

SIDE LIGHTS ON IDAHO POLITICS

Witness in Steve Adams Case
Condemns Senator Heyburn
In Strong Terms.

TROUBLE OVER APPOINTMENT.

It is Anticipated That Defendant's
Confession Will be Put in
This Week.

Spokane, Wash., Nov. 7.—United States Senator Heyburn of Idaho, was brought into the trial of Steve Adams today for the alleged murder of Fred Tyler three years ago in the Marble Creek district of Shoshone county, Archie Phillips, who testified for the state at the first trial of Adams, also appeared recently from his home in Spokane, but left a letter to Henry H. Knight, attorney for the state, asserting that his life was in danger, that he has received threatening letters several times, and a week ago last Sunday found a sack with 10 pounds of dynamite, a box of caps and a roll of fuse hidden behind his house.

Phillips in this letter expresses disgust at the treatment he has received from the state and the government, says his wife is a nervous wreck from terror, and he severely censures Senator Heyburn for his failure to secure his appointment as an estimator on the Coeur d'Alene Indian reservation. Phillips encloses a letter from Senator Heyburn to Chairman Spoonmaker of the Kootenai county Republican committee, in which the senator says:

"I note what you say with reference to Archie Phillips. There is a judgment in the court here which the killing of Phillips took place on the Marble Creek. It would not be an appointment as an estimator on the Coeur d'Alene Indian reservation. I would cause a race, I have instructed that his application be withdrawn."

Commenting on this letter, Phillips wrote: "I think Senator Heyburn's backbone is pretty weak when he is afraid of appointing me. I suppose he thinks it will weaken his chances for re-election with the federation when he comes up again. However, Senator Heyburn and the state of Idaho and the job can go to hell as far as I am concerned."

The letter was read by Mr. Knight on the witness stand and followed the filing of an affidavit that the state wished to put into the present record the testimony of Mr. and Mrs. H. Phillips given at the former trial at Wallace, the defense objected, Judge Wood excused the jury while he heard arguments on the point.

The defense contended that the statutes and the constitution provided for no such move, while the state argued that the defendant necessarily did not have to be confronted by the witnesses. The court took the matter under advisement. The fate of the case may hang on this point.

It is expected that Adams' confession will be put up some time this week. George H. Root, clerk in a Walla Walla store, gave sensational testimony this afternoon. He told of a meeting he had with Steve Adams under the name of Dickson near Jack Simpson's cabin in the Marble Creek country in July, 1904. Root said that he was with a fishing party and happened on to a meeting of settlers where Simpson introduced him to Adams and vouched for him as being all right. Root looked straight at Adams while he was testifying and Adams hung his head.

Witness said the talk of the men was as to how to rid themselves of the jumper, and he made a talk, he said, in which he suggested that some of the jumpers had been arrested it would be better to wait until the courts decided the matter.

FARMER'S AEROPLANE FLIES.

Paris, Nov. 7.—Henry Farman, the aeronaut, made a new record with his aeroplane today. He flew a full kilometer (about six-tenths of a mile), describing the letter S in the air.

RUN DOWN AND KILLED.

Chicago, Nov. 7.—Charles D. Henry, 26 years old, a retired mine owner of Los Angeles, was run down by a horse attached to a cab on State street today, and died two hours later from the injuries received. The driver of the cab whipped up his horse and escaped, although pursued for some distance by witnesses of the accident. Henry had

GOOD FOR OFFICE MEN.

Owing to their lack of exercise and sedentary habits, office men everywhere are victims of indigestion and dyspepsia. This ailment is not only distressing but it also tends to run down the vitality of the system, and in some cases leads to serious complications, such as heart and lung troubles, also rheumatism.

A distinguished authority states that indigestion is very easily cured if the following formula is used:

Two ounces Essence of Peppermint, three ounces Syrup of Ginger, one ounce Compound Compound, Three to be well mixed and used in doses of from one to two teaspoonfuls after each meal also at bed time for the first few days.

Is a simple remedy, pleasant to take, the ingredients obtainable from any good drug store. It is said to be the most effective formula known to science for promoting the flow of gastric juices and restoring the digestive organs to their normal healthy condition.

MAY TURN JAP'S BACK.

Chicago, Nov. 7.—The federal government has received confirmation of the press dispatches from Honolulu stating that arrangements are being made to send to British Columbia in the near future several thousands of Japanese, aggregating three or four thousand. If the dispatches are correct, and an attempt is made to land these Japanese at Vancouver, it is not improbable that they will be turned back in view of the fact that they will not have passports from the Japanese government.

FLOODS IN FRANCE.

Paris, Nov. 7.—After three days of continuous downpour, floods and inundations are again widespread in the south of France. Railroad tracks have been swept away, houses have collapsed, and several persons have been drowned. Detachments of troops are at work in several localities rescuing and helping those in danger.

MRS. MARSHALL FIELD ROSE.

Chicago, Nov. 7.—The Mrs. Marshall Field rose, valued at \$50,000, today was awarded first prize in the rose exhibit at the flower show in progress here under the auspices of the Chicago Horticultural society. Its closest rival for the honor was the Mrs. Potter Palmer rose. Both are products of Chicago growers. The Alice Roosevelt entered by a Denver florist received honorable mention.

PHILIPPINE FORTIFICATIONS.

No Decision as to Naval Base but Subbig Bay to be Fortified.

Washington, Nov. 7.—The joint army and navy board which is considering Philippine fortifications has divided itself into as many "committees of one" as there are members, and individual reports will be presented at an early date on the question of whether a naval base shall be established at Subbig Bay or Manila harbor. At an exchange of ideas, which are to include drafts of plans for fortifications, the joint board expects to reach a decision so that a final report can be made to the president before Congress convenes.

What is the decision? The location of the naval base may be, it has been settled that Subbig bay shall be fortified at the entrance, being regarded as such a fine harbor that it is to the advantage of the government to protect it. The money already spent there on fortifications has not been wasted, therefore, even if ultimately it should be decided to establish the naval base at Manila harbor. Members of the board believe that several meetings must be held before a satisfactory conclusion of the controversy between the war and navy departments is reached.

BE CHARITABLE.

To your horses as well as to yourself, you need not suffer from pain of any sort—your horses need not suffer. Try a bottle of Ballard's Snow Liniment. It cures all aches, J. M. Roberts, Bakerfield, Mo., writes: "I have used your Liniment for 16 years and find it to be the best I have ever used for man or beast." Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main St.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

PRESIDENT IS WELL PLEASED

He Regards the Result of the Elections as Being Very Gratifying.

VICTORY IN NEW JERSEY.

Recalls Like Case in Middle of McKinley Administration—Showing Improvement.

Washington, Nov. 7.—President Roosevelt today issued the following statement regarding elections held Tuesday last:

"The president regards the result of the elections as extremely gratifying. He has sent a letter of hearty congratulation to Mr. Henry at San Francisco. The victory in New Jersey was precisely what happened nine years ago, in the middle of President McKinley's administration. He had carried New Jersey by 85,000, and two years afterward the Republican candidate for governor had 5,000, the vote being cut down just as has happened in the Judge Fort case. At compared with the elections next preceding the last presidential election we have done decidedly better than we did in 1903. Then, as on Tuesday Rhode Island and Maryland went against us, but this year we have won a sweeping victory in Kentucky for the first time since McKinley's first election; and the victory in Massachusetts was also remarkable.

The showing in Pennsylvania is equally good. The showing in New York state, as a whole, was excellent, far better than was the case prior to the last presidential election. That the result in Manhattan was due to purely local causes is shown by comparing it with the decisive triumphs in Brooklyn, Buffalo, Albany and in the state generally. The president's home state of Nassau made a better showing than it ever has in an off year. As a whole the showing has been an improvement over what it was four and eight years ago."

FOR SUNDAY CLOSING.

Spokane, Wash., Nov. 7.—Just 187 warrants were sworn out today for the arrest of practically every saloon man in the city, on a charge of keeping open on Sunday in violation of the local Sunday-closing ordinance. Only 19 saloons escaped. The movement was started by the Law Enforcement league of this city.

All restaurateurs who conduct bars in connection with their restaurants were included. Warrants were issued by Justice Hinkle, who has expressed his willingness to grant them on such complaints. The liquor men are expected to put up a hard fight against the Sunday-closing movement.

AFFIDAVIT DECLARES FISH VOTED ILL. CENTRAL STOCK

Chicago, Nov. 7.—A motion to dissolve the injunction restraining the directors of the Illinois Central Railroad company from allowing 5,500 shares of stock held by the Mutual Life Insurance company of New York to be voted at the annual meeting was filed in the Cook county superior court this afternoon. Tomorrow the attorneys representing the insurance company will ask that an early date be set for the hearing of arguments on the motion. In support of the move to have the injunction set aside an affidavit sworn to by Charles A. Peabody, John W. Auchincloss and Cornelius Vanderbilt, trustees of the insurance company, was filed. Mr. Peabody is president of the company. The three men who made the affidavit are likewise directors of the Illinois Central railroad.

In the affidavit it was declared that Stuyvesant Fish was a director of the insurance company at the time the stock was purchased, and that he voted it at several annual meetings. It is also declared that the stock was purchased as a legitimate investment and in the interest of the stockholders of the Mutual Life Insurance company, and not for the purpose of furthering any plan by which the Union Pacific railroad might obtain control of the Illinois Central.

It is further set forth that the trustees of the Mutual gave Stuyvesant Fish their proxies to vote the

The worst extravagance is a "cheap" one; better not waste the money.

stock in question (which he did, as president of the Illinois Central), at the annual meetings in 1893, 1898, 1899, 1902, 1903, 1904 and 1905, and that in giving its proxy or voting upon the stock it held the Mutual Life Insurance company has acted for the purpose of securing the greatest advantage to the Illinois Central railroad, and that neither the Union Pacific, E. H. Harriman nor any person acting for them, has ever attempted to direct the insurance company in the matter of voting.

The Union Pacific railroad and the Railroad Securities company have until Nov. 26 in which to make their plea. It is expected that before that date their attorneys will seek to have the Mutual motion disposed of.

TEN MEN KILLED.

By Terrible Powder Explosion Near Nogozari, Arizona.

Douglas, Ariz., Nov. 7.—A confirmed story with details lacking has been received here of a terrible powder explosion near Nogozari, Ariz., late this afternoon, when 10 men, probably most of them Mexicans, were killed. The explosion occurred on the narrow gauge railroad that goes from Nogozari to the mines near Bisbee. The powder that exploded was in two cars. The men killed were employees of the Montezuma Copper company, a Phelps-Dodge concern.

LONDON COMMENT ON FINANCIAL SITUATION.

London, Nov. 8.—The newspapers this morning give much attention to the rapid advance in the discount rate of the Bank of England. They refer to them with anxiety regarding the serious handicap thus placed upon British trade and enterprise, but they recognize that the directors of the bank had no other course to pursue. Several financial writers interpret the advance as an indication that the position of the United States is worse than hitherto has been thought here and they consider that the directors of the Bank of England were animated by a desire to convey a strong hint that the American government must take measures to restore confidence and prevent the continued hoarding of gold. The Daily Mail prints an editorial on the text that "In the modern financial world the innocent must suffer with the guilty." Because confidence has been destroyed in the United States, the paper says, English business has to pay a heavy penalty. It argues against lowering the rate of the discount rate, and calls for some such system as prevails in France and Germany, where the state bank authorities have power to protect the gold reserves without resorting to fluctuations of the discount rate which disturb trade.

SAN ANTONIO BANK FAILS.

San Antonio, Tex., Nov. 7.—By order of the board of directors of the institution the Woods National bank of this city, suspended shortly after noon today on account of the stringency in the money market.

W. W. Collier, president of the bank, said: "Our bank is practically solvent and we expect depositors will be paid in full just as soon as we can realize on our assets."

LEOPOLD MAY ABDICATE.

Liege, Belgium, Nov. 7.—A newspaper of this city declares today upon the authority of a high official that King Leopold may possibly abdicate rather than give in to the Belgian parliament on the question of the Congo independent state.

CURES WINTER COUGH.

J. E. Gover, 101 N. Main St., Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main St.

All wall papers 25 per cent off. W. A. Duval, 110 West Second South.

Ask your grocer to send you Royal Bread. It is made in a clean bakery and the crown label is on every loaf.

JAMESTOWN EXPOSITION.

Norfolk, Va., Nov. 7.—At a meeting of the board of directors of the Jamestown Exposition company last night, a financial statement was read showing the total liabilities to be \$2,400,000, detailed as follows:

Due the government on the \$1,000,000 loan, \$100,000.
Due on the exposition first mortgage bonds, \$400,000.
Due on current liabilities, \$600,000.
Due on stock subscriptions to exposition, \$422,000.

No statement was rendered as to the assets, but these include \$600,000 estimated value of the sewerage, etc., with \$200,000 in unpaid stock subscriptions collectible, which would leave a debit of something over \$1,000,000 if the assets are realized up as estimated.

The committee will consider the feasibility and practicability of re-opening the exposition next year, and will report at a special meeting Nov. 15.

GRAPHOPHONE FACTORY CLOSES.

Bridgeport, Conn., Nov. 7.—The American Graphophone company, employing 2,500 hands, announced today that the factory would shut down tonight for an indefinite period. The close is forced by present financial conditions.

The Bullard Machine & Tool company, employing 2,000 hands, is running on half time.

Birdseye, Somers & Co., carpet manufacturers, employing 2,000 persons, has closed. The notice says that the shut-down is to make an inventory.

DANCING BENEFICIAL

SAYS PROF. KENNEDY

There will be children's classes in dancing every Saturday in the New Dancing academy.

"Children should be taught to dance as soon as they can count," says Prof. Kennedy. "For it makes them sure-footed. For instance, in going up or down stairs, walking on slippery sidewalks, getting on or off cars, they should be sure of foot. To girls, dancing gives a graceful and correct figure. It gives children a correct walking position. For exercise there is none better than dancing, as it is enjoyed, and as a matter of fact any exercise a person takes and enjoys in taking is bound to be beneficial."

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish form after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.
