Thunder Storm and Hurricane.

NEW YORK, 14.—A special from Springfield, Mass., says a severe thunder storm and hurricane passed over Northampton, this afternoon. Northampton bridge went down with six teams on it. The bridge belonged to the Massachusetts Central Railroad.

An eye-witness describes the scene as follows: The Hampshire Superior court had just adjourned, and there were many teams on the road leading to Hadley and Amherst. Suddenly the most violent gale ever known in the county sprang up, accompanied with hail. The people ran and drove upon the bridge for shelter from the storm, until a company of fifteen persons were beneath the roof. The heavy timbers began to creak, and in a second the structure was raised bodily in the air, and hurled with a deafening crash into the river below. It was completely demolished by the fall. A gang of men from this place immediately went to the rescue. The first body removed was Mrs Sullivan, of Hadley, bruised and crushed beyond recognition. Sheriff Cook, of Hadley, was very severely bruised, and will probably die. George B. Smith, of Hadley, and W. W. Smith, of Amherst, received serious injuries, but will recover. The others were taken out alive and uninjured.

New York Yacht Club Annual Regatta.

In the annual June regatta of the New York Yacht Club, to-day, the sloop *Vision* was the first to cross the home line, followed by *Comet*, both of whom lost time in shortening sail, as a squall was threatening. The *Wanderer* and *Rambler* were close by. The former was, perhaps, 100 feet below the line when a heavy squall of wind struck her, carrying away her topmast staysail and halyards, and letting her staysail down by the run, where it dragged in the water. The *Wanderer* was also struck, carrying away her jib boom. It was thought for a time that the *Rambler* would capsize. The sails of both yachts were let go by the run. The *Rambler* was the first to cross the line, while the *Wanderer* was worked so well that she crossed the line in time to win the race by one minute and twenty-one seconds. All of the yachts which had not come in shortened sail, and lay to until the squall passed over. The *Wanderer's* time was five hours, forty-five minutes and forty-five seconds.

A Tramp Burned to Death.

COLUMBUS, O., 14.—The barn of Ephraim Barrer, living near this city, was burned, last night, and the bones of a human being, presumably a tramp, found in it.

Black Hills Road Agents.

HAT CREEK, Wy., 14.—About 8:30 this morning, the coach from Deadwood was stopped by two road agents, some twenty-five miles north of this place. The driver states that while coming through a narrow ravine, two men, who had been hidden by the broken nature of the ground, suddenly sprang up about ten yards ahead of him, one of whom covered him with his rifle and ordered him to halt. The other, covering Skinner, the messenger, ordered him to throw out the treasure box. The messenger complied, and this seemed to satisfy them, for they immediately told the driver to go ahead. There was no attempt to rob or molest the passengers (three men and one lady). Both men had their faces blackened, and were otherwise disguised.

Greenbacks and Silver.

WASHINGTON, 14.—The issue of one and two dollar greenbacks was discontinued at the treasury mainly to induce banks and individuals to take and put in circulation silver coin. Silver is now going out of the treasury so rapidly, about $1,000,000 a month, and the full greenback fund of $10,000,000 authorized by law, is so well assured that the treasurer will probably soon resume the shipment of ones and twos in moderate amounts.

FOREIGN.

GERMANY.

Hospitals for the Sick and Wounded.

BERLIN, 14.—The Russians have organized fifteen field hospitals, containing altogether 20,000 beds, to be distributed over Roumania and the adjoining districts. This provision for the sick and wounded is thought to be sufficient for all emergencies.

GREAT BRITAIN.

The Suez Canal.

LONDON, 14.—In the House of Commons Sir Stafford Northcote, Chancellor of the Exchequer, stated that Russia's reply to England's intimation forbidding the exercise of belligerent rights in the Suez canal, was to the effect that Russia would neither blockade, interrupt, or menace the navigation of the canal in any manner. He also stated that replies from the Porte and Khedive to British communications on the subject had not been received.

Eastern War News.

The Circassians in the Russian service, numbering six cavalry regiments, having refused to oppose their Mohammedan brethren, have been sent from the main column towards Bayazid. The Russians are gathering around Kars.

The Governor General of Syria telegraphs that 12,000 Bedouin horsemen, and some Ottoman troops, had a conflict in the district of Hama, in which the rebels were completely defeated.

Three Russian frigates which have been lying in the harbor of Brest, sailed, to-day. Destination unknown.

Prince Milan has arrived at Orsova, en route to Ploiesti.

The Russians have erected a battery on an island opposite Rustchuk.

Sickness, especially typhus fever, causes greater gaps in the Turkish ranks in Asia than the volunteers are able to fill up. During the last six months at least 10,000 men have died in the hospitals.

A Paris correspondent says he has received a letter from Ploiesti, emanating from one who is in a position to have exact information, in which he states: "I have just read Prince Gortschakoff's reply. It is conciliatory but firm. As to Constantinople, no body says Prince Gortschakoff can predict the course or issue of the war; but neither the question of Canstantinople or that of the Dardanelles can be settled apart from Europe.

The Austrian government seems to apprehend that the journey of Prince Milan to Ploiesti has been planned with the view of provoking a Turkish attack, and thus supply Servia with a pretext for assisting Russia without giving Austria cause for offense.

A Bucharest correspondent telegraphs the text of the circular in which the Roumanian government requests the powers, above all, to promise that Roumania shall not be forcibly constrained to renew her former relations with the Porte. The circular affirms, most positively, that the declaration of independence was made without any exterior influence. The future conduct of Roumania will prove her policy to be conservative.

Preparing to Emigrate—False Reports—Baptism, etc.

ROME, Georgia, 17th May, 1877.

Editor Deseret News:

The Saints in this part of the world are getting along as well as could be expected, considering all the circumstances and surroundings. The great majority of them are feeling well and trying to live up to the principles they have espoused, and prove to the world their faith by their works. They are generally preparing to emigrate the coming fall, and are shaping their business accordingly. They begin to realize that Babylon must fall, and they must flee out if they would stand in safe standing places.

The powers of darkness seem to have combined their efforts lately, throughout all the United States, to say all they can against God's work. The papers are full of the most outrageous slanders and villification imaginable about our leaders and the people generally, and, strange as it may seem, it does look as though nine-tenths of all the reports against our people can be traced directly to those whom the Latter-day Saints have nourished and fed in times gone by, and that to-day are dependent to a great extent upon "Mormon" patronage to enable them to have a home in the valleys of the mountains. The opposition to the spread of the principles of the gospel is based upon these reports and wild rumors that are sent out by this class of people, which are seized upon with avidity by the so called ministers of the gospel, who regale their congregations with the latest news from Utah, in the shape of flights, drilling, overthrow of the "Mormons," bondage of the women, the "Mormon" Bible, Solomon Spaulding, etc. The metropolitan papers get up a sensation, and all the country papers, religious periodicals, and small fry generally, copy it, and assure their readers that all this *must* certainly be so. Thus they go on, deceiving and being deceived, the blind leading the blind, and it does seem that the ditch cannot be far off.

Notwithstanding all this the truth goes on, the sound of the gospel is going throughout the length of the land, and the honest in heart are obeying the commandments. We have baptized one since our conference and the outlook is fair ahead for several more additions to the different branches of the church.

Brother Lisonbee and myself think of visiting some of the surrounding country, and should this come under the notice of any of the brethren or sisters who have friends or relatives in North Georgia or Alabama, whom they would wish visited, if they will favor their address to either of us at Rome, Ga., we will try and come in contact with them, in our travels. I cannot but think that there is yet some of the blood of Israel in these valleys and mountains, and it may be per chance we shall be able to seek it out.

The people are in a condition to hear almost anything, they are torn to pieces religiously, and divided and subdivided until it seems as though they have lost all idea of organization or system, and any wild theory that happens to come along leads the crowd, while the honest in heart can only stand by and not knowing what to do they are lost in a maze of doubt, until the gospel reaches them, when they readily see their way out of the difficulty.

The weather is getting warm and warmer, the planting of corn and cotton is about through, but owing to the cool nights the growth has not been very rapid so far. The cotton looks yellow, the fruit is mostly destroyed. Corn is one dollar per bushel, and scarcely any for sale at that.

Very respectfully,
Your brother,
J. MORGAN.

TARRANT'S SELTZER APERIENT

Ridiculous Ideas are entertained about purgatives. It is dangerous to scourge the stomach, to rasp the bowels, to prostrate the nervous system with furious evacuants. Nature has given a sample, in the famous Selzer Spring, of what the bilious, constipated, or dyspeptic system needs for its restoration, and in TARRANT'S Effervescent Seltzer Aperient Science has improved on Nature by combining all the valuable ingredients of the German Fountain in a portable form, and omitting those which have no medicinal virtues. This agreeable and potent saline alterative cleanses the condition of the blood and purifies all the fluids of the body. Sold by all druggists.
