

ENGLISH FANS ARE AFTER JOHNSON

There is Trouble Ahead for Big Black If He Fails.

MUST KEEP HIS CONTRACT.

Can Not Throw Up Match in London With Sam Langford—Demands Fight Now.

(By W. W. Maughan.) Word comes from England that if Jack Johnson fails to keep his engagement with the National Sporting club and Sam Langford, the master of glove contest on Tuesday night, he will be made to realize that the British metropolis is neither beer and skittles nor peaches and cream. An English sporting man who came from London recently, and who was in the city named when Johnson and Burns were there last year, has this to say on the subject:

"The National Sporting club was very kind to Johnson and for ought I know made his trip to Australia possible. Anyway, the club was very kind to Johnson in various ways, upholding him strongly in his endeavor to land Burns into fighting before the Australia match came on the boards. Johnson seemed to be grateful, and at the time definite arrangements for the Sydney match were made. It was under engagement to box Langford before the National club. The matchmaker Bettinson did not stand in Johnson's way when the Sydney affair came up, but he had a thorough understanding with the colored heavyweight. Johnson promised to return to London, win or lose with Burns, and box Langford at the earliest convenient date."

"Some of the English sportsmen are in it. If it is simply to be that he is trying to give the English matchmakers into giving a larger purse and may fail in this as the Britishers have in their efforts to get Johnson to fight in their metropolis as to what constitutes a bargain, Johnson says he will make plenty of money. He is doubtful if he will do so if the sentiment of English sportsmen is against him. I hardly think, however, that Johnson will throw the National club over. It would be rank folly for him to do so if he really contemplates a trip to England."

"If Jeffries should agree to box Johnson, the National club would be in a bad way. That is what they are asking now. Of all the big made so far it is manifest that the National club is the only one that has not been made by Jeffries and his associates. Johnson and Jeffries have reached the determination to engage in a real fight for real money. They will not let him to lead them out of the wilderness of false excitement and bogus bidding."

INTERESTING SHOOT TAKES PLACE AT FORT DOUGLAS

The indoor pistol and revolver match, the first held in Utah, came to a close yesterday afternoon at Fort Douglas. There were no entries to the pistol shoot and the work done was with revolvers. There were five in this event and they shot at distance of 25 yards. The officers are anxious to arrange a match with any five-men team in the state as soon as possible, and they are working hard to stir up interest in pistol shooting. The results of the contests follow:

JUST IN TIME.

Some Salt Lake City People May Wait Till It's Too Late.

Don't wait until too late. Be sure and be in time. Just in time with kidney pills means curing the back. Before lumbago becomes chronic. Before serious urinary troubles set in. Don't's Kidney Pills will do this.

Here is Salt Lake City testimony to prove it.

O. E. Moody, living at 30 south Sixth West St., Salt Lake City, Utah, says: "I do not think there is another remedy on the market today which will cure backache as quickly as Doan's Kidney Pills. My back had given me trouble for six months. If I stooped over I became stiff and lame, and it was with difficulty that I could arise. Sharp pains would start at my kidneys and radiate throughout my body, causing me much suffering. Deciding to give Doan's Kidney Pills a trial, I procured a box at the P. J. Hill Drug Co. They gave me relief at once, so I continued taking them and was absolutely cured and permanently cured of the trouble. It is a year since I used Doan's Kidney Pills and I have not had a return of the complaint since."

O'MARA WILL PROMOTE A SIX DAY RACE IN APRIL

Manager O'Mara of the Auditorium announced last night that the racing season would close during the week beginning April 3, and that during that week he would promote a six-day race similar to the one now going on in Butte in which two Salt Lake boys are making good. Instead of racing one hour each evening the contestants will race 30 minutes, beginning at 9 o'clock and ending at 9:30. He is sending out contracts to some of the fastest men in the country and expects teams from Seattle, Portland, Butte, San Francisco, Los Angeles, Denver and other cities. With a fast local field on hand no doubt there will be great interest in the race. The starters will get 50 per cent of the gate receipts and divide the purse as they did in the recent Marathon.

LEHI AND CHICAGO.

Utah Champions Are Axious to Meet Crack Basketball Team.

An effort is being made by the Lehi basketball team, champions of Utah in the high school class, to arrange a series of three games with the Lake View high school team of Chicago. If the games are arranged they will be played at the Y. M. C. A., the first to take place on April 3. The Chicago team is regarded as one of the strongest in the middle west but the Lehi boys think they can hold their own with them.

MURPHY SIGNS CONTRACT.

"Maggie" Murphy, the well known pitcher, who has just been released from the Chicago team, has signed to play with Twin Falls this season. Murphy is one of the best pitchers in the country and is sure to make many friends in the Idaho city.

SULLIVAN'S MOTHER DIES.

The bad news was received here last evening that Peter Sullivan's mother died before he could reach her bedside. She had been ill for some weeks and the local boys would surely have been beside her several days ago. He left as soon as he resolved work that had been pressing on him and did not arrive until he died two days before Peter reached her home.

QUESTION OF TRAINING TRIPS IS DISCUSSED

(By Empire City News.) Are southern training trips good or bad investments for the many clubs who make the annual spring visit to Dixie? This much-disputed question has been discussed from every angle for years by fans and club owners and yet no definite answer has been reached by both sides.

Several club owners have tried the plan of training in the south with varying success, and on several occasions after a week or two of bad weather have shifted with all haste to the training grounds in the south. The very fact that the teams continue to go south is the best proof in the world that training in Dixie is profitable.

No doubt to the average fan it seems quite an item of expense for a club to send 20 or 30 men south for six weeks to get in shape for the coming season at the expense of the club. The players all ways travel on the best train, stay at the best hotels and get every attention possible. Each spring every major league club must spend \$2,000 on the preliminary work.

Sometimes the weather conditions in the south are not any too favorable and other times the various clubs run into all kinds of tough luck on their way north. Exhibition games that had been arranged for during the winter months are postponed on account of weather or ground conditions, and many chances are lost to get back some of the money spent.

When training trips were first inaugurated the training of a major league club was a matter of much importance. The arrival of the big league stars was anxiously awaited, and during their stay they were very much of the whole show. The exhibition games would always draw big crowds, and often quite a little money would be made in this way. The coming of the stars is no longer a matter of so much importance. It is in fact regarded as a rather commonplace affair, and no longer do the teams draw such big crowds.

While in a few respects the pilgrimage to the south may not attract as much attention as it once did, it is still a way of life for many players. Of late years the game has been making such rapid strides that the players and spectators at home are paying more attention to the doing in the spring training camps. It is in fact, in respect to the club, a big revenue on its investment.

Practically every major league team that goes south nowadays takes somewhere from four to six correspondents, as well as several photographers. They all picture the doings of the different teams while in the south.

After a long wait the fans have lived on hopes and near-views of what would happen during the approaching season. They would like to know about the players and the prospects as seen from the field of battle. Baseball has become a game of the future, and the club owners realize this and are always alert to any measure that will help perpetuate the game.

For five or six weeks prior to the opening of the season the fans devour with which all the data that is served up to them by the staff correspondents. The opinions of the writers on all subjects are considered, and many a heated argument is caused by some of the stuff sent from the south.
