The picnic to be given under the auspices of the Federation of Labor will be held at the Provo canyon on August 11.

President J. T. Kingsbury delivered a very interesting and thoughtful lecture before the University summer school this afternoon. His subject was "Culture."

The citizens of the town of Lund, on the Oregon Short Line, have petitioned for a postoffice representing that the office would have over seventy-five patrons.

According to John Plinders and W. S. Matthews, of Grantsville, the lake has receded far back at its point nearest Grantsville. The extreme heat has not damaged Tooele valley, but very little because of the many wells there.

The Milwaukee Sentinel says many complimentary things about the rustling qualities of the Salt Lake Elks in the picture of the 1902 convention and reproduces the pictures of Joseph, Zenas, and Lester D. Reed, C. O. Elmswood and A. E. Lyon.

Capt. John Anderson, who came here to establish a post of the Volunteers of America, has been called to Reno, Nevada, where his two-year-old child is lying seriously ill. The work of organizing has been postponed for one month.

On July 27th, at 9:30 a. m. came a circular to Salt Lake from Tokyo, Japan, via Seattle. Twenty four hours later came a similar missive from the same source, via San Francisco. Another day saw still a third circular from Tokyo, via Tacoma. Postmaster Thomas is now looking for one from Victoria, B. C. These circulars are all mailed by the postal officials of Tokyo, Japan, on July 19, with a view to ascertaining which of the four routes is the fastest.

Frank H. Paul, of the firm of Mitchell Vance & Co., of New York, is here for the purpose of putting in the electric light fixtures in the Kearns residence. Mr. Mitchell is not at liberty to state the cost of the fixtures, but he says they will be as elegant as their surroundings. Different shade effects will be put in so that the magnificent interiors will be made to appear at the best possible advantage. It may be about a month before the fixtures can be placed in the Kearns residence.

The enthusiasm and general interest in the coming Labor day celebration bespeaks for that event an elaborate and painstaking display seldom equaled in this state. Last night the executive committee of the Federation of Labor met to further the arrangements for the coming celebration. Nearly all the members were present, and A. E. Johnson acted as chairman. A sub-committee was appointed composed of John Britton, William Pickett and Daniel Elton to assist in the arrangements. The executive committee will meet again next Sunday morning to appoint other sub-committees to attend to the various phases of the work.

SHOWERS HEAVY IN SOME PARTS.

Nine Counties Were Much Benefitted by Last Week's Rains.

GRAINS RIPENED RAPIDLY.

Grasshoppers Are Doing Damage in Cache, Weber, Sanpete and Sevier Counties—Fruit Blown Off Trees.

Weekly crop bulletin, Salt Lake City, Utah, July 30, 1901. The temperature continued excessive throughout the week ended July 29th, the average daily departure amounting to about 5 degrees. Thunderstorms were general during the first half, and scattered showers occurred during the latter half of the week. These showers were heavy enough to be of considerable service in parts of Rich, Tooele, Sanpete, Millard, Beaver, Piute, Wayne, Iron and Garfield counties, but elsewhere they were too light to be of much value. The heaviest falls reported occurred at Meadowville and Frisco, the former receiving 1.70 and the latter 1.56 inch. Sugar beets, corn and potatoes continued in good condition. Grain crops of lucerne are being cut, and the cutting of the second crop is being made in full progress. The second crop of lucerne is being harvested and the yield is rather light. Grasshoppers are doing some damage in parts of Cache, Weber, Sanpete and Sevier counties. Fruit ripened rapidly; considerable of it was blown from the trees by the high winds accompanying the thunderstorms. (The name of the post-office is followed by the name of the county.)

Corinne, Boxelder.—Very warm and dry. Second crop of lucerne is being harvested. Wheat is considerably below the average. Dry land wheat is being cut. Lucerne is being cut very low, but there is plenty for irrigation purposes. —W. E. Johnson.

Wasatch, Boxelder.—Very warm, with plenty of wind in the day time. Harvesting is in full progress. The yield of the first crop is being cut; the yield of the second crop is being cut. Small mountain streams are nearly dry. —M. Ward.

Vernon, Tooele.—Good thunderstorms from the 22nd to 25th; the precipitation was heavy in the mountains, causing small floods, but no damage. The first part of the week was very warm, the maximum temperature reaching 104 degrees. Barley is being harvested, and wheat will soon be ripe. —W. H. Durrant.

Levan, Juab.—The maximum temperatures of the week continued in the nineties. Wheat harvest is in full progress. Second crop of lucerne is being cut; the yield will be heavy. Corn promises a full crop. Early apples and apricots are getting ripe. —William Brown.

Hyrum, Cache.—A very warm week, the latter part being cloudy with a few sprinkles of rain. Grain is being cut; the yield will be light. Irrigated crops are looking well. Sugar beets are in good condition. Winds have blown considerable fruit from the trees. —James Alton.

Paradise, Cache.—The weather continues warm and dry. Thunderstorms on the 25th and 26th, but no rain fell. Second crop of lucerne ready to cut. Wheat harvest was begun on the 26th. Meadow hay is being cut and put into stacks; the yield is light. Wheat is being damaged by grasshoppers; the bugs have been preying upon them for several days. That part of the second crop of lucerne which has been watered is heavier than the first crop. —James Lofthouse.

Uintah, Weber.—Partly cloudy with several traces of precipitation. High winds have prevailed. Everything is drying up on the ranges and dry farms. Where water is to be had, crops are fresh and green, but below average. Grasshoppers are doing considerable damage. —Charles DeLafayette.

Eden, Weber.—Very warm and dry. Light shower on the 24th. Wheat is ripening very fast. Second crop of lucerne is beginning to bloom, and will make a fair yield where it has been watered. —J. M. Wilbur.

Morgan, Morgan.—Very warm; several thunderstorms, but no rain in the valleys. Timothy is being harvested and will make a fair yield. Wheat and oats are ripening fast. Potatoes are doing well. Irrigation water is falling rapidly. —S. Francis.

Miller, Salt Lake.—Warm and dry. Well watered crops are growing nicely. Second crop of lucerne is being cut. Sugar beets are looking well. Potatoes are an average yield. Water in the mountain streams is getting very low. —John Morgan.

American Fork, Utah.—Several thunderstorms, accompanied by wind, but no rain. Irrigation water is getting scarce. Harvest has begun. Much of the wheat is badly shrunken. Sugar beets are looking well as a rule. The wind has blown much fruit from the trees. —J. C. Wagstaff.

Pleasant Grove, Utah.—Very warm week. All kinds of fruit are ripening rapidly. Harvesting and haying are in full operation. Threshing will begin in a few days. Potatoes are being cut. Water is scarce. —H. B. Strett.

Ephraim, Sanpete.—Very hot and dry; not enough rain to do any good. The crops left by the grasshoppers are suffering severely from the heat and drought. —A. C. Nielson.

Gunnison, Sanpete.—Several good showers, which have helped grain very much. Irrigation water holds out better than was expected. Grain is ripening very rapidly, and the cutting of wheat has begun. Grasshoppers are doing damage; they cut the blossoms of lucerne. Second crop of lucerne is being cut. —J. S. Morfat.

Meadowville, Rich.—Very warm; a very fine rain, amounting to 1.70 inches, on the 23rd; the ground was thoroughly soaked. The rain was followed by a heavy shower on the 24th. The yield of lucerne is being cut; the yield of the second crop is being cut. —J. S. Morfat.

Laketon, Rich.—A nice thunderstorm on the 23rd, which did much good to crops; loose soil was soaked to the depth of three or four inches. Water is rather scarce, and some wheat is suffering from drought. The second crop of lucerne will be light on account of shortage of water. —G. G. Weston.

Coalville, Summit.—Very warm, and irrigated crops have grown rapidly during the past two weeks. Winter wheat is being cut. Hay is being made. No rain and very little wind. —Thomas Beard.

Midway, Wasatch.—Unusually warm, with occasional thunderstorms, but little rain in the valley. Heavy rain at the head of Snake Creek canyon on the 23rd and 24th. Sugar beets look well where properly cultivated. Hay is being harvested in good condition. Potatoes are doing better but, as a rule, the yield will be below the average. —John Huber.

Heber, Wasatch.—Warm and dry. Thunderstorms in the mountains all week, and 10 inch of rain fell here on the 25th. Some grain is beginning to change color. Vegetation is very rank where there has been plenty of moisture. Ranges and pastures are very dry. —John Crook.

Vernal, Uintah.—Very warm; several light thunderstorms, but the precipitation was not heavy enough to be of much service to crops. The hay crop is below average. Wheat and oats have suffered from want of water, and will yield below the average. Early apples are ripe. —Thomas Menzies.

Holden, Millard.—The warm weather, continuous very light wind. Water is still scarce. —T. H. Shiley.

Joseph, Sevier.—Very warm with several thunderstorms. The first crop of lucerne is nearly all up; the yield is light. Some wheat has been harvested. Grasshoppers are plentiful. —Ed. Newby.

Emery, Emery.—The weather continues very warm; precipitation has been light. Apples and peaches are ripe, and the yields are generally good. —H. C. Wickman.

Frisco, Beaver.—From the 21st to 23rd 1.56 inches of rain fell, greatly benefiting the country. —R. A. McIntire.

Beaver City, Beaver.—A very warm week; light showers from the 21st to 23rd, which were of some service. Nearly all the crops are looking fairly well. —H. A. Chaffin.

Creteville, Piute.—Very warm days and cool nights, with two or three showers during the week. Crops are looking better. Some grain is beginning to ripen. There has been quite an increase in the water supply on account of showers in the mountains. —H. A. Chaffin.
