AMERICAN.

The Tariff Commission.

CHICAGO, 7.—The tariff commission arrived and began session at 11 o'clock. J. A. Whittier, president of the Saginaw, Mich., board of trade, spoke for the lumber interest of the northwest, and he read a paper showing the magnitude of the trade as an argument for the maintenance of the present moderate tariff on lumber of 100 to 15 per cent. Michigan, in 1881, produced 4,000,000,000 feet of lumber. The total value of forest products last year was over $80,000,000. Forty millions of capital are invested in the business, and 56,000 men are employed at average daily wages aggregating $103,080. Wisconsin and Minnesota produced about the same amount of lumber as Michigan, and these three States furnished one-third of the United States product. Canadian labor was 30 per cent. lower than ours. Statements were also made by Arthur Hill and John L. Estabrook, of the Saginaw board, and they were principally an illustration of the impossibility of protecting American forests under the present land policy of the government. It is different from Canada, where settlers are required, in order to guard against fire, to remove from timber limits. McMahon requested these gentlemen to prepare and submit a simplification of the duties on lumber.

In the afternoon Robt. H. Cowdry, a Chicago druggist, argued against the quinine duty. He denied that manufacturers claim that a renewal of the duty would not increase the price to consumers. He read letters from druggists that after the fall in the price of quinine they reduced the retail price 20 per cent. Answering Garland, he said that a druggists profit on quinine, sold in small quantities, was 190 per cent., and if the wholesale price increased ten pee cent. by a re-imposition of the tax, the druggist's profit would still be about 180 per cent. George Auck, a Chicago druggist, explained that these answers applied only to quantities of less than ten grains. A druggist sold quinine at 50 cents per drachm, or only about $3.50 per ounce. It was untrue that the consumer did not get the benefit. A reduction of the duty would benefit not over 1,000 persons, and would injure 40,000,000. He did not know that the abolition of the tax had been the cause of the reduction in the price, but doubted not that it influenced it. He did not know of any European syndicate to control the price, but it was an easy thing to do. Quinine, like wheat, was largely speculated it. Adjourned to 10 a.m.

Social Science.

SARATOGA, 7.—The Social Science Association heard Theodore Bacon on "The Standard of Ethics for Lawyers;" Jas. T. Colby on "Disfranchisement for Crime;" and Edward Benison on "Local Self Government in the Northwest."

At the Social Science Congress today, President Angell read a paper on the diplomatic relations between China and the United States.

No Cause for Alarm.

LEAVENWORTH, 7.—A *Times* reporter visited Fort Leavenworth today in regard to the invasion by the Southern Cheyennes, and the depredations reported to have been committed by them. It was learned that the report was started by the appearance of a small hunting party on Wolf Creek, west of Fort Supply, hunting wild horses. A party was sent out to take them to their reservation, and General Pope has telegraphed assuring the settlers that there is no cause for alarm. Captain Bennett, of Fort Reno, telegraphed to-day in regard to the hunting party and said there was no trouble, as the Indians have no hostile feelings whatever.

More Floods on the Rio Grande.

ST. LOUIS, 7.—Texas advices say that heavy rains have fallen throughout the north and northwest part of the State, reaching south to San Antonio, where 4½ inches fell yesterday. The Concha is out of its banks again and towns are again submerged. There are floods also at Eagle Pass, Stockton and Davis. The Rio Grande spread all over the lower part of Eagle Pass. People are preparing to move from the side of the bluff. The river is higher now than ever before and there is much anxiety for the towns lower down.

Fort Concho, Tex., 7.—Fifty-three white bodies were recovered from the floods, and mostly identified. The larger number of those still unidentified are Mexican herders. The losses are about $312,000 in San Angeles, Ben Ficklin and Concho, and as much more on stock and property in the surrounding country. Cash relief subscriptions for sufferers, mostly from stock men, reach $10,000. All that section is devoid of railroad facilities, the nearest point being over 100 miles distant, and it was some days before the extent of the calamity in the broad and veay sparsely settled region was known.

Northern Pacific.

ST. PAUL, 7.—H. M. Scott, A. R. Johnson, and John P. Sanborn, government commissioners to inspect the section of the Northern Pacific from Glendive to Billings, returned to St. Paul to-day. They report the road as constructed in the most scientific manner, of the best materials. They believe it a good road bed, and will recommend that it be accepted by the government. They were more particularly struck with the rapidity of construction. Eight thousand men are at work on the western division, and 7,500 on the northern. Track is being laid at the rate of 1½ miles a day west of Billings, and work is in progress on the road bed the whole distance. Grading will be completed this season, and only the track laying will remain to be done. The job will be only 800 miles. The road from Portland to Puget Sound is being pushed rapidly, and at the end of the year it will be completed to the Columbia River, 45 miles from Portland. This road will be finished next year soon after the completion of the main line.

Military Retirement.

WASHINGTON, 7.—Gen. Sherman has asked that Major General John M. Schofield be ordered to San Francisco to relieve Major General Irwin McDowell, of the command of the military division of the Pacific and that General McDowell be ordered to his home in New York, preparatory to his retirment from active service in October next. The matter will not be acted on until the return of Secretary Lincoln.

Election Returns.

WHITE RIVER JUNCTION, Vt., 7.—The returns in the vote for State officers have been received from 223 towns. Barstow, republican, receives 35,156; Edton, democrat, 18,822; Martin, greenback, and scattering, 1,440. Barstow's majority 19,084, with 17 towns not reported. The same towns in 1880 gave about 18,000 more votes. Returns are received from 102 towns in the first district, giving Stewart, republican, 15,292; Reddington, democrat, 5,697; Kidder, greenback, and scattering 1,729. Stewart's majority is 8,866, with eight towns to be heard from. In the second district 119 towns give Poland, republican, 11,429; Fletcher, democrat, 5,591; Grant, independent, 3,931. Poland's majority is 576 with 11 towns not reported. The vote in these towns may probably reduce Poland's majority. It must be noted that the returns here reported are not official, but will not materially differ from the actual vote Returns from 222 towns give the result of the vote for town representatives as follows: Republicans 176, democrats 40, greenbackers 2, no choice 4. The democrats have gained 25 members in the House over 1880. Barstow's majority will be about 22,000.

Powder Explosion.

TUCSON, 7.—The *Star's* special from Guaymas, of the 6th, says the powder house of Feldner & Van Barstal at Guaymas, blew up on the afternoon of the 2d. It contained upwards of 10,000 pounds of powder. One man had his legs blown off and died from the effects. Houses and all kinds of buildings were cracked and the roofs destroyed. Doors and windows were blown in. The damage to the city is estimated at $100,000.

Silk.

NEW YORK, 7.—The New York Silk Exchange is to establish a colony for the cultivation of the silk of New Jersey. It has not yet been fully determined where this will be done, but it will be within twenty-five miles of New York City. Six families, composed with one exception entirely of women who have been teachers in public schools, have already expressed their intention of joining the colony.

Dennis Kearney.

The Executive Committee of the Independent Labor party met to-night. A letter was read from Dennis Kearney regretting his inability to leave the Pacific Slope, but stating that all his sympathies were with the labor party. It was resolved to tender a reception to Judge W. D. Kelley, of Penn-sylvania, when he comes here, and requests him to address the working classes.

The Strikers.

PHILADELPHIA, 7.—To-day the ship carpenters at the Camden dry dock companies' yard struck in a body under orders from the union. They were insulted because the company posted a notice that those who couldn't resist the temptation of pilfering ships and wood should leave the company's employ. Non-union men will be hired.

Stolen Bonds.

BOSTON, 7.—Thomas Reilly, a well known ex professional swimmer, was arrested to-day for attempting to negotiate $1,000 in stolen bonds.

Yellow Fever.

PENSACOLA, Florida, 7.—There are nine new cases of yellow fever to-day. The board of health will make an earnest appeal for assistance.

Suspended.

PHILADELPHIA, 7.—Harrison G. Clarke, Grand Tyler of the Grand Lodge of Free and Accepted Masons, whose name figures conspicuously in the report that, together with Wm. Shinn, the librarian of the Masonic Temple, he conspired to libel Mrs. Edna Jordan, was suspended to-day by the Masonic committee, the Grand Master of the lodge being present. It was decided that Shinn was the innocent tool of Clarke. Mrs. Jordan has sued Clarke for damages.

Railroad Accident.

WHEELING, W. V., 6.—An engine of the Baltimore & Ohio Railroad struck a wagon, one mile from Barnesville, Ohio, to-day, and fatally injured Mrs. Mary Kennard. Miss Steele, Chas. Steel and Lemuel Guest, thrown over the pilot and carried to town on the engine were scarcely scratched.

Assassinated.

DENVER, 7.—The *Republican's* Las Vegas special says: Charles Harris, one of Pinkerton's detectives, was assassinated last night at San Antonio, a small station a few miles south of Socorro. Two men alighted from the emigrant train and approached Harris who was standing on the platform and shot him dead. Both men escaped.

The Storms in Texas.

ST. LOUIS, 7.—A Dallas special says: Passengers on the incoming trains report another great rain storm in Western Texas, which prevailed for thirty-six hours prior to last night, and four serious washouts are reported on the Texas & Pacific road, between Big Springs and Tayaoe. Trains will be delayed, but it is thought not very long.

Fire.

OMAHA, 7.—At Grand Island this afternoon D. Sass' boarding stable was destroyed by fire together with 27 horses. The fire spread to the Wyoming House, containing about 30 rooms, which was also destroyed. The loss on the stable and hotel is $15,000. Insurance $4,000

Asiatic Cholera.

NEWPORT, 7.—The cases of Asiatic cholera reported in this city are most extraordinary. A meeting of the Board of Aldermen has been summoned.

FOREIGN.

THE WAR IN EGYPT.

The Convention.

CONSTANTINOPLE, 7.—Lord Dufferin is still awaiting instructions from England before signing the draft of the Anglo-Turkish military convention. It is believed improbable that any obstacle will arise to prevent the formal signing of the document.

Clause ten of the military convention between England and Turkey, which names Port Said as the point of disembarkation for Turkish troops has been reserved *ad referendum*.

Arabi Does Not Get What He Deserves.

Lord Dufferin is dissatisfied with the Sultan's proclamation, inasmuch as while it states that Arabi Pasha deserves to be treated as a rebel, it does not proclaim him such.

Orders have been sent to Tudalay to forward the first detachment of Turkish troops to Egypt.

Burning a Lighthouse.

Alexandria, 7.—The British have burned a house on the left bank of the Mahmoudieh canal, signals having been made there to the enemy with lights. All lights are now prohibited after nine o'clock at night in houses beyond the outposts.

The Water Supply Cut Off.

Port Said, 7.—The water company suddenly ceased pumping to-day without having given any warning, thus causing a scarce. They had promised to give three days notice in case it should become necessary to withold the water supply.

A Battle Next Monday.

Ismailia, 7.—A general move to the front has been ordered. Our forces at Kassassien Lock will amount on Saturday to 15,000 men with 50 guns. Only one correspondent at the front will be allowed to each newspaper, and each telegram will be limited to 500 words. An attack on the enemy is confidently expected on Monday or at the latest on Tuesday.

Breaking the Negotiations.

London, 7.—The *Times* says: The Government in concluding the military convention with Turkey, is persuaded that the Sultan has seen the folly of trying any longer to thwart the policy of England. Two European powers at least, have intimated at Constantinople that England would be justified in breaking off the negotiations which have been so wantonly prolonged.

The Turco-Greek Trouble.

Nothing has been decided in regard to the Turco-Greek frontier question. It is said that M. Condouriotis, the Greek minister to Turkey, will have a further conference on Saturday with Said Pasha, the Turkish Minister, and it is believed that if no decision is then reached hostilities will be resumed. It is understood that the Greek Minister has been instructed not to yield any of the five points in dispute.

An American Cargo Stopped.

Paris, 7.—The commander of the French fleet before Tamatio has taken steps to prevent the landing of the cargo of the American ship *Allen*, consisting of arms and munitions of war. The African Consul at Tamatio has promised not to permit the landing of war materials without notice to the French commander, who has made arrangements to purchase them before they are delivered on shore, in order to avoid any difficulty with the American government.

The Emperor Ailing.

Berlin, 7.—Emperor William was not present at the court dinner today, nor did he attend the military maneuvres, but it is officially announced that his absence was in accordance with medical advice on account of his previous exertions at Breslau. The Emperor to-day received a number of official reports and held a long conference with Count Von Bulow.

Earthquake on the Isthmus.

Panama, 7.—At 3.34 o'clock this morning there occurred here one of the severest earthquakes ever known on the Isthmus. Many buildings were damaged, but no lives lost.

Cuban Leaders.

London, 7.—The Paris correspondent of the *Times* in a recent communication says that Rodgers, Castello and Jose Maseo, three Cuban leaders, lately succeeded in escaping from prison at Cadiz, and took refuge at Tangiers. Thence they proceeded to Gibraltar, with the view of going to America. The British police, however, notwithstanding their protestation, handed them over to the Spanish authorities. Two were returned to the prison at Cadiz, but Maseo was sent to the galleys at Ceuta. His friends are greatly alarmed concerning his fate.

Pardoned.

Dublin, 7.—Earl Spencer, in reinstating the dismissed policemen, granted them free pardon, but expressed regret and surprise that they should have been induced to take the step they did.

Earl Spencer has intimated that 208 of the 225 dismissed will be reinstated.

Fire.

Quebec, 7.—A block in St. Roches, a suburb, burned this morning; loss over $200,000.

Cholera.

Madrid, 7.—An official dispatch from Manilla states that 263 natives and four foreigners, including the American Consul, died there yesterday of cholera. In 18 villages in the province of Manilla there were 36 deaths.

Infernal Machine.

The box received from Barcelona by Senor Camacho, Minister of Finance, Sunday last, was found to contain four bottles of nitro-glycerine.

BRIEF TELEGRAMS.

There were over 30,000 people at the Iowa State Fair yesterday. Commissioner Loring made a long address.

The grand jury of Bexar County, Texas, have indicted Marshal Thompson, of Austin, for the murder of Jack Harris recently.

The United States steamer *Dispatch*, with President Arthur on board, arrived yesterday at Nantucket from Wood's Hall.

At Alexandria, N. Y., arrangements have been consumated for a three mile race next week, between Courtney, Riley, Ten Eyck and Elliot, for $1,000.

The Germantown and Western cricket clubs played yesterday at Philadelphia. The latter secured another victory in one inning. The game was won by a score of 164 to 128.

At Providence, Francis D. Moulton has filed a bill in Equity in the the United States Circuit Court, against S. Chaffee, trustee and W. Sprague, for the possession of Canonchet.

The Medical News will say editorially: "There is in the microscopic revalations no reason for changing the opinion which we originally expressed, that Guiteau in an abnormal character justly suffered the penalty of the law for the high crime he committed."

At Chicago, Sept. 7, the annual meeting of the Pullman Palace Car Company was held here to-day. There were represented 91,353 shares out of a total of 125,000. A statement of the affairs of the company was presented by President George M. Pullman and received with marked gratification and approval. It was shown that the company had made 15-year contracts with various important lines of railways during the year, covering 4645 miles but that the number of passengers carried, 1,964,000, will increase the revenue over the previous year $742 000. The number of miles run by Pullman cars is 54,104,000, without loss of life or serious injury to any passenger. The following were elected directors for the ensuing year: Geo. M. Pullman, Chas. G. Hammond, John Crerar, Marshall Field, J. W. Doane, Norman Williams, Perry Humber. An extra dividend of 1½ per cent. was declared.

A Shoe Peg.

It is laughable to see how little it takes to raise a crowd—or start a a story—in a city street.

"Never you mind me," said a bent-over old man, when asked what had happened him.

"How did you get hurt?" asked a man out of breath.

"Did the horse step on him?" queried a colored man, with spectacles on.

"Where did the dog bite him? Did they shoot the dog? Was it a big dog? Has he got a wife? Did they live together?" rattled a woman, made up a good deal like Widow Bedott.

"Come and see the man in a fit," squeaked out a boot-black, as he called the rest of the brigade.

"Look out! he's going to shoot," yelled a big man, with red whiskers, and the crowd blew away like dust when the old man slid his hand into his pocket as if for a shooting iron.

Then he straightened himself and started on his own individual business, muttering something about "What the mischief it was to them if he wanted to sit down and take a peg out of his shoe.—*Hartford Journal.*
