BUY your Coal Oil of Reid & Kinsey, opposite Walker House, reduced to 50c. per gallon.

WATCHES and CLOCKS repaired at low prices by C. Asmusen, opposite Post Office. He is the best watchmaker in the land. d121

Great Reduction in Lamp Goods at Reid & Kinsey's.

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and most pleasant to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and now the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kan. & Pac. Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route.

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Lyons, Ticket Agent, Salt Lake City, A. H. E. Clark, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago.

PRICE OF GOLD.

Corrected daily by Deseret National Bank.

SALT LAKE CITY, May 29, 1875.

Buying at \$1.14; selling at \$1.15.

Evening News.

Saturday, May 29, 1875.

Local and Other Matters.

Thermometer 72 degrees F in the shade at 1 p.m. to-day. Fine, some clouds.

Religious Services.—Meeting at the Tabernacle to-morrow afternoon, and at the Ward meeting-houses in the evening.

There are messages at the Western Union Telegraph Office for E. C. Atkins, P. H. Sharp, O. P. Myers and Phileas E. Ray.

"Woman's Exponent" Office.—The office of the Woman's Exponent is on South Temple Street, opposite the Eagle Gate.

William Beasley.—William Beasley, late of South Meadow Lane, Preston, Lancashire, England, there is a letter for you at the office of Bishop Edward Hunter.

President Smith's Health.—We regret to have to state that there appears to be no perceptible change for the better in the condition of President George A. Smith.

Tickets for the "Messiah."—Tickets for reserved seats at the performance of the "Messiah," next Thursday evening, can be obtained at the Theatre box office any time between 10 a.m. and 4 p.m.

Street Railroad.—The Street Railroad company have run a line of rails and curve from the First South Street track into the old Wells Fargo workshop premises, on Second East Street, where will be the stables for the Warm Spring Branch of the line. President Young's blacksmith shop will be on the same premises.

Appropriate Hereabout.—The Cleveland Herald has the following:

"I want to catch burglars," says the New York chief of police to his men, "but you must remember that it's best to shoot 'em first and catch 'em afterward." That would be a good order for chiefs everywhere to promulgate.

Personal.—E. W. Willett, Esq., Register Land Office, Bozeman, Montana, made a pleasant call yesterday afternoon. He has been on a visit to California also. He thinks much of Montana, and would think much more of it if it had shorter and milder winters, and railroad connection with the great world outside of that Territory.

The Toole Case.—In the Third District Court, this morning, the matter of the application of Mr. Bates, selectman of Toole County, for a writ of mandamus to reinstate him in office, from which he claims to have been illegally ousted, was decided. The writ was denied, on account of an informal plea in the application, without having averred without having averred the proper proof of the facts. The application will be renewed.

Decoration Day Excursion.—We have been requested to publish the following:

"SALT LAKE CITY, May 29, 1875.

"We hereby respectfully request that all who intend to participate in the excursion to Lake Toiyabe on Monday, May 31st, will be at the depot promptly at the time specified, viz., 2:30 a.m., as we will not be responsible for any who may be left behind in consequence of tardiness.

"We further request that all payments be made before starting, one dollar and fifty cents for each ticket, and three dollars and fifty cents for those who desire to be taken to and from the excursion in a special car, and that all collections be made on the cars. Those who

wish to engage in a game of croquet, will please call with them the necessary articles for doing so.

"Respectfully," O. F. WHITNEY.

Battered Him.—The gentleman who battered the garrote on the head, on First South Street, night before last, was Mr. Sunbeck, carpenter, resident of the 20th Ward.

Fine and Imprisonment.—This afternoon Kate Flint was tried before Justice Pyper, on a charge of keeping a house of ill-fame. It was a clear case against the accused and the Court imposed a fine of \$100, and imprisonment in the City Jail for thirty days. The counsel of the accused gave notice of an appeal, and the prisoner was taken in charge by an officer, pending the filing of the necessary bond.

Attempt at Burglary.—Attempts at burglary are becoming so exceedingly common as to become almost a matter of course as a part of each day's gossip. The house of Mr. Reibhan, a German, residing in the 8th Ward, is the last point of attack heard from. Some person or persons with burglarious intent, made an attempt to gain ingress by the windows about half past two o'clock this morning, but failed to effect their purpose. Subsequently they returned and renewed their efforts, but without success.

A Holiday.—Merchants, clerks, and a great many other folks intend turning Monday, day after Decoration Day, into a holiday, and therefore there seems to be no valid reason why priests and others connected with this establishment should not do the same thing; and our good-natured readers, whose name is legion, will be kind enough to take this as a good and sufficient reason for these being no News published on Monday.

Hair Restorer.—The following, clipped from an exchange, may be useful to some who read it:

"Steep a handful of garden sage in a pint of hot water. When cold strain it, adding one tablespoonful of salt, and fill of bay rum or other spirit. Bottle and cork closely. If a very rusty nail into the bottle, or into the sage when it is steeping. This not only promotes the growth of the hair, preventing its coming out, but restores the color. My hair was coming out at a fearful rate after a severe illness, and a pound arrested that and restored the color."

Theatre.—Of course all theatre-goers as well as the public generally will be anxious to go to the Theatre this evening on the occasion of the benefit of Miss Della Clawson. There is an attractive programme announced, consisting of the charming little comedy of "The Little Treasure," a scene from "King John," and "The Artful Dodge," with a "Grand O'NE" after the play, in which Misses G. Clawson, M. Ellsworth, and L. Wells will sing a favorite song and duet. Among the popular artists who appear in the play and farce, are Misses Clawson, Walters and Cogswell, Lieut. Warrens, and Messrs. Marden, Wilton, and Foster.

Mr. Staudish Rood will recite "Tam O'Shanter."

School Exhibition.—St. Mark's school exhibition, heretofore alluded to by the News, will come off on Monday evening, and a partial programme of the entertainment appears in another portion of to-day's paper. The performances will be divided into four parts, commencing with a grand concert, by 250 pupils of the school, under the direction of Mrs. Hayden; next comes the "Queen of the May," in four parts; then the "Sleeping Beauty," a fairy drama, concluding with a lively, laughable farce, to send the audience home in good humor. For particulars read advertisement and posters.

The Jubilee.—It is expected that nearly all the Sunday school children in Utah County will meet in American Fork on Tuesday next, June 1st, to take part in the Grand Jubilee, and to give every one an opportunity from this City to be present on that interesting occasion, when near 2,000 children will unite their musical talent in songs of praise and thanksgiving, that fall so gratefully on the ear, the Superintendent of the Southern Railroad has consented to fit up several flat cars with seats, and one or two covered carriages at such low rates as to bring the excursion within the reach of all classes. The price of ticket in flat cars is 75 cts. for adults and 50 cts. for children.

Tickets can be obtained of George Goddard, Tithing Office.

Monroe Mail Matter.—This is the way in which a correspondent writes from Monroe, about the carrying of the mails to that place, which we hope will soon be remedied.

"The tardiness of the mail matter to that place has become a great nuisance. A great portion of the mail matter due here on Saturday is left at Gunnison until the next mail, which arrives here on Tuesday afternoon, making the Wednesday's date of the News almost a week old by the time it arrives here. We can make as good time with our freight trains, without the assistance of the Utah Central R. R., which is a shame, and all of it looks exceedingly well."

We have been informed by a gentleman just in from Alpine, in this county, that on last Friday or Saturday, quite a runaway was effected in that county, and that a stock drive was made to take place in the neighborhood of Alpine, and a number of the boys went after that. Some of them had been drinking and were very boisterous, using pistols and clubs, and in the confusion a man named Mullins was severely injured, and may lose one of his eyes. Mullins made his escape and up to the present time had not been arrested.

Mr. Daniel Cook, just in from

Alpine, furnished us with the following item:

The crops in that section of country look better than they have for years past, and there will be a large yield of grain. There is plenty of feed on the ranges and the stock are in excellent condition.

Messrs. Kimball and Galloway, of New York, have brought the crushing mill formerly owned by Messrs. Messers, Baxter & Co., and are running it in alder and day with two shifts of hands. They have put in a new crusher and have replenished most of the old machinery with new, imported direct from The East. The mill is at present engaged in crushing ore from the Lewiston mining district, being run to its full capacity and is quite a success. It is the intention of the proprietors to enlarge the mill soon and put in six or eight more crushing mills in the same line, and are looking up and everything portends better times coming.

Health, a Handbook for Households and Schools. By Edward Smith, M. D., F.R.S., L.S.B., etc. This is a work of 200 pages, and is one of a series of ably written and useful works, published as "The Popular Science Library" branch of the "International Series."

"Health" is divided into the following chapters—1, Solid Foods; 2, Liquid Foods; 3, General Questions Relating to Foods; 4, Clothing; 5, Movements of the Body; 6, Rest and Sleep; 7, Cleanliness and Bathing; 8, Dwellings; 9, Sketches of Physiology; 10, Atmospheric Conditions; 11, The Mind and Mental Power; 12, The Special Senses; 13, Personal Conduct and Health; 14, The Sick Room.

There are also forty-eight illustrations of the various divisions of the important subject treated upon.

The work is written in a style adapted to the capacity of older scholars and the public generally, and is designed as a handbook for schools and for general use.

It is a very valuable work, treating upon everyday subjects concerning which everybody ought to be well informed.

On sale at Dwyer's Book Store.

Disgraceful Males.—From a gentleman from Alpine, Utah County, we have gleaned some particulars of a most disgraceful row, which occurred at that place in the latter part of last week. Six or seven young fellows went there from Lehi and American Fork, for the purpose of driving stock. They appeared bent on raising a disturbance, each being armed with a six-shooter, although they were only under the influence of liquor to a limited extent. One of them, a man named Sylvester Macdonald, and some of the latter's brothers interfered to rescue him, when a regular melee ensued.

Wm. Brown, a policeman, interfered for the purpose of restoring order, when he was struck violently over the head and face with some kind of a heavy implement. Mr. Albert Marsh, chief of police, a very quiet, peaceable young man, arrived on the spot and sought to quell the disturbance and he also was severely beaten and abused by the young ruffians. One of his eyes is so severely injured that it has been completely closed up ever since, and his nose was severely battered. Since that affair a large splinter of wood has been extracted from his face and he still suffers great pain.

One of the rowdies drew arms and cocked a pistol, but before he could use it David Macdonald seized his arms and held him until he was disarmed. All the parties are now under arrest excepting one Mulliner, for whom the officers are on the look out. Another young fellow named Greenwood took a conspicuous part in the affair.

An examination of those under arrest will be held next Thursday, before Justice R. T. Booth.

It is probable that the most guilty parties will be bound over or committed to await the action of the grand jury of the First District.

Closed.—The 12th Ward Meat Market, First South Street, will be closed on Monday.

Rudie's Letter is unavoidably crowded out to-day.

The Evangelist of Thursday last, says:

"About seven o'clock last evening we learned that a washout had occurred on the railroad track, about one-fourth of a mile east of this place, and near the spot. Upon visiting the spot, we found about twenty feet of the track had no water, when the snow was melted, the water had worked its way through the embankment, and washed out some of the bottom, while the top was held in place until four or five o'clock, when it fell, and was passed over, it settled about two feet, letting the train of cars of the Southern Railroad pass over safely."

Utah County News, May 27.—From Mr. H. H. Cluff, assessor and collector for Utah county, we learn that everywhere throughout the county the farmers feel jubilant at the prospect of a good crop, and a bumper harvest. A looked forward to in the Fall. There is a heavy snow on the mountains, and all of it looks exceedingly well.
