

## CHINA'S EMPEROR TO VISIT EUROPE

It is His Intention if the Dowager  
Empress Consents.

## ANNEXATION OF HAI-NAN.

If French Consummates It, It Would  
Be the Signal for the Partition  
of Chinese Empire.

New York, June 4.—According to a Berlin dispatch to the Herald the London correspondent of the Tageblatt learns from the Chinese legation in London that the emperor of China, with the consent of the dowager empress, will visit Europe in 1902.

The Berliner Tageblatt comments upon the London Times dispatch regarding the intended annexation by the French of Hai-Nan as follows:

"It goes without saying that such a step would be a direct breach of the declaration of the powers that they would respect the integrity of the Chinese empire and it would force the powers to demand compensation which would be the signal for the partition of China."

## SALEONS HAVE NOT INCREASED

Report of Methodist Ministers on  
Canteen Abolishment.

## New Tobacco Company to be Formed.

New York, June 4.—The Journal of Commerce says: It is reported that a new tobacco company is to be formed which is to take over both the American and Continental companies and can and Continental companies recently also the new company acquiring various organized plants throughout the country. Another rumor is that there will be a large increase in the capital stock of the American company for the purpose of acquiring the Continental tobacco and the clear company. Some surprise is expressed at these rumors, as it was only a short time ago that the American Tobacco company, which is to take over both the American and Continental companies, had been reported to be in the process of being organized. It is widely believed, as already stated, that the Universal Tobacco company now being organized, is to be taken over either by the American or the Continental company, or by both jointly.

## Beef on the Hoof Advances.

Chicago, June 4.—Beef on the hoof, as stock men say, has been advancing in price for the last two weeks, until the retail butchers of Chicago have found it necessary to raise their prices to consumers, just as the butchers have done in New York. The unusual feature of the advance is that it affected only the cheaper grades of meat and thus places the burden on the people who cannot afford sirloins and porter houses at 18 and 20 cents a pound. The advance on what is known as "cheap stock" such as loins ribs, and chucks, is two and a half cents a pound, as compared with the prices a month ago.

"Beef carcasses have gone up nearly a hundred pounds in the last two weeks," said a representative of Armour Co., "but this is nothing unusual. Cattle always are higher at this season of the year. The advance will not continue long and it has reached the top mark already."

## CHANGES IN THE SALT LAKE CLUB.

Dud Risley is Released from Captaincy of the Team.

## WILL REMAIN AS A PLAYER

Received Offers from the East Today  
—Griffin Will Act as Captain  
in the Future.

HE Salt Lake baseball club received a sound shaking up last night, which for a time threatened seriously to disrupt the team, and the smoke has not cleared away yet.

The loss of Sunday's game is what started the music. All of the directors, with the exception of President McCormick, were present, and without any difficulty unanimously arrived at the conclusion that matters required attention and that immediately.

There was not a dissenting opinion to the assertion made by one of the directors that, "the club is not playing as well as it should and that Salt Lake is entitled to better games than have been played so far."

The directors seemed to think that a change should be made in the captaincy of the team, and a resolution was adopted removing Dudley C. Risley from that position. It was admitted by all that Risley's playing was above reproach, but that he is competent to manage the club on the field there seemed to be doubt.

Here, where a hornet's nest was stirred up, Risley was informed of the action taken by the directors and at once demanded his release and it was given him. He knew that the action was not taken at the solicitation of Manager Director Griffin, or that he fully approved of it. The two men have always been on the best of terms and Risley holds Griffin in the highest esteem and has always defended him when criticized by some of the players.

He was offered a position on the team at the same salary as captain, but he refused to listen to any such proposition. Risley has always been very popular with the players and when the news of his deputation reached them there was a general roar and many of them announced their intention to shake the dust of Salt Lake from their feet. Some declared that unless Risley was reinstated they would quit. Mr. Griffin said that he was powerless to alter the decision of the directors. Griffin recognizes the fact that there is a woeful lack of harmony among members of the club. One could hear several mutterings all day and some of the boys handled the reputations of others in a manner which threatened permanent injury to the same.

Risley announced his determination to leave in a day or two for Cleveland, Ohio, to join the American league team, but later was induced by his friends to promise to remain with the team. He stated this morning that he had received advance money and a ticket from one eastern manager but that he would turn it down because Griffin wanted him to remain.

There was some talk of offering the captaincy to Webster, but the latter does not want the job. For the present, at least, Mr. Griffin will act as captain of the team, and it was stated this morning that no releases were contemplated now. Johnny Green, a crack player, has wired that he will join the club this week and if he is a good third baseman it is likely that Williams will be placed on second base, and there may be a change in the outfield.

## "LAGOONS" ARE HERE.

The Denver team which is to play in the Intermountain league as the "Lagoons" arrived here early this morning and registered at the Cullen. On Wednesday and Friday the team will play exhibition games with the Salt Lake and will possibly play the lobster crew on Thursday. The first league game in which the new team will take part will in all probability take place at Lagoon, Sunday with the Salt Lake. Among the players just arrived is Bill Hoffer who made a hit here last year as an umpire. It is said that he is doing fine work as a catcher this year. The players are: Harry Stoney, Buck Weaver, F. J. McNichols, E. Ewing, Sleepy Simmons, Ed Schnabels, Bill Hoffer, Kotal and Cotton.

The team ought to be a winning one with such pitchers as Newmeyer, Simmons, Ewing and Kotal.

## FRESH AT NIGHT.

If One Uses the Right Kind of Food.

If by proper selection of food one can feel strong and fresh at the end of a day's work, it is worth while to know the kind of food that will produce this result.

A school teacher of Media, Kan., says in this connection, "I commenced the use of Grape-Nuts Food five months ago. At that time my health was so poor that I thought I would have to give up my work altogether. I was rapidly losing in weight, had little appetite, was nervous and sleepless, and experienced, almost constantly, a feeling of exhaustion. I tried various remedies without good results, then I determined to try Grape-Nuts. I added to my food, and have learned a new thing of the properties of Grape-Nuts for rebuilding the brain and nerve centers."

I commenced using that food and have since made a constant and rapid improvement in health in spite of the fact that all this time I have been engaged in the most strenuous and exacting work.

I have gained twelve pounds in weight and have a good appetite, my nerves are steady and I sleep sound. I have strength and reserve force that I feel almost as strong and fresh at the close of a day's work as at its beginning.

Before using Grape-Nuts I was troubled much with weak eyes but as my vitality increased the eyes became stronger. I never heard of food as nutritious and economical as Grape-Nuts. Name can be given by Postum Cereal Co., Ltd., Battle Creek, Mich.

A refrigerator with a capacity of from four to five tons of butter, and curing room capable of holding several thousands of pounds of cheese are parts of the plant. The cream separator has a capacity of 3,000 pounds of milk per hour, and 700 pounds of butter.
