

MINING, BUSINESS AND STOCKS

BREAD MONEY
FROM UTAH MINES

Nine Treasure Getters Distributed
\$269,000 Among Shareholders
During Month of June.

PARK CITY HEADED THE LIST.

But Summit Camp Will Take a Back
Seat Next Month When Bingham
Is Heard From.

During the month of June the mines of Utah distributed \$269,000 in bread money. The sum was handed out to the shareholders of nine different mines, two belonging to the Park City district—the Silver King and Daly-West; four to the Tintic district—the Grand Central, Salvador, Gemini, and Tetra; and one to the Gold Mountain district—the Annie Laurie. One from the Dugway district—the Utah, and one from the Park Valley district—the Century.

The distribution by the Tetra shareholders was the initial one for that company, and the probabilities are that the mine will continue to appear in the dividend column for an indefinite period. The treasury of the company contains at the present time a surplus of about \$20,000, and the shipments of ore are being forwarded to the smelters, with the usual regularity. It has been the boast of the management of the Tetra for a long time that no dividends would be paid by that company until the property was in condition to keep them up. This policy is being adhered to.

Compared to next month the dividend distribution of June is small. The Utah Consolidated and United States companies will appear with \$450,000 and \$200,000, respectively. The Sacramento will also be in line again, while all the others upon the June list will report as usual.

The distributors of the bread money this month were:

Silver King	\$100,000
Daly-West	75,000
Gemini	60,000
Annie Laurie	12,500
Grand Central	25,000
Tetra	3,000
Salvador	2,500
Century	3,000
Utah	1,000
Total	\$269,000

CONDITIONS AT ELY.

P. C. Weber Says Camp Is in Most Excellent Shape.

"Boss" Weber, the well-known business and mining man of Ely, Nev., is in the city today. He is en route to St. Louis to attend the Democratic National convention, being a delegate from his state.

Mr. Weber says mining conditions are improving at Ely, and there is every reason to believe that the camp will be connected with the outside world by rail before very long. The White Pine Copper company, which is owned by some of the principal stockholders in the Eureka & Palisade railway, has a large concentrator on the course of construction. The Giroux Consolidated Copper company has uncovered some extensive bodies of copper ore, and the officers of the company have announced their intention to provide the property with smelting facilities at an early date. There are some other big things brewing, and Mr. Weber is confident the railroad is almost a sure go.

Mr. Weber is one of the principal owners of the Sapho group, considered to be one of the best properties in the camp of Ely.

Regarding the Democratic nominee for the presidency, Mr. Weber says the Nevada delegation goes to St. Louis.

Another Stove
Auction Saturday.

We're going to put another \$45.00 Garland Steel Range under the hammer Saturday at 3:30 p. m. under precisely the same conditions as former auctions—either cash or credit and we to deliver, set up and connect free. Try and come at that time; you will be interested.

Come today and see Mr. Kitchen bake the best cakes ever—demonstration every day. Also—don't forget that we're selling jelly glasses pretty cheap.

ENCAMPMENT
COPPER OUTPUT.

North American Smelter Is Producing 34,000 Pounds Every Twenty-Four Hours.

There was \$1,384.21 worth of business transacted on the floor of the Mining Exchange during today's early sessions, representing in all the transfer of 6,200 shares of stocks. Grand Central displayed some activity, beginning at \$4.45 at which 100 shares were sold, it fell to \$4.42, closing with a bid of \$4.20, while it was offered at \$4.40 before the caller's hammer dropped. Con. Mercur was unchanged from yesterday, 23 cents being bid, with no sales recorded. None of the Daly stocks were brought out. Daly was quoted unchanged, while Daly-Judge and Daly-West, were both weaker. Century, notwithstanding the fact it continues to report with the usual 2-cent dividend every month, was inclined to lower and ended with 60 cents bid. Mammoth was sought, and while the first block sold was obtained at \$1.18, the next one was gathered in at a cent and a half lower. For Uncle Sam Con. 15 cents was paid during the regular call, and Star Consolidated at \$1.14 cents. There was some demand for cheaper stocks, and New York Bonanza and Victor Con. were brought out.

The closing quotations and sales were posted as follows:

ENCAMPMENT
COPPER OUTPUT.

North American Smelter Is Producing 34,000 Pounds Every Twenty-Four Hours.

CAMP IS A VERY BUSY ONE.

Aerial Tramway Is Working Nicely—
New Smelters in Contemplation by
Other Companies.

Special Correspondence.

Grand Encampment, Wyo., June 28.—Nearly 120 tons of blister copper is the record of the North American company's smelter here during the past seven days, or an average of about 17 tons every 24 hours. The largest output was made last Tuesday, when 194 tons were turned out. The week's output in money amounts to \$30,000, or \$120,000 per month.

Every available team owned by the company, and all that can be secured in the district, are engaged in hauling bullion to the railroad at Walcott for shipment to eastern refineries.

The blast furnaces produce about 50 per cent matte, while the product of the converters, is from 99.3 to 99.6 per cent copper, the precious metals only remaining.

The blister copper is shipped in bars weighing about 250 pounds.

The aerial tramway is in daily operation, and is working nicely. A large force of men is engaged in getting out the rich copper ore in the Ferris-Hagarty mine, and the entire works of the North American company are in full operation.

Throughout the district there is renewed activity this year, and some indications point the district will have another, and possibly two more smelters in full operation inside of two years. The present plant, although a large one, is not capable of handling the output of the several producing mines.

ANOTHER RIG COMING.

Will be Set Up Near the Guffy-Galey Rig at Farmington.

Another rig has been ordered for the Farmington oil field and according to a letter received today by Captain T. P. Steffen, it will soon arrive from the east. It is to be set up on a tract of land, comprising 76 acres, which adjoins the tract acquired by the Guffy-Galey syndicate and upon which drilling operations are now in progress.

The ground was secured sometime ago by Captain Steffen and R. H. Smith and they have been instrumental in bringing the local field to the attention of James P. McCarty, a well known eastern operator, who has developed several wells in the Beaumont, Texas, Ekersfield, California and other fields.

Mr. Smith is now in the east to confer with Mr. McCarty.

Delegates to Mining Congress.

Mayor Morris today appointed Frank R. Cook, Harry S. Joseph and A. J. Dabbs, delegates to the American Mining Congress to be held at Portland August 22 to 27, inclusive.

CONCENTRATES.

David Evans is inspecting mining interests near Brighton.

Horace D. Andrews and George E. Blair have gone to the Wood River (Ida.) district.

Manager A. E. Hyde, Jr., of the Annie Laurie mine in the Gold Mountain district, returned to camp again this morning.

The ore and bullion settlements reported late yesterday were as follows: Crude ore and concentrates, 41,500; base bullion, \$51,100.

President John Dorn of the Consolidated Mercur department today for the east, to be in attendance at the stockholders' meeting at Jersey City next Tuesday.

Arthur Murphy has returned from making an inspection of the Pioneer property at Alta in which he is interested and on which development work is to be resumed shortly.

William Bayly, Jr., general manager of the Copper Belt railroad, and wife expect to leave for California next Tuesday. They are going to their former home in Los Angeles and will be absent a month.

President George Crismon of the Utah mine of Fish Springs will leave for that property tomorrow. He will take several carpenters along with him who are going out to build the new boarding house at the mine.

Manager Jackling says work will commence at the Utah Copper company's mill at Bingham. A 300-foot addition will be made to the building and 32 Frue vanners are to be added to the equipment.

B. L. Cutler of the St. George Copper company of the Deep Creek country is in the city again, and will remain until after the Fourth. He says development work is progressing very satisfactorily.

L. H. Outzen, the well known Richfield mining man, expects to leave in a few days for the property of the Shasta Gold & Copper company in Shasta county, Cal., upon which a systematic campaign of development will be inaugurated.

Secretary George W. Lambourne has returned from an inspection trip to the Daly-Judge mine at Park City. He says the campaign of development is progressing very satisfactorily. The work is being done on the 1,200 and 1,400 levels, which are being driven towards the Bonanza Flat region.

The Calumet & Arizona Copper Co. has paid its quarterly dividend of \$200,000, making a total of \$1,000,000 distributed in profits since 1902. The company's furnaces at Douglas, Ariz., are now producing copper at the rate of 37,000,000 pounds a year.

George H. Robinson, manager of the Tintic Mining & Development company, arrived home from a trip east today. He expects to leave for British Columbia soon, to look after the installation of a reduction plant at the Britannia mines, of which he is also manager.

W. G. Scott, who has held the post-

Today's Metal Quotations.

Local settling prices as reported by the American Smelting and Refining company:

SILVER, - - -	56 3/4
COPPER, casting -	1 1/4
" electro.	12 1/16
LEAD, -	\$3.50 @ \$4.20

tion of superintendent of the Continental-Alta mines at Alta for several months past has rendered his resignation, effective today. Manager Henry M. Crowther has appointed Wilbur F. Dubois of Seattle, as his successor. The latter comes well recommended, having had a great deal of experience in the mines of British Columbia.

Victor R. Madson has returned from a trip to the Century mine in the Park Valley mining district, with a bar of gold of the value of about \$3,500. The June output of the mine, Mr. Madson says, will reach all of \$10,500, while the operating expenses will probably aggregate \$5,800. The plan outlined some time ago to make some enlargements to the mill is about to be carried out. Orders have already been placed for two Wilfley tables.

BUSINESS NOTES.

Today was dividend day at the Utah Sugar office, and close upon 1,000 checks were mailed out to owners of preferred stock all over the country.

A number of the employees of the Sugar office went to Idaho last night to be present at the opening of the new business block at Sugar City, near the Fremont county factory. The Sugar City townsite company has just completed the block, consisting of four stories, and an up-stairs hall. All the premises were leased some time ago, and a big hall was given in honor of the completion of the building last night.

PRICES OF STOCKS
ROSE SOMEWHAT.

Went Above Last Night's Level,
But Market Was Narrow
And Unimportant.

MORE ACTIVE THAN YESTERDAY.

Profit-Taking Had a Tendency to
Lower Some Stocks, Most Re-
maining Unchanged.

New York, June 30.—Prices of stocks today rose a shade over last night's level, but the market was narrow and unimportant. The taking of 1,200 share block of Canadian Pacific lifted it a half, and Metropolitan Street Railway rose as much. The tone generally was firm, and most stocks traded from 1/4 to 3/4 above yesterday's final.

The market was more active than yesterday and quite firm. Delaware & Hudson and General Electric rose a point and Central of New Jersey fell 1/4.

Bonds were irregular at noon.

Profit taking lowered a few stocks, but the general market remained substantially unchanged.

Excursion during the afternoon was practically inanimate.

LIVE STOCK.

CHICAGO.
Chicago, June 30.—Cattle—Receipts, 6,500; market steady. Good to prime steers, 4.50@5.25; poor to medium, 3.50@4.50; stockers and feeders, 2.50@4.25; cows, 1.50@4.50; heifers, 2.00@3.50; canners, 1.50@2.50; bulls, 1.50@4.25; calves, 2.50@5.75; Texas red steers, 4.00@5.10.

Hogs—Receipts, 10,000; market steady. Good to choice hogs, 4.25@4.75; fair to choice mixed, 3.25@4.25; western sheep, 3.75@4.50; native lambs, 3.50@7.10.

OMAHA.

South Omaha, June 30.—Cattle—Receipts, 2,000; market 50@100 cents lower. Native steers, 4.50@5.25; native heifers, 3.50@4.50; western steers, 3.50@4.75; canners, 1.50@2.50; stockers and feeders, 2.50@4.25; calves, 2.50@5.75; bulls, 1.50@4.25; Texas red steers, 4.00@5.10.

Hogs—Receipts, 10,000; market steady. Good to choice hogs, 4.25@4.75; fair to choice mixed, 3.25@4.25; western sheep, 3.75@4.50; native lambs, 3.50@7.10.

KANSAS CITY.
