of Dr. James E. Taimage of this city, who successfully gave a series of in-teresting lectures in London. Glasgow, Belfast and a dozen other big cities in Great Britain in 1898. At that time those in charge of the British mission of the Church of Jeaus Christ of Latter-day Saints conveived the idea, that il-lustrated lectures on Utah would have a great effect in giving the average Britisher a true idea of the country and remove a great deal of prejudice exist-ing against the "Mormons." The result was that Dr. Taimage arrived in Eng-land armed with about a hundred slides depicting scenes along the Union Pa-cific and the Rio Grande Western and proceeded to give his lecture. As it was Acting Traffic Manager T. M. Schum-acher of the Oregon Short Line leaves for Portland tomorrow in his private car in order to be in attendance on the transcontinental freight meeting there next week. In this connection there will be a number of prominent railroad officials in this city tomorrow and preparations are being made to give them a recital in the Tabernacle tomorrow atternoon. Among those who will ar-rive are H. C. Bush, traffic manager, F. Wilde, Jr., and other Colorado Mid-land officials.

MODERN METHODS.

The old days of stereotyped and hack neyed advertising are over and from this time on that ploneer of unique rail-road advertising, George Daniels, gen-eral passenger agent for the New York Central, will have to take a back seat

The first intimation the police got of the affair was when the mother of one of the girls called upon Assistant Coun-ty Attorney Loofbourow for aid in find-ing her daughter. The girl, Pearl-Byrd, is but 16 years of age and quite wellknown here, and it 1* believed the police of Denver will have no troubel in recognizing her should they run across her there. They have been furnished a good description of both the girls

The action of the Salt Lake authorities. That she is a procuress is a settled fact in the minds of the police.

The manner of the girls leaving the city shows that the Wilson women laid her plans carefully. About the time she was first seen here, she engaged rooms at the imperial hotel on State street for herself and a young girl about 17 years of age whom she called "sister." Guests of the house thought the sister had the appearance of a country girl and thought it strange that she was the sister of the fashionable and dashing Wilson woman. Sev-eral days ago the woman left her "sister" at the hotel where she remained until Saturday. While there, howev-er, she told several persons that the Wilson woman was not her sister and that she was from the country and her

name was Stanton. Mrs. Byrd, the proprietress of the hotel, at once took steps to have the child cared for, but before anything could be done she disappeared.

On the same day, Saturday, Pearl Byrd said she was going to Calder's

cn the back porch. Another feature of the evening was the enthusiastic manner in which divers wellknown railroad men played sity-three, and to quote Lew Downing, so far forgot themselves to imagine they were cut-ting rates with the result that they out-bid one another in a most paralysing nanner. When the Milwaukes, Rock Island and the Illinois Central got to-gether at the same table the slaughter is said to have been fearful.

Judge Hall this morning decided the matter of compensation of the attorneys, executor, and auditor of the F. Auerbach estate. The foreign heirs to the estate objected to the fees allowed the above parties on the ground that they were excessive. The court decided that \$15,000 was not too much for attorney's fees, so allowed that amount to stand. The compensation of Geo. E. Blair, which amounts to about \$3,000 for auditing the accounts of the estate, was also allowed. The only claim that was altered by the court was that of Theo, Meyer, the executor. He has already been allowed \$7,000 and asked for additional compensation in the sum of \$11,000, but the court cut that amount down to \$5,500, which makes the total fee for the executor, of \$12,500.
