The Democratic Caucus Proposes for the Free List, Sugar, Wool, Salt, Stone, Timber, etc. etc.

THE SIGNAL SERVICE.

WASHINGTON, May 9.—In view of the necessity of furnishing night indications to the press of the country at an earlier hour than is at present practicable, it is the intention of the Chief Signal Office to place more promptly, satisfactorily and clearly before the general public a chart of observations of the signal corps, it being decided to substitute the telegraphic observations at 8 a. m. and 8 p. m., standard eastern time, for the three observations now telegraphed. The third telegraphic observation will be replaced by special observations sent to this office, which will keep the indication offices fully advised as to the edge of advancing cold waves, local storms or other marked atmospheric phenomena. In addition there will be mailed from large commercial centers to surrounding points each day charts which will enable those interested, as well as the general public, to note for themselves the advance of storms. By this means local meteorologists will frequently be able to decide for themselves more satisfactorily than can be done by the present general predictions from the main office as to the character of the weather which may be expected in their own localities.

PENSION APPROPRIATION.

The House committee on appropriations today resolved to report a bill appropriating $8,500,000 to meet deficiencies in the appropriation for the payment of army pensions during the remainder of the present fiscal year. The appropriation is proposed to be made as an original item, the committee declining to accept the recommendation of the commissioner of pensions that a sufficient sum to supply the deficit be transferred to the credit of the appropriation for army pensions from the appropriation for Mexican war pensions, where he says it is not needed.

MINISTERIAL APPOINTMENTS.

The President sent to the Senate today the nominations of Robert B. Roosevelt, of New York, to be Minister Resident to the Netherlands, and Lawson V. Moore, of Texas, to be Consul at Lyons.

THE MAIL SERVICE.

Postmaster-General Dickinson today issued an order fixing $42 75 per mile per annum as the minimum compensation to be allowed for the transportation of mails on railroads carrying their whole length an average of less than 200 pounds per day.

The Secretary of the Treasury today accepted bonds to the amount of $138,000 out of $2,474,000 offered.

NEW APPOINTMENTS.

The Attorney-General appointed Frank A. Brannagan, of Ohio, to be disbursing and appointment clerk in the Department of Justice, vice James W. Ewing, removed. It is thought that Ewing's accounts are $6000 short. This amount is amply secured by his bond.

AN AMENDMENT.

The Senate committee on inter-state commerce today ordered a favorable report upon the amendment to the sixteenth section to the inter-state commerce law, which section now provides for summary proceeding by mandatory or other process by United States circuit courts sitting in equity to enforce any lawful order or requirement of the commission. The amendment continues the provision of the section as they now stand as to any order or requirement of the commission not founded upon a controversy requiring trial by jury, but as to matters which under the Constitution require trial by jury it is proposed that the commission or any person interested may apply in a summary way to the circuit courts sitting as courts of law. The amendment makes provision for the speedy trial of such cases and provides that on the hearing the finding of fact by the commission shall be *prima facie* evidence. It also provides that the court, by its order, shall fix the time for the trial at not less than 20 nor more than 40 days from the date of the order.

A DEMOCRATIC CAUCUS,

tonight, called together about 125 members of the House. Carlisle was not present, but Randall was. The proceedings were harmonious throughout.

A resolution was adopted that any member desiring to offer any amendment to the tariff bill shall, if it be now prepared, be handed to the secretary of the caucus, to be read and referred to the democratic members of the ways and means committee, and if not already prepared, he may hand the same to said members. It shall be the duty of said members to consider all such amendments and requests to hear the parties offering the same, and to report the amendments back severally to another caucus, to be hereafter held with their recommendations thereon.

Representative Campbell suggested it would be well if the committee should agree not to report on the amendments before the New York democratic convention next week, and to this suggestion a favorable response was made.

Among the amendments presented and referred were the following:

By Crane (Texas), to place sheep shears, surgical instruments, coal and all machinery used in the manufacture of bagging of cotton or woolen goods on the free list; also to reduce the tariff on woolen manufactured goods to 25 per cent *ad valorem*; to fix the duty at two cents per yard on bagging for cotton or other manufactures suitable to the use to which cotton bagging is applied, composed in whole or in part of hemp, jute, flax, gunny bags, guernsey cloth, etc.

By Caruth (Kentucky), fixing the duty on hemp, jute and flax at two cents per yard.

By Holman (Indiana), a resolution declaring the duty on sugar ought to be reduced 40 per cent; that the duty on rice ought not to be reduced; that coal ought to be placed on the free list.

Johnson (North Carolina), to repeal the internal revenue laws and place a tax on incomes to supply the deficiency.

By Cummings (New York), fixing the rate of flax, hackled, at $60 per ton, on yarns of flax and hemp at 40 per cent *ad valorem*, and on threads and twines at the same rate.

By McAdoo, (New Jersey—Placing carpet wools, coal, salt and goat hair, timber, building stones and a number of chemicals on the free list.

By Springer (Illinois)—Placing on the free list all manufactured products, the domestic production of which may be controlled by trusts.

By Rayner (Indiana)—Restoring the duty on manufactured clothing, bristles and glue.

By Glover (Missouri)—Retaining the present duty on glass.

By Dougherty (Florida)—Increasing the duty on oranges 25 per cent over the present rate.

At Springer's suggestion, a resolution was adopted providing that hereafter, daily sessions of the House should commence at 11 a. m.

The caucus then adjourned, subject to call by the democratic members of the ways and means committee, which is to be issued when they have acted upon the proposed amendments.

Robbery and Killing.

NEXIA, Texas, May 9. — William Wright and James Turner were robbed by two highwaymen. A fight ensued in which the two highwaymen were killed.

Dueling Politicians.

LEXINGTON, May 9.—The Phœnix Hotel was the scene of the greatest confusion seen here since the famous Green-Baldwin tragedy last November. Col. A. M. Swope and Col. Cassius Goodloe, two of the most distinguished republicans in the State, met for the first time since the Louisville convention. Col. Swope denounced Goodloe in the bitterest terms he could command, calling him the offspring of a quadruped and other vile names. Col. Swope shed his coat to show he was not armed. He continued his denunciation, when the friends of both parties prevented hostilities. A personal encounter is expected as soon as they meet again. Goodloe's only reply was it was no place for such an affair. The street was filled with excited people. Scores of friends of each prepared guns. It is understood Goodloe has challenged Swope and preparations for a duel are under way.

A Fatal Smash-up.

OTTAWA, May 9.—The Peru accommodation on the Alton road last night was crashed into by a switch engine, making an ugly wreck. Two men asleep in the caboose were instantly killed. The crew of the train escaped. The cars were badly smashed.

General Beem's Will.

CHICAGO, May 9.—It is asserted tonight that the will of General Martin Beem, whose mysterious death caused so much comment, contains a note commanding that if anything should happen to him an investigation should be made. The will was drawn up less than a week before his death. The probate clerk refuses an inspection of the document at present. A peculiar feature of the tragedy is the fact that if General Beem was murdered, his life insurance can be collected by his sister-in-law, to whom it is payable, but if, as Mrs. Beem claims, he was not murdered at all, but committed suicide, his relatives stand no show for the money. The relatives appear to believe that he was murdered, and are actively co-operating with the Chicago Union Veteran League in ferreting out the mystery.

A Family Row.

SPRINGFIELD, Mo., May 9.—P. M. Cooper, editor of a Kansas City paper, recently printed an article which was understood to refer to Mrs. McDaniel of this city, placing her in anything but a nice relationship with her nephew, Tom Morrow. Morrow found Cooper and gave him a sound thrashing, and the husband of Mrs. McDaniel, the slandered lady, followed this up by giving Cooper an unmerciful beating. It would probably have ended in killing, but the combatants were separated. Cooper says he will sue for damages. No names were mentioned in the article.

The Boodlers

CHICAGO, May 9.—The famous county commissioner "boodle" case was ended today by the decision of the supreme court affirming the lower court's ruling. Two of the six convicted "boodlers" got tired, went to the penitentiary, and began serving their terms. Four fought the case out, remaining in jail here ten months. The case attracted attention throughout the country, nearly the whole county board being indicted. Wren and McLaughrey are now serving. Adam Ochs, Mike Wasserman, J. E. Von Pelt and Harry Varnell, the remaining "boodlers," now go to the penitentiary. They were sentenced to three years.

Killed by Lightning.

DAYTON, O., May 9.—A schoolhouse was struck by lightning yesterday. Two little girls were fatally injured.

CHICAGO, May 9.—James Mulligan was instantly killed by lightning at Kensington. He was walking in the street.

The Alarum of War.

LONDON, May 9.—Right Hon. Ed. Stanhope, secretary of state for war, today received a deputation of members of Parliament, who presented an address urging the necessity of placing the country in a proper state of defense. In reply, the secretary declared there was no occasion for a panic. At all the military posts and coaling stations, however, the work of strengthening the defenses was being carried on with activity, and at the leading mercantile ports every effort was being made to complete submarine mining defenses. Multifarious forces of regulars, militia and volunteers, were about to be organized and the government would be able to produce at a short notice a field army sufficient to defend England and primarily to protect London. The government appealed to Parliament to assist in preparing to avert any danger that might threaten England. Stanhope's remarks were greeted with applause by the deputation.

A Father's Vengeance.

ALBANY, N. Y., May 9.—Amos H. Tyler, of Bath-on-the-Hudson, a salesman, shot and fatally wounded Dr. W. F. Gilroy, a dentist, this morning. Tyler went to Gilroy's house, and upon the latter's appearance, began shooting at him. Three balls entered Gilroy's body. Tyler was arrested. He claimed that Gilroy was the father of the illegitimate child of his 17-year-old daughter. His daughter, on what will be her dying bed, told him to shoot Gilroy, and he did so. Gilroy is a society man and his wife is highly connected.

Attempted Poisoning.

TOLEDO, Ohio, May 9.—Hiram Fields, a wine merchant, recently discharged an employe, who in revenge is discovered to have poisoned a large number of casks of wine, containing many thousands of gallons, with blue vitriol. Lynching is threatened the employe who has been arrested.

New Jersey Republicans.

TRENTON, N. J., May 9.—The republican state convention to elect delegates to the national convention, assembled at noon. Following are the delegates at large: W. J. Sewell, Senator John W. Riggs, ex Congressman George W. Halsey, and John Hart Brewer.

The platform will endorse the legislation of the New Jersey legislature in restraining the liquor traffic and will attack Governor Green's appointments.

The clause endorsing the state temperance legislation, in the report of the committee on resolutions, was greeted with mingled applause and hisses. The report was adopted, as was also the resolution favoring Wm. Walter Phelps for the presidency. A separate high tariff resolution was referred to the committee. The platform declares the mission of the republican party to be protection to the industries of the people by tariff, adjusted to that special end; protection to the civil rights of the people by free ballot and an honest count; protection to the basis of the character of the people, by the education of children; protection to the government by promoting reform in the civil service, and the protection of the homes of the people by due restriction of vice and intemperance.

FIFTIETH CONGRESS.

SENATE.

WASHINGTON, May 9.—Among the bills reported from committees and placed on the calendar were the following:

Senate bill for the appointment of a commission to select a site for a naval station on the Pacific Coast.

Senate bill to transfer the survey of coasts to the navy department.

Sherman, from the committee on foreign relations, reported back adversely the resolution offered by Riddleberger for the consideration of the fisheries treaty in open session, and also the resolution offered by Hoar, that the report of the debates and proceedings on the fisheries treaty be subject to the order of the Senate as to their publication.

The resolutions will be taken up for action tomorrow.

The Senate resumed consideration of the railroad land forfeiture bill. Some minor amendments were adopted and the bill passed without division.

The first section declares forfeited to the United States all lands heretofore granted to any State or any corporation to aid in the construction of a railroad opposite to and coterminus with a portion of any such railroad not now completed and in operation, for the construction or benefit of which land has heretofore been granted, and all such lands are declared to be part of the public domain. The act is not to be considered as forfeiting the right of way or depot ground of any railroad company heretofore granted, nor as limiting the rights granted to purchasers or settlers "by an act to provide for the adjustment of land grants made by Congress to aid in the construction of railroads, and for the forfeiture of unearned lands, and for other purposes," approved March 3, 1887, or as repealing, altering or amending that act, or as in any manner affecting any cause of action existing in favor of any purchaser.

The second section authorizes persons in possession of any such lands (prior to the first of January, 1888,) to purchase them (within two years) from the United States in quantities not exceeding 320 acres, at the rate of $2.50 per acre.

The third section refers to the lands of the Northern Pacific Railroad Company heretofore forfeited and gives persons in possession of them (prior to the first of July, 1885,) a like right, and confirms to the city of Portland, Oregon, a right of way and riparian rights for water pipe line.

The fourth section reserves the right to forfeit other railroad grant lands for any failure, past or future, to comply with the stipulated condition.

The fifth section exempts from the operation of the act certain grants to the States of Mississippi and Alabama.

The sixth section fixes the price of even-numbered sections of land within the limits of all forfeited land grants at $1.20 an acre.

The seventh section repeals certain sections of the land grant acts for Minnesota and Iowa.

The last section refers especially to the lands of the Portage Lake Canal Company lands.

After some debate the international copyright bill was passed—yeas 35, nays 10. The act is to go into effect July 1st, 1888.

HOUSE.

WASHINGTON, May 9.—A bill appropriating $150,200 for the Government's participation in the centennial celebration of the settlement of the Ohio Valley passed.

The House after the passage of several bills of minor importance went into committee of the whole on the tariff bill.

Morrow (California), concluded his speech in opposition to the bill, addressing himself more especially to the free lumber clause of the measure. He stated that the labor engaged in the manufacture of lumber on the Pacific Coast was exclusively well paid American labor. The placing of lumber on the free list would ruin this manufacture, bringing it into competition with the manufacture of British Columbia, where labor was performed by Chinamen. He also declared that the raisin industry of California would be destroyed if the duty on raisins was reduced as proposed by the bill under consideration. Of the borax interests he referred to the rapid growth of the industry since the tariff had been placed on borax in 1883. The domestic products had increased from 500,000 pounds in 1883 to 10,800,000 pounds in 1887, while the price owing to home competition had declined from 25 cents a pound to 6½ cents per pound. The pending bill proposed to place borax on the free list, and the effect of this proposition was that the great firm of William T. Coleman has been compelled to suspend.

Hooker (Mississippi) spoke in favor of the bill, while Houk (Tennessee) followed with a speech against it. Wise (Virginia) also favored it, and Kennedy (Ohio) denounced the democratic party as one of free trade.

Boutelle (Maine) then quoted authorities in support of his declaration that Garfield was not a member of the Golden Club. In the same connection he read a letter from Murat Halstead, which explained the circumstances under which he became a member of the club.

Bynum (Indiana) quoted authorities to show Garfield had been elected to the Golden Club and had accepted membership.

The committee then rose and the House adjourned.

BRIEF TELEGRAMS.

The Lisbon *Journal of Commerce* says that owing to the worse condition of the king's health, his majesty will delegate to Prince Carlos, the crown prince, the power to sign state documents.

The Plymouth Church officials have decided to call Dr. Lyman Abbott, the present temporary pastor of the church, as permanent successor to Henry Ward Beecher. Dr. Abbott has signified his intention of accepting.

A Constantinople dispatch says: It is reported here that Prince Bismarck, in accordance with the formally expressed desire of Emperor Frederick and the Czar, will ask the Porte to depose Prince Ferdinand of Bulgaria.

Columbus dispatch.—Ex-Senator Thurman laughed at the report of the effort to be made to nominate him for Vice-President. His son Allen said that the judge would not consider such a thing for a moment.

Helena dispatch: The most brilliant wedding ever celebrated in this Territory was that tonight of Miss Anna Kennett, daughter of ex-Governor Hauser, and Richard Allen, a wealthy mining and cattle man. The presents were very numerous and came from all sections of the country.

Montgomery dispatch.—The democratic State convention met at noon. Five hundred delegates were present. A governor and state officers are to be nominated. Governor Seay has no opposition. There will be a vigorous contest for the other offices. The sentiment is unanimous for Cleveland.

Prince Ferdinand, in a speech at a banquet in the hall of the Sobranje at Tirnova, yesterday, said: "Here in this building I swore to lead Bulgaria to the position God marked out for her in history. I now repeat that oath, assuring you that, without sparing myself, I shall with heart and soul adhere to that promise before God and the people."

Chicago dispatch: President C. H. Holmes, of the Chicago City Street Railway Company, who is widely known a leading member of the Young Men's Christian Association and teacher of probably the largest Sunday School in the United States, was today testifying in a case in which one of his claim agents had been charged with fixing jurors in damage suits against his road. Holmes became so excited and unnerved at the cross-examination that he fainted dead away and had to be carried out of the court-room.

The Verdict Unanimous.

W. D. Suit, Druggist, Bippus, Ind. testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, Druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only half a dollar a bottle at A. C. Smith & Co.'s Drug Store. (2)

A WOMAN'S DISCOVERY.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamlick & Co., of Shelby, N. C. Get a free trial bottle at A. C. Smith & Co.'s Drug Store. (2)
