LAST NIGHT'S NEWS.

Further Particulars of the Terrible Collision Between the "Thingvalla" and "Geiser."

A Fight Between Whites and Negroes.—Thirteen Negroes Killed.

Further Interesting Information Elicited by the Immigration Investigation.

Eight Men Shot or Stabbed at a Drunken Revel in Illinois.

By Telegraph to the NEWS.]

THE CRIPPLED STEAMER.

Additional Particulars of the Great Disaster.

HALIFAX, Aug. 17.—The *Thingvalla* presents a strange spectacle, with nearly the whole of her bow torn away, leaving an immense hole exposed to view. The long pier bew hangs over the hole, which reaches back into the sides of the ship over fifteen feet. The projecting pier hangs over the water like an outstretched arm, and shows where the powerful iron plates were broken through and snapped off as cardboard. The wonder is expressed that she ever reached port. The disabled vessel will discharge her cargo and then be repaired. She will be here probably two months. After repairing she is to reload and proceed to New York. Captain Lamb has imposed silence upon his seamen as to the disaster, but has himself prepared a statement of the details of the collision as he knew and saw it. It is much the same as those told by the other seamen yesterday. He says the scene as soon as the *Thingvalla* backed away from the *Geiser* was a frightful one. "I cannot attempt to describe it," said he. "Some of her passengers were rushing madly about the deck while others crowded in several small boats in the water. I believe many passengers must have been killed in their bunks by the force of the collision and never knew what happened. As the steamer plunged beneath the water she capsized the boats that had got away. The air was rent with the

AGONIZING SHRIEKS

of the drowning. Most of the people probably went down with the *Geiser*. They were followed soon after by the ill-fated souls in the boats who must have been sucked under as the ship sank. The cries of the dying still ring in my ears. Three of our boats were already launched, and trying to save as many as they could from the *Geiser*, but it was slow work, as comparatively few managed to keep afloat. At the steamer's disappearance, three boats were all we could get out in the minute we had, and I didn't know but what we might have wanted the remaining ones for ourselves. The two vessels were not more than 100 or 150 yards apart when the *Geiser* went down. The screams of the drowning lasted perhaps two minutes, and then suddenly all became quiet. Our three boats returned loaded with the saved who had been picked up. I sent them back to continue the search for survivors, but they returned with only the corpse of a woman. We provided the survivors with dry clothes, hot coffee and wine, and made them as comfortable as possible while attending to the injury of ourselves. The day was just beginning to break when the collision occurred. It was raining. A second officer told me just before that it was not foggy. In my opinion nearly all the people on the *Geiser's* deck and boats

SANK WITH THE STEAMER.

Everything we could do possibly to save them was done. After the *Geiser* disappeared we began jettisoning the cargo to keep the *Thingvalla* afloat. The crew and passengers worked side by side, throwing overboard that which was brought out of the hold. What was jettisoned consisted solely of wool, pulp and provisions. There was not much wind, but a heavy sea. Between 9 and 10 o'clock we reached the forward bulkhead, and then stopped throwing the cargo overboard and got to work shoring up the compartment. At 9 o'clock the steamer *Wieland* for New York hove in sight and we transferred all the rescued passengers as well as our own 400 passengers to her. The *Wieland* proceeded about 3 o'clock in the afternoon leaving us also steering for New York. We continued to work shoring up the compartment but after awhile on account of the wind and the sea increasing we found it impossible to keep on for New York and decided to head for Halifax. At this time it looked very much as if we might sink, and some of the crew had refused to work pumping to be transferred to the *Wieland* before she left us. We went as slow as two knots and sometimes found that two much. We just had to crawl. On Wednesday afternoon

A FISHING VESSEL

hove in sight and we bore down for her. She proved to be the schooner *Capis* of Lohave, Captain Cleversey, and I engaged him to stand by and accompany the steamer to Halifax, so as to be able to help us in case she should go down. Last night was so heavy I had to turn the steamer around and run stern foremost and steering by the schooner, which was connected by a hawser with the steamer's bow. We ran against the wind this way all night. We did not know on the *Thingvalla* what steamer we struck till the second officer of the *Geiser* jumped on our decks. When I reached the deck immediately after the shock, the lights on both steamers were burning. I am certain the *Geiser* had been seen by our first officer several minutes before the collision. She was nearly straight ahead but a little on the port bow. She starboarded to get out of our way and we parted. She should have ported likewise."

From Captain Lamb's statement of the disaster it would appear the fault lay with those on board the *Geiser*, who put her to starboard instead of to port. The *Geiser's* officer who was on watch at the time of the collision was among those who perished. Captain Lamb himself, does not express an opinion on the cause of the disaster.

THE INVESTIGATION.

NEW YORK, Aug. 17.—The Danish consul has concluded that the investigation into the sinking of the *Geiser*, will be held in the courts in Copenhagen, and not here. As first estimated, the loss on the *Geiser* is $635,000, and cargo $12,000.

Five Men Killed.

VALLEY FIELD, Quebec, Aug. 17.—A fearful thunder storm visited this section last night, accompanied by strong winds and forked lightning. Houses and barns were swept away, and cattle and horses carried off. So far five men are known to be killed.

Terrific Storm in Austria.

VIENNA, Aug. 17.—A terrific rain and wind storm devastated Upper Austria, doing great damage to crops and orchards. The ground is covered with dead cattle and birds.

Savants in Session.

CLEVELAND, Aug. 17.—The attendance at the meeting of the American Association for the Advancement of Science was larger than ever today. Many interesting papers were read, among them one prepared by S. C. Houston and read by Commander Taylor, U. S. N. on "The Nicaragua Canal—Its general features and the results anticipated from its construction."

"Recent Nicaragua Ship Canal Surveys" was the subject of a fine paper written by B. E. Perry, U. S. N.

W. J. Keep, of Detroit, read a paper on "The influence of aluminum upon cast iron." He proved that aluminum caused white irog to turn gray, entirely prevented blow holes, increased its strength, took away the tendency to chill, lessened the thickness of the scales, softened the iron and increased the elasticity. Owing to the rapidly falling price of aluminum the results of this research will be of great value to iron founders.

Railroad Items.

CHICAGO, Aug. 17.—The transcontinental passenger agents accomplished nothing at today's session.

ST. PAUL, Aug. 17.—The *Pioneer Press* has from Winnipeg a confirmation of the report that the agreement to complete the Red River Valley Railroad between the Manitoba government and the Northern Pacific road is off. It is evidently the intention of the government to build the projected road itself though some assert the St. Paul, Minneapolis & Manitoba Railroad have put in a bid that discounts its rival's offer.

Activity in Wool.

BOSTON, Aug. 17.—There was again a very active week in wool and the sales reported are the largest for any one week amounting to over 8,600,000 pounds. The prices have advanced on some grades about a cent a pound and on all kinds of domestic wool the market was very firm. The largest movement this week has been in territory wools with prices firm. On Montana grades the sales were principally made at 19@20c. with one very choice lot selling at 25c. Other sales of territory wool have been in the range of 13@19c. California wool steady with sales of 665,000 pounds including 500,000 pounds of the Humboldt clip.

WASHINGTON NEWS.

Cadets' Sentences Commuted.—The Fishery Treaty.

WASHINGTON, Aug. 17.—In the case of the naval cadets recently tried by court martial at Annapolis for hazing and sentenced to dismissal the President has commuted the sentence to confinement for 30 days and the deprivation of half the annual leave. The President says: "The offense of which the accused are convicted, is an unmanly and cowardly one which for all reasons deserved the severest punishment. It has been exceedingly difficult for me to consider the applications for clemency which have been addressed to me by the friends of the parties under conviction, but I am led to hope that if clemency be shown in these cases the punishment which the offenders still suffer, though less than dismissal, will suffice for their correction and as a waning to their fellow cadets. I desire it distinctly understood that the clemency granted in these cases is not to be considered a precedent for future executive interference, and that no matter how severe the sentence may be upon future convictions, it will be executed."

The bill to authorize the President to appoint George Stoneman, of California, formerly Major-General of Volunteers, Colonel of Infantry on the retired list of the army, was today introduced in the Senate by Stewart.

Secretary Bayard in an interview with a *Post* reporter tonight in regard to the fishery treaty now pending before the Senate said: "I have no knowledge, and never had any knowledge of any intention on the the part of the President to withdraw the treaty." The Secretary said the rejection of the treaty will not necessarily terminate the *modus vivendi*, which was to last two years. He supposes, however, it would be within the right of Canada to withdraw it, since the proposition came from their side. As to the future policy of the government, the Secretary had nothing to say. The Republican senators, he said, have put themselves against every possible treaty. "The retaliation act is still a law," said Bayard, "and may be practically applied by the President any time."

Secretary Whitney has ordered Admiral Luce, commanding the South Atlantic squadron, to proceed in the *Galena* to Port Au Prince, as the presence of an American man-of-war is needed there on account of the state of martial law which exists.

Calling on Harrison.

INDIANAPOLIS, Ind., Aug. 17.—Delegates from three states—Ohio, Indiana and Illinois—aggregating between nine and ten thousand people, paid their respects today to the republican presidential nominee. The first delegation arrived at noon from Paxton, Illinois, and from that time until 4 o'clock the excursion trains continued to pour their thousands into the city, until Meridian, Washington and Pennsylvania streets became almost impassable. The number of brass bands and drum corps marching about the city was not less than twenty. The most picturesque demonstration was by the large delegation from Jackson County, Illinois, and Jacksonville, Illinois, the most attractive feature was a [illegible] of twenty handsome young ladies who led the Jacksonville column. They were uniformed in navy blue dresses with an encircling [illegible] and carried walking sticks [illegible] were delivered in behalf of each delegation. General Harrison responded in a speech, thanking them for their friendly greetings and touching lightly on the issues of the day. He referred to the justice of the republican party dealing with all questions, and said that the party had been tolerant in everything but disloyalty to the Union.

A Minister Resigns.

CLEVELAND, Aug. 17.—Some time ago Rev. Dr. Thos. Dowling, for ten years pastor of the Euclid Avenue Baptist Church, one of the largest and richest in this city, created an excitement among his people by publicly inviting all Christians to partake of communion in his church. The Baptist papers of the country discussed it at length and all agreed that Dowling was no longer a Baptist. Tonight at a prayer meeting he unexpectedly read a long letter to the congregation, announcing that since there was no room in the Baptist church for a communicant, which he had become, he would resign not only from his church but from the denomination. The board of deacons will accept his resignation. The affair has created excitement among the church officials.

African Warfare.

TANGIER, Aug. 17.—The Emperor recently, at the request of the rebels, sent Prince Muley to receive their submission. The prince had an escort of cavalrymen. The insurrents ambushed them and massacred Muley and the whole force in revenge upon the Emperor for killing the delegates sent by the insurgents to treat for peace, and for whom the Emperor promised safe conduct.

Fight Between Whites and Negroes.

NEW YORK, Aug. 17.—A dispatch from New Iberia says a certain class of immoral characters being ordered away, many took refuge at Freetown, a village composed entirely of negro families. Here 500 to 600 mounted and armed themselves. Then the residents and property owners of this section collected, and finding a large body of armed negroes, demanded a surrender of their arms. A number accepted the terms. Thursday morning fifteen armed negroes took possession of the colored minister's house, refusing to surrender. The whites hearing of this sent a message with a command that they lay down their arms within twenty minutes. The negroes again refused. At the expiration of the time a volley was fired at them which soon became general, the fusilade lasting nearly an hour. Finally F. P. Smith, a white man, was shot dead. The negroes became panic-stricken and fled. When the fight was over the bodies of eight negroes were found in the house and five others outside. It is rumored that three or four more were killed.

Eight Shot or Stabbed.

OTTAWA, Ill., Aug. 17.—The details of a terrible tragedy at Prairie Center reached this place today. A dance was given by a number of Norwegians. Whisky flowed freely and all were more or less intoxicated. About midnight, two young men got into a fight over a partner for a dance, and one of them was stabbed. The men present took sides, and revolvers and knives were used freely. Eight are reported either shot or stabbed, four of whom may die.

Immigration Investigation.

NEW YORK, Aug. 17.—Before the immigration investigation committee today, Superintendent Jackson of Castle Garden said he did not consider the able-bodied farm hand immigrant, who is penniless, a pauper. He thought the Castle Garden officials should be empowered to look after the detention of immigrants who are brought over under contract, and proper appropriations made. The head tax should be increased as a practical scheme to keep criminals from landing. All foreigners should be required to give three months' notice of their intention of coming to this country.

Walter McIntosh, secretary of the United States watchmakers' association, testified as to several cases of importation from Switzerland of men under contract to work at the watch-case factory at Waltham, Mass. Englishmen were also brought over. This had served to drive American mechanics into other associations.

Captain Bell, a pilot of seventeen years' experience, had knowledge of the practices of Charles Lockwood and William McKay in securing naturalization papers for natives of Nova Scotia, and then placing them to command American vessels within two weeks. They received $10 a head for their services, and Lockwood told witness he was enabled to make citizens in the time mentioned because of his friendly relations with a son of Judge Moore of Brooklyn.

McKay was called and examined at considerable length. His testimony was full of contradictory statements. He first denied the charges made against him, but finally admitted that he had given false evidence in several cases for the purpose of securing naturalization papers, in one case receiving $250 for his services.

FIFTIETH CONGRESS.

SENATE.

WASHINGTON, August 17.—The bill amending the postal crimes law (the amendments reducing the penalties) was passed.

Mitchell's resolution calling for information as to the lands of the Puyallup Indians, Washington Territory, was agreed to.

Frye's motion that the debate on the fisheries treaty shall close Monday next and on Tuesday the final vote be taken, was adopted

Morgan then spoke again in favor of ratification, after which the Senate adjourned till Monday.

HOUSE.

WASHINGTON, August 17.—The Senate amendments to the sundry civil appropriation bill were non-concurred in.

The endeavor to set down certain days for pension legislation failed for lack of a quorum.

The conference report on the bill granting a right of way to the Utah & Northern railroad through the Fort Hall reservation, Idaho, was agreed to. Adjourned.

BRIEF TELEGRAMS.

London, Aug. 17.—The Japanese government has decided to spend £10,000,000 in five years purchasing men-of-war.

Paris, Aug. 17.—Mme. Pelouise, sister of M. Wilson, has been declared a bankrupt. Her liabilities amount to $90,000.

West Charleston, W. Va.—A boarding house and store burned this morning. Mrs. Wallace and son Simon aged 30 were cremated. Robbery, murder and arson are suspected.

Jacksonville, Aug. 17.—During the past three days there have been only four new cases of fever and no deaths have occurred since Monday. Confidence is felt that an epidemic will be averted.

St. Paul, Aug. 17.—The *Pioneer Press* estimates the aggregate wheat crop of Minnesota and Dakota this year at a round 100,000,000 bushels. Conservative judges make the figures ten to fifteen million less.

Columbus, Ohio, August 17.—Judge Thurman has accepted the invitation of the Illinois democratic state committee to address a mass meeting in Chicago, Aug. 25th. There will be a big barbecue the same day. A great crowd is expected.

Washington, Aug. 17.—The *Star* this evening says the proposition is under consideration by the democratic campaign managers to arrange for a joint discussion of the tariff question by Carlisle and Blaine in 12 principal cities of the Union, to be named by Blaine and the Speaker.

Woodland, Miss., Aug. 17.—Jennie Woolver, a domestic of this farm near here, was shot and killed by George Moons today, aged 20 years, who then blew his own brains out. Moons had just returned from Colorado, and it is supposed that he killed the girl because she was soon to be married to another man and refused his suit.

Boston, Aug. 17.—Nelson Tibbitts, a well-known gambler and sporting man, killed himself yesterday afternoon. He was wanted on a charge of embezzling $3200. He was 52 years old. Twenty years ago Tibbitts took to gambling and achieved a name that made him known all over the country.

Saratoga, Aug. 17.—The American Bar Association elected David Dudley Field, of New York, president, Elias Hinkley, of Maryland, secretary, Francis Rawle, of Pennsylvania, treasurer. Among the general council elected was Benjamin Harrison, of Indiana, as vice-president.

Stockholm Aug. 17.—At today's session of the world's conference Young Men's Christian Association, a telegram was received from King Oscar, who is in Berlin. He regrets his absence from Stockholm and asks that the benediction of the Holy Spirit be on the convention. The delegates have been asked to lunch at the royal palace at Dortington on Monday.

St. Paul, Aug. 17.—The signal service reports the occurrence of a killing frost at St. Vincent, Minnesota, where the temperature fell to thirty degrees before sunrise this morning. The frost extended southward to Moorehead and westward to Bismarck but was light at these points and though tending to retard maturing crops was not fatal.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe Cold, attended with a distressing Cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures, as Dr. King's New Discovery for Consumption. Guaranteed to do just what is claimed for it.—Trial bottle free at A. C. Smith & Co's Drug Store. (4)

Renews Her Youth.

Mrs. Phœbe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, 50c. and $1, at A. C. Smith & Co's Drug Store. (4)

FOR SALE EVERYWHERE.

A FRIGHTFUL SKIN DISEASE.

Sufferings Intense. Head nearly raw. Body covered with Sores. Cured by the Cuticura Remedies.

Messrs. STEVENS & BRUNER, Monroe, N. C.

Dear Sirs,—About two months ago, on your recommendation, I bought a bottle of CUTICURA RESOLVENT, one box CUTICURA SALVE, and one cake of CUTICURA SOAP, for my son, aged thirteen years, who has been afflicted with eczema for a long time, and I am pleased to say that I believe the remedies have cured him. His sufferings were intense, his head being nearly raw, his ears being gone except the gristle, and his body was covered with sores. His condition was frightful to behold. The sores have now all disappeared, his skin is healthy, eyes bright, cheerful in disposition, and is working every day. My neighbors are witnesses to this remarkable cure, and the doubting ones are requested to call or write me, or any of my neighbors.

WM. S. STEPHENSON, WINCHESTER P. O., UNION CO., N. C.

MONROE, N. C., Oct. 29, 1887.

THE POTTER DRUG AND CHEMICAL CO.:

Gentlemen,—Mr. Wm. S. Stevenson of this county, brought his son to town today to let us see him, and to show us what CUTICURA REMEDIES had done for him. This is the case referred to in our letter to you some time ago. To look at the boy now, one would suppose that there had never been anything the matter with him,—seems to be in perfect health. We have written and herewith inclose what his father has to say about the matter,—wrote it just as he dictated.

We are selling quite a quantity of CUTICURA REMEDIES and hear nothing but praises for them. We regard the CUTICURA REMEDIES the best in the market, and shall do all we can to promote their sale.

Yours truly, STEVENS & BRUNER, Druggists and Pharmacists.

CUTICURA, the great skin cure, and CUTICURA SOAP prepared from it, externally, and CUTICURA RESOLVENT, the new blood purifier, internally, are a positive cure for every form of skin and blood disease, from pimples to scrofula.

Sold everywhere. Price: CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

IDEAL BROILING.

Broiling can be done in the oven of the Charter Oak Range or Stove with the Wire Gauze Oven Door, more perfectly than over the live coals.

Lay the steak, chops, ham or fish on a wire broiler or meat rack, placing it in an ordinary bake pan to catch the drippings.

Allow it to remain in the oven with the door closed 15 or 20 minutes. No turning is required. At the end of this time it will be found nicely cooked ready to serve.

THIS IS THE IDEAL WAY TO BROIL MEATS.

There is no taint of coal-gas or smoke, and the meats are more tender and better in flavor than those broiled over the coals. The convenience of broiling in the oven will be appreciated by every housekeeper, and adds another to the many reasons why the Charter Oak Range or Stove with the Wire Gauze Oven Door should be preferred to all others now in the market.

MATTERS OF INTEREST

TO

Gardeners and Farmers.

BUY NORTHERN-GROWN SEEDS. WE ARE THE PRODUCERS OF seed sold by us. They are the best in the world. They are the best for all climates. They are earlier, more hardy, vigorous and productive than those grown in lower altitudes. We keep a large stock of fresh seed and believe that we can give you satisfaction. We unhesitatingly affirm that no better seeds than those we deal in CAN BE PROCURED. Bestowing such assiduous care upon them, we feel justified in saying our seeds are UNSURPASSED in purity and quality. We do not pretend to be the "only house in the west selling NORTHERN-GROWN SEEDS," but we do claim that we have the very best seed to be had anywhere; and that has not been all over the country, for several years, in commission boxes, as we do not send out any commission boxes at all, as so many do. Ask your HOME MERCHANT for our Northern-grown Seeds. OUR PRICES are as low as reliable stocks can be sold at and afford a fair remuneration for the expense and labor attending the proper conduct of the seed business. We ask a trial order from all who have not used our seeds. Write for circulars. Address all correspondence to the UTAH NURSERY CO., General Western Agent, Salt Lake City, Utah.
