

EVENING NEWS.

Friday, January 18, 1885.

FRAGMENTS.

SILVER is on the rise.

JOHN MORRIS was arrested last night, drunk.

NEW YORK lead quotations per 100 pounds \$3.65.

THE D. & R. G. through express train is on time.

THE D. & R. G. through express train is on time.

JOHN HAWLEY got judgment against Robert Hall for \$18.74 to-day.

THE Courts case was dismissed this morning, the cost being paid.

WELLS, Fargo & Co. received to-day 23 bars of Ontario bullion, \$15,941.22.

MESSRS. Eccles, Bancroft and Hooper left for San Francisco to-day.

THE Union Pacific and Utah & Northern passenger trains are reported on time.

"PATIENCE" will be rehearsed at Calder's Music Emporium this evening.

SILVER quotations corrected daily by Wells Fargo & Co. New York 108 1/2, London 90.

THE exultantly funny but bloodless duel between Choppo and Mills at the Theatre Monday night.

THE Union Pacific magnates will pass through Ogden, on their way to San Francisco, Saturday evening.

A MAN was ejected from the Theatre last night for making too much noise. Several others were threatened.

THE case of Louis Hyams vs. J. J. McEvoy was before Judge Pyper this morning. Judgment for the plaintiff.

PROF. WILMOT will give his last exhibition in this city to-night. He will be assisted by the Salt Lake Bicycle Club.

THE soldier who fired the shots in the 17th Ward, a day or two ago, will have a hearing before Judge Pyper to-morrow.

THE box office at the Theatre will open to-morrow morning at 10 o'clock, for the sale of seats to the Daily performances.

TICKETS to the Vacation Company can be purchased at the D. & R. G. ticket office after 10 o'clock to-morrow morning.

SISTER ELIZA R. SNOW SMITH returned yesterday, in good health and spirits from a visit of several weeks' duration to Brigham City.

A MEETING of the Utah Cattle and Horse Growing Association, will be held at Wm. Jennings and Sons' office, to-morrow morning at 11 o'clock.

IN the Police Court yesterday, W. N. Curtis pleaded guilty to keeping a dog without license; he paid the tax and costs, amounting in all to \$3.50.

THE Horn Silver mine increased its daily shipment yesterday from thirty to twenty cars, and it is intended to still increase it to fifteen cars soon.

THERE is said to be good skating on Third South and Sixth West Streets, one block west of the street car line which runs to the Denver & Hoagland depot.

MEARS, the soldier who beat Benites' barkeeper on Wednesday night, was turned over to the city authorities to-day. He will have a hearing this afternoon.

J. H. WOODMAN, E. M. Cummings, W. Phelps, G. H. Richardson and J. J. Clinton were arrested last night at a late hour for disturbing the peace. They will explain this afternoon.

NATHAN GROSS, colored, who was arrested for drunkenness and assault and battery on the 7th inst., left \$15 for his appearance yesterday. As he failed to appear, the amount was turned into the treasury.

THERE is a movement on foot to have another democratic meeting in the near future that will not exclude creed, class or color. It seems the one held in the Theatre last evening did not give entire satisfaction.

TAYLOR & OLSON's Dramatic Company play at the Music Hall in the Fifteenth ward to-night and to-morrow night, and in Park City Monday, Tuesday and Wednesday of next week. From there they go north through Cache Valley to Franklin.

T. B. SILVER has entered a suit in Judge Pyper's court against D. M. Osborne & Co. for \$200. He alleges in his complaint that he was hired for one year, commencing last January, at a salary of \$50 per month with expenses, but that he was discharged last October.

JACKY THOMPSON, the man who struck Billy Sullivan at the Utah Central Depot, was released to appear at 2 p. m. to-day. He saw Sullivan later in the day and abused him. Sullivan swore out another complaint against him. He will be heard on both charges this afternoon.

ANDREW KELLY, the slinger, who is confined to jail for punishing a man a couple of weeks ago, yesterday requested another inmate to vacate a chair he occupied. The man refused, whereupon Kelly dealt him a few well-directed blows. This will somewhat prolong Mr. Kelly's sojourn behind the bars.

Mrs. CHARLOTTE J. GORDY, a lady who is well known in Utah circles, was married at Kansas City, last month, to Mr. J. A. Kirby, a mining man who owns claims in southern Utah. They are now at New Orleans on their wedding tour, but we learn they intend to return to this city and settle permanently. The bridegroom is but thirty years of age.

LOCAL NEWS.

Church Calendar.—A new thing in the line of calendars has just been issued by Joseph Hyrum Parry & Co. In addition to affording the usual information one is apt to apply to a calendar for, it contains a chapter on Church chronology, in which the principal events in the history of the Church of Jesus Christ of Latter-day Saints are noted; encyclopaedia statistics, showing the number of persons who have emigrated from Europe through the agency of the Church; the dates of the births and deaths of the Prophets and Apostles of the Church; the dates of the dedication and laying of the corner stones of the various temples which have been built by the Latter-day Saints; and a number of advertisements from "Mormon" business men. Altogether, the card presents a very neat and attractive appearance, being printed in two colors, is suitable to adorn either an office or a home, and will be found especially useful for reference to Latter-day Saints or those interested in their history.

TERRITORIAL ITEMS.

CULLED FROM LATEST EXCHANGES.

Butte, Montana, is afflicted with diphtheria.

A hog, four feet high, eight feet long, and weighing 1,076 pounds, is a contribution to the New Orleans Exposition from Ukiah, Nevada.

In Idaho there are 238 schools and 13,140 school children, according to the late report of James L. Onderdonk, superintendent of schools in that Territory.

Smallpox has made its appearance in Omaha, but the authorities have taken prompt measures to prevent it from spreading, and little apprehension is felt.

Over a hundred men employed at getting in ice for Guy & Pith, of Omaha, struck last Monday for a raise of wages from \$1.25 to \$1.50 per day. Their demand was not granted, and they now regret their action.

It is said that no other narrow-gauge road in the Union has done more business during the past year than the Utah & Northern, but just now freight on that line is moving very slowly on account of the snow, cold weather and the poor condition of the motive power.

Last Wednesday morning Mr. John Emery, one of the owners of the City mine, near Leadville, was in the act of inserting a giant powder cap into a hole prepared for a blast when it exploded, tearing the gentleman's hand into shreds. Dr. Maclean was summoned and rendered what surgical aid he could.

Phil Henman and Patsy McCorrigan of Leadville had a little dispute last Tuesday night over their respective fighting propensities. They finally agreed to go down to California, each out of the way of the police, and settle a couple of friends went along to see fair play. Several rounds were fought, when Henman's second declared his principal whipped. All four then went to the nearest saloon and took a drink.

The hills surrounding Leadville, Colorado, are thickly perforated with mining shafts, varying in depth from a few feet to over one hundred feet, and most of them are abandoned and left open. The recent heavy snows have covered the openings and formed a most dangerous trap for man and animals. Last Tuesday, a miner named Francis Neary, while on his way over these hills to Leadville, fell into one of these shafts and was severely injured. Fortunately this one was but a short distance from a shanty, and by calling lustily for help, succeeded in making himself heard by the inmates, who soon found means of getting him to the surface. Physicians were summoned, and found that, besides a deep cut in the forehead, there were two ribs broken and several fractures about the limbs. The unfortunate man had also received internal injuries so serious a character, that his recovery is far from being certain.

Forwarded of Death.—The following case of pneumonia is clipped from the Utah Journal. We published the death of the young man referred to shortly after it happened:

We have been informed that Jonna Johansen, the young man recently killed in a cave of the gravel bank in the mouth of Logan cañon, about one month before his death, had a dream in which a messenger, clothed in white, appeared to him and asked him if he knew what he was doing. He answered, "Yes, twice subsequently, on the same night, the same messenger appeared to the young man, warning him each time that he must die within one month. In relating these manifestations to his mother soon after they occurred, the young man declared he was with awe which he described as a messenger came to him the second and third times. He neither, when he was formed, was much distressed when he told her of the visits of the messenger. He died upon the very last day of the allotted month.

Unsurpassed Flour.—In our columns to-day will be found the advertisement of the Pioneer Roller Mill company, who produce flour that is probably not surpassed in quality in America. Many people favor the use of Graham flour as more health-promoting than any other mill product, yet they have a dislike to it. It may be well to state that to know the difference between the two, the roller process, although in a finer form, contains the Graham principle. It is equally if not more productive of health, the coarseness of the Graham causing, in some constitutions, internal irritation.

New Year's Exponent.—The Woman's Exponent for January 1st, in addition to its usual quota of Society reports and correspondence, contains interesting prose and poetical articles entitled as follows: "A Reverie," by Hannah T. King; "One of Seven," by Anna E. Smith; "Autobiography of Emily D. P. Young;" "A New Year's Reverie and Dream," by Augusta Joyce Crockett; "Notes and Incidents at the Winter Quarters," by Helen M. Whitney; "Notes and News;" "Welcome 1885;" "Home Affairs;" "Review of Books;" "A Happy New Year," by M. A. P.; "Our Country's Wrongs," by Wm. W. East; and "College Exile," by Wandering Boy.

Murphy an "alias."—A man who claims to have been an intimate acquaintance of the deceased engineer, whose remains were brought from Bingham on Tuesday last, has informed Section Taylor that Murphy, the name he went by here, was assumed by his real name being Lafayette Millipaw; that he formerly lived at Denver and Leadville; and that he separated from his family at the latter place, it is also reported that his wife and one of his children have died since his separation from them. The coroner was informed that he had a son in the grocery business in Denver, but the chief of police of that city, who was telegraphed to, could find no such person there.

A Surprise.—The following account of an affair that occurred yesterday, has been handed in for publication:

"At 4 o'clock Thursday thirty ladies of the 11th Ward, including three of the medical fraternity, in case of broken limbs, made war upon one of their sisters with loaded—hot guns—hot shot, and a few minutes later, the ladies were all safely home, and their numbers were reduced to a few. The ladies who were engaged in the attack, were: Sister White, a widowed lady, and made no resistance, and calls her granddaughters. Rather youthful for her age, she was caught by the color of her face when one of the Dr.'s in a dress pattern, showing the broken bones, and all escaped treatment but a sick child. Yours truly, A FRIEND.

Mutual Improvement Election.—The Mutual Improvement Association of the Twentieth Ward held their annual election for officers last evening, resulting as follows: T. B. Lewis, President; C. W. Stagner, 1st Vice-President; Wm. Salmon, 2nd Vice-President; George Romney, Jr., Secretary; David R. Lyon, Asst. Secretary; Orono D. Romney, Treasurer; Nephew, Y. Schofield, Editor; C. R. Savage, David L. Murdock, H. R. Romney, George L. Savage, H. R. Romney, and J. F. Simmons, Directors; D. L. Murdock, Orono D. Romney, E. L. Brain and David R. Lyon, Program Committee.

A SINGING BEACH.

THE DISCOVERY of a wonderful singing beach at Athens, Pa., in the course of a canoe trip down the Susquehanna, is thus related by John Boyle O'Reilly in Outlook for January:

"Half-way down Lake Ontario, and on a small passage we plunged in, as I have many times done, and we had no sooner struck bottom than Mr. Butler uttered a strange shout and threw up his hands. I was startled till I looked at his face and then I was puzzled beyond measure by his motions and expressions. With his hands above his head he seemed to be dancing in the bottom of the river, and with every step he gave a shout of pleasure. While I looked at him astonished, I began to feel the infection of his strange conduct. A thrill like some music ran through me, and seemed to tingle in my ears and under my tongue, and every movement I made brought a repetition of the inexpressible sound, for a sound it was, that seemed to run all through me like a musical note. 'What is it?' I cried at length. 'This is wonderful!'

"It is a musical beach—a singing beach," answered Skourney. 'And I could say it was the finest in the world.' And then he said—'I have strange chance, he knew something about such a thing—'I believe there are only two or three singing beaches known in the whole world, and this certainly is the best.'

"You may be sure we lingered over that melodious swim. We pushed the boats ashore, and went in for the weird sweet music of the stream. It was enough to make one howl with sheer ecstatic enjoyment. As we pushed or scraped the pebbly bottom with our feet we felt or heard, I hardly know which, a rich resonant music, through us, clear and sweet as the soft note of distant cowbells. The slightest displacement of the gravel brought it up, as if it had just escaped from the earth.

"When we had tried it a hundred and a thousand times, it occurred to us that neither could hear the note caused by the other; we only heard the sound of our own feet. Again the tenacious memory of my friend found an explanation. He remembered that divers can only talk under water by placing their heads on the bottom.

"Another discovery here: You can get your head to the bottom of a four-foot stream, unless you catch a fish, stone on the bottom and pull yourself down. You can dive and get your head or feet or knees down, but not your chin. We were both aware of this, and we tried in vain. While we were out on the dive, one of the fellows, crawling along the bottom on hands and knees, the river was so shallow, and at last we got our chins on the bottom, each on a stone, and we heard it—'we heard such melodious discords, such a mixture of near and remote echoes, such sweetness as can only be imagined in dreams. The river became as full of music as it was of water, and an irresistible fusion of notes played through our senses like incense, and Sigourney was 20 or 30 feet from me, and in deep water, but every sweep he gave the public his hand, and he like a thousand cowbells melted into liquid harmony. Never until we got to the same small we heard such strange, strange, suppressed, ethereal music.

"The Queen Dowager of Burmah, on going out of office, has taken with her 50 pounds of the gold and a basket full of rubies. All the eunuchs do not belong to the victors in Burmah.

The returns made to the registrar of births, marriages and deaths, show an unusually large number of births of twins in Connecticut. Almost every physician has reported a number of cases, and one physician has had as many as twelve. The physicians call it the twin year.

BUSINESS NOTICES.

RECEIVED.—A musical beach—a singing beach," answered Skourney. 'And I could say it was the finest in the world.' And then he said—'I have strange chance, he knew something about such a thing—'I believe there are only two or three singing beaches known in the whole world, and this certainly is the best.'
