A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and—between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

EVENING NEWS.

Saturday, March 19, 1887.

HEALTH HINTS, ETC.

—"An unsteady man, like an unsteady light, is apt to go out nights."

Carlisle says: "In labor lies health of body and of mind. In suffering and difficulty is the soil of all virtue and all wisdom."

The following remark of Moliere applies to all who use patent medicines—"They pour medicine about which they know little into bodies about which they know less."

"The causes of diphtheria most interesting to those who aim to prevent disease are traced to the imperfect ventilation of houses, imperfect bodily nourishment, scantiness of clothing, foul cellars, and neglect to remove decayed animal and vegetable accumulations from public and private places."

"Keep thyself pure." 1 Tim. 5: 22. "This is absolutely impossible for the tobacco user to do. This unnatural practice defiles the mind, excites lust, corrupts the breath, pollutes the person and apparel, and contaminates all the surroundings. No one can be pure and use tobacco."

A gentleman said not long ago to his physician: "It was a bad day, doctor, when you persuaded me to leave off smoking and drinking, four years ago." "How so?" said the doctor, "you never looked as well in your life!" "Very true," responded the gentleman, "but my doctor's bill in the meantime has not been $5."

"A lady missionary was showing to a Chinese woman the plates in a fashion magazine. The 'heathen' woman, who had been well lectured upon the absurdity and wickedness of deforming the feet according to the fashion of her country-women, pointed to the pinched-up waist of one of the gaily colored figures, exclaiming, 'Life—squeeze—wicked, Christian woman squeeze God's life.' Here is something for every 'Christian woman' to think of."

The following item does not relate to "Health Hints," but, I think, its character renders an apology for its insertion here unnecessary. The expression occurs in a letter recently received from the celebrated author of "Plain Home Talk," E. B. Foote, Sr., M. D.:

"I was informed last evening that President Cleveland would not sign the new anti polygamy bill. I felt very glad to hear that, and I trust it is true. It is an outrageous bill, and I hardly know how it could have passed both houses of Congress. It almost seems as if our law makers are becoming a terror to well disposed people, instead of a check upon evil doers."

"The difference in appearance between an outdoor baby and a hot air baked baby is apparent at a glance. When the native air of the infant is artificially heated, the result is always a soft, flabby tissue and pasty color, the latter occasionally varied by a feverish flush. It is not necessary that all children should present the same unvarying color, as complexion and texture of the skin have much to do with natural color, but it is desirable that the flesh should be firm and the lips of a healthy and beautiful pink. Now, the only way to produce the exquisite tint of health in cheeks and lips is to combine in the care of the child wholesome food in moderation and plenty of fresh air. The latter luxury, so cheap as to be almost despised, is the great need of this generation of Americans. There is in many cases a senseless fear to use this blessing freely in winter."

About Children.—"Knees and ankles are sensitive points. Protect them well. Then with a pair of outside leggings, cloak, hood, mittens, take or send the little ones freely into all kinds of weather. They ought never to have colds."

For that matter, a child's legs and arms need to be as well protected on the floor as out of doors. No child can grow, nor can it assimilate its food, if kept in a half-chilled condition, as many children are a great part of the time.

So I would urge mothers to dress their little ones in flannels. You know a child properly fed and warmly clothed cannot reasonably be ill. And this saves much anxiety. Soft woolen garments for children are easier washed than those of cotton. Little frocks made of ladies' cloth, red, wash and press quickly and keep their color. A child may look daintier in fancifully trimmed cotton garments, but, with the exception of aprons, I would have none."

GET READY.

"March is the proper month in which to prepare for the annual spring cleaning up of house and premises. Now is the time to clear out of the cellar the odds and ends of perishable things which have been accumulating during the winter.

Apples, potatoes, cabbages, all sorts of fruits and vegetables which have been stored for winter use in the 'dark hole under the house,' which constitutes the average cellar, should be gotten out before they begin to decay, if they have not already begun to fill the air with the germs and gases of decomposition. Clear away from the backyard the accumulations of chips and garbage and rubbish of all sorts which have been allowed to gather during the winter months, when the frequently falling snows have hidden these sanitary sins under a mantle of white. The first thaw exposes the unsightly heaps in all their hideousness, and, if they are not removed, the warm April sun will speedily set them into an unhealthy ferment, sending out myriads of active and disease-producing germs, a potent cause of spring fevers, diphtheria, contagious colds, and 'malaria.' The best remedy for these germs is starvation. Furnish them no food, and like tramps and other vermin, they will patronize some other back door where they will find a more hospitable reception.

FOR FAT FOLKS.

I have repeatedly had occasion to answer inquiries of friends who were desirous to reduce their superfluous fatness, and, as there are many readers of the News who may be equally anxious to ascertain how to remedy that disease, I think it may do some good to publish the following suggestions, which I recently wrote for the benefit of one so afflicted:

Rise early. Do not remain longer than eight hours nightly in bed; do not indulge in daylight naps. Have your bedroom well ventilated. Sponge your body all over daily, if possible, and rub with a coarse towel till the flesh is aglow. Take a warm bath once or twice a week. Take all the active exercise you can, especially out of doors. Make a daily practice of walking, say three miles or more. Eat moderately, not oftener than three times daily, twice only would be better. Eat nothing between meals.

If you want any warm drink with your meals, use skimmed milk. Do not drink chocolate, cocoa, sweet milk, cream, beer, etc. Do not indulge much in sloppy food. Always eat bread with mush or soup.

The bread should be made of whole-wheat flour or Graham flour, the latter is best provided it is a good article, fresh ground, made from thoroughly cleaned wheat, such as you may obtain at the Pioneer Roller Mills.

Fresh ground oatmeal or cracked wheat, well cooked, should form a part of your breakfast or supper, daily, to be eaten with skimmed milk and a little pure honey. The whole wheat or pearl barley makes excellent mush also.

Peas or beans, properly cooked, are very nutritious.

Rice, corn meal, potatoes, and other starchy foods like them are somewhat fattening, so are eggs. Avoid sweetmeats, pastries, and greasy food. Use but little butter. Eat no bacon, ham, nor hog meat in any form, nor anything cooked with lard. Cream is better than fat gravies. Never eat fried meat. You may use lean meats (except pork) occasionally, in cold weather, also poultry, and fish that are not oily.

You may eat any kind of vegetables you like, but, until your weight is reduced sufficiently, you should not eat potatoes freely. All vegetables are best steam cooked; boiling deprives them of their nutriment and fine flavor, unless the water in which they are boiled is also used.

For the first portion of breakfast eat fresh fruit, such as apples, peaches, oranges, strawberries, etc. At other meals use stewed dried fruits, apples, peaches, prunes, etc., they are better than preserves. Do not eat fresh fruit at the same meal with vegetables.

Do not indulge in a variety of foods at each meal.

Do not eat salted fish, or other "cured" articles. Anything that produces thirst makes you drink more than is needful, and consequently increases your weight; it is therefore advisable to use no salt in your food, or but very little; neither should you use other condiments, such as pepper, mustard, spices, vinegar, etc., they furnish no sustenance.

As the subject of what to eat is highly important, I recommend you to purchase a copy of "Health in the Household," and adopt the valuable instructions contained therein.

I believe that if you will adhere to the practice of the foregoing suggestions, your weight will be gradually reduced to a healthy standard, and I know you will be otherwise greatly benefitted, without diminishing, but probably increasing, the strength of your body.

25 Tracts on Health topics, for 10cts. A book about what and how to cook and eat, for health, 10cts. Mailed by D. M. McAllister, 66 Centre St., Salt Lake City.

Rain is the world's bane; St. Jacobs Oil the antidote. The world says so.

PUTNAM'S HOT FORGED NAIL

Every Putnam Nail

Drawn down to a point from the rod, thus, receiving over sixty quick, successive sharp blows, at a welding heat. They are then scaled by the water process,

NO ACIDS

being used, and afterwards

HAMMER POINTED.

Our nails, therefore, are to all intents and purposes the same as the old fashioned hand and hammer pointed.

Some other manufacturers claim to make a Hot Forged Nail, but you will observe on all such a Sheared Edge near the point.

THE PUTNAM NAIL

IS THE ONLY

Hot Forged and Hammer Pointed HORSE SHOE NAIL

Made by Machinery in the World.

We address these lines to HORSE OWNERS, because they are the parties most vitally interested. We feel assured that after knowing the facts, and giving the subject due consideration, they will INSIST that their horses be shod with the Hot Forged and Hammer Pointed Nail. A few months' trial will always convince.
