Carrie Carter played ability, as siso dad Mrs. Bowring, "Eliza-beth." Messrs. Marden and Thorne as "Wallet" and "Geoffrey Dangerfield," also sequited themselves in a satisfactory in manner. The play is an excellent one, a and if played with more anap and vim would have proved much more attractive. This evening Mr. James M. It is purposed to make amusement for the children by introducing a variety of suitable games, &c. The jubilee last year was a complete success and doubtless the one now proposed will be so also. The idea of providing suitable amusement and encouragement for the young folks is excellen.

It is now held that among the English literary classes the censumption of alcoholic drinks is hardly so detrimental to health as in the abuse of tea. Dr. Airidge, physician to the North Staffordshire Informary, and one of the pottery inspectors under the Home office, writing in regard to diseases prevalent among potters, says that where tea is used several times a day, it produces a deterioration of health among the laboring classes and a lower vitality in the rising generation. vitality in the rising generation.

How THEY FEEL.-Two New York Assemblymen were walking down State street, in Albany, after the passage of the charter bill. "I feel," said one of them, "asif I deserved to be kicked for voting for the charter." His friend replied. "That is just the way I feel myself; let's go up this alley and kick each other."—Er.

That must be the way those anti-State etition signers feel. Now suppose they run into the alleys or the canons and kick each other to their hearts' content. Some perhaps would not get half their deserts then, but it would be a beginning.

CEDAR CITY .- C. J. Arthur writes from Cedar City, Iron county, June 17-The two days' meetings appointed for this place by the home missionaries of this

Elder Woodruff says that Rich county is a number-one country for dairy and stock purposes. In each of the settlements of Woodruff and Randolph there is plenty of land, wood and water for a hundred families, and if that number can be found who have not good homes and want to procure them quickly, they are advised to settle there as early as convenient.

SANITARY MATTERS.-Numerous pett- Fresh tions have lately been presented, signed by bodies of citizens, to the City Council greatly to the inducements for excursionists to has now reached a public nuisance which visit Lake Side if dressing rooms were erected has now reached a point when it has become absolutely intolerable. We refer to the great numbers of teams and vehicles which daily crowd the streets in front of residences and places of business in the central portion of the town. The petitions alluded to have been referred to City Marshal, John D. T. McAllister, who is Marsh, a Glosy girl," with a good deal of determined to carry out with strictness the ordinance relating to that and other similar matters of equal importance. He was busily engaged to day endeavoring to do so, but his task is a somewhat difficult one on the start. He cleared East Temple street pretty well this morning, of teams, but in less toan half an hour afterwards it was filled up again as bad as ever.

Of course, as with every other measure of the kind, it will be somewhat difficult to enforce it for a short time, but perseverance will eventually accomplish it. Those who do not comply with the requirements of the ordinance will be arrested and fined according to its provisions. cording to its provisions.

Of course it is necessary for teams under certain circumstances to stand on the street, as for instance when their owners or teamsters are doing business in any es-tablishment, but if parties leave their ani-mals for this or any other purpose unat-tended or not hitched to a post, they are liable to be fined. Wood, hay and coal wagons are not permitted to stand on the streets, but are required to be taken to the

There have been many complaints raised against a practice which has been indulged in by some saloon keepers and others on East Temple Street, that of casting the filage is the originator, to get up a children's water sect, thus fouring the water which jubilee in the Twentieth Ward, to come off numbers of people living in the southern on the Twenty-fourth of July. "E. S. B." also suggests the erection of an awning at the side of the lake, and over some of the water, in order that a bath may be enjoyed by those who desire it.

The first suggestion very good, but to be last it may be said that only a very few persons who go on excursions desire a lath as one of the pleasure thereof.
