Members of the real estate association are feeling aggrieved because of the street railway management's intention to abandon the First street line, and claim that it will affect unfavorably the value of real estate on First street.

With the completion of the Lueh cut-off and the paving off of the roads which have been prepared, the huge undertaking this week the jurisdiction of this stretch of line now passes to Chief Engineer Ashton of the Oregon Short Line.

Joseph F. MacKnight, who was appointed deputy county clerk by County Clerk Eldredge, has resigned his position and has accepted a position with the Utah Light & Railway company. Mr. Eldredge has appointed Miss Margaret Liggett to succeed Mr. MacKnight temporarily.

Manager Mark Austin in behalf of the two Idaho sugar factories, has challenged the three Utah sugar factories to a rabbit hunt in Fremont county. If the challenge is accepted the Oregon Short Line will put in a special rate. The affair promises to be one of the biggest hunts held for some time.

The railroad company turned on their electric lights the latter part of last week and it gives the town a look of prosperity. They found they had a hundred and fifty lights to spare of which J. H. Heron had been connected with the system and after January first the business houses will be supplied with all night service.—Glenys Ferry Signal.

SHORTAGE OF DIRECTORIES.

New Bell Subscribers Have Used Them Up.

The management of the Rocky Mountain Bell Telephone Company is compelled to ask its patrons to take particular care not to destroy or lose their telephone directories, as the present edition is exhausted.

Anticipating a large increase in the number of subscribers nearly a thousand extra directories were printed two months ago, but the growth exceeded this provision. Every effort is being made to hurry the publication on the new edition, which will be ready for distribution about January 25th, and until that time the company asks its patrons to be patient. Those without books can obtain the desired connection by calling for the Chief Operator.

ferred to the committee on claims for consideration.

\$10,000 FOR HIS LIFE.

Big Policy Takes Out in Favor of Parents Three Weeks Before Suicide.

Royal H. Milliron found that life did not pay, according to the statement he left when he shot himself at Provo. From the fact that his parents now have come to them \$10,000 on an insurance policy taken out three weeks before he committed suicide, it would appear that he wanted his death to be as profitable as possible.

Milliron, who took out in the New York Life company, was for \$10,000 and was an uncontrollable policy. For this reason it will no doubt be paid.

Subsequent to that policy Milliron applied for another one with the same company for \$2,000. He had paid in the premiums, but the policy had not been issued when he took his life.

Whether or not the second policy will be paid is still uncertain, but doubt, the final decision resting with the office of the company in New York.

Insurance officials of the New York Life company are not inclined to believe that Milliron had any intention of suicide when he took out the policies, as they argue that in that case he would have taken out a much larger amount.

The funeral of young Milliron occurred yesterday afternoon at the family residence, 211 east Fourth South, the remains being interred in Mt. Olivet cemetery.

Chamberlain's Cough Remedy the Best Made.

"In my opinion Chamberlain's Cough Remedy is the best made for colds," says Mrs. Cora Walker of Porterville, California. There is no doubt about its being the best. No other will cure a cold so quickly. It is also an excellent preventive of pneumonia. No other is so pleasant and safe to take. These are good reasons why it should be preferred to any other. I find that few people are satisfied with any other after having used this remedy. For sale by all drug-gists.

IDAHO POSTMASTERS.

Port of What Was Found in Relation to Polygamy Charges.

It appears that there is less and less to the charges made against Idaho postmasters said to be living in polygamy. In conjunction therewith the following special Washington, Herald dispatch affords interesting reading: The report from the postoffice department upon the resolution of Senator Dubois relative to polygamous postmasters in Idaho was submitted to the Senate yesterday and will be printed as public notice. The investigation was made by Inspector Fowles, who stated in his report that the basis of the complaint was a letter sent by Senator Dubois in which it was stated that complaints had been made that the postmaster at Rexburg was the plural wife of Ben, E. Rich, that the postmasters at Ureton, Oakley and Mink Creek were polygamists and that numerous polygamous postmasters were in office in Bear Lake, Fremont, Bannock, Oneida, Owyhee, Bingham and Blaine counties.

Carson—This market has again passed through a day of liquidation by tired holders. The selling pressure has not yet assumed serious proportions, but it is noticeable that on all firm spots commission houses generally met the advance with selling orders. Trade continues extremely dull. Considering the reports and scattered long interests, we still feel corn is a sale on the strong spots, and believe the market will still decline.

Cats—This market adversely affected by weakness in corn pit and has passed through a little liquidation by tired holders. Trade continues without feature whatever. We continue to feel there is nothing in this market at the moment.

Provisions—Liquidation has been the feature in today's market. Hogs closed at about yesterday's prices. Aside from the general market a sharp drop in the devoid of features. Buyers usually employ the packers were active on the selling side in a moderate way, trying to uncover stop orders. We see nothing at the moment likely to change present conditions.
