UTAH DELEGATES TURNED DOWN Wanted Irrigation Congress to Demand That Government Authorize a Bond Issue.

Next Session Will be Held in Sacramento—Adjournment Sine Die Taken.

Boise, Sept. 6.—The fourteenth National Irrigation congress closed its sessions this evening after voting to hold the next congress at Sacramento, Cal., and electing as president of the fifteenth congress Gov. George E. Chamberlain of Oregon.

There was some evidence of discord in connection with the election of secretary. D. H. Anderson, a Chicago publisher, was the choice of the nominating committee. His published utterances in criticism of the federal reclamation service were urged against him.

A special train which left Boise over the Oregon Short Line late tonight carried a large number of delegates to the congress who will spend two days inspecting the irrigation projects of southern Idaho.

Opponents of the minority report maintained that it would be unwise to present such a demand to Congress at this time. Congressman Reeder of Kansas, voicing this opposition, said the eastern congressman would resent it.

MANY COUNTRYMEN ATTEND. The affair at Commercial Club Will Punctuated With Speeches—Lecture Tonight.

Erving Bjornsen, son of the distinguished Norwegian poet and statesman, arrived in this city yesterday afternoon, where he was welcomed by local countrymen, preparatory to being tendered a banquet at the Commercial Club.

The banquet was attended by nearly 100 countrymen of the noted guest, and was one of the pleasantest functions ever given at the club.

Mrs. Martha Royle King will register public every day from 10 to 2 at her studio, 225 Commercial Club building, beginning Monday, Sept. 19th. Voices tested free.

At about 4 o'clock this morning there was an exciting scene in the neighborhood of 160 west South Temple street, a saloon, when the bartender made a "stall" that the place had been entered by hold-ups and robbed.

Later it developed that the fellow robbed his employer of a few dollars and then made the statement that he had been robbed.

SIX MEN KILLED. Parting of Cable on British Steamer Halls Caused Instant Death.

Merida, Yucatan, Sept. 5.—The parting of 6 cables on the British steamer Halls in the port of Progreso, brought instant death to six men Wednesday. They were in a small boat along side the steamer, which was being unloaded, when several tons of boxed machinery broke from the hoists and crashed down squarely on top of the small boat.

JESUITS VOTE TOMORROW. Rome, Sept. 5.—The quadrumvir of the congregation of the Company of Jesus continued yesterday.

CANDLES ON A TREE. One of the curiosities of plant life in Central America is the "candle tree" (Parmentiera cerifera), which bears large white flowers at the nodes, followed by large edible fruit, very similar in appearance to yellow wax candles.

Found on the Skin Phosphate Direct from the Brain. We know that active brain work throws out the phosphate of potash for this product is found on the skin after excessive brain work.

Another exclusive style shown in our Boys' Department is this season's most striking creation—the Peter Pan, for little Boys. You should see it.

THEATRE—Prof. McLellan turned over his chorus which has been in training for some time for the production of "The Wedding Day" to the stage manager, and that gentleman put them through a hard drill on Tuesday evening.

The New "Buster Brown."

There is but one genuine Buster Brown style of suit for Little Boys, and we have that one exclusively for this city.

This Fall's model is a modification of former Buster Browns, the only radical change being in cut of collar.

As Shown in the Picture this year's style has large collar with removable shield front, some of the finer ones having two separate shields.

Our showing includes a broad variety of bright, pretty fabrics in plain and pattern effects, little Beauties every one.

Another exclusive style shown in our Boys' Department is this season's most striking creation—the Peter Pan, for little Boys. You should see it.

LIQOEL'S 225-230 MAIN.

Senator Dubois of Idaho endorsed what Congressman Reeder had said, and stated that but for the personal efforts of President Roosevelt the reclamation act could not have been passed.

By a decided vote the congress voted to table the minority report. Frank C. Gowdy of Denver moved to strike out the resolution urging Congress to extend to the federal courts jurisdiction over water rights on interstate streams.

It was the old fight of Colorado and Kansas over the Arkansas river. The Kansans favored the committee resolution. Dr. Elwood Mead of the reclamation service moved as a substitute

that the president appoint a committee of five to investigate the questions at issue and report to the next congress. This was agreed to. The report of the resolutions committee as thus amended was adopted, and the chairman named as the committee Elwood Mead and Morris Blen of the reclamation service, Frank Freeman of California, Ira In-

glehart of Washington and J. H. Lewis of Oregon. As the committee on publicity for the ensuing year, Gov. Mead in the chair, named Prof. Fortier of California and Messrs. Hurd of Arizona, G. R. Reeves of Nevada, Govdy of Colorado, F. H. Ray of Montana. Adjourned sine die.

Every Saturday Evening Concert seems just a little better than the last one. We will be glad to have you present. Your friends will be down.
