sumers are califors about buying stock pending the opening of the light-weight season. Prices are in buyers' favor, with strengthening tendency at the London sales, which exercised no ap-preciable effect on values here. In the country there has been more doing, and consolidations but the cleave country there has been more doing, and especially in Wyoming, but the views of growers of wool generally are still so high that representatives of the East-ern trade are not as yet buying very freely. The result is that comparatively few of the new wools have yet come forward."

surface there is plenty of room good ore body. It is thought that the present stringer of vein matter may lead to one. The tunnel is about 100 reet from the Humbug lines.

AT THE STAR CON.

# Milan Packard Reports the Strike

Holding Out Well. President Milan Packard of the Star Con, at Tintic was in town today be-tween trains. Mr. Packard returned esterday from the mine and reports the property looking very encouraging. Ore has not yet been encountered on the 300 level, but the management is driving for it and expect to intercept it at any time. On the 200 level the strike is holding out well. The vein has been worked in to a distance of 50 feet and some excellent values have been found mixed with vein matter. "The ore runs from half an ounce to 30 ounces in gold per ton," said Mr. Pack-ard today. A shipment is being extracted and will shortly be on the mar-

## SHOEBRIDGE-BONANZA.

#### Water in Shaft Decreasing as Work of Sinking Goes On.

Sinking from the 450 level of the Shoebridge Bonanza is being pushed as rapidly as possible. The water flow that was encountered at the 450 level is decreasing and if no more trouble is experienced in handling the water in he next hundred feet assessments a cent per month will be sufficient carry on the work. The water is present being hauled out in buckets, When the 550 level is reached a cross-cut will be run in to the vein, which in the opinion of Manager Heffren will be found close to the shaft.

## ALASKAN GOLD.

#### Permits to Dredge for Precions Metal Below Low Water.

House of Representatives at Washington met at 11 o'clock today and proceeded forthwith to resume con-sideration of the Alaskan civil gov-ernment bill. Amendments to the minng provisions were adopted to authorthe secretary of war to grant per-nits to dredge for gold below mean ow water and to provide that nothing in the act shall be construed as nulli-fying claims heretofore legally located.

#### PROPERTY RELOCATED.

#### Mr. Weimer and Others Jump Sny der Improvement Company Claims.

The property recently sold by the Sayder Improvement company to Mesars, Kimberley and Huck has been relocated as placer ground by U. Welner and others, who came up from the bouth yesterday. When seen today about the matter Mr. Welmer said that he had purchased the property from the relocators. The relocators contend that L. C. Huck did not do the assessnent work, also, that the property was ocated as a lode claim when no mineral

ledge is in sight on the property. In reference to the matter Mr. W. F. Snyder said today, "To say the least, the transactions to which you refer are of a very shady nature indeed. I know that the titles the indeed, i know that the titles o the mining claims involved ip the imberly sale are good and regular and int they are safe from the assaults i adventurers. It seems to me a rather pestionable piece of business for a man questionable piece of business for a man who was once employed as a foreman upon the property. The individual who is behind what looks like a blackmail-ing affair participated in the benefits and profits accruing from the sale of this property, and now be seems to be engaged in the business of making the eccentric of the provider by the proengaged in the business of making the occupation of the premises by the pur-chasers impossible. This affair is so disreputable, that I do not care to say much about it, or dignify it with too much notice; but if it becomes neces-sary I shall give the press some facts that may show some people up to the public in the light in which they should known." known

# MINING NOTES.

Two cars of ore were on the market today from the Horn Silver.

The May Day, of Tintic, had two cars of ore on the market today. A car of ore has arrived at the samp-ler from the Utah, of Fish Springs.

Lee Wight is down from the Iowa group at Park Valley with a number of samples.

The Taylor-Brunton sampler reported two cars of ore from Tintic, one from Bingham and two from Frisco today. No one was present at the meeting of the shareholders of the New Mammoth called for yesterday afternoon. An ad-

journment was taken for another L. E. Riter has returned from a four days' trip to Tintic. Mr. Riter saw much of which he could not speak. In

said it never looked better. The new shaft is now down 480 feet. Nothing is being done below the 700 level. Kingman (Arlz.) Miner: Thomas Jennings, one of the owners of the Adams lode, in the Grand Wash, is expected in Kingman in a few days. Under Mr. Juonings' management the mine is be-

coming one of the greatest copper prop-erties in Ariozna. The vein has been crosscut at a depth of eighty feet, and ten feet of 60 per cent copper ore shown up, while there are other lower grade bodies which make the total width of the wein even there to a width of the vein over thirty feet. All ore in the mine runs over 40 per cent. That the north part of Mohave county is one of the richest in Arizona in copper is a fact worth knowing, and before long we expect to see these mines reached

## SHEEP AND WOOL.

by railroad.

Dunn's Review: Another week brings still lower quotations for wool, Coates Brothers' circular of May 15th showing 21/2 In an average of 23.36 cents, nearly 2½ cents below that of February 1st In Ohio, New York, combing and Montana the average has declined over 2½ cents. Yet manufacturers are not meeting a verv satisfactory goods market at the advanced prices asked, and until a change appears in that respect the holders of wool will need patience.

Denver Stockman: The wool clip for Carbon county, Wyoming, is about off and the work of selling and storing is now in progress. During the past week a number of large sales were made, hile an equal amount was consigned. osgriff Bros. disposed of their clip of pounds for 15 cents. The Carbon ity Sheep and Cattle Company's cllp of 90,000 pounds brought 16 cents. A number of big sales were consummated, the wool bringing from 15 to 17

cents per pound. Denver Stockman: Sheep shearing is in full binst on all the ranges in South Dakota. About 2,500,000 head will be clipped, and all the work is by modern methods. Shearers are getting from 37 to to 9 cents per head, earning from 37 to tio per day for the next six or eight

Rheumatism is conceded to have its rigin in a poisoned condition of the blood, and to be most successfully treated by HERBINE, which acts upon the liver, kidneys and other blood puri-fying organs, thereby divesting the system of the offending agents. Price, 50 cents. Z. C. M. I. Drug Dept,

Children who are weak, fretful or troublesome should be given a few doses of WHITE'S CREAM VERMI-FUGE. They will then become strong, healthy and active, have rosy checks, bright eyes, will be happy and laughing all the day long. Price, 15 cents. Z. C. M. I. Drug Dept.
