them, and are therefore not divulged. They were instituted in the Mormon Church by Joseph Smith some time prior to his death, and are yet given as part of the temple ceremonies, being of a religious, spiritual character, they are for the living and the dead-a part of the Mormon belief being vicarious performance of ordinances and ceremo-

nies. "There does not exist in the endowment ceremony of the Mormon Church the remotest suggestion of hostility or of antagonism to the United States or to any other nation. They are of a purely religious nature, wholly between the person taking them and his God, and, as with the ritual of various fraternal organizations regarded as

sacred and secret, THEIR CHARACTER.

"Adverting to the religious and spiritual character of those ceremonies, it is conceded that such ceremonies often have an influence on the conscience and conduct of the persons concerned. There is not a solitary instance where that influence in the endowment ceremonies has been displayed in an act of hostility to the government. If any effect has been wielded it has been for the most devoted loyalty to our own nation. LOYALTY OF THE MORMONS.

"The application in this respect, as to the loyalty of the Mormon people, can be brought home readily. We will pass by the incident of the Mormon exiles from Nauvoo furnishing a battalion for the United States army for the war with Mexico; the action of the Utah pioneers in raising the American flag in the Salt Lake valley when that was Mexican soil; the fidelity of Utah to the Union during the Civil war and down to the period of the Spanish-American war and the insurrection

fancied cause of their lamentations and apprehensions; nor will their children or their children's children. The government of the United States is here to stay and to win, over every obstacle. And so far as I am concerned, I formally and solemnly aver in every vote and action as United States senator I shall be governed in the future, as I have been in the past, only by my convictions of what is best for the whole people of the United States, under my oath, to support the Constitution and laws of this nation.

ALLEGIANCE TO HIS COUNTRY. "In closing, let me say under my obligation as a senator that what I have said under oath before the committee, that I have never taken any oath or obligation, religious or otherwise, which conflicts in the slightest degree with my duty as a senator or as a cliizen. I owe no allegiance to any church or other erganization which in any way interferes with my supreme allegiance in civil affairs, to my country-an allegiance which I freely, fully and gladly give."

# **BIG COTTONWOOD** WATER CASE IS ON

Injunction Suit Brought by the **Progress Company Against** The City.

## ANSWER IS FILED BY HILES

### Denying That Company Has Any Right To Waters or is Supplying Murray With Any.

Upon motion of the attorneys for the city the trial of the injunction suit brought by the Progress company against the city to restrain it from diverting the waters of Big Cottonwood creek into the new conduit was continued by Judge Morse until this afternoon at 2 o'clock. This action was taken

ued by Judge Morse until this afternoon at 2 o'clock. This action was taken this morning to enable Attorney F. S. Richards, special counsel for the city, to consult with the witnesses in the case. Mr. Richards was retained to help City Attorney Hiles last night and had not had time to consult with the witnesses for the city.
Judge Hiles has filed an answer to the complaint denying that the Progress company has any right to the waters of Big Cottonwood creek or that the company is supplying the citizens of Murray any of said water but that the only rights it has are to the waters of Spring Creek, a tributary to Big Cotton-wood. The answer also denies that the city is diverting any water which be-longs to the plaintif.
In its counter claim the city alleges that is has a present necessity for the water; that it has spent about \$500,000 in purchasing the same and construct-ing conduit for the diversion of the wa-ter. It claims the right to 27.8 sixtenths of the water for six months of the year and 30.2 sixteenths for the other six months by which it is entitled to \$0 second feet at the welr in the flood season and 13 second feet in the dry season each year. It is also alleged that the city was in possession of the water when the plaintiff filed its ac-tion. The contracts by which the city purchased its water rights are attached to and made a part of the answer. In conclusion judgment is asked that the conclusion judgment is asked that the company be required to set out the na-ture of its rights and that the same be adjudicated by the court and the plain-tiff be restrained from interfering with the city's use of the water. MAYOR PAYS FINE. When court convened this afternoon at 2 o'clock, Mayor Thompson handed to the clerk his check for \$200, the fine imposed on him by Judge Morse for contempt of court, in failing to turn the water out of the condult and back into Big Cottonwood creek, as ordered by the

PERSONALS.

President Frank Knox of the Bank of the Republic has gone to New York on a business trip to be away until March 1.

In the Philippines. The State of Utah came into the Union 11 years ago. Scarcely two years had passed when there appeared on our national horizon the cloud of war with Spain. Side by side, shoulder to shoulder, with every other state in the Union, Utah

furnished her full quota of American soldiers and offered more.

UTAH LIGHT ARTHLERY.

"There was no question of religious distinction or dispute then. The Utah light artillery was composed of men of different religious beliefs, including orthodox Mormons who had partaken of their Church rituals known as the endowment ceremony. Maj. Richard W. Young, the commanding officer of the Utah light infantry, was one of these; Sergt. Harry A. Young and others who gave up their lives for the flag were among this number. And in so far as those endowment ceremonies may have relation to this government an unreserved and undisputably accurate interpretation is given by the record of the Mormons mustered into the Utah light artillery which served in the war with Spain and during the subsequent Philippine insurrection, No man has a right to question that interpretation; no true American will do it; it is inscribed in letters of fire by the history of many a battlefield.

FALSE CHARGE HURLED BACK.

"And here in the senate of their countrymen, upon the incontrovertible witness borne by the brave survivors and the heroic dead of the Utah light artillery, I hurl back the charge of the defamer that there ever was a word or breath of hostility or disloyalty in the sacred religious ceremonies in which they or any other persons participated as members of the Mormon Church.

"It is not an infrequent occurrence, Mr. Presiden, for somebody, often a person of prominence, to come out with a declaration that this or the other thing is 'menacing' the life of the republic; that we are following the path which brought Rome to decay; that our wealth, our industrial combinations, our free speech, are crowding the nation to destruction. Notwithstanding alithese dire predictions, none of which is more absurd than the myth of Mormon 'hierarchal' domination, the American Union is going to stand; it will continue a free and enlightened government. It is founded on the popular will of liberty-loving people. It diacusses its public questions and decides them according to rules of tolerance. humanity and justice. It is builded on the undying principles of human rights and human freedom. As such it will advance. It will grow, It will increase. It will progress. No other nation will prevail against it. It has the favor of God and the gratitude of its own people to perpetuate it along the centuries to come as they have maintained it in the century that is passed. REPUBLIC IS ENDURING.

The hearing of the case was again continued until 10 a. m. tomorrow.
