## WOMAN'S TRIUMPH.

A Severe Surgical Operation. It is Endured without Fainting. Return of the Disease prevented.

From the Correspondence of the Kingston, N. Y. Freeman.

The case of Mrs. Edward Meyer, of Roundout, New York, furnishes an illustration of woman's power of endurance. This lady had been treated for months in the usual way for Erysipelas of the hand, without benefit. Not only her hand had become a mass of putrid flesh, but she was in a state of prostration, and the "Favorite Remedy," which is made at Roundout, N. Y. He informed her that it was impossible to save the hand—it must be amputated. She received the terrible intelligence quietly, declined to take either, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan.

Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent a return of the disease, and Mrs. Meyer now lives and rejoices in her favorite delirium.

Dr. Kennedy's "Favorite Remedy" is a fast becoming household friend in all cases of Erysipelas, and diseases of the blood, Kidney and Liver complaints, and constipation of the bowels.
